INDEPENDENT AUDITORS' REPORT

To the Shareholders and Directors of Planet Ventures Inc.

Opinion

We have audited the financial statements of Planet Ventures Inc. (the "Company") which comprise the statements of financial position as at March 31, 2019 and 2018, and the statements of comprehensive loss, changes in equity and cash flows for the years then ended, and the related notes comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2019 and 2018, its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information, which comprises the information included in the Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and do not and will not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indicators that the other information appears to be materially misstated. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events in a
 manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditors' report is Joseph Bonvillain, CPA, CA.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Planet Ventures Inc. ("the Company") was incorporated in Canada on January 29, 1996 under the Alberta Business Corporations Act and continues under the British Columbia Business Corporations Act. On June 28, 2017, the Company changed its name to Planet Ventures Inc. from Planet Mining Exploration Inc. The Company's registered office and its principal place of business is located at Suite 303, 750 West Pender Street, Vancouver, BC Canada V6C 2T7. The Company's shares are listed on the TSX Venture Exchange (TSX.V) under the trading symbol "PXI".

From its inception up to October 2, 2014, the Company was in the business of acquiring, exploring and developing gold, copper, silver and other resource properties, both directly and through joint ventures in Canada. In October 2014, the Company changed its business from a "junior mineral exploration company" to an "investment issuer".

2. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standard Board ("IASB").

(b) Basis of presentation

These financial statements have been prepared on a historical cost basis, except for the revaluation of certain financial assets, financial liabilities and investments in crypto currencies to fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The presentation and functional currency of the Company is the Canadian dollar.

(c) Significant accounting judgements and estimates

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and expenses during the reporting period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and may affect both the period of the revision and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

(c) Significant accounting judgements and estimates (continued)

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from estimates made, relate to determination of fair value of financial instruments (see Note 3b) and investments in crypto currencies (Note 3d).

In preparing the financial statements, management makes judgments regarding the application of IFRS for the Company's accounting policies. Significant judgments relate to the following areas:

(i) Going concern assumption

Determining if the Company has the ability to continue as a going concern is dependent on its ability to achieve profitable operations. Certain judgments are made when determining if the Company will achieve profitable operation.

(ii) Income taxes

Judgements are made by management at the end of the reporting period to determine the likelihood that deferred income tax assets will be realized from future taxable earnings. Assessing the recoverability of deferred income tax assets requires the Company to make judgments related to the expectations of future cash flows from operations and the application of existing tax laws. While management believes judgements and the estimates are reasonable, actual results could differ from those judgements and estimates and could impact future results of operations and cash flows.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by the Company.

(a) Foreign currencies

The Company's functional and reporting currency for all its operations is the Canadian dollar as this is the currency of the primary economic environment in which it operates.

Transactions in foreign currencies are initially recorded in the Company's functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the date of the statement of financial position. Nonmonetary assets and liabilities are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value is determined. Exchange gains and losses arising on translation are included in the statement of operations and comprehensive loss.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Financial instruments

(i) Measurement – initial recognition

All financial assets and financial liabilities are initially recorded on the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognized on the settlement date. All financial asset and liabilities are initially recorded at fair value, net of attributable transaction costs, except for those classified as fair value through profit or loss ("FVTPL"). Subsequent measurement of financial assets and financial liabilities depends on the classifications of such assets and liabilities.

(ii) Classification – financial assets

Amortized cost

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and the contractual terms of these financial assets give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding, are subsequently measured at amortized cost using the effective interest rate method. The Company classifies loan receivable as a financial asset at amortized cost.

Fair value through other comprehensive income ("FVTOCI")

Financial assets that are held within a business model whose objective is to hold financial assets in order to both collect contractual cash flows and selling financial assets, and that the contractual terms of the financial assets give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Upon initial recognition of equity securities, the Company may make an irrevocable election (on an instrument-by-instrument basis) to designate its equity securities that would otherwise be measured at FVTPL to present subsequent changes in fair value in other comprehensive income. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination. Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in OCI. The cumulative gain or loss is not reclassified to profit or loss on disposal of the instrument; instead, it is transferred to retained earnings upon derecognition. The Company currently has no financial assets designated as FVTOCI.

Fair value through profit or loss ("FVTPL")

By default, all other financial assets are measured subsequently at FVTPL, which includes cash and cash equivalents and investments at fair value.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Financial instruments

(iii) Classification – financial liabilities

Financial liabilities are subsequently measured at amortized cost using effective interest method, except for financial liabilities at FVTPL, financial guarantee contracts, loan commitments as below-market interest rate, and liabilities related to contingent consideration of an acquirer in a business combination. Financial liabilities at amortized cost include accounts payable.

The Company has no hedging arrangements and does not apply hedge accounting.

(iv) Derecognition and reclassification of investments:

Investments are derecognized when the rights to receive cash flows from the investments have expired or the Company has transferred the financial asset and the transfer qualifies for derecognition in accordance with IFRS.

The Company would only reclassify a financial asset when the Company changes its business model for managing the financial asset. Reclassifications are recorded at fair value at the date of reclassification, which becomes the new carrying value.

(v) Determination of fair values:

The determination of fair value requires judgment and is based on market information, where available and appropriate. At the end of each financial reporting period, the Company's management estimates the fair value of investments based on the criteria below and reflects such valuations in the financial statements.

(vi) Impairment

The Company recognizes a loss allowance for expected credit losses on its financial assets when necessary. The amount of expected credit losses is updated at each reporting period to reflect changes in credit risk since initial recognition of the respective financial instruments. The Company did not recognize impairment losses during the year ended March 31, 2019.

The Company is also required to disclose details of its investments (and other financial assets and liabilities for which fair value is measured or disclosed in the financial statements) within three hierarchy levels (Level 1, 2, or 3) based on the transparency of inputs used in measuring or disclosing the fair value, and to provide additional disclosure in connection therewith (Note 5).

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Cash and cash equivalents

Cash and cash equivalents are comprised of cash on hand, demand deposits and short-term investments with a maturity less than 90 days on acquisition that are readily convertible into known amounts of cash.

(d) Investments in crypto currencies

Crypto currencies acquired are accounted for as intangible assets, initially recorded at cost and are subsequently measured at fair value under the revaluation method. Crypto currencies are treated as indefinite lived intangibles, unless the contractual terms indicate a definite useful life.

Under IAS 38, Intangible Assets, for the purposes of revaluation, fair value is measured by reference to an active market. If an intangible asset cannot be revalued because there is no active market for this asset, it should be carried at cost less any accumulated amortization and impairment losses. The fair value changes are accounted for as follows:

- Increases in the fair value are recorded in other comprehensive income ("OCI"), and decreases that reverse previous increases are recorded in OCI, which would result in the cumulative effect on OCI being the net increase in the fair value of cryptocurrencies over time; and
- Decreases in the fair value are recorded in profit or loss, and increases that reverse
 previous decreases are recorded in profit or loss, which would result in the
 cumulative effect on profit or loss being the net decrease in the fair value of
 cryptocurrencies over time.

Decreases in the fair value to the extent of the credit balance in the revaluation surplus related to the crypto currency asset may be recorded in OCI.

(e) Revenue recognition

Sales of investments are recognized on the settlement date. Realized gains and losses on disposal of investments and unrealized gains and losses in the value of investments are reflected in the statements of operations and comprehensive loss.

All transaction costs associated with the acquisition and disposition of investments are expensed to the statements of comprehensive loss as incurred.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Revenue recognition (continued)

Interest income is recognized in profit or loss as it accrues, using the effective interest method.

Consulting income is recorded when services have been rendered, terms of the arrangement with a client have been met and collection is probable, which is usually when a consulting invoice is issued.

(f) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(g) Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive loss.

(i) Current income tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred income tax

- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: liabilities arising from initial recognition of goodwill for which depreciation is not deductible for tax purposes;
- liabilities arising from the initial recognition of an asset/liability other than in a
 business combination which, at the time of the transaction, does not affect either
 the accounting or the taxable profit; and

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

- (ii) Deferred income tax (continued)
 - liabilities arising from undistributed profits from investments where the entity is able to control the timing of the reversal of the difference and it is probable that the reversal will not occur in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(h) Share capital

The proceeds from the exercise of stock options or warrants together with amounts previously recorded over the vesting periods are recorded as share capital.

Share capital issued for non-monetary consideration is recorded at an amount based on fair market value on the date of issue.

The proceeds from the issue of units is allocated between common shares and common share purchase warrants using residual value method. Under this method, the unit price is compared to the price of common shares in a concurred financing or to the market share price. The proceeds are first allocated to the share capital and any residual value is allocated to warrant reserve. Refer to Note 3(l) for additional disclosures regarding the voluntary change in accounting policy from relative fair value to residual value method of valuation of warrants issued as a part of a unit in a private placement.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Share-based compensation

The Company has a stock option plan as described in Note 8(c). An individual is classified as an employee, versus a consultant, when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

Compensation expense attributable to share based awards to employees is measured at the fair value at the date of grant using the Black-Scholes model, and is recognized over the period that the employee becomes unconditionally entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. The fair value, under the Black-Scholes model, takes into account a number of variables, including the exercise price of the award, the expected dividend rate, the expected life of the options, forfeiture rate and the risk free interest rate.

Where equity instruments are granted to parties other than employees, they are recorded by reference to the fair value of the services received. If the fair value of the services received cannot be reliably estimated, the Company measures the services received by reference to the fair value of the equity instruments granted, measured at the date the counterparty renders service.

All equity-settled share-based payments are reflected in contributed surplus, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in contributed surplus is credit to share capital, adjusted for any consideration paid.

(j) Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted income (loss) per share is computed similar to basic income (loss) per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options and warrants were exercised and that proceeds from such exercises were used to acquire common stock at the average market price during the reporting periods. Currently, the effect of potential issuances of shares under stock options and warrants would be anti-dilutive and accordingly, basic and diluted loss per share is the same.

PLANET VENTURES INC. Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Comprehensive income (loss)

Comprehensive income (loss) is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in net profit such as foreign currency gains or losses related to translation of the financial statements of foreign operations and the revaluation of the Company's investments in crypto currencies. The Company's comprehensive loss, components of other comprehensive loss are presented in the statements of comprehensive loss and the statements of changes in equity.

(l) Voluntary change in accounting policy

Effective October 1, 2017, the Company decided to voluntarily change the accounting policy in connection with valuation of warrants issued as a part of a unit in a private placement (Note 3(h)). The change in accounting policy has been made on a full retrospective basis in accordance with IAS 8, *Accounting Policies, Changes in accounting Estimates and Errors*. There were no changes to the balances presented for share capital and contributed surplus on the date of the change.

4. RECENT ACCOUNTING PRONOUNCEMENTS

New accounting standards adopted by the Company

Adoption of IFRS 9 Financial Instruments ("IFRS 9")

On April 1, 2018, the Company adopted the requirements of IFRS 9. IFRS 9 provides a revised model for recognition and measurement of financial instruments and a single, forward-looking "expected-loss" impairment model. The Company has elected to apply the limited exemption in IFRS 9 paragraph 7.2.15 relating to transition for classification and measurement and impairment, and accordingly has not restated comparative periods in the year of initial application. IFRS 9 did not impact the Company's classification and measurement of financial assets and liabilities as the Company accounted for its investments as FVTLP and elected to continue to do so to ensure consistency of accounting treatment with prior years. There was no impact on the carrying amounts of the Company's financial instruments at the transition date as they were carried at fair value and are continued to be carried at fair value.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

4. RECENT ACCOUNTING PRONOUNCEMENTS (continued)

The Company currently has no hedging arrangements, and the adoption of the new accounting requirements under IFRS 9 relating to hedging had no impact.

Adoption of IFRS 15 Revenue from Contracts with Customers ("IFRS 15")

On April 1, 2018, the Company adopted the requirements of IFRS 15. IFRS 15 provides a unified and principles-based model to be applied to all contracts with customers, and allows for two approaches for recognizing revenue – at a point in time or over time. The new standard specifies how and when revenue will be recognized, and introduces new estimates and threshold for judgments, which may affect the amount and/or timing of revenue to be recognized.

The Company's revenues are represented by interest and other investment income. The Company does not earn revenue from contracts with customers and is outside of the scope of IFRS 15, therefore there was no impact from the adoption of this standard.

Standards issued but not yet effective

A number of new standards and amendments to existing standards have been issued by the IASB that are mandatory for accounting periods beginning on or after January 1, 2019, or later periods. The Company has not early adopted these new standards in preparing these financial statements. The following pronouncement is considered by the Company to be the most significant of several pronouncements that may affect the financial statements in future periods.

Standard effective for annual periods beginning on or after January 1, 2019

IFRS 16 – Leases - On January 13, 2016 the IASB issued IFRS 16, "Leases". This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease.

The new standard is effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted for entities that apply IFRS 15, "Revenue from contracts with customers" at or before the date of initial adoption of IFRS 16.

The adoption of the standard is expected to result in a recognition of the right-of-use asset in the amount of approximately \$182,000 and the corresponding lease liability in the same amount.

(Expressed in Canadian dollars)

5. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS HIERARCHY

The fair value measurements use a fair value hierarchy that reflects the significance of the inputs used in making measurements. The level in the hierarchy within which the fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The fair value hierarchy has the following levels:

- (a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (b) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2);
- (c) Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

	March 31, 2019			March	, 2018	
	Level 1		Level 2	Level 1		Level 2
Cash and cash equivalents	\$ 2,361,284	\$	_	\$ 1,651,582	\$	-
Investments at fair value:						
Equity investments in						
public companies (a)	\$ 2,274,726	\$	-	\$ 2,359,460	\$	-
Warrants held	\$ -	\$	-	\$ -	\$	69,875
Equity investments in						
private companies (b)	\$ -	\$	69,005	\$ -	\$	218,502

The methods of measuring each of these financial assets have not changed during the past year. The Company does not have any financial assets or liabilities measured at fair value based on unobservable inputs (Level 3). The fair values of financial instruments measured at amortized cost approximate their carrying amounts.

(a) Equity investments

The Company's equity investments are valued using quoted market prices in active markets and as such are classified within Level 1 of the fair value hierarchy. The fair value of investment securities is calculated as the closing market price of the investment equity security multiplied by the quantity of shares held by the Company. Some of the equity investments are subject to a four-month statutory hold period. Stock options and warrants held that are not traded on an active market are remeasured using a valuation technique based on data inputs that are supported by observable current market conditions and are therefore classified within Level 2 of the fair value hierarchy.

PLANET VENTURES INC. Notes to the Financial Statements For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

5. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS HIERARCHY (continued)

(b) Equity investments in private companies

All privately-held investments (other than options and warrants) are initially recorded at the transaction price, being the fair value at the time of acquisition. Thereafter, at each reporting period, the fair value of an investment may (depending upon the circumstances) be adjusted using one or more of the valuation indicators described below.

The determination of fair value of the Company's privately-held investments at other than initial cost is subject to certain limitations. Financial information for private companies in which the Company has investments may not be available and, even if available, that information may be limited and/or unreliable.

Use of the valuation approach described below may involve uncertainties and determinations based on the Company's judgment and any value estimated from these techniques may not be realized or realizable.

Company-specific information is considered when determining whether the fair value of a privately-held investment should be adjusted upward or downward at the end of each reporting period. In addition to company-specific information, the Company will take into account trends in general market conditions and the share performance of comparable publicly-traded companies when valuing privately-held investments.

The absence of the occurrence of any events, such as a significant change in trends in general market conditions, or any significant change in share performance of comparable publicly-traded companies indicates generally that the fair value of the investment has not materially changed. The fair value of a privately-held investment may be adjusted if there has been a significant subsequent equity financing provided by outside investors at a valuation different than the current value of the investee company, in which case the fair value of the investment is set to the value at which that financing took place.

Adjustments to the fair value of a privately-held investment will be based upon management's judgment and any value estimated may not be realized or realizable. The resulting values for non-publicly traded investments may differ from values that would be realized if a ready market existed. In addition, the amounts at which the Company's privately-held investments could be disposed of currently may differ from the carrying value assigned.

(Expressed in Canadian dollars)

5. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS HIERARCHY (continued)

(c) Fair market value and original cost of investments

Investments at original cost and fair value consist of the following:

	March 31, 2019 March 31, 2018			2018		
		F	air market		F	air market
	Cost		value	Cost		value
Shares in public companies	\$ 3,013,171	\$	2,274,726	\$ 2,995,962	\$	2,359,460
Warrants	9,780		-	26,692		69,875
Shares in private						
companies	740,000		69,005	385,000		218,502
Total	\$ 3,762,951	\$	2,343,731	\$ 3,407,654	\$	2,647,837

6. LOANS RECEIVABLE

On February 15, 2017 the Company entered into an agreement to loan \$150,000. The loan bears interest at a rate of 7% per annum and the principal balance was due for repayment on February 16, 2018. As at March 31, 2018 \$75,000 was outstanding. During the year ended March 31, 2019 the loan was repaid. The loan was secured by various publicly traded securities. For the year ended March 31, 2019, interest revenue of \$423 (2018 - \$9,464) was recognized in the statements of operations and comprehensive loss.

On November 13, 2018 the Company entered into an agreement to loan \$250,000. The loan bears interest at a rate of 8% per annum and increases to 18% per annum from maturity date onwards, and the principal balance is due for repayment on February 14, 2019. The loan was secured by a mortgage over any real property owned by the borrower. The security is subordinate to existing secured obligations of the borrower of \$875,000. For the year ended March 31, 2019, interest revenue of \$8,445 (2018 - \$nil) was recognized in the statements of operations and comprehensive income (loss). The loan was repaid in April 2019. In addition, corporate financing fee of \$25,000 was repaid in shares subsequent to year-end.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

7. INVESTMENTS IN CRYPTO CURRENCIES

A continuity schedule of investments in crypto currencies is as follows:

Opening balance, as at April 1, 2017	\$ _
Purchase of cryptocurrencies	291,386
Proceeds from sales of cryptocurrencies	(60,462)
Realized losses from sales of cryptocurrencies	(2,260)
Unrealized losses from fair value adjustment	(228,661)
Balance, as at March 31, 2018	\$ 3
Realized losses from sales of cryptocurrencies	(225,686)
Unrealized gains reclassified to realized in the	
current year	225,683
Balance, as at March 31, 2019	\$ -

Due to uncertainty in establishing a supportable value of the investments in cryptocurrency they were written off during the year ended March 31, 2019. There was no cryptocurrency transactions during the year ended March 31, 2019.

8. SHARE CAPITAL

(a) Common shares

The Company is authorized to issue an unlimited number of common voting shares without par value. The holder of common shares is entitled to receive any dividend declared by the Company on such shares.

As at March 31, 2019, the Company had 114,039,190 shares issued and outstanding (2018 – 89,539,190 shares).

Shares issued during the year ended March 31, 2019

On March 14, 2019, the Company closed a private placement with the sale of 22,000,000 units at \$0.05 per unit for gross proceeds of \$1,100,000. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to acquire an additional common share for \$0.10 per share for a two-year period. The Company paid \$33,250 as a finder's fee and \$6,714 as a filing fee.

In July 2018 2,500,000 shares were issued upon exercise of the warrants of the Company at \$0.10.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

8. SHARE CAPITAL (continued)

(a) Common shares (continued)

Shares issued during the year ended March 31, 2018

On November 16, 2017, the Company closed a private placement with the sale of 20,000,000 units at \$0.05 per unit for gross proceeds of \$1,000,000. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to acquire an additional common share for \$0.10 per share for a two-year period. The Company paid \$70,000 as a finder's fee and \$6,386 as a filing fee.

(b) Preferred shares

The Company is authorized to issue an unlimited number of first preferred shares and second preferred shares issuable in series with the issue price to be fixed by the directors. The holders of first preferred shares are entitled to preference over the common shares and the second preferred shares with respect to payment of dividends and distribution of assets in the event of liquidation, dissolution or winding-up of the Company.

No preferred shares were issued or were outstanding as at March 31, 2019.

(c) Stock options

The Company has a stock option plan whereby the Company may grant options to its directors, officers, employees and consultants for up to 10% of the outstanding common shares from time to time with vesting rights determined at each grant date. The exercise price of each option equals the market price of the Company's stock on the date of the grant (less any permitted discount, if any) and an option's maximum term is five years.

On February 1, 2019, the Company granted 2,000,000 stock options exercisable at a \$0.10 per option for five years. The fair value of the options of \$107,067 was calculated using Black-Scholes option pricing model with the following assumptions: stock price - \$0.06; exercise price - \$0.10; expected life - five years; volatility - 153%; dividend yield - \$nil; and risk-free rate - 1.86%.

On August 1, 2018, the Company granted 1,000,000 stock options exercisable at a \$0.15 per option for five years. The fair value of the options of \$153,719 was calculated using Black-Scholes option pricing model with the following assumptions: stock price – \$0.16; exercise price – \$0.15; expected life – five years; volatility – 176%; dividend yield – \$nil; and risk-free rate – 2.26%.

(Expressed in Canadian dollars)

8. SHARE CAPITAL (continued)

(c) Stock options (continued)

On December 6, 2017, the Company granted 200,000 stock options exercisable at a \$0.10 per option for six months period. The fair value of the options of \$25,444 was calculated using Black-Scholes option pricing model with the following assumptions: stock price – \$0.20; exercise price – \$0.10; expected life – six months; volatility – 169%; dividend yield – \$nil; and risk-free rate – 1.47%. During the year ended March 31, 2019 these stock options expired unexercised.

On October 23, 2017, the Company granted 1,000,000 stock options exercisable at a \$0.10 per option for five years. The fair value of the options of \$75,464 was calculated using Black-Scholes option pricing model with the following assumptions: stock price - \$0.08; exercise price - \$0.10; expected life - five years; volatility - 173%; dividend yield - \$nil; and risk-free rate - 1.62%.

A continuity schedule of the Company's outstanding options is as follows:

	Number of options	 d average cise price
Balance, March 31, 2017	75,000	\$ 0.15
Expired	(75,000)	\$ 0.15
Granted	1,200,000	\$ 0.10
Balance, March 31, 2018	1,200,000	\$ 0.10
Expired	(200,000)	\$ 0.10
Granted	3,000,000	\$ 0.12
Balance, March 31, 2019	4,000,000	\$ 0.11

As at March 31, 2019, the Company had options outstanding and exercisable to acquire common shares of the Company as follows:

	E	Exercise	Number of options	Number of options	Weighted average remaining contractual life
Expiry date		price	outstanding	exercisable	(in years)
October 23, 2022	\$	0.10	1,000,000	1,000,000	3.57
August 1, 2023	\$	0.15	1,000,000	1,000,000	4.34
February 1, 2024	\$	0.10	2,000,000	2,000,000	4.84

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

8. SHARE CAPITAL (continued)

(d) Share purchase warrants

On March 14, 2019 as part of the private placement, the Company granted 22,000,000 warrants exercisable at \$0.10 for a two-year period. In July 2018 2,500,000 warrants were exercised at \$0.10.

A continuity schedule of the Company's outstanding options is as follows:

	Number of	Weighted av	_
	warrants	exercise	price
Balance, as at March 31, 2017	-	\$	-
Granted	20,000,000	\$	0.10
Balance, as at March 31, 2018	20,000,000	\$	0.10
Exercised	(2,500,000)	\$	0.10
Granted	22,000,000	\$	0.10
Balance, as at March 31, 2019	39,500,000	\$	0.10

As at March 31, 2019, the Company had warrants outstanding to acquire common shares of the Company as follows:

				Weighted average
			Number of	remaining
	Ex	ercise	warrants	contractual life
Expiry date		price	outstanding	(in years)
		1		\ \ \ \ \ \
November 16, 2019	\$	0.10	17,500,000	0.28

9. KEY MANAGEMENT COMPENSATION AND RELATED PARTY TRANSACTIONS

(a) Key management compensation

Key management personnel include the members of the Board of Directors and officers of the Company, who have the authority and responsibility for planning, directing and controlling the activities of the Company.

Amounts paid and accrued to directors, officers and companies in which directors and officers are shareholders or partners are included in general expenses as follows:

	March 31, 2019		March 31, 2018	
Management and administration fees	\$	75,000	\$	60,000
Directors' fees		6,000		6,000
Stock based compensation		206,296		67,918
Total	\$	287,296	\$	133,918

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

9. KEY MANAGEMENT COMPENSATION AND RELATED PARTY TRANSACTIONS (continued)

(a) Key management compensation (continued)

As at March 31, 2019, \$9,404 (2018 – \$4,154) was paid to a company for the next month's provision of administrative services including services of Chief Financial Officer and is recorded in prepaid expenses.

(b) Related party transactions

In the normal course of operations, the Company transacts with companies related to its directors or officers. Related party transactions are measured at the exchange amounts as agreed upon by transacting parties.

Related party transactions not disclosed elsewhere in these financial statements are as follows:

- During the year ended March 31, 2019, the Company granted 2,450,000 (2018 900,000) stock options to directors and officers of the Company. The stock options are exercisable at \$0.10 per option for five year period. Fair value of the options was estimated at \$206,296 (2018 \$67,918) (Note 8(c)).
- During the year ended March 31, 2019, the Company incurred \$24,984 (2018 \$13,774) in legal expenses from a law firm of which a director and officer is a partner. As at March 31, 2019, \$8,877 (2018 \$9,476) was payable to this law firm, and cash of \$43,950 (March 31, 2018 \$780) was held in trust.
- The Company has investments in shares of corporations with directors and officers in common. As at March 31, 2019, fair market value of these investments was \$173,633 (2018 \$720,000) and cost \$272,833 (2018 \$180,000).
- During the year ended March 31, 2019, the Company loaned \$250,000 (2018 \$nil) (Note 6) to a company director of which is a director of the Company. As at March 31, 2019, \$8,445 (2018 \$nil) was accrued as interest. Subsequent to the year ended March 31, 2019 the loan and accrued interest were repaid.

10. COMMITMENTS

(a) Management and administration services

The Company has agreed to pay a monthly fee of \$10,000 to the management company described in Note 9(a) for provision of management and administrative services. The agreement may be terminated by the Company with 60 days' written notice.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

10. COMMITMENTS (continued)

(b) Office lease

On April 1, 2016, the Company entered into an office lease agreement for a term to February 28, 2022 with commitments aggregated as follows:

Year	
2020	80,675
2021	82,578
2022	77,295
	\$ 240,548

11. FINANCIAL AND CAPITAL RISK MANAGEMENT

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, fair value risk and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

(a) Capital management

The Company manages its capital to safeguard the Company's ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise. The Company considers the items included in equity as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, the sale of assets, debt, or return of capital to shareholders. As at March 31, 2019, the Company did not have any debt, other than accounts payable and accrued liabilities, and was not subject to externally imposed capital requirements.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains sufficient cash balances to meet current working capital requirements.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

11. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(c) Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and cash equivalents and receivables.

The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalents, and other assets with high-credit quality financial institutions, and obtains security from creditors on receivables when possible.

The majority of the Company's cash and cash equivalents are held with major Canadian-based financial institutions. The Company estimates the credit risk associated with receivables as \$20,500 as it relates to the balance that was not collected subsequent to the year end. Of remaining \$35,850 included in accounts receivable, the balance \$33,445 was collected subsequent to year end and the balance of \$2,405 relates to taxes receivable, collectability of which is reasonably assured.

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company does not have any exposure to any highly inflationary foreign currencies.

(d) Interest rate risk

Interest rate risk is the impact that changes in interest rates could have on the Company's profit and losses. The Company's exposure to interest rate risk arises from the interest rate impact on its cash and cash equivalents and reclamation bond. The Company's practice has been to invest cash at floating rates of interest, in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return for shareholders. There is minimal risk that the Company would recognize any loss as a result of a decrease in the fair value of any guaranteed bank investment certificates included in reclamation bond as they are generally held with large financial institutions.

(e) Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and commodity prices.

The Company is exposed to market risk in trading its investments, and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

11. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(e) Market risk (continued)

In accordance with IFRS 9, the Company is required to remeasure its investments at fair value at the end of each reporting period. This process could result in significant writedowns of the Company's investments over one or more reporting periods, particularly during periods of overall market instability, which would have a significant unfavourable effect on the Company's financial position.

The Company is not exposed to significant interest rate risk as the Company's has no interest-bearing debt. Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

The result of sensitivity analysis shows an increase or decrease of 5% in the market price, with all other variables held constant, could have decreased or increased the Company's net loss by approximately \$117,187 as at March 31, 2019 (2018 - \$132,400).

(f) Concentration risk in the Company's investment portfolio

Concentration risk is the risk that any single investment or group of investments will have the potential to materially affect the operating results of the Company.

Subject to board approval for investments in excess of a pre-determined threshold, there are no restrictions on the proportion of Company's funds and no limit on the amount of funds that may be allocated to any particular investment, industry or sector. Accordingly, the Company's investment activities may be highly concentrated in a limited number of investments or industry sectors and the Company's financial results may be substantially adversely affected by the unfavourable performance in those investments or industry sectors.

As at March 31, 2019, the Company's two top investments had a fair value of \$1,162,650 in publicly traded companies, representing 51% of the fair value of the Company's total portfolio (2018 – \$1,341,180 or 51%).

Notes to the Financial Statements

For the Years Ended March 31, 2019 and 2018

(Expressed in Canadian dollars)

12. INCOME TAX

Income tax expense (recovery) is recognized based on the weighted average annual income tax rate for the year applied to pre-tax income (loss). The Company's effective tax rate for the year ended March 31, 2019 was 27% (2018 - 27%).

The following table reconciles the amount of income tax recoverable on application of the statutory Canadian federal and provincial income tax rates:

	Year ended		Year ended	
	March 31, 2019		March 31, 2018	
Expected income tax expense	\$	(278,081)	\$	(334,328)
Permanent differences and other		160,528		138,786
Changes in timing differences and other		-		(156,574)
Changes in tax rates		-		(103,318)
