Summary of Quarterly Results

Results of Operations for the three months ended June 30, 2012 and 2011

Three Months ended June 30, 2012 and 2011

For the three months ended June 30, 2012, the Company incurred a loss of $23,101 (2011: $20,167) and has accumulated deficit of $2,691,489 as at June 30, 2012. The net loss is only slightly higher for the three months ended June 30, 2012 than the same period previous year due to increase in management fees which is partially offset by decrease in professional fees. The increase in management fees is the result of increased activities during the quarter.

Results of Operations for six months ended June 30, 2012 and 2011

Six Months ended June 30, 2012 and 2011

For the six months ended June 30, 2012, the Company incurred a loss of $44,766 (2011: $28,437) and has accumulated losses of $2,691.489 as at June 30, 2012. The net loss is higher for the six months ended June 30, 2012 than the same period previous year due to increase in management fees (2012: $18,000; 2011: $10,000). This increase was due to increased activities and was partially offset by a decline in professional fees from $9,872 (2011) to $3,061 for the period ended June 30, 2012.

Cash and Short Term Investment

On June 30, 2012, the Company had cash of $707,610 (December 2011 - $763,690). Management of cash balances is conducted in-house based on internal investment guidelines, which generally specify that investments be made in conservative money market instruments that bear interest and carry a low degree of risk. Some examples of instruments in which the Company may invest its cash are treasury bills, money market funds, bank guaranteed investment certificates and bankers' acceptance notes. The objective of these investments is to preserve funds for the advancement of the Company's properties.

Cash Used in Operating Activities

Cash used by operating activities during the period ended June 30, 2012 was $56,080 (2011: $36,957). Cash was mostly spent on management fees, office, professional fees, and transfer and filing fees.

Total cash generated by financing activities for the six months ended June 30, 2012 was $nil.

Going Concern

The Company's financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. Certain conditions and events cast significant doubt on the validity of this assumption. For the period ended June 30, 2012, the Company reported a loss of $44,766 (2011: $28,437) and as at that date had an accumulated deficit of $2,691,489 (2011: $2,621,221). As at June 30, 2012, the Company had a net working capital of $654,010 (2011: $724,278). While in the past, the Company has been successful in obtaining funding from equity financings, option agreements, loans or through other arrangements, there is no assurance that these initiatives will be successful in the future.

Off-Balance Sheet Arrangements

The Company is not committed to any off-balance sheet arrangements.

Financing Activities

On August 12, 2010, the Company received 250,000 shares of Orestone Mining Corp. in settlement of the $25,000 owed by Intuitive Exploration Inc., which was acquired by Orestone on June 3, 2010. The shares have a hold period expiring on December 26, 2010.

On May 17, 2011, the Company arranged a non-brokered private placement of up to 7,692,308 Units of the Company for gross proceeds of $500,000 at a price of $0.065 per Unit, each Unit consisting of one common share and one warrant, each warrant entitling the holder to purchase one additional share of the Company at a price of $0.10 per share for a period of twelve months.

Proposed Transactions

There are no proposed transactions that the Company has not previously disclosed.

Critical Accounting Estimates

The Company's significant accounting policies are contained in Note 2 to the interim financial statements for the six months ended June 30, 2011. Certain of these policies are recognized as critical because in applying these policies, management is required to make judgments, assumptions and estimates that have a significant impact on the financial results of the Company.

Stock-Based Compensation

The Company uses the Black-Scholes option valuation model to calculate the fair value of share purchase options at the date of grant. Option pricing models require the input of highly subjective assumptions, including share price, volatility and expected life of the options. Changes in these assumptions can materially affect the fair value estimate.

Transactions with Related Parties

During the period ended June 30, 2012, the Company was charged $18,000 (2011: 10,000) for management fees by its directors. At June 30, 2012, the Company owed $nil (2011: $5,600).

During the period ended June 30, 2012 the Company was charged $361 (2011 - $6,202) for legal services to a company related to a director. At June 30, 2012, the Company owed $14,421 (2011: $21,032).

RECENT ACCOUNTING PRONOUNCEMENTS

Unless otherwise noted, the following revised standards and amendments are effective for annual periods beginning on or after January 1, 2013, except IFRS 9 which is after January 1, 2015 and IAS1 which is after July 1, 2012, with earlier application permitted. The Company has not yet assessed the impact of these standards and amendments or determined whether it will early adopt them.

- IFRS 9 *Financial Instruments* was issued in November 2009 and addresses classification and measurement of financial assets. It replaces the multiple category and measurement models in IAS 39 for debt instruments with a new mixed measurement model having only two categories: amortized cost and fair value through profit or loss. IFRS 9 also replaces the models for measuring equity instruments. Such instruments are either recognized at fair value through profit or loss or at fair value through other comprehensive income. Where equity instruments are measured at fair value through other comprehensive income, dividends are recognized in profit or loss to the extent that they do not clearly represent a return of investment; however, other gains and losses (including impairments) associated with such instruments remain in accumulated comprehensive income indefinitely. Requirements for financial liabilities were added to IFRS 9 in October 2010 and they largely carried forward existing requirements in IAS 39, Financial Instruments – Recognition and Measurement, except that fair value changes due to credit risk for liabilities designated at fair value through profit and loss are generally recorded in other comprehensive income.

- IFRS 10 *Consolidated Financial Statements* requires an entity to consolidate an investee when it has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Under existing IFRS, consolidation is required when an entity has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. IFRS 10 replaces SIC-12 *Consolidation – Special Purpose Entities* and parts of IAS 27 *Consolidated and Separate Financial Statements*.

- IFRS 11 *Joint Arrangements* requires a venturer to classify its interest in a joint arrangement as a joint venture or joint operation. Joint ventures will be accounted for using the equity method of accounting whereas for a joint operation the venturer will recognize its share of the assets, liabilities, revenue and expenses of the joint operation. Under existing IFRS, entities have the choice to proportionately consolidate or equity account for interests in joint ventures. IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities – Nonmonetary Contributions by Venturers*.

- IFRS 12 *Disclosure of Interests in Other Entities* establishes disclosure requirements for interests in other entities, such as subsidiaries, joint arrangements, associates, and unconsolidated structured entities. The standard carries forward existing disclosures and also introduces significant additional disclosure that address the nature of, and risks associated with, an entity's interests in other entities.

- IFRS 13 *Fair Value Measurement* is a comprehensive standard for fair value measurement and disclosure for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among the specific standards requiring fair value measurements and does not always reflect a clear measurement basis or consistent disclosures.

- There have been amendments to existing standards, including IAS 27 *Separate Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*. IAS 27 addresses accounting for subsidiaries, jointly controlled entities and associates in non-consolidated financial statements. IAS 28 has been amended to include joint ventures in its scope and to address the changes in IFRS 10 – 13.

- IAS 1 *Presentation of Financial Statements* has been amended to require entities to separate items presented in OCI into two groups, based on whether or not items may be recycled in the future. Entities that choose to present OCI items before tax will be required to show the amount of tax related to the two groups separately. The amendment is effective for annual periods beginning on or after July 1, 2012 with earlier application permitted.
