

URBANA CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the six months ended June 30, 2023

This Management's Discussion and Analysis ("MD&A") supplements, but does not form part of, the unaudited condensed interim financial statements of Urbana Corporation ("Urbana" or the "Corporation") and notes thereto for the six months ended June 30, 2023 (the "Interim Financial Statements") and the audited financial statements of Urbana and notes thereto for the year ended December 31, 2022 (the "Annual Audited Financial Statements"). Consequently, the following discussion and analysis of the financial condition and results of operations should be read in conjunction with the Interim Financial Statements and the Annual Audited Financial Statements, both of which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts shown in this MD&A, unless otherwise specified, are presented in Canadian dollars and all references to "millions" within this MD&A will be described as "M" hereafter. Unless specifically referred to a particular class of shares, all references to "Shares" or "per Share" refer collectively to the Corporation's common shares (the "Common Shares") and the Corporation's non-voting Class A shares (the "Class A Shares"). This MD&A is current as of August 9, 2023. The Corporation's Audit Committee reviewed this document, and prior to its release, the Corporation's Board of Directors approved it, based on the Audit Committee's recommendation.

REPORTING REGIME

Urbana is subject to National Instrument 51-102 ("NI 51-102") *Continuous Disclosure Obligations*. For accounting purposes, Urbana is treated as an investment entity under IFRS.

NON-IFRS MEASURES

The Corporation prepares audited annual financial statements and unaudited condensed interim financial statements in accordance with IFRS. This MD&A complements the Corporation's IFRS results with the following financial measures which are not recognized under IFRS and which do not have a standard meaning prescribed by IFRS: "net assets per Share", "total return of net assets per Share" and "compound annual growth rate of net assets per Share since inception".

Net assets per Share

The three financial measures used to calculate "net assets per Share", namely assets, liabilities and number of shares outstanding, are individually recognized under IFRS, but "net assets per Share" is not. The calculation of net assets per Share as at June 30, 2023 and December 31, 2022 is presented in the following table:

	June 30, 2023	December 31, 2022
Assets (\$)	372,341,723	367,126,050
LESS Liabilities (\$)	63,786,266	57,523,862
EQUALS Net Assets (\$)	308,555,457	309,602,188
DIVIDED BY Number of Shares Outstanding	41,395,100	41,395,100
EQUALS Net assets per Share (\$)	7.45	7.48

Total return of net assets per Share

The total return of net assets per Share over a given period refers to the increase or decrease of Urbana’s net assets per Share (determined as described above) over a specified time period, expressed as a percentage of Urbana’s net assets per Share at the beginning of the time period, assuming that each dividend paid by the Corporation during the period was reinvested at a price equal to the net assets per Share at the relevant time.

The Common Shares and the Class A Shares participate equally in dividends and upon liquidation, dissolution or winding-up of Urbana. Therefore, they are treated the same for purposes of the net assets per Share calculation.

Compound annual growth rate of net assets per Share since inception

Compound annual growth rate (“CAGR”) of net assets per Share since inception is the compound annual growth rate of Urbana’s net assets per Share from October 1, 2002, when Caldwell Investment Management Ltd. (“CIM” or the “Manager”), the investment manager of Urbana, started managing Urbana’s investment portfolio, to the end of the period in question.

We calculate CAGR of net assets per Share since inception by dividing Urbana’s net assets per Share at the end of the period in question by its net assets per Share at inception (i.e. October 1, 2002), raising the result to the power of the quotient obtained by dividing one by the number of years representing the period length, and then subtracting one.

The Corporation provides the non-IFRS measures described above because it believes each measure can provide information that may assist shareholders to better understand the Corporation’s performance and to facilitate a comparison of the results of ongoing operations. No measure that is calculated in accordance with IFRS is directly comparable to or provides investors with this net assets per Share information. As a result, except as set forth in the above table, no quantitative reconciliation from “net assets per Share” to an IFRS measure is provided in this MD&A.

Non-IFRS measures should not be construed as alternatives to net comprehensive income (loss) determined in accordance with IFRS as indicators of the Corporation’s performance. CAGR of net assets per Share since inception describes the historical rate at which Urbana’s net assets per Share would have increased at a steady rate. This single historical rate is only an illustration and does not represent the actual annual growth rate of Urbana’s net assets per Share in any given year. The growth rate of Urbana’s net assets per Share in any given year since 2002 may have been higher or lower than the CAGR of net assets per Share since inception due to market volatility and other factors.

STRATEGY AND RISK FACTORS

Urbana's strategy is to seek out, and invest in, private investment opportunities for capital appreciation and invest in publicly traded securities to provide growth, income and liquidity. Urbana has the scope to invest in any sector in any geographic region. There were no material changes to Urbana's investment style during the second quarter of 2023 ("2023 Q2") that affected the overall level of risk associated with an investment in the Corporation. Some of the risk factors associated with investing in Urbana are described in Urbana's most recent annual information form, which is available on the Corporation's website at www.urbanacorp.com and under the Corporation's profile on the SEDAR website at www.sedar.com. Risks and uncertainties that may materially affect Urbana's future performance include private entity investing risk, market fluctuations, currency risk and macroeconomic risk.

OVERALL PERFORMANCE AND DISCUSSION OF OPERATIONS

The first half of 2023 witnessed the majority of listed companies effectively trading in a narrow channel. Clearly, the larger high tech companies led the market, puffed the indices and provided a rather distorted view of overall market performance. Broadly based companies fared rather poorly.

In the last half of June, broader markets started to see some life. This has continued into July. Markets do not seem to move in calendar quarters. Part of this later strength appears to come from the view that central banks are reaching the end of their quixotic interest rate efforts to curtail inflation. To be fair, their job was made difficult by the uncontrolled fiscal spending of governments on both sides of the United States and Canadian border. The combined effort could be likened to having one foot on the brake and one foot on the gas.

Urbana's focus in public markets has been on U.S. financials and Canadian energy. Both sectors are now finally seeing upside moves. We remain optimistic on both of these sectors for the balance of the year.

Our private equity component is seeing interesting developments, which could be helpful as the year progresses.

During 2023 Q2, Urbana's net assets per Share decreased from \$7.50 to \$7.45 resulting in a -0.7% total return of net assets per Share. This return underperforms the S&P/TSX Composite Total Return Index ("S&P/TSX Index") of 1.1% and the Dow Jones Industrial Average Total Return Index (in Canadian dollars) ("DJIA Index") of 1.9% for the same period.

During the first half of 2023, Urbana's net assets per Share decreased from \$7.48 to \$7.45, after the payment of a dividend of eleven cents (\$0.11) per Share¹ in January 2023, resulting in a 1.0% total return of net assets per Share. During the same period, the S&P/TSX Index increased by 5.7% and the DJIA Index increased by 2.5%.

During 2023 Q2 and to-date, Urbana did not purchase any Class A Shares under its Normal Course Issuer Bid ("NCIB"). Since May 2010, Urbana has purchased and cancelled a total of

¹ The Common Shares and the Class A Shares participate equally in dividends.

46,131,220 Class A Shares under its normal course issuer bid programs and has returned \$122.1M to shareholders in the form of NCIB purchases and dividends. The number of Class A Shares now outstanding is 31,395,100.

In 2023 Q2, dividend income was \$1.9M, up from \$936,473 in the second quarter of 2022 (“2022 Q2”). Both domestic and foreign dividends increased primarily due to increased dividend rates and some entities paying dividends for the first time in 2023. In 2023 Q2, interest income amounted to \$101,689, down from \$144,816 in 2022 Q2. 2023 Q2 revenue reflects interest on debt securities held by Urbana in Highview Financial Holdings Inc. (“Highview”) and Kognitiv Corporation (“Kognitiv”). In 2022 Q2, interest income related to Highview, Integrated Grain Processors Co-operative Inc. (“IGPC”), Kognitiv and Vive Crop Protection Inc. (“Vive”). The Vive debt security was converted into equity in July 2022 and the IGPC debt security was redeemed at the end of March 2023.

Urbana realized a net gain of \$490,119 from the sale and disposal of investments in 2023 Q2 (2022 Q2 - \$7.6M). This gain stemmed from the partial sales of Citigroup Inc. and Tamarack Valley Energy Ltd. and the partial redemption of Caldwell Canadian Value Momentum Fund.

Urbana recorded \$2.0M in unrealized losses in 2023 Q2 (2022 Q2 - \$39.7M). The primary underperformers during 2023 Q2 were Tamarack (\$3.1M) and Whitecap Resources Inc. (\$3.0M) and these unrealized losses were offset by unrealized gains on IGPC (\$4.0M).

During 2023 Q2, Urbana recorded a net loss before income taxes of \$2.5M (2022 Q2 - \$33.6M) primarily due to \$2.0M in unrealized losses on investments. Investment management fees in 2023 Q2 were \$2.0M, virtually unchanged from 2022 Q2. Interest expense in 2023 Q2 amounted to \$638,423, up from \$219,600 in 2022 Q2, due to increased average borrowings and higher borrowing rates in 2023 Q2. Transaction costs, which typically relate to purchases under the NCIB, were not incurred in 2023 Q2 (2022 Q2 - \$19,528), since no shares were purchased under the NCIB in 2023 Q2. Transaction costs in respect of all trades, excluding NCIB trades, are absorbed by CIM. Professional fees, comprised of audit fees and legal costs, were \$73,088 in 2023 Q2, down slightly from \$79,407 in 2022 Q2, due to reduced legal fees. Administrative expenses in 2023 Q2 were \$338,864, down from \$355,664 in 2022 Q2, primarily due to reduced marketing costs in 2023 Q2. Foreign withholding tax expense in 2023 Q2 was \$96,862, up from \$85,744 in 2022 Q2, due to an increase in foreign dividends in 2023 Q2. A current income tax recovery of \$156,370 was recorded in 2023 Q2 as a result of the carryback of capital losses to the 2021 taxation year to recover the \$156,370 in taxes paid in 2022 Q2 in respect of the 2021 taxation year. A deferred income tax recovery of \$756,000 has been recorded in 2023 Q2, down from \$4.2M in 2022 Q2, primarily due to unrealized losses recorded during the respective periods.

Urbana’s long-term performance, represented by its CAGR of net assets per Share since inception on October 1, 2002 to June 30, 2023, was 14.3%. This compares favorably with the CAGR of the S&P/TSX Index of 8.8% and the CAGR of the DJIA Index of 9.2%, for the same period.² The Corporation’s long-term goal is to strive for and maintain long-term performance that exceeds the returns of the S&P/TSX Index and the DJIA Index.

² The CAGR of the indexes is calculated in the same way as the CAGR of net assets per Share since inception.

Demand Loan Facility

Pursuant to a loan facility agreement between Urbana and a major Canadian chartered bank (the “Bank”) dated July 2, 2021, the Bank provides a demand loan facility to Urbana, which allows Urbana to borrow up to \$50M. Interest is charged on the outstanding balance of the loan facility at the Bank’s prime rate plus 0.25%, calculated on a daily basis and paid monthly. The loan facility is secured by a general charge on Urbana’s assets. Proceeds from the loan may be used to make additional investments and/or for general corporate purposes. As at June 30, 2023, the outstanding balance of the loan was \$38.8M. The minimum and maximum amounts borrowed during 2023 Q2 were \$35.8M and \$39.8M respectively. As at the date of this MD&A, the Corporation has complied with all covenants, conditions and other requirements of the loan facility.

Normal Course Issuer Bid

On August 31, 2022, the Toronto Stock Exchange (the “TSX”) accepted a notice of intention to conduct a normal course issuer bid (the “Notice”) from Urbana to purchase up to 3,139,548 of its own Class A Shares (the “2022 NCIB”), representing 10% of the public float, pursuant to TSX rules. Purchases under the 2022 NCIB were permitted starting on September 7, 2022, and will terminate on the earlier of September 6, 2023, the date Urbana completes its purchases pursuant to the Notice filed with the TSX, and the date of notice by Urbana of termination of the 2022 NCIB. The Class A Shares purchased under the 2022 NCIB must be cancelled. As at June 30, 2023, Urbana had purchased and cancelled 290,000 Class A Shares pursuant to the 2022 NCIB at an average purchase price of \$3.95 per Class A Share. Shareholders may obtain a copy of the Notice, free of charge, by contacting Urbana.

Mining Claims

Urbana has owned mineral claims in Urban Township, Quebec for a number of years. Management monitors the exploration activity in the area on an ongoing basis and may carry out exploration work on its mineral claims if and when it is deemed suitable. Urbana has received several enquiries from companies operating in the area but has not yet decided on a partner for further development. Urbana holds 44 claims in the area totaling 1,154.4 hectares (2,852.7 acres). A report, which summarizes both the exploration work and results to date has been completed and will assist in determining next steps.

Urbana has incurred mining expenditures totaling \$1.1M, all of which relate to periods prior to 2019. These expenditures were recorded in the financial statements of the Corporation as a loss in computing “net realized gain on sale and disposal of investments”, in accordance with IFRS 6 “*Exploration for and Evaluation of Mineral Resources*”. Management has elected to expense exploration and evaluation costs related to the mineral claims, as the property holds no known mineral reserves or mineral resources. Although the property has several interesting gold occurrences, there has been no ore body tonnage proven up at this time. The property is therefore still highly speculative. If ore body tonnage is proven up in the future, and the determination has been made to move into the development phase, then future expenditures on development will be capitalized and tested for impairment. The amount of exploration expenditures has not been material for Urbana and is expected to continue to be immaterial for the near-term.

Dividend Policy and Dividend Declared

During the six month period ended June 30, 2023, Urbana, as lender, increased its loan to one director of the Corporation, George D. Elliott. Prior to 2023, Urbana issued loans to three directors of the Corporation, Charles A. V. Pennock, George D. Elliott and Michael B. C. Gundy and to one officer of the Corporation, Sylvia V. Stinson. Each loan agreement provides for a revolving credit facility of up to \$100,000 for each such person, which they may use for the sole purpose of purchasing Shares, in the discretion of the borrower. Interest is charged at the interest rate used by the Canada Revenue Agency to calculate taxable benefits for employees and shareholders from interest-free and low-interest loans. The securities of Urbana purchased by each director or officer with funds advanced under each revolving credit facility are held in a broker’s account as security for the loan. As at June 30, 2023, the total outstanding principal amount of such loans is \$322,888,

being \$92,005, \$97,321, \$72,452 and \$61,110 in respect of Messrs. Elliott, Gundy and Pennock and Ms. Stinson, respectively. As at June 30, 2023, Messrs. Elliott, Gundy and Pennock, and Ms. Stinson have purchased, respectively, 22,500 Common Shares, 29,900 Common Shares, 6,000 Common Shares and 20,000 Class A Shares, and 3,000 Common Shares and 15,000 Class A Shares of the Corporation with funds borrowed under each respective credit facility.

LIQUIDITY AND CAPITAL RESOURCES

The Corporation has no significant financial or contractual obligations other than a demand loan facility with a major Canadian bank (see above under the heading "Demand Loan Facility"). The

Corporation currently holds approximately 45% of its assets, with a fair value of approximately \$173.4M, in cash and marketable securities. It has the liquidity to readily meet all of its operating expense requirements and its obligations under the loan facility.

In 2023 Q2, the Corporation did not conduct any additional financing activities. As at the date of this MD&A, the Corporation does not have any capital expenditure commitments, which the Corporation plans to fund from sources other than the existing loan facility or by liquidating some of its marketable securities.

Currently, holdings of readily marketable securities generate dividend income and can be disposed of with relative ease. Should in future the composition of the Corporation's portfolio be weighted significantly more toward private investments, which may not produce income and cannot be readily sold, the Corporation may need to rely on its loan facility or issue securities to help meet its liquidity needs. There is no immediate need to rely on these liquidity sources.

OFF-BALANCE SHEET ARRANGEMENTS

The Corporation has no off-balance sheet arrangements.

CRITICAL ACCOUNTING ESTIMATES

The preparation of the Corporation's financial statements in accordance with IFRS requires management to make estimates and exercise judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future period affected. The following discusses the most significant accounting judgments that Urbana has made in preparing the financial statements:

Fair value measurement of private investments

Urbana holds private investments that are not quoted in active markets and for which there may or may not be recent comparable transactions. In determining the fair value of these investments, Urbana has made significant accounting judgments and estimates. See Notes 1 and 2 of the Interim Financial Statements for more information on the fair value measurement techniques and types of unobservable inputs employed by the Corporation in its valuation of private investments.

Changes in Accounting Policies

There have been no changes in accounting policies during 2023 Q2 that affect the Corporation.

DISCLOSURE CONTROLS AND PROCEDURES (“DC&P”) AND INTERNAL CONTROL OVER FINANCIAL REPORTING (“ICFR”)

Urbana's management (“Management”), under the supervision of its chief executive officer (“CEO”) and chief financial officer (“CFO”), is responsible for establishing and maintaining the Corporation's DC&P and ICFR (as defined in National Instrument 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings*).

Consistent with NI 52-109, the Corporation's CEO and CFO have reviewed the design of the Corporation's DC&P and ICFR and have concluded that as at June 30, 2023 (A) the Corporation's DC&P provide reasonable assurance that (i) material information relating to the Corporation has been made known to them, particularly during the financial quarter ended June 30, 2023 and (ii) information required to be disclosed by the Corporation in its annual filings, interim filings or other reports filed or submitted by it under securities legislation has been recorded, processed, summarized and reported within the time periods specified in securities legislation; and (B) the Corporation's ICFR provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There have been no changes in the Corporation's ICFR that occurred during the period beginning April 1, 2023 and ending on June 30, 2023 that have materially affected, or are reasonably likely to materially affect, the Corporation's ICFR. All control systems contain inherent limitations, no matter how well designed. As a result, Management acknowledges that the Corporation's ICFR will not prevent or detect all misstatements due to error or fraud. In addition, Management's evaluation of controls can provide only reasonable, not absolute, assurance that all control issues that may result in material misstatements, if any, have been detected.
