Management's Responsibility for the condensed consolidated interim financial statements

The condensed consolidated interim financial statements of Everton Resources Inc. are the responsibility of the Board of Directors. Management has developed and is maintaining a system of internal controls to obtain reasonable assurance that the Company's assets are safeguarded, transactions are authorized and financial information is reliable.

The condensed consolidated interim financial statements have been prepared by management, on behalf of the Board of directors, in accordance with the accounting policies disclosed in the notes to these financial statements. Where necessary management has made informed judgements and estimates in accounting for transactions which were not complete at the financial position date. In the opinion of management, the unaudited condensed consolidated interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Financial Reporting Standards.

Established processes are in place to provide management with sufficient knowledge to support it in its representations in exercising reasonable diligence that: i) the consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by, the consolidated financial statements, and: ii) the consolidated financial statements fairly present, in all material respects the financial condition, results of operations and cash flows of the Company as at the date of and for the periods presented by the consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the condensed consolidated interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the condensed consolidated interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the condensed consolidated interim financial statements together with other financial information of the Company for issuance to shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Notes to the condensed consolidated interim financial statements
(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Everton Resources Inc. (“Everton”, or the “Company”) was incorporated under the Business Corporations Act (Alberta) on November 7, 1996 and commenced operations on December 19, 1996. In November 2002, the Company commenced its current nature of operations which involves the acquisition, exploration, and evaluation of mineral resource properties. Everton and its subsidiaries (the “Company”) are in the exploration stage and do not derive any revenue from the exploration and evaluation of their properties. The address of the Company’s corporate office is 5460 Canotek Road, Suite 99, Ottawa, Ontario, Canada, K1J9G9. The Company’s common shares are listed for trading on the TSX Venture Exchange (“TSX-V”) under the symbol “EVR”.

During the three months ended July 31, 2017, the Company incurred a loss of \$120,456 and, as at July 31, 2017, had working capital of \$26,961 and an accumulated deficit of \$38,969,951. To date the Company has not earned any revenues and is considered to be in the exploration stage. The Company’s operations have been primarily funded from equity financings which are dependent upon many external factors and may be difficult to impossible to secure or raise when required. The Company will continue to require additional funding to maintain its ongoing levels of operations and administration, retire its indebtedness as they come due, and meet its payment commitments and property maintenance payments for the next fiscal year. While the Company has been successful in securing financings in the past, there can be no assurance that it will be able to do so in the future.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business operations for the foreseeable future. Realization values may be substantially different from carrying values as shown and these condensed consolidated interim financial statements do not give effect to the adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company’s ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to develop properties and to establish future profitable production.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting* (“IAS 34”), as issued by the International Accounting Standards Board (“IASB”), and its interpretations, using accounting policies consistent with International Financial Reporting Standards (“IFRS”). The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended October 31, 2016, which have been prepared in accordance with IFRS as issued by the IASB and interpretations of the IFRS Interpretations Committee (“IFRIC”). The accounting policies followed in these condensed consolidated interim financial statements are consistent with those applied in the Company’s consolidated financial statements for the year ended October 31, 2016.

(b) Basis of measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for the available-for-sale financial instruments and financial assets at fair value through profit or loss which are measured at fair value, and are expressed in Canadian dollars.

Everton Resources Inc.

Notes to the condensed consolidated interim financial statements
(Expressed in Canadian dollars)

3. SUBSIDIARIES

These condensed consolidated interim financial statements incorporate the financial statements of the Company and its subsidiaries. Everton Resources Inc. is the ultimate parent company of the consolidated group. Subsidiaries are consolidated from the date on which the Company obtains control and continue to be consolidated until control ceases. Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. The financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

Where the ownership of a subsidiary is less than 100%, and a non-controlling interest thus exists, any losses of that subsidiary are attributed to the non-controlling interests even if that results in a deficit. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

An associate is an entity in which the Company or its subsidiaries have significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in, without having control over, the financial and operating policy decisions of the entity, and generally exists where between 20% and 50% of the voting power of the entity is held by the Company. As at July 31, 2017, and October 31, 2016, the Company did not have any associates.

The subsidiaries of the Company at July 31, 2017, and their principal activities are described below:

Name of subsidiary	Place of incorporation	Ownership interest	Principal activity
Everton Minera Dominicana S.A.	Dominican Republic	100%	Exploration Company
Pan Caribbean Metals Inc.	British Virgin Islands	100%	Holding Company
Dominican Metals Inc.	British Virgin Islands	100%	Holding Company
Everton Dominicana (2014) Inc.	Canada	100%	Exploration Company
Linear Gold Caribe S.A.	Dominican Republic	100%	Exploration Company
Hays Lake Gold Inc.	Canada	100%	Exploration Company

Everton Dominicana (2014) Inc., Linear Gold Caribe S.A. and Hays Lake Gold Inc. remain inactive exploration companies.

4. Cash

On June 24, 2016 and July 14, 2016, the Company completed two private placements that included proceeds of \$365,500 from the issuance of flow through shares. These proceeds are subject to the tax rules which require the money to be spent on eligible exploration expenditures (Note 18).

For the three and nine months ended July 31, 2017, the Company incurred \$211,507 of eligible expenditures and is required to incur an additional \$153,993 by December 31, 2017.

On February 6, 2017 and February 21, 2017, the Company completed two tranches of a private placement that included proceeds of \$ 1,103,250 from the issuance of 22,065,000 units of the Company. Each Unit consisted of one common share and one-half common share purchase warrant. Finder's fees of \$64,900 were paid in connection with this financing.

As at July 31, 2017, included in the Company's cash balance of \$295,574 (2016 - \$272,204) is \$153,993 (2016 - \$Nil) of cash reserved for eligible flow through expenditures.

5. MARKETABLE SECURITIES AND WARRANTS

All of the listed securities held by Everton, with the exception of the common shares and warrants in Majescor Resources Inc. ("Majescor"), were acquired through prior year's property option and sales transactions with the below listed companies. The Company does not normally purchase shares of publicly listed companies on the open market.

The following securities were included in marketable securities and warrants:

	July 31, 2017 Fair value	October 31, 2016 Fair value
	\$	\$
Automotive Finco Corp. - 1,666 common shares	4,165	3,000

6. MINERAL EXPLORATION PROPERTIES AND EXPLORATION AND EVALUATION ASSETS(Cont'd)

b) Cabirma del Cerro ("CdC") (Formerly Ampliación Pueblo Viejo, La Lechoza), Dominican Republic

During the year ended October 31, 2014, the Company wrote down the cost of La Lechoza concessions to \$Nil as there is no exploration program scheduled by management for this project. The Company has retained these concessions and fully intends to re-evaluate exploration activities on them in the future.

During the three and nine month periods ended July 31, 2017, the Company incurred exploration and evaluation expenditures of \$4,209 and \$12,996 (2016 - \$Nil and \$Nil). During the nine month period ending July 31, 2017, the Company reclassified (\$52,363) exploration expenses from prior years.

c) Arroyo Carpintero (Formerly Ponton), Dominican Republic

Everton holds 100% of the Arroyo Carpintero concession.

During the year ended October 31, 2015, a 100% impairment was taken on this property.

During the three and nine month periods ended July 31, 2017, the Company incurred exploration and evaluation expenditures of \$60,661 and \$500,599 (2016 - \$Nil and \$Nil).

d) Other

Other properties consist of several eastern Dominican Republic concessions under renewal. As of July 31, 2017, the Company incurred \$Nil (2016 - \$Nil) in write-downs on other properties.

Canada, Quebec

e) Opinaca

On December 9, 2004, Everton signed an option agreement with Azimut Exploration ("Azimut") to initially earn a 50% undivided interest in the Opinaca property by incurring a minimum \$2,800,000 in exploration work and making cash payments totaling \$180,000 over 5 years. Everton has earned 50% of the property to date.

On November 15, 2011 (amended on November 1, 2013), the Company and Azimut executed an option agreement with Hecla Mining Company, formerly Aurizon Mines Ltd., ("Hecla") whereby Hecla can acquire an initial 50% ownership interest in the Opinaca property (leaving each of Everton and Azimut with 25%), in which Everton and Azimut currently each hold an undivided 50% interest, by making total cash payments of \$580,000, (\$290,000 payable to Everton), and incurring exploration expenditures of \$6,000,000, including a minimum of 3,800 metres of drilling prior to November 15, 2013 and 1,200 metres of drilling prior to November 15, 2014. Hecla may then elect to earn an additional interest of 10%, for a total interest of 60% (leaving each of Everton and Azimut with 20%), by making cash payments totaling \$300,000 (\$150,000 payable to Everton) over three years from the election date, incurring exploration expenditures totaling \$3,000,000 over three years from the election date, and delivering an independent pre-feasibility study on or before the fourth anniversary of the second option.

Hecla will be the operator during the earn-in period for the initial 50% interest in the property after which a joint venture will be formed.

The cash payments in the table relate to the cash payments to be made by Hecla to Everton and do not include cash payments made by Hecla to Azimut.

During the three and nine month periods ended July 31, 2017, the Company incurred exploration and evaluation expenditures of \$Nil and \$7,874 (2016 - \$Nil and \$Nil). During the three and nine month periods ended July 31, 2017, the Company paid \$Nil and \$17,004 (2016 - \$Nil and \$Nil) in renewal of licenses and permits.

f) Detour Lake

On April 27, 2016, the Company staked certain claims in the James Bay Region of Quebec.

Everton has purchased a list of targets on the areas of interest by issuing 1,700,000 common shares valued at \$76,000 based on the trading price of the shares on the date of the transaction and by paying \$100,000 to Diagnos Inc. ("Diagnos"), as well as, a 2% royalty on the net return of the smelting revenues associated with the minerals and concentrates to be extracted from the concessions identified by Diagnos. The purchase agreement stipulates that Everton may, at any time, reduce the royalty from 2% to 1% by paying \$1,000,000.

During the three and nine month periods ended July 31, 2017, the Company incurred exploration and evaluation expenditures of three month period \$7,185 and of nine month period \$7,185 (2016 - \$Nil and \$Nil).

g) Wildcat

On May 20, 2015, Hecla purchased Everton's remaining interest in the Wildcat property for \$400,000. As part of the transaction Everton issued Hecla 2,000,000 common shares to retain a 1% NSR. Hecla reserved the right to purchase one half (1/2) of the NSR by paying Everton the sum of \$500,000. The NSR was valued at \$30,000 based on the fair value of the Company's common shares on the day of the sale. During the year ended October 31, 2015, the value of the NSR was considered fully impaired and an impairment of royalty was recorded in the consolidated statement of loss. A loss of \$1,214,355, was recorded in the consolidated statement of loss related to the disposal of the Wildcat property in the year ended October 31, 2015 (2014 - \$Nil).

g) Wildcat (cont'd)

On August 11, 2016, Helca Quebec transferred the Wildcat 1 and 2 properties back to Everton. All the rights, titles, and interests in the property have been transferred to Everton in consideration of a 1.0% NSR on the properties. Everton reserves the right to purchase one half (1/2) of one percent (1%) of the NSR royalty, by paying to Hecla the sum of \$500,000.

During the year ended October 31, 2016, the Company had an impairment expense of \$34,640 on this property.

Canada, Ontario

h) Blue Sky Jackpot Lithium Property

On May 17, 2016, the Company entered into an option agreement with an arm's length vendor to acquire a 100% interest in the Blue Sky Jackpot lithium property in the Thunder Bay Mining District of Ontario.

The Agreement also requires an aggregate issuance of 2,000,000 common shares of Everton over a two-year period and maintenance of all of the claims in good standing for the duration of the Agreement. Everton will issue the common shares as follows: 400,000 common shares on signing and TSX Venture Exchange approval of the Agreement (issued and valued at \$28,000 based on the trading price of the shares on the date of the transaction), 600,000 common shares on the first anniversary thereof and 1,000,000 common shares on the second anniversary thereof.

Under the terms of the option to purchase agreement, the Blue Sky Jackpot lithium property is subject to a 2% NSR, 50% of which can be purchased by Everton for \$1,000,000.

As at October 31, 2016, the Company had an impairment expense of \$36,615 (2016 - \$Nil) on this property.

i) Other

7. FLOW THROUGH SHARE PREMIUM LIABILITY

The Company periodically issues flow through shares, to fund Canadian exploration programs, with any resulting flow through premium recorded as a flow through share premium liability. The liability is subsequently reduced when the required exploration expenditures are made, and accordingly, a recovery of flow through premium is recorded as income. Based on Canadian tax law, the Company is required to spend the amounts raised on eligible exploration expenditures by the end of the year subsequent to the date the expenditures were renounced (Note 4).

11. STOCK OPTION PLAN

Under the terms of the Company's stock option plan (the "Plan"), all options are granted with an exercise price not lower than the closing market price on the day immediately preceding the date of grant. The term of options is determined by the Board of Directors with a maximum term of 5 years. These options may be granted to the Company's employees, officers, directors, and persons providing ongoing services to the Company, and are subject to regulatory approval.

On August 16, 2016 the shareholders approved an amendment to the stock option plan. Under the "rolling" 10% Stock Option Plan, the number of common shares which may be reserved under the Plan is limited to 10% of the aggregate number of common shares of the Company issued and outstanding, as the case may be.

Options are cancelled 12 months following the termination of the optionee's employment, office, directorship, or consulting arrangement. Vesting of options is made at the discretion of the Board of Directors at the time the options are granted. A summary of changes of the Company's options is presented below:

	July 31, 2017		October 31, 2016	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

11. STOCK OPTION PLAN (Cont'd)

During the nine months ended July 31, 2017, the Company realized \$13,520 (2016 - \$60,500) of stock based compensation expense. The stock options have a Black-Scholes option pricing value of \$13,520 based on the assumptions below:

	<u>February 24, 2017</u>
Average share price at date of grant	\$0.07
Expected dividend yield	0.00%
Expected share price volatility	189%
Risk-free interest rate	0.96%
Expected life of options	5 years
Stock options granted	200,000
Black-Scholes fair value	\$0.0676
Vesting	Immediately

In the nine month period ended July 31, 2017, the Company recorded charges to the statement of comprehensive loss using the Black-Scholes fair valuation option pricing model. The valuation was dependent on a number of estimates, including the risk-free interest rate, the level of stock volatility, together with an estimate of the level of forfeiture. The level of stock volatility is calculated with reference to historic traded daily closing share prices at the date of issuance.

Option pricing models require the inputs of highly subjective assumptions including the expected price volatility. Changes to the subjective input assumptions can materially affect the fair value estimate and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the Company's share options.

The underlying expected stock price volatility is based on historical data of the Company's shares over a period the same length as the life of the stock options issued. The risk-free interest rate is based on the yield of a Government of Canada benchmark bond in effect at the time of grant with an expiry commensurate with the expected life of the options.

The following table shows the stock options which were outstanding and exercisable as at July 31, 2017:

Outstanding			Exercisable

13. SEGMENT REPORTING

The Company has one reportable operating segment being that of acquisition and exploration and evaluation activities. The Company has the following noncurrent assets located in the Dominican Republic and in Canada:

	July 31, 2017	October 31, 2016
	\$	\$
Canada		
Mineral exploration properties	346,439	346,439

Exploration and evaluation assets	8,195,357	7,734,124
Total	10,664,758	10,203,525

All Dominican Republic exploration mineral claims are held by the Company's Dominican Republic subsidiaries with all costs incurred in the subsidiaries capitalized to exploration and evaluation properties.

14. RISK MANAGEMENT AND CAPITAL MANAGEMENT

Risk management

The nature of the exploration process exposes the Company to risks associated with fluctuations in commodity prices and foreign currency exchange rates. To date, the Company has not used derivative financial instruments to manage these risks. Other risks include credit risk, liquidity risk, interest rate risk, and political risk. Where material, these risks are reviewed and monitored by the Board of Directors.

(i) Credit risk

Credit risk is the risk of an unexpected loss if a party to its financial instruments fails to meet its contractual obligations. The Company's financial assets exposed to credit risk are primarily composed of cash and accounts receivable, and maximum exposure is equal to the carrying values of these assets. The Company's cash is held at several large financial institutions. It is management's opinion that the Company is not exposed to significant credit risk. None of the Company's financial assets are secured by collateral or other credit enhancements.

14. RISK MANAGEMENT AND CAPITAL MANAGEMENT (Cont'd)

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages its liquidity needs by carefully monitoring cash outflows due in day-to-day business. The Company's working capital surplus, excluding marketable securities, totals \$26,961 as at July 31, 2017 (deficit - \$222,886 as at July 31, 2016), including \$295,574 in cash as at July 31, 2017 (\$629,756 as at July 31, 2016) and current liabilities totalling \$330,079 (\$525,904 as at July 31, 2016), excluding the flow through premium liability of \$16,682 (\$83,738 as at July 31, 2016). The Company's financial liabilities are all due within 12 months. The Company anticipates having sufficient funds to discharge its current liabilities.

All current liabilities are due on demand.

(iii) Foreign currency risk

The Company has exposure to financial risk arising from fluctuations in exchange rates (US dollars "US\$" and Dominican Peso "DOP") and the degree of volatility of these rates. The Company currently does not have significant future commitments denominated in foreign currencies. The Company does not use forward exchange contracts to reduce exposure to foreign currency risk. As at July 31, 2017 the Company did not hold significant assets or liabilities in foreign currencies and, as a result, a reasonably possible change in US dollars or DOP's with all other variables held constant would not have a material impact on the net loss.

(iv) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has not entered into any derivative contracts to manage this risk. The Company's policy as it relates to its cash balances is to invest excess cash in highly liquid, low-risk, short-term interest-bearing investments (such as investment savings accounts and guaranteed investment certificates) with maturities of 360 days or less from the original date of acquisition. The Company has limited exposure to financial risk arising from fluctuations in interest rates earned on cash and short-term investments and the volatility of these rates. As at July 31, 2017, cash totaled \$295,574 (\$629,756 as at July 31, 2016) and interest income derived from these investments during the three and nine months ended July 31, 2017 was \$126 and \$710 (July 31, 2016 - \$119 and \$337) respectively. A reasonably possible change in interest rates with all other variables held constant would not have a material impact on the net loss.

(v) Market risk

The Company holds shares and warrants of publicly listed companies in the mineral exploration industry. The Company is exposed to market risk in the value of these shares and warrants and unfavourable market conditions could result in the disposal at less than their value at July 31, 2017. At July 31, 2017, the value of these publicly listed shares is \$25,440 (\$32,300 as at July 31, 2016). At July 31, 2017, had the bid price for these shares been 10% lower, the comprehensive income for the period would have been approximately \$2,544 lower (\$3,230 at July 31, 2016). Conversely, had the bid price been 10% higher, the comprehensive income for the period would have been approximately \$2,544 higher (\$3,230 at July 31, 2016).

Investments in common shares of publicly listed companies are subject to fluctuation as a result of market volatility. As such, the fair value of the investments may increase or decrease materially in subsequent periods resulting in material gains or losses in other comprehensive income (loss) or in profit or loss.

14. RISK MANAGEMENT AND CAPITAL MANAGEMENT (Cont'd)

(vi) Political risk

The Company carries out some of its exploration activities in the Dominican Republic. These activities may be subject to political, economic, or other risks that could influence the Company's exploration activities and future financial situation.

(vii) Commodity price risk

The Company is exposed to price risk with respect to commodity and equity prices. The Company closely monitors commodity prices, as it relates to silver and gold, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company. Commodity price risk is remote as the Company is currently not a producing entity.

Capital management

The Company manages its capital to ensure its ability to continue as a going concern in order to maintain its properties in good standing, support normal operating requirements, continue the exploration and evaluation of its mineral properties and support any expansionary plans, and to provide an adequate return to its shareholders. In the management of capital, the Company includes the components of shareholders' equity.

As long as the Company is exploring and evaluating its mining properties, it is not the intention of the Company to contract additional debt obligations to finance its work programs. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or acquire or dispose of assets. In order to facilitate the management of its capital requirements, management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company prepares annual budgets that are updated as necessary depending on various factors including successful capital deployment and general industry conditions.

As at July 31, 2017, the Company's optioned properties are in the exploration and evaluation stage, as such, the Company is dependent on external financing to fund its activities. In order to carry out planned exploration and evaluation and pay for administrative costs, the Company will be required to raise additional financing. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

There were no significant changes to capital management policies of the Company during the periods ended July 31, 2017, and 2016.

The Company and its subsidiaries are not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months.

15. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, marketable securities and warrants, accounts receivable and accounts payable and accrued liabilities. The fair value of cash, accounts receivable and accounts payable and accrued liabilities approximate their carrying value due to their short-term nature.

IFRS 7 Financial Instruments: Disclosure requires classification of fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The levels of the fair value hierarchy are defined as follows:

Level 1 – includes unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – includes inputs other than quoted prices in level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – includes inputs for the asset or liability that are not based on observable market data

The fair value of marketable securities are classified as level 1 and warrants are classified as level 2 and valued using the Black-Scholes option pricing model. There were no transfers between levels during the periods ended July 31, 2017 and 2016.

The classification of financial instruments is as follows:

Transactions with related companies

Everton entered into the following transactions with related companies:

- Under an agreement, which was signed on March 25, 2013 between Majescor Resources Inc. and Everton, the Company reimbursed the cost of shared salaries and benefits, rent and office expenses paid by Everton (which shares common management). During the three and nine months ended July 31, 2017, Majescor reimbursed Everton \$6,771 and \$16,611 of shared costs (2016 - \$6,789 and \$15,713).
- Tetra Bio-Pharma Inc. (“Tetra”) (formerly GrowPros Cannabis Ventures Inc.) reimburses Everton for the cost of shared salaries and benefits, rent and office expenses paid by Everton (which shares common management) on a month by month basis. During the three and nine months ended July 31, 2017, Tetra reimbursed Everton \$5 and \$6,181 of shared costs (2016 - \$6,511 and \$15,516). During the nine month period ended July 31, 2017, Everton ceased sharing expenses with Tetra Bio-Pharma Inc.

17. CONTINGENCIES AND COMMITMENTS

The Company’s operations are governed by governmental laws and regulations regarding environmental protection. These laws and regulations are continually changing and generally becoming more restrictive. At the present time, and to the best knowledge of its management, the Company is in conformity with the laws and regulations in effect. Restoration costs will be accrued in the unaudited consolidated interim financial statements only when they will be reasonably estimated and will be charged to the exploration and evaluation assets at the time.

17. CONTINGENCIES AND COMMITMENTS(Cont'd)

Flow through expenditure commitment

The Company is partially financed through the issuance of flow-through shares and, according to tax rules regarding this type of financing, the Company is engaged in realizing mining exploration work.

These tax rules also set deadlines for carrying out the exploration work which must be performed no later than the earlier of the following dates:

- Two years following the flow-through placements;
- One year after the Company has renounced the tax deductions relating to the exploration work.

However, there is no guarantee that the Company's exploration expenses will qualify as Canadian exploration expenses even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

During the year ended October 31, 2016, the Company raised \$365,500 through flow-through placements. Management is required to fulfill its commitment within the stipulated deadline of December 31, 2017. As of July 31, 2017, Management has incurred \$211,507 of this commitment leaving \$153,993 to be spent by December 31, 2017.

The Company has indemnified the subscribers of current and previous flow-through share offerings against any tax related amounts that become payable by the shareholder as a result of the Company not meeting its expenditure commitments.

Management commitments

The Company is party to certain management and employee contracts. These contracts contain clauses requiring additional payments to be made upon the occurrence of certain events such as change of control. As the triggering events have not taken place, the contingent payments have not been reflected in these unaudited consolidated interim financial statements. Minimum management contract commitments remaining under these contracts are approximately \$120,000, due within one year.

Lease Commitments

On July 1, 2017, the Company entered into twelve-month lease agreement to rent office space for the Company's head office in Ottawa. The lease obligation is \$17,483.

During the three and nine months ended July 31, 2017, the Company made lease payments of \$2,623 and \$6,380 (July 31, 2016 - \$379 and \$1,885) net of recoveries from related companies sharing the office.

Promissory Note

Everton issued Primero Mining Corp. ("Primero") a promissory note equal to the greater of \$5 million or the value of 1,000,000 common shares of Everton payable in cash. The promissory note is subject to completion of a National Instrument 43-101 ("NI 43-101") compliant measured and indicated resource estimate on the concessions in the Dominican Republic of a minimum 1 million ounces of gold equivalent ("AuEq") (at an average grade of 2.5 g/t AuEq or higher for APV and 1.5 g/t AuEq or higher for Ponton and La Cueva) or actual gold production from the concessions in the Dominican Republic plus an NI 43-101 compliant measured and indicated resource estimate (at an average grade of 2.5 g/t AuEq or higher for APV and 1.5 g/t AuEq or higher for Ponton and La Cueva) exceeding 1 million ounces of gold equivalent

17. CONTINGENCIES AND COMMITMENTS(Cont'd)

Contingently issuable shares

As part of the acquisition of 2342802 Ontario Inc. (now Everton Dominicana (2014) Inc.), Everton has reserved a total of 4,000,000 common shares, 2,000,000 of which may be issued to the shareholders of 2342802 Ontario Inc., on a pro-rata basis, on September 28, 2016 and a further 2,000,000 on March 28, 2017, or earlier if the concessions are granted prior to those dates. The total number of reserved shares to be issued is reduced in the event that a concession is denied or Everton opts to drop the concession. As there is no certainty that the concessions will be granted and since Everton can forfeit the concessions and not be required to issue these shares, no amount has been recorded related to the 4,000,000 contingently issuable common shares. The shares will be recognized as mineral property acquisition costs and attributed to the properties acquired when, and if, the concessions are granted.

As at July 31, 2017, none of the concessions have been granted and as a result none of the contingent shares have been issued. On September 28, 2016, Everton notified the former shareholders of 2342802 Ontario Inc. that it would like to extend the contingent share deadlines to reflect the delays in getting concessions renewed.
