## AI/ML Innovations' Tech2Heal Chosen for Mental Health Innovation Accelerator Program

January 27, 2022 /ACCESSWIRE/

AI/ML Innovations Inc. (CSE - AIML; OTCQB - AIMLF; FWB - 42FB), a company committed to acquiring and advancing Artificial Intelligence/Machine Learning technologies that address urgent societal needs, is pleased to announce that its minority-owned subsidiary, Tech2Heal SAS, has been selected to participate in the mental health innovation accelerator called IMPACT. Tech2Heal's "Qookka Mental Health Platform" was one of only five projects selected to participate in the program, from amongst a large number of applicants. The winning candidates benefit from a 9-month support program to accelerate their deployment, with significant involvement of IMPACT's founding partners.

IMPACT is an innovative public/private partnership formed to develop or accelerate novel solutions to remedy disruptions in the mental health care of adults. The 10 founding members of IMPACT comprise some of the finest health industry organizations, and include Janssen Pharmaceuticals (Johnson&Johnson), ARIIS (Health Industry Alliance for Research and Innovation), PSL University, Eisai (Japanese pharmaceutical), Otsuka Pharmaceutical, AXA (multinational insurance company), France Biotech (biotechnology trade association), ParisSante Campus (e-health research park), Fédération Française de l'Assurance (French Insurance Federation), and Assistance Publique–Hôpitaux de Paris (university hospital).

The impetus for this initiative is the need to rapidly address the significantly deteriorating mental health of the French people. Today, 12 million people in France are afflicted with mental disorders. The projects chosen for IMPACT, such as Tech2Heal's Qookka, are tasked with creating solutions along the mental illnesses health pathway in one or more of the following sectors: access to care, care and follow-up, or out-of-hospital continuity.
