INFORMATION CIRCULAR

(Containing information as at February 18, 2021 unless indicated otherwise)

SOLICITATION OF PROXIES

This Information Circular is furnished in connection with the solicitation of proxies by the Management of Golden Cariboo Resources Ltd. (the “**Company**”) for use at the Annual General Meeting of Shareholders of the Company (and any adjournment thereof) to be held on Thursday, March 25, 2021 (the “**Meeting**”) at the time and place and for the purposes set forth in the accompanying Notice of Meeting. While it is expected that the solicitation will be primarily by mail, proxies may be solicited personally or by telephone by the directors, officers and regular employees of the Company at nominal cost. All costs of solicitation by Management will be borne by the Company.

The contents and dissemination of this Information Circular have been approved by the directors of the Company.

APPOINTMENT OF PROXYHOLDER

The individuals named in the accompanying form of proxy are directors and/or officers of the Company. **A SHAREHOLDER WISHING TO APPOINT SOME OTHER PERSON (WHO NEED NOT BE A SHAREHOLDER) TO REPRESENT HIM AT THE MEETING HAS THE RIGHT TO DO SO, EITHER BY STRIKING OUT THE NAMES OF THOSE PERSONS NAMED IN THE ACCOMPANYING FORM OF PROXY AND INSERTING THE DESIRED PERSON’S NAME IN THE BLANK SPACE PROVIDED IN THE FORM OF PROXY OR BY COMPLETING ANOTHER FORM OF PROXY. A proxy will not be valid unless the completed form of proxy is received by Computershare Investor Services Inc., Proxy Department, 8th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time for holding the Meeting, or any adjournment thereof. Proxies delivered after that time will not be accepted.**

REVOCAION OF PROXIES

A shareholder who has given a proxy may revoke it by an instrument in writing executed by the shareholder or by his attorney authorized in writing or, where the shareholder is a corporation, by a duly authorized officer or attorney of the corporation, and delivered to Computershare or to the registered office of the Company, at 804 – 750 West Pender Street, Vancouver, BC V6C 2T7, at any time up to and including the last business day preceding the day of the Meeting, or if adjourned, any reconvening thereof, or to the Chairman of the Meeting on the day of the Meeting or, if adjourned, any reconvening thereof or in any other manner provided by law. A revocation of a proxy does not affect any matter on which a vote has been taken prior to the revocation.

NON-REGISTERED SHAREHOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are “non-registered” shareholders because the shares they own are not registered in their names but are instead registered in the names of a brokerage firm, bank or other intermediary or in the name of a clearing agency. Shareholders who do not hold their shares in their

own name (referred to herein as “Beneficial Shareholders”) should note that only registered shareholders may vote at the Meeting. If common shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those common shares will not be registered in such shareholder’s name on the records of the Company. Such common shares will more likely be registered under the name of the shareholder’s broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS Inc. (the registration name for CDS Clearing and Depository Services Inc., which company acts as nominee for many Canadian brokerage firms). Common shares held by brokers (or their agents or nominees) on behalf of a broker’s client can only be voted (for or against resolutions) at the direction of the Beneficial Shareholder. Without specific instructions, brokers and their agents and nominees are prohibited from voting shares for the brokers’ clients. **Therefore, each Beneficial Shareholder should ensure that voting instructions are communicated to the appropriate person well in advance of the Meeting.**

Existing regulatory policy requires brokers and other intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders’ meetings. The various brokers and other intermediaries have their own mailing procedures and provide their own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their common shares are voted at the Meeting. Often the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the form of proxy provided by the Company to the registered shareholders. However, its purpose is limited to instructing the registered shareholder (i.e. the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (“**Broadridge**”). Broadridge typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Shareholders and asks Beneficial Shareholders to return the forms to Broadridge, or otherwise communicate voting instructions to Broadridge (by way of the internet or telephone, for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of common shares to be represented at the Meeting. **A Beneficial Shareholder who receives a Broadridge voting instruction form cannot use that form to vote common shares directly at the Meeting. The voting instruction form must be returned to Broadridge (or instructions respecting the voting of common shares must be communicated to Broadridge) well in advance of the Meeting in order to have the common shares voted.**

This Information Circular and accompanying materials are being sent to both registered shareholders and Beneficial Shareholders. Beneficial Shareholders fall into two categories – those who object to their identity being known to the issuers of securities which they own (“**Objecting Beneficial Owners**”, or “**OBOs**”) and those who do not object to their identity being made known to the issuers of the securities they own (“**Non-Objecting Beneficial Owners**”, or “**NOBOs**”). Subject to the provision of National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer* (“**NI 54-101**”) issuers may request and obtain a list of their NOBOs from intermediaries via their transfer agents. Pursuant to NI 54-101, issuers may obtain and use the NOBO list for distribution of proxy-related materials directly (not via Broadridge) to such NOBOs. If you are a Beneficial Shareholder, and the Company or its agent has sent these materials directly to you, your name, address and information about your holdings of common shares have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding the common shares on your behalf.

The Company has decided to take advantage of the provisions of NI 54-101 that permit it to deliver proxy related materials directly to its NOBOs. By choosing to send these materials to you directly, the Company (and not the intermediary holding shares on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. As a result if you are a NOBO of the Company, you can expect to receive a scannable Voting Instruction Form (“**VIF**”) from the Transfer Agent. Please complete and return the VIF to the Transfer Agent as specified in the request for voting instructions. The Transfer Agent will tabulate the results of the VIF’s received from the Company’s NOBOs and will

provide appropriate instructions at the Meeting with respect to the Common Shares represented by the VIF's they receive.

The Company is not sending its proxy-related materials to the registered shareholders or Beneficial Shareholders using "notice and access", as defined in NI 54-101.

Management of the Company will not pay for intermediaries to forward to OBOs (who have not otherwise waived their right to receive proxy-related materials) under NI 54-101 the proxy-related materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary*. Accordingly, an OBO will not receive the materials unless the OBO's intermediary assumes the costs of delivery.

Although Beneficial Shareholders may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of his broker, a Beneficial Shareholder may attend the Meeting as proxyholder for the registered shareholder and vote the Common Shares in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their Common Shares as proxyholder for the registered shareholder should enter their own names in the blank space on the proxy provided to them and return the same to their broker (or the broker's agent) in accordance with the instructions provided by such broker.**

All references to shareholders in this Information Circular and the accompanying form of Proxy and Notice of Meeting are to shareholders of record unless specifically stated otherwise.

VOTING OF PROXIES

The shares represented by a properly executed proxy in favour of persons proposed by Management as proxyholders in the accompanying form of proxy will:

- (a) be voted or withheld from voting in accordance with the instructions of the person appointing the proxyholder on any ballot that may be taken; and
- (b) where a choice with respect to any matter to be acted upon has been specified in the form of proxy, be voted in accordance with the specification made in such proxy.

ON A POLL SUCH SHARES WILL BE VOTED IN FAVOUR OF EACH MATTER FOR WHICH NO CHOICE HAS BEEN SPECIFIED BY THE SHAREHOLDER.

The enclosed form of proxy when properly completed and delivered and not revoked confers discretionary authority upon the person appointed proxy thereunder to vote with respect to amendments or variations of matters identified in the Notice of Meeting, and with respect to other matters which may properly come before the Meeting. If any amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the persons designated in the enclosed form of proxy to vote in accordance with their best judgment on such matters or business. At the time of the printing of this Information Circular, the management of the Company knows of no such amendment, variation or other matter that may be presented to the Meeting.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as set forth in this Information Circular, no person who has been a director or executive officer of the Company at any time since the beginning of the last financial year, nor any proposed nominee for election as a director of the Company, nor any associate or affiliate of any of the foregoing, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon

other than the election of directors or the appointment of auditor. Current and directors and executive officers may, however, be interested in the approval of the Company’s New Stock Option Plan as detailed in “Particulars of Matters to be Acted Upon – Approval of New Stock Option Plan (as hereinafter defined).

Accordingly the Company

provides the following disclosure with respect to its Audit Committee. This information is set out in the attached as Schedule "A" to this Information Circular.

STATEMENT OF EXECUTIVE COMPENSATION

For the purposes of this Circular, a Named Executive Officer ("NEO") of the Company means each of the following individuals:

- (a) a chief executive officer ("CEO") of the Company;
- (b) a chief financial officer ("CFO") of the Company;
- (c) each of the Company's three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the most recently completed financial year whose total compensation was, individually, more than \$150,000, as determined in accordance with subsection 1.3(6) of Form 51-102F6, for the September 30, 2020 financial year; and
- (d) each individual who would be an NEO under paragraph (c) above but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity at September 30, 2020.

During the year ended September 30, 2020, the Company had two NEOs: Thomas Kennedy, and Dale Dobson, CFO.

Compensation Discussion and Analysis

The Company's Board is responsible for ensuring that the Company has in place an appropriate plan for executive compensation and for making recommendations with respect to the compensation of the Company's executive officers. The Board ensures that total compensation paid to its NEOs is fair and reasonable and is consistent with the Company's compensation philosophy.

Executive Compensation Program

Given the Company's current stage of development, the Board of Directors has not established a formal compensation committee. The Board as a whole is responsible for determining the final compensation (including long-term incentive in the form of stock options) to be granted to the Company's executive officers and directors to ensure that these arrangements reflect the responsibilities and risks associated with each position. Management directors must abstain from voting in respect of their own compensation; this requirement provides the independent members of the Board with considerable input as to executive compensation. The plan must be competitive and rewarding so as to attract, retain and motivate executives who will provide the leadership required to enhance the growth and profitability of the Company.

The Company's executive compensation program focuses primarily on rewarding the efforts of its executives in increasing shareholder value and meeting the Company's goals. On an annual basis, the Board reviews the corporate goals and objectives relevant to executive compensation; evaluates each executive officer's performance in light of those goals and objectives and sets the executive officer's compensation level based, in part, on this evaluation. The Board also takes into consideration the Company's overall performance, shareholder returns, and the value of similar incentive awards to executive officers at comparable companies, and the awards given to executive officers in past years. The Board's compensation philosophy is aimed at attracting and retaining quality and experienced people which is critical to the success of the Company and may include a "pay-for-performance" element which supports the Company's commitment to delivering strong

performance for the Shareholders.

Executive compensation is comprised of three elements: base fees (may be consulting fees) or salary, short-term incentive compensation (discretionary cash bonuses) and long-term incentive compensation (share options). The Board reviews all three components in assessing the compensation of individual executive officers and of the Company as a whole. Each component of the compensation program is discussed below.

Base Salaries or Management Fee Arrangements and Benefits

Base salaries or management fees are intended to provide current compensation for executive officers' to meet the Company's goals, as well as to remain competitive with the industry. They represent compensation for job responsibilities and reflect the level of skills, expertise, and capabilities demonstrated by the executive officers.

The compensation paid to the Company's NEOs is determined primarily by comparison of the remuneration paid by the Company to the remuneration paid by other reporting issuers in the Canadian junior mining sector that the Board of Directors believe are similar to the Company in terms of size and stage of development. While the Company takes into consideration the compensation paid to similar executive officers in comparable junior resource companies, the Company does not engage in the practice of benchmarking by comparing compensation across a designated peer group of companies. The Company may consider benchmarking and other more formal compensation policies, objectives and criteria in the future should circumstances warrant.

Other components of compensation may include personal benefits that are consistent with the compensation strategy. In addition to base fee or salary, the Named Executive Officers are reimbursed by the Company for reasonable out-of-pocket expenses incurred in connection with their employment with the Company. The Company does not provide any pension or retirement benefits to the NEOs.

Cash Bonuses

Executive officers are also eligible to receive discretionary bonuses as determined by the Board based on each officer's responsibilities, his or her achievement of individual and corporate objectives and the Company's financial performance. Cash bonuses are intended to reward the NEOs for meeting or exceeding the individual and corporate performance objectives set by the Board and the amount of any bonus is discretionary and may be affected substantially by the monetary position of the Company at the time the bonuses are considered.

Long Term Incentives and Stock Options

Stock options are an important part of the Company's long-term incentive strategy for its officers, permitting them to participate in any appreciation of the market value of the Company's shares over a set period of time, and are intended to reinforce commitment to long-term growth and shareholder value. Stock options reward overall corporate performance as measured through the price of the Company's shares and enables executives to acquire and maintain an ownership position in the Company. The Board of Directors ultimately decides the number of options to be granted to each NEO. In making this decision, the Board of Directors take into account the Company's contractual obligations, the Company's budget and financial strength, and the award history for all participants in the Stock Option Plan. The allocation of stock options is regarded as an important element to attract and retain NEOs for the long term and to align their interests with the interests of shareholders.

The Board of Directors has not directly considered the implications of the risks associated with the Company's compensation policies and practices.

The Company does not restrict on its NEOs or other employees from purchasing financial instruments (including prepaid variable forward contracts, equity swaps, collars or units of exchange funds) that are designed to hedge or offset a decrease in the market value of equity securities granted as compensation or

directly or indirectly held by the NEO or employee. To the Company's knowledge, none of the NEOs have purchased any such financial instruments.

Share-based Awards

The Company does not have a share-based award incentive plan.

Option-based Awards

Executive officers of the Company, as well as directors, employees and consultants, are eligible to participate in the Company's stock option plan (the "**Stock Option Plan**") to receive grants of stock options. Individual stock options are granted by the Board as a whole in keeping with the regulations of the stock exchange. The size of an option grant takes into consideration many factors, including each officer's level of responsibility, authority and importance to the Company and the degree to which an officer's long term contribution to the Company will be crucial to its overall long-term success.

Stock options grants may be made periodically to ensure that the number of options granted to any particular officer is commensurate with the officer's level of ongoing responsibility within the Company. The Board will evaluate the number of options an officer has been granted, the exercise price of the options and the term remaining on those options when considering further grants. Options are usually priced at the closing trading price of the Company's shares on the business day immediately preceding the date of grant, bearing in mind that the Company must follow stock exchange policy when setting the terms of the option grant; the current policy of the Board is that options expire two to ten years from the date of grant. See "Annual Approval of Stock Option Plan" for information regarding the material terms of the Stock Option Plan.

The Company had no arrangements, standard or otherwise, under which Directors are compensated by the Company for their services in their capacity as Directors, or for committee participation, or involvement in special assignments during the most recently completed financial year or subsequently, up to and including the date of this Information Circular.

The Company has a formalized stock option plan for the granting of incentive stock options to its officers, employees, consultants, and Directors. During the most recently completed financial year no stock options were granted and no stock options were exercised.

Actions, Decisions or Policies Made After September 30, 2020

Given the evolving nature of the Company's business, the Board continues to review and redesign the overall compensation plan for senior management so as to continue to address the objectives identified above.

SCHEDULE “B” STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Policy 58-201 *Corporate Governance Guidelines* (“**NP 58-201**”) establishes corporate governance guidelines which apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company’s practices comply with the guidelines, however, the Board of Directors (the “**Board**”) considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 *Disclosure of Corporate Governance Practices* mandates disclosure of corporate governance practices for Venture Issuers in Form 58-101F2, which disclosure is set out below.

Board of Directors

Structure and Compensation

The Board is currently composed of four (4) directors; Thomas Kennedy, Andrew H. Rees, Glen C. Macdonald and Laurence A. Smoliak. The Board proposes that the number of number of directors remain at Four (4). The proposed nominees for election as director at the Meeting are: Thomas Kennedy, Andrew H. Rees, Glen C. Macdonald and Laurence A. Smoliak.

NP 58-201 suggests that the board of directors of every listed corporation should be constituted with a majority of individuals who qualify as “independent” directors under National Instrument 58-101 – *Disclosure of Corporate Governance Practices* (“**NI 58-101**”), which provides that a director is independent if he or she has no direct or indirect “material relationship” with the Company. “Material relationship” is defined as a relationship which could, in the view of the Board of Directors, be reasonably expected to interfere with the exercise of a director’s independent judgement. Of the current directors, Thomas Kennedy is considered “inside” or management directors and accordingly are considered not “independent”. The remaining three (3) directors are considered by the Board to be “independent”, within the meaning of NI 52-110.

Board Responsibilities

The mandate of the Board is to manage or supervise the management of the business and affairs of the Company and to act with a view to the best interests of the Company. In doing so, the Board oversees the management of the Company’s affairs directly and through its committees (see “Other Board Committees” below). In fulfilling its mandate, the Board, among other matters, is responsible for reviewing and approving the Company’s overall business strategies and its annual business plan, reviewing and approving the annual corporate budget and forecast, reviewing and approving significant capital investments outside the approved budget; reviewing major strategic initiatives to ensure that the Company’s proposed actions accord with shareholder objectives; reviewing succession planning; assessing management’s performance against approved business plans and industry standards; reviewing and approving the reports and other disclosure issued to shareholders; ensuring the effective operation of the Board; and safeguarding shareholders’ equity interests through the optimum utilization of the Company’s capital resources. The Board also takes responsibility for identifying the principal risks of the Company’s business and for ensuring these risks are effectively monitored and mitigated to the extent reasonably practicable. At this stage of the Company’s development, the Board does not believe it is necessary to adopt a written mandate, as sufficient guidance is found in the applicable corporate and securities legislation and regulatory policies. However, as the Company grows, the Board will move to develop a formal written mandate.

In keeping with its overall responsibility for the stewardship of the Company, the Board is also responsible for the integrity of the Company’s internal control and management information systems and for the Company’s policies respecting corporate disclosure and communications.

The Board delegates to management, through the Chief Executive Officer and the Chief Financial Officer, responsibility for meeting defined corporate objectives, implementing approved strategic and operating plans, carrying on the Company’s business in the ordinary course, managing the Company’s cash flow, evaluating new business opportunities, recruiting staff and complying with applicable regulatory requirements. The Board also looks to management to furnish recommendations respecting corporate objectives, long-term strategic plans, and annual operating plans.

The Board currently does not have a Chair and does not consider that, at this stage of the Company’s development, it is necessary to have one. Given the size of the Company’s current operations, the Board believes that the Company is well serviced and the independence of the Board from management. In addition, the Board has found that the fiduciary duties placed on management by the Company’s governing corporate legislation and common law and the restrictions on an individual director’s participation in decisions of the Board in which the director has an interest under applicable corporate and securities legislation provide the “independent” directors with significant input and leadership in exercising their responsibilities for independent oversight of management. In addition, each member of the Board understands that he is entitled to seek the advice of an independent expert if he reasonably considers it warranted under the circumstances and the “independent” directors have the ability to meet independently of management whenever deemed necessary. As of the year ended September 30, 2020 the independent directors have not exercised their right to meet independently of management given the Company’s limited operations at the current time; as such the decisions required of the Board have been considered routine and in the ordinary course of business, the independent directors have not deemed it necessary to review such materials separate and apart from management.

The Board of Directors, through the Audit Committee, has the responsibility to identify the principal risks of the Company’s business. It works with management to implement policies to identify the risks and to establish systems and procedures to ensure that these risks are monitored.

The Board of Directors has delegated responsibility for the integrity of internal controls and management information systems to the Audit Committee. The Company’s external auditors report directly to the Audit Committee. In its regular meetings with the external auditors, the Audit Committee discusses, among other things, the Company’s financial statements and the adequacy and effectiveness of the Company’s internal controls and management information systems.

Orientation and Continuing Education

The skills and knowledge of the Board of Directors as a whole is such that no formal continuing education process is currently deemed required. The Board is comprised of individuals with varying backgrounds, who have, both collectively and individually, extensive experience in running and managing public companies. Board members are encouraged to communicate with management, auditors, and technical consultants to keep themselves current with industry trends and developments and changes in legislation, with management's assistance. Board members have full access to the Company's records.

The Company provides continuing education to its directors as such need arises and encourages open discussion at all meetings which format encourages learning by the directors. Members of the Board of Directors are encouraged to communicate with management, auditors and technical consultants; to keep themselves current with industry trends and developments and changes in legislation; and to attend related industry seminars and visit the Company's operations.

Ethical Business Conduct

The Board of Directors expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan and to meet performance goals and objectives.

However, to date, the Board has not adopted a formal written Code of Business Conduct and Ethics. The Board has found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law, as well as the restrictions placed by applicable corporate and securities legislation on the individual director's participation in decisions of the Board in which the director has an interest, have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company and its shareholders.

In addition, the limited size of the Company's operations and the small number of officers and employees allows the Board to monitor on an ongoing basis the activities of management and to ensure that the highest standard of ethical conduct is maintained. As the Company grows in size and scope, the Board anticipates that it will formulate and implement a formal Code of Business Conduct and Ethics.

Nomination of Directors

Given its current size and stage of development, the Board has not appointed a nominating committee and these functions are currently performed by the Board as a whole. Nominees are generally the result of recruitment efforts by Board members, including both formal and informal discussions among Board members and the Chief Executive Officer, and proposed directors' credentials are reviewed in advance of a Board meeting with one or more members of the Board prior to the proposed director's nomination.

Compensation

The quantity and quality of the Board compensation is reviewed on an annual basis. At present, the Board is satisfied that the current Board compensation arrangements, Given the Company's current size and stage of development, the Board of Directors has not appointed a formal compensation committee, but instead the independent directors make recommendations to the Board regarding executive compensation (including long-term incentive in the form of stock options) to be paid to the Company's executive officers having regard to the responsibilities and risks associated with each position. In addition, compensation to be paid to executive officers who are also directors must be approved by the disinterested directors thereby providing the non-executive officer directors with significant input into compensation decisions.

Other Board Committees

The Board has no other committees other than the Audit Committee. As the Company evolves, and its operations and management structure become more complex, the Board will likely find it appropriate to constitute additional standing committees, such as a formal Governance Committee, a Compensation Committee, and a Nominating Committee, and to ensure that such committees are governed by written charters and are composed of at least a majority of independent directors.

Assessments

The Board does not, at present, have a formal process in place for assessing the effectiveness of the Board as a whole, its committees or individual directors, but will consider implementing one in the future should circumstances warrant. Based on the Company's current size, its stage of development and the limited number of individuals on the Board, the Board considers a formal assessment process to be inappropriate at this time. The Board plans to continue evaluating its own effectiveness and the effectiveness and contribution of its committees or individual directors on an ad hoc basis.
