

UniDoc - Company Recognizes Initial Revenue on Delivery of AI-Equipped H3 Health Cubes

-- Three customers take delivery at year end

VANCOUVER, British Columbia, January 09, 2025 -- UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF) (“UniDoc,” or the “Company”), an innovator in the eHealth sector, is pleased to announce, in furtherance to its press release dated November 6, 2024, that the initial AI-assisted H3 Health Cubes, for three commercial orders have been delivered to customers.

Key Features:

- UniDoc delivers H3 Health Cubes for three orders to commercial customers.
- Shipments include units for the Aiutamoli a Vivere Foundation, the Municipality of Aliano, and Okhmatdyt Children’s Hospital.
- Customers plan to deploy these cubes immediately.

Tony Baldassarre, CEO of UniDoc, stated, “We are extremely proud to get these cubes into the hands of our customers and shift into revenue generating mode. These deployments will aid in building healthcare accessibility in these critical regions. All three clients have told us they plan to put the cubes to use immediately.”

These orders include units for the [Aiutamoli a Vivere Foundation in Italy](#), the [Municipality of Aliano](#), and Hope Ukraine Foundation - [Ukraine’s largest children’s hospital, Okhmatdyt](#).

The first shipment includes the first of three H3 Health Cubes to be supplied to the Italian aid group [Aiutamoli a Vivere Foundation](#) (“AVF”). AVF has indicated further plans to potentially expand to up to fifteen units. These cubes will be deployed in conflict-affected regions at the discretion of AVF, including Ukraine and the Gaza Strip, where they will assist with providing essential healthcare services through AI technology and telemedicine capabilities. AVF will manage the deployment and operation of these units, bringing much-needed healthcare support to these areas.

The second shipment is for the [Municipality of Aliano](#), which includes a single H3 Health Cube that will be installed at the Territorial Health Center, enhancing rural healthcare access to small communities in a region where the nearest hospitals are over 100 kilometers away. This unit will assist with delivering essential healthcare services locally, reducing the need for long-distance travel and providing continuous health monitoring and remote consultations.

Through UniDoc’s [partnership with HP Inc.](#), the third shipment will be the deployment of an H3 Health Cube to Okhmatdyt, [Ukraine’s largest children’s hospital](#). This deployment, facilitated by the Hope Ukraine Foundation, will help to address the urgent need for healthcare services

following a recent missile attack. The AI-equipped H3 Health Cube will enhance medical care accessibility and precision, particularly in pediatric care. This shipment represents the first of 10 initial cubes ordered by HP Inc.

This delivery of multiple orders marks a significant achievement for UniDoc as the Company continues to gain momentum in the eHealth market. With these successful shipments, UniDoc is working to expand its reach and impact, leveraging its innovative technology to improve healthcare access worldwide.

“These deliveries were a great way to end 2024 and will allow us to recognize revenue in the Company’s ongoing fiscal year. This gives us a strong foundation to build on in 2025”, concluded Mr. Baldassarre.

On Behalf of the Board of Directors,

~Antonio Baldassarre~

Antonio Baldassarre
CEO, President & Director
UniDoc Health Corp.

About UniDoc Health Corp. (CSE: UDOC) (FRA: L7T) (OTCQB: UDOCF)

UniDoc is developing an eHealth solution which is being designed as a self-contained remote virtual clinic within a private kiosk for patients to undergo full consultations as if they were present in a physician’s office. eHealth opens the doors to a large segment of the population challenged by access, experience or understanding of online computer technology. It is the Company’s belief that physical accessibility is the key to its business proposition. UniDoc is dedicated to unlocking shareholder value by delivering an excellent product and sophisticated commercial network within an expedited timeframe. The UniDoc team encourages engagement, questions, and interest, so please stay in touch and invite anyone who might be interested in our story to visit our website at www.unidoctor.com and signup to receive the latest information with updates on our activities, events and progress.

Forward-Looking Statements

This news release contains statements and information that, to the extent that they are not historical fact, may constitute “forward-looking information” within the meaning of applicable securities legislation. Forward-looking information may include financial and other projections, as well as statements regarding future plans, objectives, or economic performance, or the assumption underlying any of the foregoing. In some cases, forward-looking statements can be

identified by terms such as “may”, “would”, “could”, “will”, “will be”, “likely”, “except”, “anticipate”, “believe”, “intend”, “plan”, “forecast”, “project”, “estimate”, “outlook”, or the negative thereof or other similar expressions concerning matters that are not historical facts. Examples of such statements include, but are not limited to, statements with respect to the receipt of revenue from the deployment of the Company’s first three H3 Health Cubes, the timing of the deployment of the H3 Health Cubes by the client recipients, and the benefits to be realized by the deployment of the H3 Health Cubes.

Forward-looking information is based on the assumptions, estimates, analysis, and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. The material factors and assumptions used to develop the forward-looking information contained in this news release include, but are not limited to, key personnel and qualified employees continuing their involvement with the Company; the Company’s ability to secure additional financing on reasonable terms; the competitive conditions of the industries in which the Company operates; and laws and any amendments thereto applicable to the Company.

Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information, including, without limitation, risks relating to the future business plans of the Company; risks that the Company will not be able to retain its key personnel; risks that the Company will not be able to secure financing on reasonable terms or at all; as well as all of the other risks as described in the Company’s annual management discussion and analysis dated July 31, 2024 under the heading “Risks Factors.” Accordingly, readers should not place undue reliance on any such forward-looking information.

Further, any forward-looking information speaks only as of the date on which such statement is made. New factors emerge from time to time, and it is not possible for the Company’s management to predict all such factors and to assess in advance the impact of each such factor on the Company’s business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking information. The Company does not undertake any obligation to update any forward-looking information to reflect information or events after the date on which it is made or to reflect the occurrence of unanticipated events, except as required by law, including securities laws.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
