## NEWS RELEASE

---

Reg Technologies Inc. ("Reg" or "RRE.V" or "REGRF")

### REG TECHNOLOGIES ANNOUNCES \$450,000 PRIVATE PLACEMENT

For Immediate Release: August 25, 2011 Vancouver, BC – Reg Technologies Inc. (TSX Venture Exchange: RRE.V, OTC BB: REGRF) intends to raise, by way of a best-efforts, non-brokered, private placement equity financing of up to \$450,000.

The offering will consist of up to 3,000,000 units at \$0.15 per unit for gross proceeds to Reg of up to \$450,000. Each unit will consist of one common share and one half share purchase warrant. Two half warrants shall entitle the holder to purchase one additional share of common stock at a price of \$0.20 for one year from the date the units are issued. Directors, officers and other insiders of Reg may participate in the offering. Net proceeds of approximately \$394,000 from this private placement will be used for Fabrication and Testing of the RadMax® Demonstration Model, accounts payable, including intercompany payables and redemption of a promissory note to a related party, and working capital purposes.

The Company had agreed to pay finder's fees of up to 8% of the proceeds in connection with the private placement, payable upon approval of the TSX Venture Exchange.

The closing of the private placement is subject to the approval of the TSX Venture Exchange.

#### **ABOUT REGI U.S., INC. AND REG TECHNOLOGIES INC.**

Reg Technologies Inc. and REGI U.S., Inc. are developing for commercialization an improved axial vane type rotary engine known as the Rand Cam™/RadMax™ rotary technology used in the revolutionary design of lightweight and high efficiency engines, compressors and pumps. The RadMax™ engine has only two unique moving parts, the vanes (up to 12) and the rotor, compared to the 40 moving parts in a simple four-cylinder piston engine. This innovative design makes it possible to produce up to 24 continuous power impulses per one rotation that is vibration-free and extremely quiet. The RadMax™ engine also has multi-fuel capabilities allowing it to operate on fuels including gasoline, natural gas, hydrogen, propane and diesel. REGI U.S., Inc. and its parent company, Reg Technologies Inc., and REGI U.S., Inc. have completed the design phase and is awaiting funding to commence the fabrication phase. #### READER ADVISORY

*Statements in this press release regarding the business of Reg Technologies Inc. and REGI U.S. Inc. (together the "Companies") which are not historical facts are "forward-looking statements" that involve risks and uncertainties, including management's assessment of future plans and operations, and capital expenditures and the timing thereof, certain of which are beyond the Companies' control. There can be no assurance that such statements will prove accurate, and actual results and developments are likely to differ, in some case materially, from those expressed or implied by the forward-looking statements contained in this press release. Readers of this press release are cautioned not to place undue reliance on any such forward-looking statements.*

*Forward-looking statements contained in this press release are based on a number of assumptions that may prove to be incorrect, including, but not limited to: the impact of competitive products and pricing, the Companies' dependence on third parties and licensing/service supply agreements, and the ability of competitors to license the same technologies as the Companies or develop or license other functionally equivalent technologies; financing requirements; changes in laws, rules and regulations applicable to the Companies and changes in how they are interpreted and enforced, delays resulting from or inability to obtain required regulatory approvals and ability to access sufficient capital from internal and external sources, the impact of general economic conditions in Canada, and the United States, industry conditions, increased competition, the lack of availability of qualified personnel or management, fluctuations in foreign exchange, stock market volatility and market valuations of companies with respect to announced transactions. The Companies' actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements, including those described in Reg Technologies' financial statements, management discussion and analysis and material change reports filed with the Canadian Securities Administrators and available at [www.sedar.com](http://www.sedar.com), and its Form 20-F filed with the United States Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov), and REGI's Form 10-KSB annual report filed with the United States Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov). Accordingly, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits, including the amount of proceeds, that the Companies will derive therefrom.*

*Readers are cautioned that the foregoing list of factors is not exhaustive. All subsequent forward-looking statements, whether written or oral, attributable to the Companies or persons acting on its behalf are expressly qualified in their entirety by these cautionary statements. Furthermore, the forward-looking statements contained in this news release are made as at the date of this news release and the Companies do not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable securities laws.*

*This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities of the Company have not been registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.*

*Neither the TSX, nor any other securities regulatory authority has approved or is approved of the contents of this news release, nor accept responsibility for the adequacy or accuracy of this release.*
