As an artist that is known for pushing boundaries and never settling for the status quo, Khalil is always looking for new opportunities to showcase his art. Following his most recent hit single **Wait on It**, Khalil

plans to utilize New World's platform as a new opportunity to creatively engage with his fans by releasing an NFT that will include exclusive music packaged along with digital art that can be viewed in augmented reality on the New World App.

"I have been working on a few projects over the last year and decided I wanted to experiment by mixing my music with art, so creating an NFT was the perfect medium. Mixing audio and visuals together is a new outlet for me to express my creativity and share it with fans," commented Khalil.

New World's in-house creative team makes it easy for contributors to develop exclusive NFTs and share them on a global scale. Khalil is excited to work with New World to make NFTs that offer a unique experience by merging his music with art.
