Results from Operations

Revenue increased 5% for the six months ended March 31, 2012 from the prior year period, made up of a 13% rise in services and a 4% decrease in equipment and software sales. Net income decreased to \$118,543 from \$187,347 for the first six months of fiscal 2012 from the similar 2011 period, principally due to a \$350,000 one-time equipment sale in the earlier period. Glenbriar paid out its bank line in the second quarter of fiscal 2012. These results reflect increased project spending by clients, reduced amortization of intangibles, and the gain on sale of related entities.
