

Graph Blockchain Announces OBV's First NFT Goes to Auction

Toronto, Ontario--(Newsfile Corp. - February 8, 2022) - Graph Blockchain Inc. (**CSE: GBLC**) (**OTC Pink: REGRF**) (**FSE: RT5A**) (the "**Company**" or "**Graph**") is pleased to announce that one of the charities, One Body Village, that Niftable Inc. ("**Niftable**"), its wholly owned subsidiary, works with will be auctioning its very first NFT on February 11th, 2022 - the auction will last 7 days.

Angela Nguyen, President of One Body Village Canada, said "Being able to join the NFT world through Niftable changes the fundraising game for us as a charitable organization, and more importantly, it allows our beneficiaries, aka the artists, to share their stories and talents to people across the globe. When buyers purchase digital art created by our beneficiaries, they also directly contribute to their income and livelihoods that allows our beneficiaries to break free from the cycle of poverty and exploitation. We hope our art and mission reaches every corner of the NFT space so that more people will join our fight to end child sexual exploitation."

"Graph is excited about helping our first charity with its very first NFT sale. Graph working with charities like One Body Village helps us with our social responsibility as an organization as well as present a strong business opportunity. We are looking forward in onboarding more charities this year and helping them benefit from the emerging NFT space," said Paul Haber, Chief Executive Officer of the Company.

About Niftable Inc.

Niftable's core business is to connect charities and their artists to the NFT (non-fungible token) world. Niftable provides the expertise and execution of NFTs from the creation of the NFT to the sale and post-sale of NFTs on behalf of their charity clients. Most charities rely on volunteers and lack expertise in the emerging NFT world and that is where Niftable fills that void.

About Graph Blockchain Inc.

Graph Blockchain provides shareholders with exposure to various areas of Decentralized Finance (DeFi). Focusing on altcoins through its wholly-owned subsidiaries Babbage Mining Corp., a Proof of Stake ("POS") miner, and Beyond the Moon Inc. an IDO focused company, Graph gives investors exposure to the vast emerging market of cryptocurrencies with the significant technological disruption and potential gains altcoins represent. In addition, through its investment in New World, Graph is providing its shareholders with exposure to the rapidly growing and emerging NFT market.

Forward-Looking Statements

This news release contains "forward-looking statements" within the meaning of applicable securities laws. All statements contained herein that are not historical in nature may constitute forward-looking statements.

Generally, such forward-looking information or forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or may contain statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "will continue", "will occur" or "will be achieved". The forward-looking information and forward-looking statements contained herein include, but are not limited to, statements regarding: the continued growth of the blockchain market. Forward-looking information in this news release is based on certain assumptions and expected future events. These statements involve known and unknown risks, uncertainties, and other factors, which may cause actual results, performance, or achievements to differ materially from those expressed or implied by such statements, including but not limited to: the potential inability of the Company to continue as a going concern; the potential inability of Niftable to continue as a going concern; the risks associated with the blockchain industry in general; increased competition in the blockchain market; the potential future unviability of the blockchain in general. Readers are cautioned that the foregoing list is not exhaustive. Readers are further cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the plans, intentions, or expectations upon which they are placed will occur. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated.

The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, estimates or opinions, future events or results, or otherwise or to explain any material difference between subsequent actual events and such forward-looking information, except as required by applicable law.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.
