Notice To Reader

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the unaudited condensed interim consolidated financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

These unaudited condensed interim consolidated financial statements were approved by the Board of Directors on May 27, 2014. They have not been reviewed by the Company's auditors.

The accompanying unaudited condensed interim consolidated financial statements have been prepared by and are the responsibility of management. These condensed interim consolidated financial statements are presented on the accrual basis of accounting and accordingly, a precise determination of many assets and liabilities is dependent upon future events. Where necessary, management has made informed judgments and estimates in accounting for these assets and liabilities and for transactions which were not complete at the end of the reporting period. Recognizing that the Company is responsible for both the integrity and objectivity of the financial statements, management is satisfied that these unaudited condensed interim consolidated financial statements have been fairly presented.

ZTEST Electronics Inc.

Notes to Unaudited Condensed Interim Consolidated Financial Statements

(Stated in Canadian Dollars)

March 31, 2014

1. Business of the Company

ZTEST Electronics Inc. ("the Company") amalgamated under the laws of Ontario and carries on business at 523 McNicoll Avenue, Toronto, Ontario designing, developing, and assembling printed circuit boards and other electronic equipment. The Company's shares trade on the Canadian Venture Exchange under the symbol "ZTE".

2. Significant Accounting Policies

Statement of compliance

The Company has prepared these unaudited condensed interim financial statements in accordance with IAS 34, *Interim Financial Reporting*, employing all of the same accounting policies and methods of computation, except as noted under changes in accounting policies, as disclosed in the annual financial statements as at June 30, 2013.

The notes to these unaudited condensed interim consolidated financial statements are intended to provide a description of events and transactions that are significant to an understanding to the changes in the Company's financial position and performance since June 30, 2013. Certain disclosures that appear in the annual financial statements have not been reproduced in these unaudited condensed interim consolidated financial statements and, in this regard only, these unaudited condensed interim financial statements do not conform in all respects to the requirements of IFRS for annual consolidated financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should only be read in conjunction with the annual financial statements as at June 30, 2013.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on May 27, 2014.

Basis of presentation and going concern considerations

These unaudited condensed interim consolidated financial statements have been compiled by management on a historical cost basis using the accrual basis of accounting, except for cash flow information, and in accordance with IFRS applicable to a going concern. The Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and its ability to generate positive cash flow from operations. If the going concern assumption were not appropriate for these condensed interim consolidated financial statements then adjustments would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the statement of financial position classifications used.

Basis of consolidation

These unaudited condensed interim consolidated financial statements include the accounts of the Company as well as the following subsidiaries' assets and liabilities and the revenues and expenses, arising subsequent to the date of acquisition:

Permatech Electronics Corporation (öPECö)	- 100% owned ⁽¹⁾
Northern Cross Minerals Inc.	- 66.7% owned (inactive)

⁽¹⁾ The Company has granted a creditor the right to acquire a 24% interest in PEC (*note 7*).

Changes in accounting policies

Each of the following was adopted July 1, 2013 without impact upon the amounts or disclosures presented in these unaudited condensed interim consolidated financial statements.

IFRS 10, *Consolidated Financial Statements*, replaces the consolidation guidance in IAS 27, *Consolidated and Separate Financial Statements*, and SIC-12, *Consolidation — Special Purpose Entities*, by introducing a single consolidation model for all entities based on control, irrespective of the nature of the investee.

IFRS 13, *Fair Value Measurement*, replaces the guidance on fair value measurement in existing IFRS accounting literature with a single standard. It defines and provides guidance on determining fair value and requires disclosures about fair value measurements, but does not change the requirements regarding which items are measured or disclosed at fair value.

IAS 28, *Investments in Associates and Joint Ventures*, amended in 2011, effective for annual periods beginning on or after January 1, 2013 prescribes the accounting for investments in associates and establishes the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

2. Significant Accounting Policies - continued

Significant accounting judgments and estimates

The preparation of these unaudited condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The significant estimates and judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the annual consolidated financial statements for the year ended June 30, 2013.

Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its non-financial assets with finite lives to determine whether there is any indication that those assets have suffered an impairment loss.

The Company has assessed the assets of all its operating entities and has determined that there is no impairment of its non-financial assets.

3. Inventories

The carrying value of inventory is comprised of:

(e) Share based payment transactions and contributed surplus

The Company has a stock option plan. The aggregate number of common shares reserved for issuance under this plan cannot exceed 20% of the aggregate number of common shares of the Company that are issued and outstanding. The Company has granted options for the purchase of common shares to employees, directors, officers and other service providers. The fair values of stock options granted have been determined using the Black-Scholes model and are added to contributed surplus as follows:

	Mar. 31 2014	June 30 2013
Contributed surplus, beginning of period	\$ 569,452	\$ 485,451

⁽¹⁾ Transactions are with key management personnel. As at March 31, 2014 \$47,960 (June 30, 2013 - \$28,694) was payable to key management personnel and included in accounts payable and accrued liabilities.

11. Income Taxes

Unrecognized Deferred Tax Assets

Deferred income taxes are provided as a result of temporary differences that arise due to the differences between the income tax values and the carrying amount of assets and liabilities. Deferred income tax assets have not been recognized in respect of the following deductible temporary differences:

	Mar. 31 2014	June 30 2013
Share issuance costs	\$ 38,690	\$ 38,690
Intangible assets	43,280	43,280
Property, plant and equipment	331,958	237,640
Resource related expenditures	349,050	349,050
Scientific research and experimental development	1,050,618	1,050,618
Non-capital loss carry forwards	2,280,030	2,280,030
Net capital loss carry forwards	15,592,989	15,592,989

Share issue costs expire from 2014 to 2017. The non-capital loss carry forwards expire from 2027 to 2032. The net capital loss carry forwards may be carried forward indefinitely, but can only be used to reduce capital gains. The remaining deductible temporary differences may be carried forward indefinitely. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the group can utilize the benefits therefrom.

12. Financial risk factors

The Company is exposed in varying degrees to a variety of financial instrument related risks:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is in its accounts receivable. In an effort to mitigate this risk, management actively manages and monitors its receivables and obtains pre-payments where warranted. Bad debt experience has not been significant and it has been determined that no allowance is required as all amounts outstanding are considered collectible.

Concentration of credit risk

Concentration of credit risk arises when a significant portion of the financial assets subject to credit risk arise from a single or limited number of sources. During the current period, one of the Company's customers accounted for more than 20% (27%) of total revenue (2013 ó 1 at 37%). Amounts due from this customer accounted for 2% of the Company's accounts receivable at March 31, 2014 (June 30, 2013 - 24%). The loss of this customer or significant curtailment of purchases by this customer could have a material adverse effect on the Company's results of operations and financial condition. The Company monitors the relationship with this customer closely and ensures that every customer is subject to the same risk management criteria.

Liquidity risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company has financial assets of \$807,326 available to settle current financial liabilities of \$1,531,892. Current financial liabilities include a long-term debt instrument, preferred shares and dividends payable, with an aggregate carrying amount of \$776,792 (June 2013 - \$776,792), which are past due and for which the timing of future cash flows are undetermined. The Company manages its liquidity risk through the management of its capital (*note 13*) which incorporates the continuous monitoring of actual and projected cash flows to ensure that it has sufficient liquidity to meet its operating commitments without incurring unacceptable losses or risking damage to the Company's reputation.

12. Financial risk factors - continued

Market risks

The Company is exposed to currency risk related to accounts receivable and accounts payable denominated in US dollars and the potential for future cash flows to fluctuate because of changes in foreign exchange rates. Currency risk is closely monitored but not actively managed. During the period the Company incurred a loss on foreign exchange in the amount of \$826 (Mar. 2013 ó \$2,897).

Sensitivity to market risks

At March 31, 2014 the Company had US\$46,253 (June 2013 ó US\$131,220) included in accounts receivable. A 5% increase in the value of the Canadian dollar relative to the US dollar would result in a reduction of \$2,588 in future cash inflow.

At March 31, 2014 the Company had US\$177,223 (June 2013 ó US\$186,818) included in accounts payable. A 5% decrease in the value of the Canadian dollar relative to the US dollar would result in an increase of \$9,870 in future cash outflow.

The existence of both accounts receivable and accounts payable denominated in US\$ do not serve as a hedge with respect to currency risk.

Based upon observations of recent market trends management believes that each of these outcomes is possible but most likely exceed the Company's immediate market risk exposures.

13. Capital disclosures

The Company's objective when managing capital is to ensure its ability to meet operating commitments as they become due and to provide return for shareholders. This is achieved by continuously monitoring actual and projected cash flows and making adjustments to capital as necessary. Except for the repayment terms associated with long-term debt instruments, there are no externally imposed capital requirements.

Management includes the following items in its definition of capital:

	Mar. 31 2014	June 30 2013
Long-term debt ⁽¹⁾	\$ 293,233	\$ 123,297
Share Capital	22,343,053	22,330,215
Warrants	80,896	76,677
Contributed surplus	613,819	569,452
Deficit	(22,557,414)	(22,559,823)
Net capital under management	\$ 773,587	\$ 539,818

⁽¹⁾ Excludes long-term debts that are both secured by specific equipment and due to unrelated parties.

14. Selling, general and administrative expenses

Selling, general and administrative expenses are comprised of the following amounts:

	Mar. 31 2014	Mar. 31 2013
Employee and consultant compensation (note 9)	\$ 641,951	\$ 581,998
