THC KISS Cannabis Beverage

THC.CSE

THCBF - OTC

TFHC.F

Vancouver, BC – (April 7, 2020) THC BioMed Intl Ltd. (“**THC BioMed**” or the “**Company**”) is pleased to announce that its new cannabis beverage, THC Kiss, will be available for sale to Medical Patients this week. THC BioMed expects to begin its rollout of THC Kiss to the recreational market over the next few weeks.

THC KISS is a brand new cannabis beverage that is unlike those currently available in either the grey or legal cannabis markets. THC Kiss was developed by THC BioMed using proprietary extraction methods invented by THC BioMed.

“We remain a true cannabis company. We are passionate about cannabis and apply a deep understanding of it in our operations. Our operational procedures have proven successful and we have demonstrated that we have the ability to scale at low cost while producing the finest quality cannabis at a very reasonable cost to the end consumer,” said John Miller, President & CEO of THC BioMed. “The launch of this product is an important milestone for the Company. We continue to fully focus on sustained growth and profitability as we aggressively increase our market share.”

THC Kiss will sell at compassionate pricing for registered medical patients at \$4.20 per 30ml beverage containing 10 mg of THC.

About THC

THC BioMed is a *Cannabis Act* Licensed Producer of medical and recreational cannabis. It is licensed to cultivate and sell dried, extract, edible and topical cannabis. THC BioMed is Canada’s largest supplier of legal cannabis genetics. The Company is on the leading edge of scientific research and the development of products and services related in the medical cannabis industry.
