Trade Mark for MicroCoal™ Granted by US Patent and Trade Mark Office

Vancouver, B.C., Canada - February 19, 2013 - Carbon Friendly Solutions Inc. (CNSX: CFQ) (the "Company" or "Carbon Friendly") is pleased to announce that its wholly owned subsidiary, MicroCoal Inc., has been granted a trademark registration (the "Registration") on MicroCoal™ by the US Patent and Trade Mark Office.

The Service Mark 'MICROCOAL', owned by MicroCoal Inc., is a broad registration, which covers an extensive range of services, including coal purification, coal treatment, and coal cleaning using microwave energy and related process technologies to transform coal and other minerals into higher quality and higher value industrial materials. The Registration is valid for a ten (10) year term and can be renewed for an additional term, at the Company's discretion. Further, the Registration may be expanded to include European countries and Asia.

Slawek Smulewicz, CEO and Director of the Company, states: *"The MicroCoal trademark registration is an integral step in the Company's strategy to market and develop an internationally recognized brand for a patented coal treatment process that increases the economic and environmental value of coal."*

About Carbon Friendly Solutions Inc.:

Carbon Friendly Solutions Inc., through its subsidiaries, is focused on the development of energy efficiency technology, renewable energy, and reforestation projects that have the potential to generate significant revenue. **MicroCoal Inc.** has an internationally patented technology that is expected to improve coal-fired utilities' economic performance by reducing input costs, improving operations and simultaneously reducing their environmental footprint. **Global CO2 Reduction** generates Carbon Offsets from forestry projects that may be transacted through international voluntary markets. **Carbiopel S.A.** aggregates biomass supply and produces biomass fuel pellets for the European market, including large European utilities and independent renewable energy providers, in line with EU renewable energy directives.
