The increase in the three months ended December 31, 2024 compared to September 30, 2024 was due to due diligence and related costs relating to the acquisition of Sankamap Exploration Inc. and its properties. The decrease in the three months ended September 30, 2024 compared to June 30, 2024 is due to a reduction in activities. The increase in the three months ended June 30, 2024 compared to March 31, 2024 is due to the additional year end costs. The decrease in the three months ended March 31, 2024 compared to December 31, 2023 is due to a decrease in activities compared to the three months ended December 31, 2023. The increase in December 31, 2023 compared to September 30, 2023 is due to the completion of the initial public offering and commencement of the Boer exploration program. The increase in the period ended June 30, 2023 is due to corporate activity related to the initial public offering.

EXPLORATION AND PROJECTS

The principal asset of the Company is its option to acquire up to a 75% interest in the Boer Property, a gold prospect.

Boer Property

On March 3, 2022 the Company entered into an agreement to acquire up to a 75% interest in four mining claims in the Omineca Mining Division, British Columbia. To acquire a 51% interest, the Company issued 100,000 common shares (issued for \$2,000) and made a cash payment of \$5,000 (paid) to the vendor.

To earn the further 24% of the total 75% interest, the Company must pay the Optionor \$10,000 on or before March 3, 2023 (paid), issue 100,000 common shares within six months of the date of initial listing of the Company's shares on a Canadian stock exchange (issued at a fair value of \$10,000), and incur aggregate exploration expenditures of \$200,000 of which \$75,000 must be incurred before March 3, 2023 (incurred) and \$125,000 on or before the first anniversary of the initial listing of the Company's shares on an exchange. The optionor has confirmed that the Company has satisfied the minimum expenditure commitment and therefore the Company has earned the additional 24% interest. The property is subject to a net smelter royalty of 2% payable to the vendor.

The property is subject to a net smelter return royalty of 2% payable to the vendors.

The Property is located in the Omineca Mining Division approximately 9 kilometres north east of Burns Lake in the central interior of British Columbia. The Property consists of four contiguous mineral claims covering an area of 1,586 hectares. Prior work has indicated that property has copper, silver, and gold mineralization which has been confirmed by the Company's 2022 work program.

An independent geological report (the "Technical Report") prepared by Derrick Strickland, P. Geo. who is a "Qualified Person" as defined in National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101"), was completed in relation to the Property on June 22, 2022. The Technical Report recommends that the Company conduct further geophysical analysis and a surface exploration program.

Exploration Expenditures

Maclaren has incurred the following exploration expenditures with regards to the Property that were capitalized as incurred to December 31, 2024:

Assays and testing	\$ 32,081
Geological consulting	76,723
Reports and administration	26,799
Mapping and surveying	15,427
Travel, accommodation, and supplies	47,867
	<u>\$ 198,897</u>

Future Plans

In relation to the Property, the Company is currently evaluating the recommendations made in the Technical Report. The Technical Report recommends that the Company undertake a \$116,080 program to further explore the property. The recommendations include a geophysical survey, a sampling program, and additional soil geochemistry. The Company is also investigating other potential projects.

SUBSEQUENT EVENT

On February 6, 2025, the Company entered into an agreement to acquire a 100% interest in Sankamap Exploration Inc. ("Sankamap"). The Sankamap properties include the Fauro Gold (Au) Project ("Fauro") and the Kuma Copper-Gold (Cu-Au) Project ("Kuma"), both located in the Solomon Islands along the same trend as significant Cu-Au porphyry and epithermal deposits, including Newmont's Lihir Mine (71.9 Moz Au1) and the Panguna Mine (19.3 Moz Au + 5.3 Mt Cu2) (the "Acquisition"). The Acquisition was completed February 19, 2025.

The 4,300-hectare Kuma project is situated 37 km southeast of Honiara, the capital city of Guadalcanal Island, Solomon Islands. Historical exploration at Kuma has identified large-scale Cu-Au mineralization and promising indicators of a potential porphyry deposit, which remains untested by drilling. The 14,700-hectare Fauro project is located on Fauro Island in northern Solomon Islands; past exploration has defined epithermal-type mineralization, with trenching results of up to 8 meters of 27.95 g/t Au and drilling intercepts of up to 11 meters of 4.03 g/t Au.

The Acquisition was completed by way of the acquisition of all the outstanding equity interests of Sankamap, a private arm's length British Columbia company which holds the interest in the Sankamap properties. Pursuant to the definitive agreement dated February 6, 2025, the Company issued 16,625,000 common shares in the capital of the Company (each, a "**Consideration Share**") to the shareholders of Sankamap in exchange for all the issued and outstanding common shares of Sankamap at a deemed price of \$0.06 per Consideration Share for total deemed consideration of \$997,500. The Acquisition is an arm's length transaction. No finder's fee was paid in connection with the Acquisition. The Consideration Shares are subject to a hold period pursuant to the CSE whereby the Consideration Shares may not be traded before the later of: (a) June 20, 2025; and (b) the date that is ten days after the Company files a business acquisition report on Form 51-102F4 in connection with the Acquisition.

Upon closing of the Acquisition, John Florek, CEO of Sankamap, was appointed CEO of the Company, replacing incumbent CEO Gary Musil, and John Alcock and Jim Greig were appointed to the Company's board of directors, replacing James Place and Dianne Szigety, and joining incumbent directors Gary Musil and Nancy Kawazoe. Upon closing, the Company's audit committee is comprised of Gary Musil, John Alcock and Jim Greig.

RISKS AND UNCERTAINTIES

The Company's principal activity is mineral exploration and development. Companies in this industry are subject to many and varied kinds of risks, including but not limited to, environmental, metal prices, political and economical. The Company has no producing properties, no significant source of operating cash flow and consequently no sales or revenue from operations. The Company has either not yet determined whether its mineral properties contain mineral reserves that are economically recoverable or where reserves have been determined, mining operations have not yet commenced. The Company has limited financial resources. Substantial expenditures are required to be made by the Company to establish reserves.

The property interests in whom the Company has an option to earn an interest are in the exploration stages only, are without and may not result in any discoveries of commercial mineralization, and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties, which are explored, are ultimately

developed into producing mines, the result being the Company will be forced to look for other exploration projects. The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous materials and other matters.

Additional disclosures pertaining to the Company's technical report, management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com.
