1. <u>Nature of Operations and Going Concern</u>

The Company was incorporated under the laws of the Province of British Columbia on November 3, 1993. The Company's shares were listed for trading on the TSX Venture Exchange ("TSX-V") and on February 3, 2014, the Company changed its name to Avarone Metals Inc. and commenced trading on the TSX-V under the symbol "AVM". On January 20, 2016, the Company listed on the Canadian Securities Exchange ("Exchange" or "CSE") while simultaneously delisting from the TSX-V. The Company retained its name and symbol and trades on the CSE as Avarone Metals Inc. (CSE-AVM).

The head office and principal address of the Company are located at Suite 610 – 700 West Pender Street, Vancouver, BC, Canada, V6C 1G8. The Company's records office and registered office address is located at Suite 700 – 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5.

The Company is in the process of exploring its resource properties and has not yet determined whether these properties contain mineral reserves that are economically recoverable. The Company's ability to continue as a going concern and the recoverability of the amounts shown for resource properties are dependent upon the ability of the Company to raise additional financing in order to complete the acquisition, exploration and development of its resource properties, the discovery of economically recoverable reserves and upon future profitable production or proceeds from disposition of the Company's resource properties. As a resource company in the exploration stage, the ability of the Company to complete its acquisition, exploration and development will be affected principally by its ability to raise adequate amounts of capital through equity financings, debt financings, joint venturing of projects and other means.

These condensed consolidated interim financial statements have been prepared using accounting policies applicable to a going concern which contemplate the realization of assets and settlement of liabilities in the normal course of business. At April 30, 2017, the Company had not yet achieved profitable operations, had accumulated losses of \$15,494,873 (2016- \$15,630,896), a working capital deficit of \$409,397 (2016 - \$174,957) and expects to incur further losses in the development of its business. The Company will be required to raise additional capital in order to maintain its option obligations and fund working capital requirements. While the Company has been successful in the past, there is no assurance that it will be able to obtain adequate financing or that such financing will be available on acceptable terms. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations, exploration and development activities. These material uncertainties may cast significant doubt on the entity's ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments other than the normal course of operations, and at amounts different from those in the accompanying consolidated financial statements.

2. <u>Significant Accounting Policies</u>

The condensed consolidated interim financial statements were authorized for issue on June 23, 2017, by the Directors of the Company. The accounting policies set out below have been applied consistently to all periods presented in these condensed interim consolidated financial statements.

Basis of Presentation and Consolidation

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

4. <u>Exploration and Evaluation Expenditures – (continued)</u>

(a) Wildnest and Phantom Lake Properties

The Company entered into an option agreement with Ray-Dor Resources Ltd. (the "Optionor") dated November 15, 2012, as amended on October 28, 2013 and November 24, 2014, ("Agreement"), pursuant to which it has been granted an option to acquire a 100% interest in seven mineral claims known as the Wildnest and Phantom Lake gold properties located in the Flin Flon area of Manitoba and Saskatchewan (the "Claims"). Under the terms of the Agreement, the Company may earn a 100% interest in the Claims by making cash payments of \$32,500 and issuing 225,000 common shares of the Company in accordance with the schedule below. In addition, the Company is required to complete exploration programs totalling \$850,000 over a five year period.

Date	Cash	Common shares	Exploration Expenditures
	\$	#	\$
Upon Exchange approval	2,500 (paid)	50,000 (issued)	-

On or before December 21, 2018	-	-	200,000
On or before December 21, 2019	-	-	433,485
Totals	32,500	450,000	850,000

*As at April 30, 2017, the Company had not made the \$10,000 payment or issued the 50,000 common shares due on December 21, 2015, and the option agreement is in default.

** On December 21, 2016 the Company failed to make the cash payment of \$15,000 or incur \$50,000 of exploration expenditures as required under the option agreement for the Wildnest and Phantom Lake Properties.

The Claims are subject to a 2% net smelter royalty ("NSR"), of which, 50% of the NSR or 1% NSR may be acquired by the Company at any time for \$500,000.

(b) Rushton Lake Gold Project

The Company entered into an option agreement dated January 8, 2014, whereby the Company has been granted an option to acquire a 100% interest in the Rushton Lake Gold Project (the "Project") located in central Saskatchewan.

Under the terms of the agreement, the Company may earn a 100% interest in the Project by issuing an aggregate of 4,000,000 common shares, making cash payments of \$300,000 over 30 months and incurring exploration expenditures of \$3,500,000 over four years as follows:

Date	Cash	Common shares	Exploration Expenditures
	\$	#	\$
Upon Exchange approval	-	4,000,000 (issued)	-
On or before July 8, 2015**	100,000	-	-
On or before July 8, 2016**	200,000	-	-
On or before January 8, 2018	-	-	3,500,000
Totals	300,000	4,000,000	3,500,000

**As at April 30, 2017, the Company had not made the \$100,000 payment due on July 8, 2015, or the \$200,000 payment due on July 8, 2016, and the option agreement is in default.

(An Exploration Stage Company) Notes to the Condensed Consolidated Interim Financial Statements (Expressed in Canadian Dollars) Nine months ended April 30, 2017 and 2016

4. <u>Exploration and Evaluation Expenditures – (continued)</u>

(b) Rushton Lake Gold Project (continued)

The claims are subject to a 1% net smelter royalty, which can be purchased at any time by the Company for \$1,000,000.

(c) McWilliams Lake Gold Project

The Company entered into an option agreement dated March 25, 2014, whereby the Company has been granted an option to acquire a 100% interest in the McWilliams Lake Gold Project (the "Property") located in central Saskatchewan.

Under the terms of the agreement, the Company may earn a 100% interest in the Property by issuing an aggregate of 4,000,000 common shares (issued) and incurring exploration expenditures of \$1,000,000 within four years of the signing of the agreement. In order to keep the claims in good standing an annual minimum exploration requirement on the claims must be met. As at April 30, 2017, the claim is in good standing.

(d) Borys Lake Project

On November 16, 2015, the Company entered into an agreement with an arms' length party by which the Company can earn a 100% interest in the Borys Lake Lead-Zinc Project, which covers an area of ~2882 hectares in the southwestern edge of the LaRonge Gold Belt, SK.

Under the terms of the agreement, the Company can earn a 100% interest in the property by completing the following; the issuance of 6,000,000 common shares (issued for a fair value of \$120,000) upon TSX Venture Exchange approval, the payment of further cash consideration totaling \$200,000 over the next 3 years and the completion of \$1,000,000 in qualified exploration expenditures within 4 years from the date of approval. The Company received TSX Venture Exchange Approval on November 24, 2015. During the period ended April 30, 2017, the agreement was terminated. The Company has not made any exploration expenditures on the property, has not maintained the property in good standing, and will not be making future cash payments pursuant to the terms of the agreement to acquire the 100% interest in the property.

(e) Moab Lake Project

On March 8, 2016, the Company entered into an agreement with an arms' length party to acquire a 100% interest in the Moab Lithium Project, which covers an area of 3200 acres of placer claims in the Big Smoky Valley, Nevada, directly adjacent to claims controlled by Ultra Lithium.

Under the terms of the agreement, the Company can earn a 100% interest in the Moab Lake Lithium Project by completing the following; issuing 3,000,000 common shares (issued for a fair value of \$300,000) upon Exchange approval and paying cash consideration totaling \$200,000 over the next 3 years. A 1% gross overriding royalty has also been granted to the vendor, which can be purchased by the Company at any time for \$1million.

11. <u>Segmented Information</u>

The Company has one operating segment, being the exploration of resource properties and operated in one geographic segment at April 30, 2017, and July 31, 2016, with its assets located in North America.

12. Financial Instruments and Risk Management

(a) Fair Value of Financial Instruments

As at April 30, 2017, the Company's financial instruments consist of cash and cash equivalents, accounts receivable, deposit, accounts payable and accrued liabilities, note payable and loans payable. The carrying values of these financial instruments approximate their fair values because of their short term nature and/or the existence of market related interest rates on the instruments.

IFRS requires disclosures about the inputs to fair value measurements for financial assets and liabilities recorded at fair value, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and
- Level 3 Inputs for the asset or liability that are not based on observable market data.

The Company has no financial instrument assets or liabilities recorded in the statements of financial position at April 30 2017, and July 31, 2016, at fair value and accordingly fair value hierarchy disclosure is not required.

12. <u>Financial Instruments and Risk Management – (Continued)</u>

(b) Financial Instruments Risk

The Company is exposed in varying degrees to a variety of financial instrument related to risks. The Board approves and monitors the risk management processes:

(i) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is subject to credit risk on the cash balances at the bank and amounts receivable. The investments are with Schedule 1 banks or equivalent, with the majority of its cash held in Canadian based banking institutions, authorized under the Bank Act to accept deposits, which may be eligible for deposit insurance provided by the Canadian Deposit Insurance Corporation. Management considers that risks related to credit are minimal.

(ii) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet the obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due. As at April 30, 2017, the Company had cash and cash equivalents of \$5,966 to settle current liabilities of \$419,717.

The Company is dependent on the availability of credit from its suppliers and its ability to generate sufficient funds from equity and debt financing to meet current and future obligations. There can be no assurance that such financing will be available on terms acceptable to the Company (note 1).

(iii) Market Risk

a. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's accounts payable and accrued liabilities, and note payable are non-interest bearing. The promissory note payable bears interest at a fixed rate. As at April 30, 2017, the Company's interest bearing assets are cash and cash equivalents. The Company maintains a minimum cash balance in its chequing account and transfers funds from its investment account when the need arises. The Company's investments are placed in GICs for which interest rates vary depending on the rates offered by the banks when the instruments mature and are automatically renewed. A change of 100 basis points in the interest rates would not be material to the financial statements.

b. Commodity Price Risk

Commodity price risk is the risk of financial loss resulting from movements in the price of the Company's commodity inputs and outputs. The Company's risk relates primarily to the expected output to be produced at its resource properties described in note 4 of these financial statements of which production is not expected in the near future

During the period ended April 30, 2017, there were no changes to the Company's risk exposure or to the Company's policies for risk management.

(An Exploration Stage Company) Notes to the Condensed Consolidated Interim Financial Statements (Expressed in Canadian Dollars) Nine months ended April 30, 2017 and 2016

13. <u>Capital Management</u>

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity (deficiency) as capital. The management of the capital structure is based on the funds available to the Company in order to support the acquisition, exploration and development of resource properties and to maintain the Company in good standing with the various regulatory authorities. In order to maintain or adjust its capital structure, the Company may issue new shares, sell assets to settle liabilities or return capital to its shareholders.

The Company is not subject to externally imposed capital requirements.

The properties in which the Company currently has an interest in are in the exploration stage, as such, the Company does not recognize revenue from its exploration properties. The Company's historical sources of capital have consisted of the sale of equity securities and interest income. In order for the Company to carry out planned exploration and development and pay for administrative costs, the Company will spend its working capital and expects to raise additional amounts externally as needed.

There were no changes in the Company's management of capital during the period ended April 30, 2017.

14. Restatement

The comparative figures for the three and nine months ended April 30, 2016 have been restated to reflect the correct application of the Company's accounting policy whereby exploration and evaluation expenditures incurred prior to the determination of commercially viable mineral resources, the feasibility of mining operations and a positive development decision are expensed as incurred. During the nine months ended April 30, 2016, \$458,370 of exploration and evaluation expenditures were incorrectly capitalized as exploration and evaluation assets.

In addition, costs of \$8,909 were incorrectly charged to share capital as share issue costs, rent, wages and benefits of \$41,851 were incorrectly classified as office costs and exploration and evaluation costs of \$75,000 were incorrectly classified as consulting fees.

The condensed consolidated interim statements of comprehensive loss for the three and nine months ended April 30, 2016 have been restated as follows:
