## **MAX POWER RETAINS NEW CORPORATE SECRETARY**

VANCOUVER, B.C. (March 13, 2025) – MAX Power Mining Corp. (CSE: **MAXX**; OTC: **MAXXF**; FRANKFURT: **89N**) (“**MAX Power**” or the “**Company**”) is pleased to announce that it has engaged Ms. Monita Faris as the Company’s new Corporate Secretary. Based in Vancouver, Ms. Faris is a seasoned industry professional with over 25 years of corporate governance, corporate secretarial, and securities regulation experience. She has served in several senior management and executive roles for companies listed on the Toronto Stock Exchange, TSX Venture Exchange, and the CSE.

MAX Power has not renewed the contract of Mr. Rav Mlait who has been serving in a Corporate Development role since November 2024 (refer to Nov. 7, 2024 news release).

Mr. Mansoor Jan, MAX Power CEO, commented: “*Rav was MAX Power’s founding CEO and successfully steered the company through its first three years on the CSE, leading us to a lithium discovery in Arizona followed by a strategic early move into the Natural Hydrogen space. We are very grateful for his dedicated service to MAX Power and we wish him the best of success in his future endeavors.*”

Mansoor concluded, “*As we prepare to enter a transformational period for MAX Power with respect to Natural Hydrogen in Saskatchewan, we’ve assembled an incredible team that is only going to get stronger in the days and weeks ahead.*”

## **About MAX Power**

MAX Power is an innovative mineral exploration company focused on North America's shift to decarbonization. MAX Power is a first mover in the rapidly growing Natural Hydrogen sector, through strategic alliances with Calgary-based Chapman Hydrogen & Petroleum Engineering Ltd., and European-based Larin Engineering HHC. MAX Power also holds a portfolio of properties in the United States and Canada focused on critical minerals. These properties are highlighted by a recent diamond drilling discovery at the Willcox Playa Lithium Project in southeast Arizona.

*On behalf of the Board of Directors,*

## **Forward-Looking Statement Cautions**

*This press release contains certain "forward-looking statements" within the meaning of Canadian securities legislation, relating to natural hydrogen, exploration and acquisition of natural hydrogen properties; ability to locate, discover and/or extract natural hydrogen from the subsurface, commentary as it relates to the opportune timing to carry out natural hydrogen exploration, and any anticipated increasing demand for natural hydrogen; any results and updates thereto as it relates to any future drill program, and the funding of that program; and upcoming press releases by the Company. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts. They are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "interpreted", "intends", "estimates", "projects", "aims", "suggests", "often", "target", "future", "likely", "pending", "potential", "goal", "objective", "prospective", "possibly", "preliminary", and similar expressions, or that events or conditions "will", "would", "may", "can", "could" or "should" occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made, and they involve number of risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Except to the extent required by applicable securities laws and the policies of the CSE, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change. Factors that could cause future results to differ materially from those anticipated in these forward-looking statements include risks associated with possible accidents and other risks associated with mineral exploration operations, the risk that the Company will encounter unanticipated geological factors, risks associated with the interpretation of assay results and the drilling program, the possibility that the Company may not be able to secure permitting and other governmental clearances necessary to carry out its exploration plans, the risk that the Company will not be able to raise sufficient funds to carry out its business plans, and the risk of political uncertainties and regulatory or legal changes that might interfere with the Company's business and prospects. The reader is urged to refer to the Company's Management's Discussion and Analysis, publicly available through the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR+) at [www.sedarplus.ca](http://www.sedarplus.ca) for a more complete discussion of such risk factors and their potential effects.*
