The accompanying notes are an integral part of these condensed consolidated interim financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Victory Resources Corporation, (“Victory” or “the Company”) is a publicly traded junior mineral exploration company engaged in the exploration of its Canadian mineral properties. The Company is principally engaged in the acquisition, exploration and evaluation of mineral properties, and has no significant revenues. The common shares of the Company trade on the TSX Venture Exchange (“TSX-V”) under the symbol “VR”.

The Company was incorporated in British Columbia on February 8, 1984. The Company’s head, registered and records office address is C206 – 9801 King George Highway, Surrey, BC, V3T 5H5.

In fiscal 2011 the Company incorporated two wholly-owned subsidiaries, Victory Resources Corporation U.S.A., incorporated under the laws of Arizona, U.S.A. in August 2010 and VicRes Mining Mexico S.A. de C.V., incorporated under the laws of Sonora, Mexico in April 2010.

These condensed consolidated interim financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. As at May 31, 2014 the Company has a deficit of \$26,140,220 and has incurred losses since inception. The Company is in the process of exploring and developing its mineral properties and has not yet determined whether those properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties interests is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to fund property commitments and to complete the exploration and development of the properties and upon achieving future profitable production or proceeds from the disposition thereof. These uncertainties raise substantial doubt upon the Company’s ability to continue as a going concern.

The Company has financed its operations primarily through the issuance of common shares, loans proceeds and advances from related parties. The Company continues to seek capital through various means including the issuance of equity and/or debt. While the Company has been successful in securing financing in the past, there is no assurance that it will be able to do so in the future or on terms that are favorable to the Company. Accordingly these condensed consolidated interim financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company’s assets and liabilities on a liquidation basis could be material to these condensed consolidated financial statements.

2. BASIS OF PRESENTATION, ACCOUNTING POLICIES AND PRINCIPLES OF CONSOLIDATION

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with and in full compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The accounting policies and methods of computation followed in these condensed interim financial statements are the same as those applied in the Company’s most recent annual financial statements for the year ended February 28, 2014.

The policies applied in these condensed interim financial statements are based on IFRS issued and outstanding as of July 30, 2014, the date the Board of Directors approved the statements.

2. BASIS OF PRESENTATION, ACCOUNTING POLICIES AND PRINCIPLES OF CONSOLIDATION
(cont'd...)

The condensed interim financial statements should be read in conjunction with the Company's annual financial statements for the year ended February 28, 2014.

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries: Victory Resources Corporation, USA and VicRes Mining Mexico S.A. de C.V. A wholly owned subsidiary is an entity in which the Company has control, directly or indirectly, where control is defined as the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. All intercompany balances and transactions were eliminated upon consolidation.

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties, and to the best of its knowledge, title to all of its properties are properly registered and in good standing.

Toni Property, Nicola Division, British Columbia

At May 31, 2014 the Company owns a 100% interest in the "Toni Property", subject to a 2% net smelter royalty on certain portions thereof.

- a) During the year ended February 28, 2006, the Company entered into a Property Option and Joint Operation Agreement to earn an initial 50% interest in a mineral property located in the Nicola Mining Division, British Columbia with an option to acquire up to a 70% interest (amended to 100% during the year ended February 28, 2007).

4. EXPLORATION AND EVALUATION ASSETS (cont'd...)

Toni Property, Nicola Division, British Columbia (cont'd...)

- b) During the year ended February 28, 2007, the Company exercised the option and earned a 100% interest in the mineral property free and clear of all charges, encumbrances and claims. As consideration the Company paid \$30,000, issued 300,000 common shares and incurred at least \$250,000 in cumulative exploration expenditures during the years ended February 28, 2006 and 2007. The agreement is subject to a 2% net smelter return royalty.

Reforma Project

On March 4, 2010 the Company executed a formal agreement (the “Reforma Agreement”) whereby it has been granted an option to acquire a 70% undivided interest in the Reforma Mine property, Sinaloa, Mexico. Approval of the Reforma agreement was received from the TSX Venture Exchange on May 20, 2010.

In order to earn its 70% interest, the Company is required to pay to the owners US\$300,000, issue a total of 14,000,000 common shares and conduct work programs aggregating US\$2,500,000. The shares issued to the owners in the second and third tranches (i.e. 12,000,000 shares) will be pooled voluntarily. 1,500,000 shares will be released 12 months after TSX approval and 1,500,000 will be released every six months thereafter. Upon the completion of the earn in by the Company, the parties have agreed to form a joint venture (“the JV”) for the purpose of further development and exploration of the property with the owners to retain a carried interest for the first US\$15,000,000 of JV expenditures. Thereafter, the parties will fund their further participation in the JV in accordance with their 30/70 respective interest and will be subject to standard penalties.

In order to meet the terms of its Option agreement and earn its 70% interest in the Reforma Property, the Company must make cash and share payments and complete work programs as detailed below:

Cash payments	Shares to be issued	Work Program commitment
US\$50,000 due June 10, 2010 (paid)	2,000,000 shares by June 10, 2010 (issued)	US\$500,000 by May 20, 2011 (spent)
US\$50,000 due November 20, 2010 (paid)	6,000,000 shares by May 20, 2011 (issued)	US\$1,000,000 by May 20, 2012 (spent)
US\$100,000 due May 20, 2011 (paid)	6,000,000 shares by May 20, 2012 (issued)	US\$1,000,000 by May 20, 2013 (spent)
US\$100,000 due May 20, 2012 (paid)		

During the year ended February 28, 2014 the Company determined the Reforma Project to be impaired and wrote down the carrying value of the Reforma Project to \$1. The company has earned 70% interest in the Reforma property and is currently in discussions to joint venture or sell the property outright.

El Boleo Property

On June 15, 2012 the Company executed an agreement (the “El Boleo Agreement”) with Minera Copper Canyon S.A. de C.V. (“Minera”), to acquire an undivided 80% interest in a mineral property known as El Boleo. The El Boleo Agreement was still subject to regulatory approval as at February 28, 2014.

4. EXPLORATION AND EVALUATION ASSETS (cont'd...)

In order to meet the terms of the Option agreement and earn its 80% undivided interest in the El Boleo Property, the Company must make cash and share payments and complete work program as detailed below:

Cash payments	Shares to be issued	Work Program commitment
US\$10,000 (paid)		
US\$50,000 due upon regulatory approval	2,000,000 shares upon regulatory approval	
US\$50,000 due 6 months after regulatory approval	3,000,000 shares by 6 months after regulatory approval	US\$500,000 by 12 months after regulatory approval
US\$50,000 due 12 months after regulatory approval	3,000,000 shares by 12 months after regulatory approval	US\$500,000 by 24 months after regulatory approval
US\$50,000 due 24 months after regulatory approval	7,000,000 shares by 24 months after regulatory approval	US\$1,000,000 by 36 months after regulatory approval

Upon the completion of the earn in by the Company, the parties have agreed to form a joint venture (“the JV”) for the purpose of further development and exploration on the property.

During the year ended February 28, 2014 the Company determined the El Boleo Property to be impaired and wrote-off the entire carrying amount of the property to the consolidated statement of comprehensive loss.

5. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities for the Company are broken down as follows:

9. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liabilities either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The Company's primary financial instruments are classified as follows:

<u>Financial instruments</u>	<u>Classifications</u>
Cash	FVTPL
Receivables	LAR
Accounts payable and accrued liabilities	OFL
Due to related parties	OFL

The fair value of these assets and liabilities approximates their respective carrying amounts due to their short term nature except as otherwise noted. The fair value of the Company's cash constitutes a Level 1 fair value measurement. The Company does not currently hold any financial instruments that would be included in the classification of AFS.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. As at May 31, 2014, the Company's receivables consisted of \$3,324 in GST receivable from government authorities in Canada. Substantially all cash balances are held at chartered banks in Canada, the United States of America and Mexico.

9. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The Company manages liquidity risk through the management of its capital structure, as outlined below. As at May 31, 2014, the Company had a cash balance of \$7,401 and receivables of \$3,324 to settle current liabilities of \$1,821,233. All of the Company's financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. The Company will require financing from lenders, shareholders and other investors to generate sufficient capital to meet its short term business requirements. The Company is planning additional financings in the near term to raise working capital to finance its ongoing operations.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

As of May 31, 2014, the Company did not hold any investments and has no significant interest rate risk.

b) Foreign currency risk

The Company is exposed to changes in foreign exchange rates as expenses in international subsidiaries, or financial instruments may fluctuate due to changes in rates. The Company's exposure to foreign currency exchange risk is mitigated by the fact that the Company restricts the amount of Mexican Pesos ("Pesos") kept on hand and sources the majority of its capital projects and expenditures in Pesos. The Company has not entered into any derivative instruments in an effort to mitigate exposure to fluctuations in foreign exchange rates.

At May 31, 2014, the Company had US \$3,948 and an immaterial balance of Mexican Pesos in cash and \$7,803,635 Mexican Pesos in accounts payable.

A 10% fluctuation in the USD/CAD exchange would result in an immaterial affect to these consolidated financial statements.

A 10% fluctuation in the MXP/CAD exchange would have resulted in a \$65,254 change to the net loss for the year.

c) Price risk

The recoverability of the Company's exploration and evaluation assets is indirectly related to the market price of commodities. The Company's ability to continue with its exploration program is also indirectly subject to commodity prices. The Company is not currently directly exposed to fluctuations in commodity prices as the Company is currently in the exploration phase and has no production.

9. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

Capital management

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, to pursue the development of its mineral properties and to maintain a flexible capital structure which optimizes the cost of capital within a framework of acceptable risk. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue new debt, acquire or dispose of assets.

The Company is dependent on the capital markets as its sole source of operating capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets and its ability to compete for investor support of its projects. The Company is not subject to any externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period ended May 31, 2014.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Investing and financing activities that do not have a direct impact on current cash flows are excluded from the statements of cash flows. The following transaction have been excluded from the consolidated statement of cash flows for the periods ended May 31, 2014 and 2013.

- a) Included in accounts payable and due to related parties is \$862,145 (February 28, 2014 - \$861,287) of exploration and evaluation asset costs.

11. COMMITMENTS

At May 31, 2014, the Company has the following significant commitments:

Management Contracts

On January 1, 2011 the Company entered into a 12 month management contract with the President of the Company for \$5,000 per month for management fees and \$5,000 per month for project management fees. This contract automatically renewed for an additional one year term on January 1, 2014 as per the signed agreement.
