Sanu Gold Announces \$10 Million Private Placement led by Montage Gold & the Lundin Family

Not for dissemination in the United States or through U.S. newswires

Vancouver, B.C., March 25, 2025, Sanu Gold Corporation (CSE: SANU; OTCQB: SNGCF) (“Sanu Gold” or the “Company”) is pleased to announce a non-brokered private placement (the “**Placement**”) of up to 35,714,286 common shares (each, a “**Common Share**”) at a price of C\$0.28 per Common Share for aggregate gross proceeds to the Company of up to C\$10,000,000.

Both Montage Gold Corp. (TSXV:MAU; OTCQX: MAUTF) (“**Montage Gold**”) & the Lundin Family and associates (“**Lundin Family**”) have indicated their intention to maintain each of their respective pro rata equity interests in the Company that would result in them holding ownership interests in Sanu of 19.9% and 10%, respectively, following completion of the Placement.

The net proceeds from the Placement will be allocated to further exploration efforts, including ground geophysics and the expansion of drilling programs on the Company’s Daina and Diguifara Gold Exploration Permits in Guinea, West Africa, as well as the Bantabaye Exploration Permit. Additionally, funds may support the acquisition of potential new exploration permits and will provide general working capital for the Company. All securities issued pursuant to the Placement are subject to a four-month and one day hold period under applicable Canadian securities laws.

The Company may pay finders’ fees in connection with the Placement, as permitted by applicable securities laws and the rules of the Canadian Securities Exchange (“**CSE**”). The Placement is subject to the Company’s filing requirements with the CSE and the Company anticipates closing of the Placement as soon as practicable subject to receipt of all necessary regulatory approvals.

Pursuant to existing investor rights agreements between the Company and each of Montage Gold, the Lundin Family and AngloGold Ashanti plc (“**AngloGold Ashanti**”), each of Montage Gold, the Lundin Family and AngloGold Ashanti will be entitled to acquire Common Shares in connection with the Placement on equivalent terms to maintain their pro rata equity interests in the Company.

Certain directors and/or officers of the Company may acquire securities under the Placement. Any such participation would be considered to be a “related party transaction” as defined under Multilateral Instrument 61-101 (“**MI 61-101**”). The Placement will be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of any Common Shares issued to, or the consideration paid, by such persons will exceed 25% of the Company’s market capitalization.

This news release does not constitute an offer to sell or solicitation of an offer to sell any securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About Sanu Gold

Located within the Siguiri Basin, a world class gold district that is host to several operating mines and major new discoveries, Sanu Gold is exploring three high quality gold exploration permits in Guinea, West Africa. The Company has defined multi-kilometer long gold-bearing structures on each of the gold exploration permits, with multiple high-value drill targets and is targeting multi-million ounce gold discoveries. Sanu is operated by a highly experienced team, with successful records of discovery, resource development and mine permitting.
