About Valdor Technology International Inc. (www.valdortech.com)

Valdor is a technology company with two divisions:

1) Valdor Fiber Optics, a fiber optic components company specializing in the design, manufacture and sale of passive fiber optic components, including some that use Valdor proprietary and patented technologies. The company specializes in harsh environment products. In particular Valdor is focused on the roll-out of fibre-to-the-home in North America with a unique and compelling splitter design; the deregulation of the telecom sector in Mexico; and the roll-out of fibre-to-the-home in Latin America;

2) Niagara Streaming Media, a streaming video business that owns four patents and markets the Niagara and GoStream product lines.

Fiber-to-the-home is the future of telephone, television and internet communications and streaming video is the future of television. The Valdor business plan incorporates growth by acquisition. For further information on Valdor’s product lines please visit www.valdor.com.
