

Scryb Announces Public Listing of Cybeats Technologies Corp. under "CYBT"; Starts Trading Monday November 21 on Canadian Securities Exchange

Toronto, Ontario--(Newsfile Corp. - November 18, 2022) - **Scryb Inc. (CSE: SCYB) (OTCQB: SCYRF) (FSE: EIY) ("Scryb" or the "Company")**, is pleased to announce that the common shares of Cybeats Technologies Corp. will commence trading on the Canadian Securities Exchange effective at the open of business on Monday, November 21, 2022, under the symbol "CYBT".

"This is a very exciting moment for all of us at Scryb, and we extend a very sincere thank-you to the employees and shareholders for the dedication and support throughout that has brought us to such an important milestone for Scryb, and to Cybeats as its own operating company.

It was March of last year when we onboarded the Cybeats platform with remarkable technology and a dedicated team of three co-founders. A little over 18 months later, managed by Scryb, that technology has become a Commercial company, rapidly growing and shaping the standard of software supply chain security and detection response in IoT security.

Now, with a scaling team of over 50, an active pipeline, and a growing client base including industry leaders and billion dollar multinationals, Cybeats is set to continue its race towards success as its own dedicated public entity.

Given the white-hot dynamics and activity in the finance and M&A space related to supply chain security, we believe that Cybeats as its own entity will better highlight the comparable value of the company and accelerate its path towards establishing itself as one of the next great technology companies to come out of Canada.

With Scryb maintaining its majority ownership stake in Cybeats, it is positioned to greatly benefit from the growth of Cybeats, and will continue to support the cybersecurity company where needed.

The transformation Cybeats has undergone over a short period of time demonstrates the success of the platform we have built at Scryb, along with our ability to identify winning opportunities and facilitate rapid growth & value creation."

Sincerely,

Scryb Executive Management Team

Forward-looking Information Cautionary Statement

Except for statements of historic fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions and estimates at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking statements including, but not limited to delays or uncertainties with regulatory approvals, including that of the CSE. There are uncertainties inherent in forward-looking information, including factors beyond the Company's control. There are no assurances that the commercialization plans for the technology described in this news release will come into effect on the terms or time frame described herein. The Company undertakes no obligation to update forward-looking information if circumstances or management's estimates or opinions should change except as required by law. The reader is cautioned not to place undue reliance on forward-looking statements. Additional information identifying risks and uncertainties that could affect financial results is contained in the Company's filings with Canadian securities regulators, which filings are available at www.sedar.com.
