Notes to the Condensed Interim Financial Statements

Unaudited – Prepared by Management

For the three months ended July 31, 2021 and July 31, 2020

1. Nature of operations and going concern

Gelum Resources Ltd. (formerly Gelum Capital Ltd.) (the “Company”) was incorporated under the laws of the province of British Columbia on June 8, 1987. The principal address and registered and records office is located at Suite, 400 – 725 Granville Street, Vancouver, BC, V7Y 1G5. The Company trades under the symbol “JEM” on the Canadian Securities Exchange (“CSE”). Effective September 24, 2021, the Company changed its name to Gelum Resources Ltd.

The Company’s principal business activity is the acquisition, exploration and evaluation of mineral properties. The Company will be exploring its mineral property interests and has not yet determined whether they contain mineral reserves that are economically recoverable. The Company’s continuing operations and the underlying value and recoverability of the amounts shown for mineral property interests are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral property interests, obtaining the necessary permits to mine, and on future profitable production or proceeds from the disposition or option of the mineral property interests. The carrying amounts of mineral properties are based on costs incurred to date, and do not necessarily represent present or future values.

The Company’s condensed interim financial statements (the “financial statements”) as at and for the three months ended July 31, 2021 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business. The Company has a net and comprehensive loss of \$116,723 for the three months ended July 31, 2021 and has a working capital surplus of \$549,480 at July 31, 2021.

As at July 31, 2021, the Company had cash of \$704,411 to settle liabilities of \$170,282. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the immediate future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures or cease operations. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

2. Significant accounting policies

(a) Basis of presentation

These financial statements have been prepared in conformity with International Accounting Standard (“IAS”) 34, Interim Financial Reporting, using the same accounting policies as detailed in the Company’s annual audited financial statements for the year ended April 30, 2020, and do not include all the information required for full annual financial statements in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). It is suggested that these financial statements be read in conjunction with the annual audited consolidated financial statements.

These financial statements have been prepared on an historical cost basis, except for financial instruments which are classified as fair value through profit or loss (“FVTPL”). In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

All amounts on these financial statements are presented in Canadian dollars which is the functional currency of the Company.

11. Financial risk management**Capital management**

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares, purchase shares for cancellation pursuant to normal course issuer bids or make special distributions to shareholders. The Company is not subject to any externally imposed capital requirements and does not presently utilize any quantitative measures to monitor its capital. The Company's capital structure as at July 31, 2021 is comprised of shareholders' equity (deficit) of \$662,597 (April 30, 2021 - \$313,042).

The Company currently has no source of revenues. In order to fund future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company's ability to continue as a going concern on a long-term basis and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation is primarily dependent upon its ability to borrow or raise additional financing from equity markets.

Financial instruments - fair value

The Company's financial instruments consist of cash, accounts payable and accrued liabilities, accounts payable to related parties and loan payable.

The carrying value of accounts payable and accrued liabilities and accounts payable to related parties approximates their fair value because of the short-term nature of these instruments.

The loan payable is presented on an amortized cost basis and will be accreted to its face value at their effective interest rates, over the term to maturity.

Financial instruments measured at fair value on the condensed interim statement of financial position are summarized into the following fair value hierarchy levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial instruments - risk

The Company's financial instruments are exposed to certain financial risks, including credit risk, interest rate risk, market risk, and liquidity risk.

a) Credit risk

The Company is exposed to credit risk by holding cash and receivables. This risk is minimized by holding the funds in Canadian banks and credit unions or with Canadian governments. The Company has minimal accounts receivable exposure, and its refundable tax credits are due from the Canadian government.

b) Interest rate risk

The Company is exposed to interest rate risk because of fluctuating interest rates. Fluctuations in market rates do not have a significant impact on the Company's operations due to the short term to maturity and no penalty cashable feature of its cash. For the three months ended July 31, 2021 every 1% fluctuation in interest rates up or down would have an insignificant impact.

c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources.
