FOR IMMEDIATE RELEASE**

ZTEST ANNOUNCES RESIGNATION OF CEO

NORTH YORK, April 11, 2018 - ZTEST Electronics Inc. (“ZTEST” or the “Company”) (CSE - “ZTE”) wishes to announce that Ted Drzazga, President and CEO of the Company, will be resigning as Chairman, President, CEO and a Director of ZTEST effective June 15, 2018. Mr. Drzazga will continue operating the Company’s wholly-owned subsidiary, Permotech Electronics Corp., in the capacity of CEO of Permotech. The Board of Directors wish to thank Mr. Drzazga for his more than 20 years of service to the Company as CEO and look forward to dealing with him in his continuing role at Permotech. The Board of Directors will be embarking upon a search for a new CEO in the near future.

Further to its Press Release of January 31, 2018 relating to the closing of the first tranche of its Financing, the Company did not sell any further WC Units and wishes to advise that the Financing has been terminated.

About ZTEST Electronics Inc.

ZTEST Electronics Inc., through its wholly owned subsidiary Permotech Electronics Corp. (“Permotech”), offers Electronic Manufacturing Services (EMS) to a wide range of customers. Permotech’s offering includes Materials Management, Printed Circuit Board (PCB) Assembly, Testing and Design services. Permotech operates from a 20,000 square foot, ISO 9001:2008 certified facility in North York, Ontario, Canada. The company serves customers in the Medical, Power, Computer, Telecommunications, Wireless, Industrial and Consumer Electronics markets requiring high quality, quick-turnaround, small and medium size production runs. ZTEST also holds a 25.29% equity interest in Conversance Inc. (“Conversance”).

About Conversance Inc.

Conversance, a Waterloo Ont. based private company founded by Mr. Joseph Chen, is focused on developing and marketing proprietary AI supported distributed ledger technologies. Mr. Chen is an electrical engineer with a strong background in radio frequency, digital signal processing, VLSI, complex systems, chemistry and physics. Mr. Chen joined Research In Motion (now BlackBerry) in 1999, becoming a senior member of the office of the Chief Technology Officer ("CTO"), where he was instrumental in many of Blackberry's key telephony innovations and patents. While at BlackBerry, the office of the CTO first began looking into blockchain in 2008. Since leaving Blackberry in 2012, Mr. Chen has focused much of his personal research on the state of the art in machine learning, cryptography and quantum computing, and their implications and applications in digitizing and automating finance, and the protection of personal information and trust in a digital world.
