Vancouver, B.C. – (May 24, 2016) THC BioMed Intl. Ltd. is pleased to announce that our wholly – owned subsidiary, THC BioMed Ltd. has been granted authorization by Health Canada to produce fresh marijuana, Cannabis Oil and Cannabis Resin.

This license allows us to formulate, prepare and present our products. Team THC will work diligently to bring the highest quality products to market within the shortest time frame possible. Products can only be released for sale once Health Canada has granted a sale amendment to its License.

“We now look forward to providing the highest quality products to our customers and bringing value to our shareholders as we work to build a world class Cannabis Company” said John Miller President and CEO, THC BioMed will immediately begin development of a wide range of products including Medical grade Dried cannabis, CBD, THC Oils and Cannabis infused products for topical application.

THC BioMed Ltd. is also pleased to announce it has reached another milestone, by setting the foundation of another subsidiary, Seeds R Us ,focused on establishing a national supply chain for Cannabis genetics. We are now in possession of a diverse selection of seeds, imported from Holland. The imported genetics are listed on our THC BioMed.com website under the Seeds R Us tab and include high CBD and high THC producing strains .Profiling for both genotypes and phenotypes, for each of the 28 strains is currently underway.

THC’s Vision is to be on the leading edge of scientific research and development of products and services related to the medical cannabis industry. Management feels that THC is well positioned to be in the forefront of this rapidly growing industry where our high standard of excellence and our commitment to scientific research and new product and service development.
