1. Nature of Operations and Going Concern

The Company was incorporated under the laws of the Province of British Columbia on November 3, 1993. The Company's shares were listed for trading on the TSX Venture Exchange ("TSX-V") under the symbol "AVM". On January 20, 2016, the Company listed on the Canadian Securities Exchange ("Exchange" or "CSE") while simultaneously delisting from the TSX-V. The Company retained its name and symbol on the CSE as Avarone Metals Inc. (CSE-AVM).

The head office and principal address of the Company are located at Suite 610 – 700 West Pender Street, Vancouver, BC, Canada, V6C 1G8. The Company's records office and registered office address is located at Suite 700 – 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5.

The Company is in the process of exploring and evaluating resource properties and has not yet identified any properties that contain established mineral reserves that are economically recoverable. The Company's ability to continue as a going concern is dependent upon the ability of the Company to raise additional financing in order to complete the acquisition, exploration and development of resource properties, the discovery of economically recoverable reserves and upon future profitable production or proceeds from disposition of the Company's resource properties. As a resource company in the exploration stage, the ability of the Company to complete its acquisition, exploration and development will be affected principally by its ability to raise adequate amounts of capital through equity financings, debt financings, joint venturing of projects and other means.

These condensed consolidated interim financial statements have been prepared using accounting policies applicable to a going concern which contemplate the realization of assets and settlement of liabilities in the normal course of business. At January 31, 2018, the Company had not yet achieved profitable operations, had accumulated losses of \$15,666,202 (July 31, 2017 - \$15,482,464), a working capital deficit of \$525,919 (July 31, 2017 - \$413,980) and expects to incur further losses in the development of its business. The Company will be required to raise additional capital in order to fund future exploration and evaluation activity and meet its working capital requirements. While the Company has been successful in the past, there is no assurance that it will be able to obtain adequate financing or that such financing will be available on acceptable terms. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations, exploration and development activities. These material uncertainties may cast significant doubt on the entity's ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments other than the normal course of operations, and at amounts different from those in the accompanying condensed consolidated interim financial statements.

2. Significant accounting policies and basis of preparation

These condensed consolidated interim financial statements were authorized for issue by the directors of the Company on March 29, 2018.

Statement of compliance with International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company's annual financial statements as at and for the year ended July 31, 2017.

The condensed interim consolidated financial statements do not include all of the information and note disclosures required for full annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended July 31, 2017.

Exploration and Evaluation Expenditures – (continued)

(a) Wildnest and Phantom Lake Properties

The Company entered into an option agreement with Ray-Dor Resources Ltd. (the "Optionor") dated November 15, 2012, as amended on October 28, 2013 and November 24, 2014, ("Agreement"), pursuant to which it has been granted an option to acquire a 100% interest in seven mineral claims known as the Wildnest and Phantom Lake gold properties located in the Flin Flon area of Manitoba and Saskatchewan (the "Claims").

Under the terms of the Agreement, the Company may earn a 100% interest by completing the following: making cash payments of \$32,500 (\$7,500 made) over the next four years, issuing 450,000 common shares (400,000 shares issued) of the Company over the next three years, and in accordance with the schedule below. In addition, the Company is required to completing exploration programs totalling \$850,000 over a five year period. The option agreement is in default since December 2015 as required payments were not made. As at January 31, 2018, the Company has made payments of \$7,500, issued 400,000 common shares, and incurred exploration expenditures of \$16,515.

On or before December 21, 2019	-	-	433,485
Totals	32,500	450,000	850,000

^{*}As at January 31, 2018, the Company had not made the \$10,000 payment or issued the 50,000 common shares due on December 21, 2015, and the option agreement is in default.

The Claims are subject to a 2% net smelter royalty (NSR), of which, 50% of the NSR or 1% NSR may be acquired by the Company at any time for \$500,000.

(b) Rushton Lake Gold Property

The Company entered into an option agreement dated January 8, 2014, whereby the Company has been granted an option to acquire a 100% interest in the Rushton Lake Gold Property (the "Property") located in central Saskatchewan.

Under the terms of the agreement, the Company may earn a 100% interest in the Property by completing the following: issuing an aggregate of 4,000,000 common shares (issued), making cash payments of \$300,000 over 30 months and incurring exploration expenditures of \$3,500,000 over four years. The option agreement has been in default since July 8, 2015, as required payments were not made.

During the period ended January 31, 2018, the Company decided not to pursue further exploration in this property and is planning to terminate the option agreement.

^{**} On December 21, 2016, the Company failed to make the cash payment of \$15,000 or incur \$50,000 of exploration expenditures as required under the option agreement for the Wildnest and Phantom Lake Properties.

^{***} On December 21, 2017, the Company failed to incur \$150,000 of exploration expenditures as required under the option agreement for the Wildnest and Phantom Lake Properties.

5. Exploration and Evaluation Expenditures – (continued)

(c) McWilliams Lake Gold Property

The Company entered into an option agreement dated March 25, 2014, whereby the Company has been granted an option to acquire a 100% interest in the McWilliams Lake Gold Property (the "Property") located in Saskatchewan.

Under the terms of the agreement, the Company may earn a 100% interest in the Property by issuing an aggregate of 4,000,000 common shares (issued) and incurring exploration expenditures of \$1,000,000 within four years of the signing of the agreement. In order to keep the claims in good standing an annual minimum exploration requirement on the claims must be met.

During the period ended January 31, 2018, the Company decided not to pursue further exploration in this property and is planning to terminate the option agreement.

(d) Borys Lake Property

On November 16, 2015, the Company entered into an agreement by which the Company can earn a 100% interest in the Borys Lake Lead-Zinc property located in Saskatchewan.

Under the terms of the agreement, the Company can earn a 100% interest in the property by completing the following: the issuance of 6,000,000 common shares (issued for a fair value of \$120,000) upon TSX-V approval, the payment of further cash considerations totaling \$200,000 over the next three years and the completion of \$1,000,000 in qualified exploration expenditures within four years from the date of approval. The Company received TSX-V approval on November 24, 2015. During the year ended July 31, 2017, the agreement was terminated.

(e) Moab Lake Property

On March 8, 2016, the Company entered into an agreement to acquire a 100% interest in the Moab Lake Lithium Project, which covers an area of 3,200 acres of placer claims in the Big Smoky Valley, Nevada.

Under the terms of the agreement, the Company can earn a 100% interest in the Moab Lake Lithium Project by completing the following: issuing 3,000,000 common shares (issued for a fair value of \$300,000) upon Exchange approval and paying cash considerations totaling \$200,000 over the next three years: \$75,000 on or before six months upon Exchange approval and \$125,000 on or before 36 months upon Exchange approval. A 1% gross overriding royalty has also been granted to the vendor, which can be purchased by the Company at any time for \$1,000,000.

During the period ended January 31, 2018, the Company decided not to pursue further exploration in this property and is planning to terminate the option agreement.

The Company has one operating segment, being the exploration of resource properties and operated in one geographic segment at January 31, 2018, and July 31, 2017, with its assets located primarily in North America.

14. Financial Instruments and Risk Management

(a) Fair Value of Financial Instruments

As at January 31, 2018, the Company's financial instruments consist of cash, accounts receivable, accounts payable, note payable and loans payable. The carrying values of these financial instruments approximate their fair values because of their short term nature and/or the existence of market related interest rates on the instruments.

IFRS requires disclosures about the inputs to fair value measurements for financial assets and liabilities recorded at fair value, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and
- Level 3 Inputs for the asset or liability that are not based on observable market data.

The Company has no financial instrument assets or liabilities recorded in the statements of financial position at January 31, 2018, and July 31, 2017, at fair value and accordingly fair value hierarchy disclosure is not required.

(b) Financial Instruments Risk

The Company is exposed in varying degrees to a variety of financial instrument related to risks. The Board approves and monitors the risk management processes:

(i) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is subject to credit risk on the cash balances at the bank and on amounts receivable. The investments are with Schedule 1 banks or equivalent, with the majority of its cash held in Canadian-based banking institutions, authorized under the Bank Act to accept deposits, which may be eligible for deposit insurance provided by the Canadian Deposit Insurance Corporation. Accounts receivable consists mostly of rent due from sub-lease tenants.

14. Financial Instruments and Risk Management – (continued)

Management considers that credit risks related to cash are minimal and credit risks related to accounts receivable are moderate due to the potential of non-payments.

(ii) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet the obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due. As at January 31, 2018, the Company had cash of \$13,144 to settle current liabilities of \$542,520.

The Company is dependent on the availability of credit from its suppliers and its ability to generate sufficient funds from equity and debt financing to meet current and future obligations. There can be no assurance that such financing will be available on terms acceptable to the Company (note 1).

(iii) Market Risk

a. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's accounts payable and notes payable are non-interest bearing. The loans payable bear a fixed interest rate. Management considers interest rate risk minimal.

b. Commodity Price Risk

Commodity price risk is the risk of financial loss resulting from movements in the price of the Company's commodity inputs and outputs. The Company's risk relates primarily to the expected output to be produced at its resource properties described in note 5 of these financial statements of which production is not expected in the near future.

During the period ended January 31, 2018, there were no changes to the Company's risk exposure or to the Company's policies for risk management.

15. <u>Capital Management</u>

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' deficiency as capital. The management of the capital structure is based on the funds available to the Company in order to support the acquisition, exploration and development of resource properties and to maintain the Company in good standing with the various regulatory authorities. In order to maintain or adjust its capital structure, the Company may issue new shares, sell assets to settle liabilities or return capital to its shareholders.

The Company is not subject to externally imposed capital requirements.

The properties in which the Company currently has an interest are in the exploration stage, as such, the Company does not recognize revenue from its exploration properties. The Company's historical sources of capital have consisted of the sale of equity securities and interest income. In order for the Company to carry out planned exploration and development and pay for administrative costs, the Company will spend its working capital and expects to raise additional amounts externally as needed.

There were no changes in the Company's management of capital during the period ended January 31, 2018.
