1. Nature of Operations and Going Concern

The Company was incorporated under the laws of the Province of British Columbia on November 3, 1993. The Company's shares are listed on the Canadian Securities Exchange ("Exchange" or "CSE") under the symbol "AVM".

The head office and principal address of the Company are located at Suite 610 – 700 West Pender Street, Vancouver, BC, Canada, V6C 1G8. The Company's records office and registered office address is located at Suite 700 – 1199 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3T5.

The Company is in the process of looking for resource properties to explore and has not yet identified any properties that contain established mineral reserves that are economically recoverable. The Company's ability to continue as a going concern is dependent upon the ability of the Company to raise additional financing in order to complete the acquisition, exploration and development of resource properties, the discovery of economically recoverable reserves and upon future profitable production or proceeds from disposition of the Company's resource properties. As a resource company in the exploration stage, the ability of the Company to complete its acquisition, exploration and development will be affected principally by its ability to raise adequate amounts of capital through equity financings, debt financings, joint venturing of projects and other means.

These condensed consolidated financial statements have been prepared using accounting policies applicable to a going concern which contemplate the realization of assets and settlement of liabilities in the normal course of business. At April 30, 2021, the Company had not yet achieved profitable operations, had accumulated losses of \$16,771,418 (2020 - \$16,472,373), a working capital deficit of \$1,031,035 (2020 - \$924,864) and expects to incur further losses in the development of its business. The Company will be required to raise additional capital in order to fund future exploration and evaluation activity and meet its working capital requirements. While the Company has been successful in the past, there is no assurance that it will be able to obtain adequate financing or that such financing will be available on acceptable terms. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations, exploration and development activities. These material uncertainties may cast significant doubt on the entity's ability to continue as a going concern.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease outbreak and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The impact on the Company is not currently determinable, but management continues to monitor the situation.

These condensed consolidated financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments other than the normal course of operations, and at amounts different from those in the accompanying consolidated financial statements.

2. Significant Accounting Policies

The condensed consolidated financial statements were authorized for issue on June 28, 2021 by the Directors of the Company.

Statement of compliance with International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company's annual financial statements as at and for the year ended July 31, 2020.

The condensed consolidated interim financial statements do not include all the information and note disclosures required for full annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended July 31, 2020.
