

CHROMEDX ENGAGES BIOSENSOR DEVELOPMENT EXPERT **STEPHEN COZZETTE**

January 26, 2015 – ChroMedX Corp. (the “**Company**”) (CSE: CHX, OTC: MNLIF, Frankfurt: EIY2), a developer of in vitro diagnostics and point-of-care technologies is pleased to announce the engagement of Mr. Stephen Cozzette as a consultant on the HemoPalm project focussing on the electrochemical sensor and cartridge development aspects of the project.

“We are very excited to add Stephens’s expertise to the team. Mr. Cozzette is particularly skilful at integrating design controls in an entrepreneurial reality and his background in the area of electrochemical sensor and cartridge development will greatly assist our efforts in producing a market leading technology,” said Dr. Wayne Maddever, ChroMedX Corp. President & CEO.

Mr. Cozzette has 25+ years experience in sensor and cartridge development having played a major leadership role in this area with a large multinational Point-of-Care Testing company. Stephen provides guidance and structure in moving from science to solution, and pre-manufacturing to full production.

“I am pleased to be working with the ChroMedX team, an extremely creative and competent group. I believe that the HemoPalm has some significant technical advances over current devices available in the market and promises to be a significant advancement in Point-of-Care Testing,” said Mr. Cozzette.

About ChroMedX Corp.

ChroMedX Corp. is a medical technology company focused on the development of novel medical devices for in vitro diagnostics and point-of-care testing. The devices are protected by the Company’s issued US and pending international patents, dealing with blood collection, analysis and plasma/serum processing.
