Notes to Condensed Interim Consolidated Financial Statements

For the six months ended June 30, 2018

(Unaudited - In U.S. Dollars; tabular amounts in thousands except for shares)

1. NATURE OF OPERATIONS AND GOING CONCERN

Quaterra Resources Inc. (“**Quaterra**” or the “**Company**”) is a copper exploration company with mineral properties in Nevada and Alaska, United States. The primary office of the Company is located at 1199 West Hastings Street, Suite 1100, Vancouver, British Columbia, Canada, V6E 3T5.

These condensed interim consolidated financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2018, the Company had working capital deficiency of \$0.51 million. The Company has no source of revenue or cash flow and has significant cash requirements to meet its administrative overhead requirements, settle its liabilities in the normal course and meet its mineral property options payments. The Company has renegotiated the terms of certain mineral property option agreements to reduce or defer the required payments. Additionally, the Company is working to raise funds by way of equity financing or joint venture arrangement. While the Company has been successful in doing so in the past, there can be no assurance it will be able to do the same in the future. These conditions cast substantial doubt on the Company’s ability to continue as a going concern.

These condensed interim consolidated financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate. Such adjustments could be material.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICY CHANGE

a. Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards, (“**IFRS**”) as issued by the International Accounting Standards Board. The Company’s significant accounting policies and critical accounting estimates applied in these financial statements are the same as those applied in the Company’s annual consolidated financial statements, except for the adoption of IFRS 9, *Financial Instruments* (“**IFRS 9**”) effective January 1, 2018, and should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2017.

b. Accounting estimates and judgments

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies, reported amounts and disclosures. Actual results could differ from those estimates. Differences may be material.

Judgment is required in assessing whether certain factors would be considered an indicator of impairment. Both internal and external information are considered to determine whether there is an indicator of impairment present and accordingly, whether impairment testing is required.

(Unaudited - In U.S. Dollars; tabular amounts in thousands except for shares)

c. Accounting Policy Change – Adoption Impact

The Company adopted the provisions of IFRS 9 effective January 1, 2018 on a full retrospective basis.

The Company has elected to measure its equity instruments at fair value through profit and loss (“**FVTPL**”) instead of through other comprehensive income (loss) (“**OCI**”). As a result, amounts previously included in OCI has been reclassified to deficit as of January 1, 2017, and any subsequent changes in OCI during fiscal 2017 have been reversed and reflected as a component of net income (loss) for the period.

On adoption of IFRS 9 there were no other changes to the measurement of the Company’s financial assets or financial liabilities. The Company has designated its financial assets and financial liabilities as follows:

- “Cash” is classified as financial assets at amortized cost;
- “Marketable securities” are classified as FVTPL;
- “Accounts payable and accrued liabilities”, “Loan payable” and “Derivative liabilities – warrants” are classified as financial liabilities at amortized cost.

The Company’s accounts payable and loans payable approximate fair value due to their short term nature.

The Company’s marketable securities and derivative warrants are measured at fair value on a recurring basis.

The marketable securities are a Level 1 fair value measurement, the derivative warrants are a Level 2 fair value measurement.

3. MARKETABLE SECURITIES

The Company holds 1,942,795 common shares of Grande Portage Resources Ltd. (“**Grande Portage**”) with a market value of \$339,340 (December 31, 2017 - \$286,502).

During the six months ended June 30, 2018, a \$52,838 gain was recognized in the profit and loss, following the adoption of IFRS 9 (see Note 2(c)).

4. MINERAL PROPERTIES

The Company defers acquisition, exploration and evaluation costs related to the properties on which it is conducting exploration.

As of June 30, 2018, total mineral property maintenance and exploration costs are listed in the table below:
