January 17, 2024 Toronto, Canada /ACCESSWIRE/

AI/ML Innovations Inc. (CSE - AIML; OTCQB - AIMLF; FWB - 42FB), a leading company committed to acquiring and advancing Artificial Intelligence/Machine Learning technologies that address urgent societal needs, is pleased to report that it has received the following press release from its majority-owned subsidiary, Health Gauge Inc.

Health Gauge Inc. announces the launch of a pilot program. This initiative, in collaboration with Cornerstone Physiotherapy, leverages smart sensor wearables and the Health Gauge Biometrics Platform for Life Sciences.

According to [Statistics Canada](#)<sup>1</sup>, about one in nine (11.7%) of all Canadian adults have experienced long-term symptoms from a COVID-19 infection. This represents 3.5 million Canadians. In the United States, the CDC (Centers for Disease Control and Prevention) estimates that more than 40% of adults in the United States reported having COVID-19 in the past, and nearly one in five of those (19%) are currently still having symptoms of "Long COVID."

Long Covid has posed unique challenges, requiring innovative solutions to support affected individuals in their recovery journey. The pilot program aims to address these challenges through remote rehabilitation, combining the expertise of Cornerstone Physiotherapy with the capabilities of Health Gauge's biometrics platform.

Paul Duffy, CEO of AI/ML Innovations Inc., expresses his enthusiasm, stating, "At Health Gauge, we are committed to leveraging technology for the betterment of human health. This pilot program represents a progressive step in providing remote rehabilitation for Long Covid patients. By integrating our smart sensor wearables with

Cornerstone Physiotherapy's expertise, we aim to make a meaningful impact on the lives of those affected by Long Covid."

Adam Brown, Co-founder and Physiotherapist at Cornerstone Physiotherapy, shares his insights, saying, "We are excited to partner with Health Gauge in this innovative pilot program. Remote rehabilitation is a critical need, especially in the context of Long Covid. Our combined efforts aim to deliver personalized and effective rehabilitation programs to individuals in the comfort of their homes."

The program will utilize smart sensor wearables to monitor and analyze key biometric indicators, providing real-time data to healthcare professionals at Cornerstone Physiotherapy. This data-driven approach enables personalized and adaptive rehabilitation plans, catering to the unique needs of each Long Covid patient.
