Management Commentary

"In 2022 IMC reworked its strategy," said **Oren Shuster, Chief Executive Officer of IMC**. "We shifted our focus to meeting patients' and pharmacies' needs. During Q1 of this year, we have continued this transition. IMC is becoming a lean and agile company, with a clear focus on building brands that consumers love, driven by consumer insight.

"The strategic shift drove the additional restructuring initiatives we announced this quarter - the reorganization of the Company's management and operations to better suit the current market environment and our short- to mid-term objectives. This allowed us to focus on core activities, drive efficiencies and reduce costs in furtherance of the goal to realize sustainable profitability. We are already seeing the results of our shift in strategy in our Q1 results. Our gross profit increased 46% compared to Q1 2022, while our revenue stayed stable", concluded Shuster.

Operational Highlights

- On March 8, 2023, the Company announced that as part of its ongoing restructuring initiatives, it would be reducing its workforce in Israel by 21% across all functions (including executives), estimated to result in annualized cost savings of \$3.6 million from mid-2023 while maintaining revenue.
- In January and February of 2023, the Company issued an aggregate of 2,828,248 units of the Company (each a "Unit") at a price of US\$1.25 per Unit for aggregate gross proceeds of US\$3,535,310 in a series of closings pursuant to a non-brokered private placement offering pursuant to the listed issuer financing exemption under Part 5A of National Instrument 45-106 Prospectus Exemptions (the "LIFE Offering"). Each Unit consisted of one common share of the Company (each, a "Common Share") and one Common Share purchase warrant (each, a "Warrant"), with each Warrant entitling the holder thereof to purchase one additional Common Share at an exercise price of US\$1.50 for a period of 36 months from the date of issue. In addition, a non-independent director of the Company subscribted for an aggregate of 131,700 Units under the LIFE Offering at an aggregate subscription price of US\$164,625. The director's subscription price was satisfied by the settlement of US\$164,625 in debt owed by the Company to the director for certain consulting services previously rendered by the director to the Company.
- Concurrent with the LIFE Offering, the Company issued an aggregate of 2,317,171 Units on a non-brokered private placement basis at a price of US\$1.25 per Unit for aggregate gross proceeds of approximately US\$2,896,464.

Q1 2023 Financial Results

- Revenues for the first quarter of 2023were \$13.2 million compared to \$13 million in the first quarter of 2022, an increase of 1%.
- Total Dried Flower sold in the first quarter of 2023 was approximately 1,842kg with an average selling price of \$6.59 per gram compared to approximately 1,415kg in the first quarter of 2022 with an average selling price of \$8.13 per gram. The decrease in average selling price was caused by increased competition within the retail segment.
- Gross Profit for the first quarter of 2023 was \$3.5 million, compared to \$2.4 million in the first quarter of 2022, an increase of 46%. The increase is mainly attributable to increased high margin sales of imported premium cannabis products, and reduction of costs of sales.
- Gross Margin, before fair value adjustments, in the first quarter of 2023was 30%, compared to 24% in the first quarter of 2023, an increase of 25%.
- General and Administrative Expenses in the first quarter of 2023 were \$3.2 million, compared to \$3.9 million in the first quarter of 2022, a decrease of 18%. The decrease in the general and administrative expense is mainly attributable to reduced employee salaries derived from the restructuring plan in Israel announced in the first quarter of 2023 and presented separately in the interim financial statement for the period.
- Selling and Marketing Expenses in the first quarter of 2023 were \$2.8 million, compared to \$2.5 million in the first quarter of 2022, an increase of 12%. The increase was due mainly to the Company's increased marketing efforts in Israel and the rising distribution costs of the Company's products.
- Total Operating Expenses in the first quarter of 2023 were \$6.5 million, compared to \$11.3 million in the first quarter of 2022, a decrease of 41%. Most of the decline can be attributed to restructuring that took place in the first quarter of 2022.

- Operating Loss in the first quarter of 2023was \$3.0 million, compared to \$8.9 million in the first quarter of 2022, a decrease of 66%.
- Non-IFRS Adjusted EBITDA Loss in the first quarter of 2023 was \$1.3 million, compared to an Adjusted EBITDA Loss of \$2.9 million in the first quarter of 2022, a decrease of 55%. The decrease is mainly attributable to improved performance of the Company's gross margin and a reduction in general and administrative expenses, such as cost reduction, cost efficiencies and other corporate expense reductions.
- Net Gain From Continuing Operations in the first quarter of 2023 was \$0.04 million, compared to a loss of \$7.1 million in the first quarter of 2022, a decrease of 100%, driven mostly by a decrease in operation expenses, increase in finance income and higher gross margin.
- Basic and Diluted (Loss) Gain per Share From Continuing Operations in the first quarter of 2023 was \$0.03, compared to a loss of \$0.08 (per share in the first quarter of 2022.
- Cash and Cash Equivalents as of March 31, 2023 were \$1.4 million, compared to \$2.9 million in December 31, 2022.
- Total Assets as of March 31, 2023 were \$56.8 million, compared to \$60.7 million in December 31, 2022, a decrease of 6%. The decrease is mainly attributed to reduced cash and cash equivalents and to trade receivables.
- Total Liabilities as of March 31, 2023 were \$32.2million, compared to \$36.9 in December 31, 2022, a decrease of approximately 13%. The decrease was mainly due to the reduction in trade payables.
