Material facts

There are no material facts about the securities being distributed that have not been disclosed in this offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

What are the business objectives that we expect to accomplish using the available funds?

The Company intends to use a portion of the proceeds from the Offering for exploration drilling on the Viogor-Zanik Project in eastern Bosnia and Herzegovina. Assuming the completion of the minimum amount of the Offering, the Company's priority is to complete a 1,000 m Phase III drill program on the Viogor-Zanik Project in 2025 with an estimated cost of \$268,605. Assuming the completion of the maximum amount of the Offering, the Company alternatively intends to complete a 2,000 m Phase III drill program on the Viogor-Zanik Project in 2025 with an estimated cost of \$465,768.

PART 3 USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

		Assuming Minimum Offering	Assuming Maximum Offering
A	Amount to be raised by this Offering	\$750,000	\$1,117,495
B	Selling commissions and fees	\$52,500	\$78,225
C	Estimated offering costs (e.g., legal, accounting, audit)	\$10,000	\$10,000
D	Net proceeds of offering: $D = A - (B+C)$	\$687,500	\$1,029,270
E	Working capital as at most recent month end (deficiency)	\$5,000	\$5,000
F	Additional sources of funding	\$0	\$0
G	Total available funds: $G = D+E+F$	\$692,500	\$1,034,270

How will we use the available funds?

Description of intended use of available funds listed in order of priority	Assuming Minimum Offering	Assuming Maximum Offering
1,000 or 2,000 m Phase III drill program in Bosnia	\$268,605	\$465,768
Digital marketing	\$130,000	\$200,000
General and administrative expenses	\$293,895	\$368,502
Total	\$692,500	\$1,034,270

The above noted allocation and anticipated timing represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from

that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan.

The most recent audited annual financial statements and interim financial report of the Company included a going-concern note. The Company is still in the exploration stage and the Company has not yet generated positive cash flows from its operating activities, which may cast doubt on the Company's ability to continue as a going concern. The Offering is intended to permit the Company to continue to explore its properties and conduct additional drilling and is not expected to affect the decision to include a going-concern note in the next annual financial statements of the Company.

How have we used the other funds we have raised in the past 12 months?
