Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

1. Nature of operations and going concern

Quaterra Resources Inc. ("Quaterra" or the "Company") is engaged in the exploration and development of its copper properties in Nevada, United States of America. Quaterra is a publicly listed company incorporated in Canada under the *Business Corporations Act* (British Columbia). The Company's shares are listed on the TSX Venture Exchange and the OTCQX. The head office and principal address of the Company are located at 1100 – 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5. The Company's registered and records office is 1200 - 750 West Pender Street, Vancouver, British Columbia, Canada, V6C 2T8

The Company is in the process of exploring its mineral properties and has not yet determined whether its mineral properties contain economically recoverable mineral reserves. The underlying value and the recoverability of the amounts recorded as mineral properties is entirely dependent upon the existence of economically recoverable mineral reserves and the ability of the Company to obtain the necessary funding to complete its exploration and development of its mineral properties. The carrying value of the Company's mineral properties does not reflect current or future values.

The business of mining exploration involves a high degree of risk and there is no assurance that current exploration projects will result in future profitable mining operations. The Company has no source of revenue (other than the potential sale of assets), and has significant cash requirements to meet its administrative overhead, pay its liabilities, and maintain its mineral interests, which cash requirements management believes adequate for the next few years.

The Company incurred a net loss of \$2,262,138 for the six months ended June 30, 2015 (June 30, 2014 – \$1,911,190). As at June 30, 2015, the Company had an accumulated deficit of \$83,488,007 (December 31, 2014 – \$81,225,869) with a working capital surplus of \$4,796,215 (December 31, 2014 – \$3,234,405).

The condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Management believes the Company has sufficient funding available to it for the next twelve months of operations.

2. Basis of presentation and consolidation

These condensed interim financial statements were prepared in accordance with International Accounting Standards 34: *Interim Financial Reporting* on a historical cost basis using the accrual basis of accounting, except for cash flow information and certain financial assets and financial liabilities recorded at fair value, and include the financial statements of the Company and the entities controlled (directly or indirectly) by the Company including *Quaterra Alaska Inc.* and *Singatse Peak Services LLC* – incorporated in the United States of America, *Minera Agua Tierra S.A. de C.V., Minera Stockwork de Plata S.A de C.V. and indirectly 50% of Minera Cerro Gregorio* – all incorporated pursuant to the laws of Mexico, and *Quaterra International Limited* – incorporated pursuant to the laws in the British Virgin Islands. All significant intercompany transactions and balances have been eliminated.

The Company's functional and presentation currency is the United States dollar unless otherwise referenced.

These condensed interim financial statements do not include all of the information required for full annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") and should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2014.

These condensed consolidated interim financial statements were approved by the board of directors for issue on August 13, 2015.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

3. Changes to accounting policies

The significant accounting policies used in preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the Company's audited consolidated financial statements for the year ended December 31, 2014, except for the change in functional currency which is described below. Adoptions of new standards and amendments to existing standards have had no effect on the Company's financial position or financial performance.

Change in functional and reporting currency

Effective January 1, 2015, the Company changed its reporting currency and functional currency from the Canadian dollar (CND) to the United States dollar (USD). The adoption of the US dollar as the unit of measure of the Company's operations reflects the Company's operations in the United States with all contracts and receivables denominated in US dollars. The change in functional currency is required by International Accounting Standards.

Prior to January 1, 2015, the Company reported its annual and quarterly consolidated financial statements with notes in Canadian dollars which also was used as the unit of measure of all foreign and Canadian operations. In making the change in reporting and functional currency, the Company follows the recommendations of the IAS 21 – "The Effects of Changes in Foreign Exchange Rates" which describes the treatment to be adopted when changing functional currency.

In accordance with IAS 21, the effect of a change in functional currency is accounted for prospectively from December 31, 2014. An entity translates all items into the new functional currency using the exchange rate at the date of the change. The resulting translated amounts for non-monetary items are treated at their historical cost.

The change in functional and reporting currency resulted in the following impact on the January 1, 2015, opening consolidated balance sheet (CDN\$1.1608 to US\$1):

	Reported		Change in		Reported
	at		functional		at January
	December		currency		1, 2015, in
	31, 2014 in		from CDN		US \$'s
	CND \$'s		to US \$'s		
Total assets	43,920,079		(6,082,931)		37,837,148
Total liabilities	2,333,156		(323,142)		2,010,014
Equity	\$ 41,586,923	\$	(5,759,789)	\$	35,827,134

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

4. Marketable securities

The fair value of marketable securities, determined by reference to closing quoted share prices at each reporting date, was as follows:

	Number of		Acc	e 30, 2015 umulated inrealized				Acc	mber 31, 201 umulated inrealized	14		
	shares	Cost		losses	Carrying value	e	Cost		losses	Carrying	g val	lue
Redtail	66,667	\$ 33,483	\$	(33,483)	\$	-	\$ 33,483	\$	(33,483)		\$	-
Auramex	100,000	34,460		(34,460)		-	34,460		(34,460)			
		\$ 67,943	\$	(67,943)	\$	-	\$ 67,943	\$	(67,943)		\$	-

During the year ended December 31, 2014, management made the assessment that its investments in Redtail Metals Corp. ("Redtail") and Auramex Resource Corp. ("Auramex") had experienced a prolonged decline in their fair values. Accordingly, an impairment of \$3,589 was recognized in net loss. No activity was recognized in the six months ended June 30, 2015.

The Company is in the business of exploring and developing its copper assets in the State of Nevada. Exploration programs are carried out through the Company's management expertise and the use of consultants and contractors. Continuation of these programs is dependent on the Company's ability to raise additional funds from the market, the continuing participation of its exploration partners and sale of non-Yerington assets.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

On June 16, 2014, the Company entered into a membership interest option agreement (the "Option Agreement") with Freeport-McMoRan Nevada LLC ("Freeport Nevada") which sets out terms for exploration of the Company's copper properties in and around Yerington, Nevada. These include MacArthur (Note 6.a), Yerington (Note 6.b), Bear (Note 6.c) and Wassuk (Note 6.d). By August 11, 2014, the Company had transferred all its Yerington copper properties (i.e. MacArthur, Yerington, Bear and Wassuk) to its wholly-owned subsidiary Singatse Peak Services LLC ("SPS"). Since June 2014, the Company received \$4,025,000 from Freeport Nevada in accordance with the Option Agreement. The terms of the Option Agreement were announced in a press release on June 16, 2014, a copy of which is available on SEDAR at www.sedar.com.

Under the Option Agreement, Freeport Nevada has the right to earn an initial 55% interest in SPS by making option payments which SPS intends to use to complete three staged investigation and work programs totaling \$40,750,000 in project funding, starting in June 2014. During these stages, Freeport Nevada will make option payments for SPS to use for property maintenance, general adminstration ("G&A") expenses, environmental compliance and, in later stages exploration. Freeport can earn a further 20% interest in SPS (increasing its holding to 75%) by electing to spend a further \$97,850,000, or by funding SPS to complete a feasibility study, whichever comes first.

In the first 12-month stage of the Option Agreement ("Stage 1"), Freeport Nevada made option payments to SPS of \$2,500,000 which SPS has used for due diligence of land, water and mineral rights, and land maintenance, environmental compliance and G&A expenses.

On June 15, 2015, the Company announced that Freeport Nevada had agreed to Stage 2 where it committed to option payments of \$7,150,000 over the ensuing post-Stage 1 12-month period which SPS will use for exploration of the property, property maintenance costs, G&A expenses and environmental compliance. During the 24-month third stage of the Option Agreement ("Stage 3"), Freeport Nevada may make option payments of up to \$31,100,000 that will used by SPS for exploration of the property, property maintenance costs, G&A expenses, and environmental compliance. If Freeport Nevada completes the Stage 3 funding it will have invested approximately \$40,750,000 in the Yerington Project and will have earned the right to own a 55% interest in SPS. Expenditures have been revised marginally from earlier amounts disclosed in June 16, 2014, and June 15, 2015, press releases to address changes in property maintenance costs at Yerington.

If Freeport Nevada chooses to proceed beyond Stage 3, it can elect to fund a further \$97,850,000, or fund the costs of completion of a feasibility study, to earn an additional 20% interest for a total 75% interest in SPS (the Additional Sole Funding). Alternatively, Freeport Nevada can choose to fund with Quaterra, proportional to their 55% and 45% working interests. If Freeport completes the Additional Sole Funding, Quaterra may elect to fund 25% of project expenditures or transfer an additional 5% interest to Freeport in return for Freeport Nevada carrying the first \$50,000,000 of Quaterra's proportionate share of funding which is repayable from 90% of Quaterra's project proceeds.

At any time when the parties are proportionally funding their share of costs, and before an affirmative decision to begin production, a non-funding party will suffer ordinary dilution. Should either party's interest fall below 10%, it will be converted into a 1% net smelter royalty ("NSR") royalty. After a production decision, a non-funding party will dilute to a 1% NSR royalty.

a) MacArthur Property, Nevada

Pursuant to an agreement dated September 13, 2005, and subsequently amended, with North Exploration LLC, the Company acquired the right to earn an interest in certain unpatented mining claims covering the former MacArthur copper-oxide mine, in the Yerington Mining District of Lyon County, Nevada. The Company elected to acquire the property by making staged payments totaling \$2,207,000. As of March 31, 2015, all payments have been made and the property is 100% owned by the Company.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

The property is subject to a 2% NSR which may be reduced to a 1% NSR royalty in consideration for a \$1,000,000 payment.

b) Yerington Property, Nevada

On April 27, 2011, the Company completed the acquisition of the Yerington property after more than three years of legal and environmental due diligence. The purchase price was \$500,000 cash, 250,000 of the Company's common shares and a 2% NSR royalty capped at \$7.5 million on commencement of commercial production.

The Yerington property is a historic mining site formerly owned and operated by the Anaconda Company, Atlantic Richfield Company ("ARC") and Arimetco. The property has a history of environmental releases, which are outlined in an environmental site assessment undertaken for the Company by the Chambers Group and subsequently updated by SRK Consulting. The Yerington mine site is a *Comprehensive Environmental Response Compensation and Liability Act* ("CERLA") site, but has not been listed on the National Priorities List.

Prior to closing on the property, the Company obtained Bona Fide Prospective Purchaser ("BFPP") Reasonable Steps letters from the US Environmental Protection Agency ("EPA"), the State of Nevada Department of Environmental Protection ("NDEP") and the Bureau of Land Management ("BLM"). These letters define reasonable steps that the Company could take to retain its status as a BFPP.

During the year ended December 31, 2012, the Company entered into a voluntary settlement agreement (the "Settlement Agreement") with the EPA to assist in upgrading the fluid management system (the "System"), which manages fluids from the former Arimetco operations at the property. Under the terms of the Agreement, the Company agreed to complete a study of the System in order to determine additional repairs or modifications that may be required and to work with the EPA to determine which, if any, of the conclusions of the study should be implemented. As part of the Settlement Agreement, the Company obtained a site-wide covenant not to sue from the EPA for existing environmental contamination related to historic mining operations at the site.

In September 2014, SPS submitted to EPA a Final Report that documented the work SPS performed under the EPA Agreement. SPS incurred costs of \$93,254 during the calendar year of 2014, which included the final payment to the EPA for the Work to Be Performed and Payment of Response Costs, as defined in the Agreement. On January 7, 2015, the EPA issued a Notice of Completion to SPS confirming that the obligations of the Work to Be Performed and the Payment of Response Costs sections of the Settlement Agreement had been met. With the issuance of the Notice of Completion, SPS believes it does not have further obligations under the Settlement Agreement, except for those as a landowner and as a BFPP.

c) Bear Copper Deposit, Nevada

The Bear Deposit was discovered in 1961 by Anaconda condemnation drilling in the sulfide tailings disposal area and was further delineated in the 1960s and 1970s. Currently the deposit is open in several directions and has never been consolidated under a single owner. A part of the Company's recently acquired acreage was not previously accessible for exploration and is adjacent to the highest grade mineralization discovered during previous exploration of the area.

In December 2013, the Company announced that it had entered into four option agreements completed throughout 2013, covering 1,305 acres of private land north and east of the Yerington mine site, known as the Bear Deposit. In May 2015, SPS entered into an option agreement to acquire a fifth property covering approximately 1,050 acres of additional private land covering a portion of the Bear Deposit. Under the terms of the five option agreements Quaterra (now SPS) has an exclusive right to acquire these properties with all mineral rights and certain water rights, and to explore these parcels.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

Pursuant to the five option agreements, the Company is required to make payments totaling \$6,240,548 in order to maintain the exclusive right to purchase the land, mineral rights and certain water rights and to conduct mineral exploration on these properties.

Payments due under the five option agreements by year are as follows:

- (i) \$329,258 due in 2013 (paid)
- (ii) \$341,258 due in 2014 (paid)
- (iii) \$788,258 due in 2015 (\$688,258 paid as of June 30, 2015, the remaining \$100,000 is due in November 2015) and
- (iv) \$4,781,774 from 2016 to 2022.

d) Wassuk Copper Project, Nevada

On May 26, 2011, the Company entered into a mining lease with an option to purchase agreement with Majuba Mining Ltd. to earn an interest in certain unpatented mining claims in Lyon County, Nevada, for \$1.61 million plus a work commitment of \$300,000. On May 12, 2014, the agreement was amended to reflect a change in the anniversary date to August 1 as follows:

- (i) \$140,000 on or before May 26, 2011 (paid)
- (ii) \$130,000 on or before May 26, 2012 (paid)
- (iii) \$120,000 on or before August 23, 2013 (paid)
- (iv) \$80,000 on or before each of August 1, 2014 (paid) and August 1, 2015
- (v) \$200,000 on or before each of August 1, 2016, 2017 and 2018, and
- (vi) \$230,000 each on or before August 1, 2019 and August 1, 2020.

The Company is required to incur a total of \$300,000 exploration work on or before August 1, 2016, and any difference between the actual expenditures and \$300,000 is required to be paid in the event that less than \$300,000 is so incurred.

The project is subject to a 3% NSR royalty upon commencing commercial production of which can be reduced to a 1% NSR royalty in consideration for a \$1,500,000 payment.

e) Nieves Silver Concessions, Mexico

Prior to December 29, 2014, the Company owned equal interest in the Nieves silver property located in northern Zacatecas, Mexico, with its US-based joint venture partner, Blackberry Ventures 1, LLC ("Blackberry"). All work plans were made in consultation with Blackberry, which contributed its share of ongoing exploration costs plus a 10% administration fee. During 2015, the Company covered certain costs related to geological personnel on the project which was billed to Blackberry.

The Nieves concessions are subject to a maximum 3% NSR to the original concession holders, which the Company may purchase at any time in consideration for \$2,000,000. In addition, Kennecott Exploration Company, the optionor in the initial underlying agreement, retained a 2% NSR royalty on certain core claims and 1% NSR royalty on certain peripheral claims. On January 24, 2007, this NSR was purchased by Royal Gold Inc. Commencing January 26, 2004, an AMR payment of \$75,000 is due to the concession holders until the commencement of commercial production.

On December 29, 2014, the Company entered into an agreement whereby it would transfer its 50% ownership in the stock of the entity holding the Nieves project to Blackberry, for \$4,000,000. Payments of \$1,000,000 under the agreement are due on March 1, 2015, September 1, 2015, and March 1, 2016. At the time of each payment, the Company will transfer one quarter of its interest in Nieves to Blackberry (representing a 12.5% interest in the total project). On December 29, 2014 and April 15, 2015, Blackberry made the initial and second \$1,000,000 payment

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

respectively due under the agreement. Immediately prior to the execution of the sale to Blackberry, the Company recorded a impairment provision against the Nieves properties totalling \$2,509,890.

As at June 30, 2015, Blackberry owed \$9,638 (December 31, 2014 – \$25,273) for exploration expenditures incurred for the month ended June 30, 2015. The Company received a payment prior to June 30, 2015 of \$44,378 representing a reimbursement of expenses incurred by the Company on the Nieves project for the five months ended May 31, 2015.

f) Other

On October 3, 2014, the Company entered into an agreement with Freeport-McMoRan Mineral Properties to sell the Company's remaining interest in three of its non-core assets, (i.e. SW Tintic Utah, Cave Peak Texas and Butte Valley) for \$5,000,000. At time of closing, \$1,000,000 was paid with further payments to be paid the first day of each quarter starting January 1, 2015, (through to October 1, 2016) in the amount of \$500,000 each quarter. On January 6, 2015, the Company received the first installment of \$500,000 due under the agreement. On April 2, 2015, the Company received the second installment of \$500,000 (See Note 16 (b) for Subsequent Events).

The Company discounted the value of the \$5,000,000 at 5% and accretes interest to income on the effective interest method. For the six months ended June 30, 2015, the Company accrued \$52,660 of interest income related to the receivable. The Company recognizes the interest and principal due to be received within the next twelve months as current and the remaining amount as a non-current receivable. As of June 30, 2015, the Company is due to receive \$1,919,826 of principal and accrued interest under the agreement with the remaining \$961,806 due later than twelve months.

There were no impairments on the properties for the six months ended June 30, 2015.

The Company continues to focus its efforts on the Yerington mining district and had no other expenditures on other properties for the six months ended June 30, 2015.

7. Promissory notes

(a) On July 2, 2014, the Company closed an 18-month non-brokered private placement of units for gross proceeds of \$500,000. Each unit was priced at \$1,000 and was comprised of one non-transferable convertible redeemable \$1,000 principal amount promissory note ("Note") and 11,442 non-transferable common share purchase warrants. The Company issued Notes aggregating \$500,000 in principal and 5,721,000 warrants entitling the holder thereof to purchase up to 5,721,000 common shares of the Company at CDN\$0.16 per share until January 2, 2016 ("Term"), subject to the Company's right to accelerate the expiry date in certain circumstances.

Each Note bears simple interest at a rate of 10% per annum in arrears payable to the extent accrued on the earlier of the due date, conversion or redemption of the note. Subject to provisions set forth in each Note, upon conversion or redemption, interest will be paid in the form of shares at the market price determined in accordance with the policies of the TSX Venture Exchange (the `TSX-V`).

At any time after the expiration of four months after July 2, 2014 (the "Closing Date"), the holder of a note may convert the principal amount of the note outstanding into shares in the ratio of CDN\$0.095 of the principal amount of the Note converted during the first twelve months of the Term, or CDN\$0.10 of the principal amount of the note converted during the last six months of the Term, to one share. Any interest payable will be converted into shares at the market price determined in accordance with the policies of the TSX-V. However, as to any Note, the Company reserves the right to pay some or all of the interest in cash (U.S. funds) if necessary to satisfy any regulatory standard. In the event that, at any time after the expiration of four months after the Closing Date, the Company's common shares have achieved or exceeded a closing price of CDN\$0.12 per share for a ten consecutive trading day period on the TSX-V, the principal amount of the notes outstanding will be

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

automatically redeemed and converted into shares in the ratio of CDN\$0.095 of the principal amount of the note redeemed during the first twelve months of the Term, or CDN\$0.10 of the principal amount of the note redeemed during the last six months of the Term, for one share. Any interest payable will be converted into shares of the Company at the Market Price determined in accordance with the policies of the TSX-V. However, as to any note, the Company reserves the right to pay some or all of the interest in cash (U.S. funds) if necessary to satisfy any regulatory standard.

At any time after the expiration of four months after the Closing Date, the Company may, prior to conversion, on thirty days' notice in writing, redeem the principal amount of the notes outstanding by paying the holders, in cash, the principal amount of the Notes outstanding together with interest, in cash or, at the Company's option, in shares at the market price determined in accordance with the policies of the TSX-V, at the rate of 15% per annum calculated from the date of issue of the notes.

The Company evaluated the Notes payable at the date of issuance to determine appropriate accounting. Under accounting standards, accounting treatment for debt and equity instruments are reviewed under fixed-for-fixed or fixed-for-variable scenarios. When the convertible note payable is denominated in a currency other than the Company's functional currency, the notes fall under fixed-for-variable scenario because the Note is based in USD\$ at a fixed amount but convert into a fixed CDN dollar per share resulting in a variable number of shares that could be issued. Even though the Company changed its functional currency on January 1, 2015, the convertible notes constituted a derivative liability at the date of issuance and until a change in contract will continue to be evaluated as a derivative liability until either redemption or a change in contract.

Based on the Company's valuation of the debt portion and the derivative component at the date of issuance, the proceeds were allocated as \$298,329 to the debt component and \$201,671 to the derivative component of the instrument representing an effective interest rate of 35% to the debt component. The resulting discount to the debt component will be amortized and accreted back to the debt over the 1.5-year term. The fair value of the derivative liability component was valued on inception of the Note using Black-Scholes option model using the following assumptions: volatility of 173.5%, expected term of 1.5 years, discount rate of 1.1% and dividend yield of 0%.

The derivative component was further revalued at June 30, 2015, resulting in an ending balance of \$166,283. The derivative liability component was revalued using the following assumptions: volatility of 146.51%, expected term of 0.51 years, discount rate of 1.25% and dividend yield of 0%.

The resulting \$475,790 of accreted accrued interest expense and convertible note payable was recorded as a liability on the balance sheet at June 30, 2015. The derivative liability balance is shown separate as a component of derivative liability (Note 8).

The face value of the convertible debt issued July 2, 2014, is \$500,000.

(b) On May 24, 2015, the Company entered into a note payable with Freeport McMoran Nevada LLC in the principal amount of \$500,000 which proceeds were used in option payment on 1,050 acres as part of the Bear deposit. The note carries a 5% per annum interest on the principal amount of the note that accrues from the date of the note until fully paid. The note is payable at the earlier of a) the date that Freeport exercises the First Option as defined in the Option Agreement ("Option Exercise Maturity Date") or b) 180 days following the written notice of termination of the Option agreement ("Termination Maturity Date"). If the Option Exercise Maturity Date is first to occur, the Company, at its discretion, may credit its indebtedness against Freeport's obligation to fund in accordance with the Option Agreement as noted in footnote 6 above. If Termination Maturity Date is first to occur, the Company can pay the amount due under the promissory note or extend by 180 days beyond the Termination Maturity Date by paying an extension fee of 5% of the outstanding principal and interest not to exceed \$100,000.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

On June 15, 2014, Freeport and the Company announced an agreement to enter Stage 2 which will last until June 15, 2016, at which time Freeport may provide written notice of termination of the Option Agreement or continuation to Stage 3. As such, the Company has determined that the principal and accrued interest due under the secured note are due in greater than 12 months and have been classified as non-current liabilities.

For the six months ending June 30, 2015, the Company accrued \$2,534 of interest related to the secure note payable resulting in a balance owing of \$502,534 as at June 30, 2015.

8. Derivative Liability

In accordance with the October 3, 2014, sale agreement entered into with Freeport-McMoRan Mineral Properties (FMMP) during 2014, the Company issued 19,000,000 warrants to the purchaser, which warrants vest at the rate of 1,900,000 warrants per \$500,000 payment made. The warrants carry an exercise price of \$0.16 per warrant exercisable into one common share of the Company with expiration in October 2019. As these warrants, when issued, carried an exercise price denominated in a currency that was different from the Company's functional currency, they are classified as derivative liabilities and carried at their fair values. Any changes in the fair value from period to period are recorded in profit or loss.

The fair value of each warrant issued in 2014 was estimated to be \$0.037 on the date issued and subsequently remeasured at June 30, 2015, to be \$0.07 using the Black-Scholes option pricing model assuming an expected volatility of 146.51%, a risk-free interest rate of 1.25%, a dividend yield of 0% and an expected term of 4.265 years for a total value of \$1,126,898.

During the year ended December 31, 2013, the Company issued 29,810,000 share purchase warrants as part of a private placement offering (December 31, 2012 – 6,541,571). As these warrants, when issued, had an exercise price denominated in a currency that is different from the Company's functional currency, they are classified as derivative liabilities and carried at their fair values. Any changes in the fair value from period to period are recorded in profit or loss.

The fair value of each warrant issued in 2013 was estimated to be \$0.089 on the date issued and subsequently remeasured at each reporting period. On June 19, 2015, the Company extended the expiration date of the warrants from September 19, 2016, to September 19, 2018. Due to the change in the functional currency of the Company from Canadian dollars to US dollars on January 1, 2015, and the subsequent change in the contract of private placement warrants due to the extension of the expiry date, the Company evaluated the warrants and determined that due to the functional currency change, the warrants would result in a fixed-for-fixed scenario and thus not be considered a derivative liability. As such, the Company re-measured the warrants immediately prior to the change of contract on June 18, 2015, to be \$0.0429 using the Black-Scholes option pricing model assuming an expected volatility of 146.51%, a risk-free interest rate of 1.25%, a dividend yield of 0% and an expected term of 1.25 years for a total value of \$1,279,937. Additionally, the Company relieved the re-measured derivative liability value to equity as a component of Share Payment reserve on June 19, 2015.

The fair value of convertible promissory notes issued in 2014 was estimated to be \$0.05 on the date issued and subsequently re-measured at June 30, 2015, to be \$0.0332 using the Black-Scholes option pricing model assuming an expected volatility of 146.51%, a risk-free interest rate of 1.25%, a dividend yield of 0% and an expected term of 0.51 years for a total value of \$166,283.

During 2012, the Company issued 6,541,571 warrants which, when issued, had an exercise price denominated in a currency that is different from the Company's functional currency. As of December 31, 2014, the warrants expired without being exercised and any remaining derivative liability was written off to profit and loss during the prior year.

Option pricing models require the input of subjective assumptions including the expected price volatility, which was determined based on the historical volatility over the estimated life of the warrants. Changes in the assumptions can materially affect the fair value estimate.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

The following table sets out the changes in derivative liability warrants:

	Number of Warrants	Fair value assigned	Weighted Average Exercise Price
At December 31, 2013	36,351,571	1,026,722	0.22
Issuance of promissory notes	-	185,328	0.00
Issuance of derivative warrants	19,000,000	677,727	0.16
Expiration of warrants	(6,541,571)		0.53
Change in fair value estimates	-	(597,124)	0.00
At December 31, 2014	48,810,000	\$ 1,292,653	0.15
Change in fair value estimates Change in contract of private placement	-	1,280,466	0.00
warrants	-	(1,279,937)	0.00
At June 30, 2015 derivative warrants total	48,810,000	\$ 1,293,181	0.15

9. Share capital

The Company has an unlimited number of common shares authorized without par value, of which 193,479,416 shares were issued and outstanding as of June 30, 2015.

10. Share-based payments

a) Stock options

The Company has a stock option plan (the "Plan"), which is approved by the shareholders of the Company annually. The Plan is designed to attract and retain individuals and to reward them for current and expected future performance. Options generally are granted for a maximum term of five years and expire 90 days following the termination of the optionee's employment with the Company. The exercise price for the options is set at the closing market price of the common shares on the grant date. The vesting period of options vary with terms determined by the board of directors. Under the Plan, the Company is authorized to grant stock options of up to 10% of the number of common shares issued and outstanding of the Company at any given time.

On March 26, 2015, the Company granted 200,000 fully vested stock options to directors and officers (100,000 options), and consultants (100,000 options). Each option was fair valued at \$0.04 using the Black-Scholes option pricing model assuming an expected volatility of 140%, a risk-free interest rate of 1.01%, a dividend yield of 0%, and an expected term of 5 years.

The following table presents changes in stock options outstanding and exercisable:

	June 30,	, 2015		December 31, 2014		
		Weigh	hatr			eighted .verage
	Number of	Number of Average			Exercise	
	Options	Exercise F	Price	Options		Price

Expired	-		-	(6,541,571)	\$	0.49	
Outstanding, end of year	54,531,000	\$	0.14	54,531,000	\$	0.14	

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

The following table summarizes information about the warrants outstanding by expiry dates:

Number of Warrants

Expiry date	Exercise price		June 30, 2015	December 31, 2014
September 13, 2018(1)	US\$	0.15	29,810,000	29,810,000
January 2, 2016	CA\$	0.16	5,721,000	5,721,000
October 3, 2019	US\$	0.16	19,000,000	19,000,000
			54,531,000	54,531,000

⁽¹⁾ On June 19, 2015, The Company extended the expiry date of the warrants by two years from September 13, 2016 to September 13, 2018.

11. Compensation of key management

Key management comprises directors and executive officers. Certain executive officers are entitled to termination benefits equal to up to two years' gross salary amounting to \$1,215,000 in the event of a change of control. The Company has no post-employment benefits and other long-term employee benefits.

Compensation awarded to key management was as follows:

	Three months Ended June 30,		Six months Ended June 30,	
	2015	2014	2015 2014	
Salaries and employee benefits	\$ 140,660	\$ 125,539	\$ 282,874 \$ 305,417	
Share-based payments	2,465	\$ 119,057	\$8,475 \$ 125,166	
	\$ 143,125	\$ 244,595	\$ 291,349 \$ 430,583	

Staff reductions taken at the end of December 2014 relate to a decrease in salaries and benefits for the three and six months ended June 30, 2015.

12. Related party transactions

The Company's related parties consist of companies owned by executive officers or directors. The following fees and expenses were incurred in the normal course of operations:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Manex Resources Group (a)	\$ 34,338	\$ 42,854	\$ 67,750	\$ 104,256
Lawrence Page Q.C. Law Corp. (b)		-	-	
	\$ 34,338	\$ 42,854	\$ 67,750	\$ 104,256

- a) Manex Resource Group ("Manex") is a private company owned by the Company's Corporate Secretary that provides general office and administrative services. As of June 30, 2015, \$508 (December 31, 2014 \$2,839) was owing due to related parties. See note 14 (a) Commitments below.
- b) Lawrence Page, Q.C. Law Corp. is a company owned by the Company's Corporate Secretary that provides legal services. As of June 30, 2015, \$nil (December 31, 2014 \$nil) was owing due to related parties.

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

13. Financial instruments

- a) The Company designates the fair value of financial instruments according to the following:
 - Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
 - Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.
 - Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The Company's activities expose it to a variety of risks arising from financial instruments. These risks and management's objectives, policies and procedures for managing these risks are disclosed in the MD&A.

The Company has classified its financial instruments as follows:

- Cash as held for trading
- Restricted cash, amounts due from exploration partners and reclamation bonds as loans and receivables
- Marketable securities available for sale
- Accounts payable and loan payable other financial liabilities

b) Fair value

The Company's marketable securities measured at fair value were categorized in Level 1 at June 30, 2015 – \$nil (December 31, 2014 – \$nil). The fair value of the Company's marketable securities is based on active market prices at the reporting date.

The derivative liability is measured at fair value and categorized in Level 2 at June 30, 2015 - \$1,293,181 (December 31, 2014 - \$1,292,652). The fair value of the derivative liability is based on the Black-Scholes option pricing model inputs disclosed in Note 8, as determined at the reporting date.

The recorded amount for cash, restricted cash, amount due from exploration partners, amounts due from and to related parties, and accounts payable and accrued liabilities approximate their fair values due to their short-term nature. The carrying values of the reclamation bonds approximate their fair values, as these balances are redeemable on demand.

14. Commitments

a) Manex is a private company controlled by the Corporate Secretary of the Company. It provides furnished office space, selected administration, accounting and corporate secretarial services to the Company. These services are provided in the normal course of operations for consideration established and accepted by the Company and Manex. On February 9, 2012, the Company renewed its service agreement with Manex for its Vancouver head office administration and corporate services at a monthly rate of CDN\$15,750 for office rent plus accounting and administration services provided at agreed market rates for a five-year term expiring August 31, 2017. The service agreement was amended September 1, 2013, March 1, 2014, and January 1, 2015, to reduce the fee for services to a monthly rate of CDN\$5,000 with the monthly office lease remaining at CDN\$8,000. The Company may terminate the services portion of the agreement upon 30 days' notice without penalty, and the office lease portion of the agreement by paying Manex the lesser of CDN\$96,000 or a total fee owing for the remainder of the lease term (through August 31, 2017).

Notes to Condensed Consolidated Interim Financial Statements For the Six Months Ended June 30, 2015 and 2014 (Unaudited - Expressed in US dollars)

- b) On March 1, 2011, the Company's US subsidiary entered into a lease agreement for its premises located in the city of Yerington, Nevada. The initial term of the lease is three years with an option to extend for an additional three years. The lease is currently extended to December 31, 2015 at \$3,400 per month.
- c) As of June 30, 2015, the Company had the following commitments related to its office premises in Vancouver, British Columbia and Yerington, Nevada:

Year ending December 31, 2015	\$ 59,253
Year ending December 31, 2016	77,707
Year ending December 31, 2017	51,805
	\$ 188,765

15. Segmented information: The Company has one business segment, the exploration of mineral properties. The Company's significant non-current assets are distributed by geographic locations as follows:

_		June 30, 2015 Mineral property	December 31, 2014 Mineral property
	Mexico	\$ 1,375,748	\$ 2,365,127
_	USA	28,939,178	29,931,195
-	Total	\$ 30,314,926	\$ 32,296,322

16. Subsequent events:

- a) Effective July 1, 2015, directors fees were reinstated;
- b) On July 2, 2015, The Company received \$500,000 from Freeport-McMoran Mineral Properties as the third installment due under the agreement on the sale of non-core asset sale;
- c) On July 17, 2015, the Company granted 2,435,000 incentive stock options to certain directors, officers, employees and consultants of the Company pursuant to the Company's stock option plan. The options are exercisable at a price of \$0.13 per share for a period of five years.
