

Canter Engages Sunstone Environmental Solutions to Finalize Amended Notice of Intent Submission with Bureau of Land Management

Vancouver, British Columbia--(Newsfile Corp. - February 13, 2025) - Canter Resources Corp. (CSE: CRC) (OTC Pink: CNRCF) (FSE: 6O1) ("**Canter**" or the "**Company**") is pleased to announce that it has engaged Sunstone Environmental Solutions ("**Sunstone**"), a Nevada-based environmental consulting firm, to assist with the submission of an amended Notice of Intent (NOI) to the Bureau of Land Management (BLM) for its Columbus Lithium-Boron Project ("**Columbus**" or the "**Project**"). This amendment corresponds to additional drill sites that have been strategically defined through Canter's comprehensive 3D modeling work (see press release dated January 3, 2025).

The engagement of Sunstone reflects Canter's commitment to maintaining environmental compliance and operational efficiency as the Company advances its exploration activities. Sunstone will also provide support for any additional permitting requirements that may arise as the Project progresses.

"Shallow drilling, project consolidation and updated 3D modelling have delineated additional high-priority targets that were not previously identified or permitted," commented President & CEO, Joness Lang. "These new targets represent a significant opportunity to enhance our understanding of the mineralized zones and resource potential at Columbus. As a result, an amendment to the original NOI is underway to accommodate these newly defined drill sites and ensure regulatory compliance as we move forward with our exploration efforts at Columbus."

About Sunstone Environmental Solutions

Sunstone Environmental Solutions, based in Nevada, is a leader in environmental consulting, specializing in regulatory compliance, permitting, and sustainability support for resource development projects across the United States.

About Canter Resources Corp.

Canter Resources Corp. is a junior mineral exploration company advancing the Columbus Lithium-Boron Project and the Railroad Valley (RV) Lithium-Boron Project in Nevada, USA. The Company is completing a phased drilling approach at Columbus to test highly prospective brine targets at varying depths for lithium-boron enrichment and plans to leverage the Company's critical metals targeting database to generate a portfolio of high-quality projects with the aim of defining mineral resources that support the technology and domestic clean energy supply chains in North America.

FORWARD-LOOKING STATEMENTS

This news release contains "forward-looking statements" within the meaning of applicable securities laws. All statements contained herein that are not clearly historical in nature may constitute forward-looking statements. Generally, such forward-looking information or forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or may contain statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "will continue", "will occur" or "will be achieved". The forward-looking information and forward-looking statements contained herein include, but are not limited to, statements regarding the Company's plans for the Project and the payments related thereto, the issuance of the Consideration Shares and the Company's expected exploration activities.

These statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements to differ materially from those expressed or implied by such statements, including but not limited to: requirements for additional capital; future prices of minerals; changes in general economic conditions; changes in the financial markets and in the demand and market price for commodities; other risks of the mining industry; the inability to obtain any necessary governmental and regulatory approvals; changes in laws, regulations and policies affecting mining operations; hedging practices; and currency fluctuations.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on any forward-looking statements or information. No forward-looking statement can be guaranteed. Except as required by applicable securities laws, forward-looking statements speak only as of the date on which they are made and the Company does not undertake any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.
