Forward Looking Information

Certain statements in this press release are forward-looking statements and are prospective in nature. Forward-looking statements are not based on historical facts, but rather on current expectations and projections about future events, many of which, by their nature, are inherently uncertain and outside of the Company's control and are therefore subject to risks and uncertainties which could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements. These statements generally can be identified by the use of forward-looking words such as "may", "should", "will", "could", "intend", "estimate", "plan", "anticipate", "expect", "believe" or "continue", or the negative thereof or similar variations. Forward-looking statements in this news release include, but are not limited to, information concerning the listing of the Common Shares. Those assumptions and factors are based on information currently available to the Company. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information and statements are the following: ability to obtain requisite regulatory approvals and the satisfaction of other conditions to the listing of the Common Shares; changes in general economic, business and political conditions, including changes in the financial markets; changes in applicable laws; and the diversion of management time. Should one or more of these risks, uncertainties or other factors materialize, or should assumptions underlying the forward-looking information or statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Readers should not place undue reliance on forward-looking statements and forward-looking information. The forward-looking information contained in this release is made as of the date hereof and the Company assumes no obligation to update or revise any forward-looking statements or forward-looking information that are incorporated by reference herein, whether as a

result of new information, future events or otherwise, except as required by applicable securities laws. The foregoing statements expressly qualify any forward-looking information contained herein. All subsequent written and oral forward-looking information and statements attributable to the Company or persons acting on its behalf is expressly qualified in its entirety by this notice.
