

Relay Medical Announces Closing of Private Placement for Proceeds of Over \$1.6M

Toronto, Ontario--(Newsfile Corp. - July 27, 2018) - Relay Medical Corp. (CSE: RELA) (OTCQB: CHXIF) (FSE: EY2) ("**Relay**" or the "**Company**"), a developer of MedTech innovation, is pleased to announce that the Company has closed a private placement offering (the "**Offering**") for gross proceeds of \$1,611,199.68 through the issuance of 7,005,216 units (each, a "**Unit**") at a price of \$0.23 per Unit.

Each Unit is comprised of: (i) one common share in the capital of the Company (a "**Common Share**"); (ii) one-half (1/2) of one Common Share purchase warrant (each whole such warrant a "**A Warrant**"); and (iii) one-half (1/2) of one Common Share purchase warrant (each whole such warrant a "**Warrant**"). Each whole A Warrant entitles the holder to purchase one additional Common Share at a price of \$0.40 until January 27, 2020, and each whole B Warrant entitles the holder to purchase one additional Common Share at a price of \$0.50 until January 27, 2020.

Gross proceeds raised from the Offering will be used for working capital and general corporate purposes. The securities issued upon closing of the Offering are subject to a hold period until November 28, 2018, pursuant to applicable securities laws.

Certain insiders of the Company subscribed for an aggregate of 1,040,000 Units pursuant to the Offering. The participation of such insiders constitutes a "related party transaction" as defined under Multilateral Instrument 61-101 - *Protection of Minority Security Holders in Special Transactions*. However, it was not possible to publicly disclose details of the related party participation in the Offering at least 21 days in advance as the participants in the Offering were not finalized until shortly prior to the closing of the Offering.

About Relay Medical Corp.

Relay Medical is evolving an integrated Medtech accelerator/incubator platform for the development and productization of a curated portfolio of health-tech innovations concurrently. Relay invests in early stage companies and inventions, mostly in the pre-product stage, with a view to advancing technologies towards an acquisition by a large market operator. The Company has an active team dedicated to reviewing strategic acquisitions that are complimentary to current infrastructure assets and intends to be a leading engine for MedTech innovation in Canada. By sourcing technologies and integrating the funding and development of products in one organization, led and managed by one expert team, Relay Medical is building the capacity to develop and transact technologies with high efficiency.

Relay Medical currently has two projects under development. HemoPalm, the Company's lead IP, combines Blood Gases & Electrolytes with full CO-oximetry on a single use cartridge in Point of Care Testing. On May 24, 2018 the Company acquired UX Data Sciences Corp., a medical technology and data science company developing user-friendly products and systems solutions for monitoring, tracking and improving patients' adherence to medication. The product mission is to improve consumers' relationships with their medications and foster a more cohesive ecosystem between patients, doctors, care givers, providers, and payors.
