1. NATURE OF OPERATIONS

Lions Gate Metals Inc. (the "Company") was incorporated under the Canada Business Corporations Act on March 28, 1980, and has continued as a company under the Business Corporations Act in the Province of British Columbia, Canada. The common shares of the Company are listed for trading on the TSX Venture Exchange ("TSXV") under the symbol "LGM", as a Tier 1 mining issuer. The Company is in the process of exploring its mineral property interests and has not yet determined whether these property interests contain reserves that are economically recoverable.

The Company incurred a comprehensive loss of \$417,926 during the three months ended March 31, 2012 (March 31, 2011: \$567,354) and as of that date the Company's deficit was \$17,321,158 (December 31, 2011: \$16,896,832). However, the Company has sufficient cash resources to meet its obligations for at least twelve months from the end of the reporting period. These consolidated financial statements are presented on a going concern basis, which assumes that the Company will continue to realize its assets and discharge its liabilities in the normal course of business.

To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The recoverability of the costs incurred for mineral property interests and their related deferred exploration expenditures is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

The address of the Company's corporate office and principal place of business is #880 - 609 Granville Street, Vancouver, British Columbia, Canada.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed consolidated interim financial statements for the period ended March 31, 2012 have been prepared in accordance with International Financial Reporting Standards ("IFRS") IAS 34 Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed.

The March 31, 2012 condensed consolidated interim financial statements were authorized for issue by the Board of Directors on May 10, 2012.

b) Basis of Measurement

The condensed consolidated interim financial statements have been prepared on a historical cost basis, as modified by the revaluation of available-for-sale financial assets.

The condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the condensed consolidated interim financial statements are disclosed in Note 4.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements follow the same accounting policies and methods of their application as the Company's first consolidated financial statements prepared in accordance with IFRS 1 and as such should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2011.

IFRS Standards, Amendments and Interpretations Not Yet Effective

IFRS 7 (Amendment)	Financial Instruments: Disclosure
IFRS 9	Financial Instruments: Classification and Measurement
IFRS 10	Consolidated Financial Statements
IFRS 11	Joint Arrangements
IFRS 12	Disclosure of Involvement with Other Entities
IFRS 13	Fair Value Measurement
IAS 1 (Amendment)	Presentation of Financial Statements
IAS 12 (Amendment)	Income Taxes

The Company anticipates that the application of these standards and amendments will not have a material impact on the results of operations and the financial position of the Company.

4. CRITICAL ACCOUNTING ASSUMPTIONS, ESTIMATES AND JUDGMENTS

Lions Gate Metals Inc. makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the condensed consolidated interim financial statements within the next financial year are discussed below:

i) Exploration and Evaluation Expenditure

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized will be charged to profit or loss in the period the new information becomes available.

ii) Income Taxes

The Company has recorded an amounts receivable in respect of the Mining Exploration Tax Credit ("METC"). Management believes that the costs included in determining the recoverable taxes were appropriate in the circumstances and met the definition of qualifying expenditures; however, the final outcome may result in a materially different outcome than the amount included in amounts receivable.

iii) Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees and non-employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 12.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and liquid investments which are readily convertible into cash with maturities of three months or less when purchased. The Company's cash and cash equivalents at March 31, 2012 consisted of cash of \$199,457 and cash equivalents of \$602,613 (December 31, 2011: cash of \$274,717 and cash equivalents of \$509,665).

6. AVAILABLE-FOR-SALE INVESTMENTS

Available-for-sale investments consist of investments in quoted and unquoted equity shares. The fair value of the listed quoted equity shares has been determined directly by reference to published price quotations in an active market. Unquoted equity shares are valued based on non-market observable information. Unquoted equity shares in private companies are valued at their estimated fair value, which is equivalent to their historical cost unless a different value is considered appropriate and is supported by persuasive and objective evidence.

7. LOAN RECEIVABLE

In November, 2008, the Company loaned \$400,000 U.S. (the "Principal Sum") to a third party borrower. As security, the borrower provided a promissory note which acknowledged itself indebted to the Company and promised to pay on or before May 15, 2009 the Principal Sum, together with interest thereon at the rate of fifteen percent per annum, payable at maturity. On May 20, 2009, the Company received \$100,000 U.S. and agreed to extend the payment terms to July 15, 2009. The third party borrower did not make payment on or before July 15, 2009 and the \$300,000 U.S. plus \$60,000 U.S. in interest remained outstanding. The Company communicated with the third party weekly, and during the year ended December 31, 2009, recorded an impairment charge to reduce the carrying value of the loan down to \$1.

During the year ended December 31, 2010, the repayment terms included in the promissory note were amended. The balance of the principal sum and accrued interest was agreed to be repaid to the Company in six equal installments of \$60,000 U.S. commencing March 5, 2010, and concluding with a final payment on August 27, 2010. The Company received no repayments during the year ended December 31, 2010.

On February 24, 2011, the Company received \$100,000 U.S. from the borrower and recorded this as a recovery in its consolidated statement of operations. If necessary, the Company may commence legal action to recover any balance owing in respect of the loan.

8. RECLAMATION DEPOSITS

The Company is required to provide reclamation deposits in respect of its expected rehabilitation obligations. The reclamation bonds represent collateral for possible reclamation activities necessary on mineral properties in connection with the permits required for exploration activities by the Company. The reclamation deposits are held in guaranteed investment certificates.

Title to mineral property interests involve certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristics of many mineral property interests. The Company has investigated title to all of its mineral property interests and, to the best of its knowledge, title to all of them are in good standing.

All of the mineral property costs and deferred exploration expenditures incurred with respect to the Poplar, Hudson Bay Mountain and ROK-Coyote mineral property interests will continue to be capitalized in accordance with the Company's basis of accounting. It is management's full intention to keep all of its mineral property interests in good standing.

Poplar

By an agreement dated April 20, 2004, the Company was granted an option to acquire a 50% interest in certain mineral claims, known as the Poplar mineral property interest ("Poplar 1"), situated in the Omineca Mining Division of B.C. On July 30, 2007, the Company finalized terms with Hathor Exploration Limited ("Hathor") within the Amended and Restated Property Option Agreement to grant the Company an option to acquire the remaining 50% interest in the Poplar mineral property interest. The Company has met all required cash payments and share issuances related to the acquisition of Poplar 1. The agreement includes an underlying 2% net smelter return royalty ("NSR") on the property to benefit a previous owner, as well as a commitment to annual payments of \$75,000 for the duration of the agreement.

In December 2010, Standard Exploration Ltd. ("Standard") obtained the rights to the Amended and Restated Property Option Agreement from Hathor. On December 6, 2011, the Company entered into a Settlement and Termination Agreement with Standard to settle the \$75,000 payment commitment. Terms of the agreement include a payment of \$200,000 on signing (paid), and a further payment of \$150,000 (paid) on the earliest of December 6, 2012 or upon completion of a financing. The Company fully settled the Settlement and Termination Agreement by making the final payment on February 29, 2012.

On April 29, 2009 the Company entered into an option agreement with an unrelated third party to earn the exclusive right and option to acquire 100% legal and beneficial interest in mineral claims south of Poplar Lake ("Poplar 2") in exchange for the issuance of 100,000 common shares in tranches over a period of four years. Should the claims be found to contain economically recoverable metal values, the Company may offer a total maximum payable of \$1,000,000 in the form of a 1% NSR or a one-time only buy-out by the Company of \$1,000,000 less any NSR amounts previously paid. To date, the Company has issued 60,000 common shares, with a further 40,000 common shares remaining to be issued.

On May 25, 2009 the Company entered into an option agreement with an unrelated third party to earn the exclusive right and option to acquire 100% legal and beneficial interest on additional mineral claims south of Poplar Lake ("Poplar 3") in exchange for the issuance of 30,000 common shares in tranches over a period of four years. Should the claims be found to contain economically recoverable metal values, the Company may offer a total maximum payable of \$100,000 in the form of a 1% NSR or a one-time only buy-out by the Company of \$100,000 less any NSR amounts previously paid. To date, the Company has issued 15,000 common shares, with a further 15,000 common shares remaining to be issued.

In December of 2011, the Company staked an additional 22 claims ("Poplar 4") representing 9,827 hectares, bringing LGM's land position to 196 claims totaling 77,705 hectares.

The acquisition cost schedule to date is as follows:

The future cost and expenditure commitments on Poplar for the next five years are comprised of:

Date	Cash Payment \$	Number of Shares	Property
April 29, 2012	-	40,000	Poplar 2
May 25, 2012	-	15,000	Poplar 3

During the year ended December 31, 2005, the Company paid \$11,000 for a reclamation bond pursuant to regulatory requirements against reclamation obligations relating to exploration work on the Poplar mineral property interest. To date, the Company has purchased an additional \$33,382, increasing the investment in reclamation bonds to a total of \$44,381.

During the year ended December 31, 2008, the Company staked 44,963 additional hectares in the area adjacent to the Poplar mineral property. These mineral claim holdings are 100% owned by the Company and all mineral claims are current and in good standing.

On August 20, 2009 the Company announced that The Office of the Wet'suwet'en (the "OW"), representing the interests of five Clans and thirteen Houses, and the senior executive of the Company have concluded a Memorandum of Understanding ("MoU"). The MoU recognized that both parties to the MoU are committed to a respectful, consultative relationship with regards to the Company's mineral exploration activities on Wet'suwet'en territories. The MOU was renewed and formalized in a Communications and Engagement Agreement on December 15, 2010 and is expected to continue over the foreseeable future as the Company and the OW work towards a

continued transparent and mutually respectful ongoing relationship. On signing the MoU, the Company paid the Office of the Wet'suwet'en \$10,000 and is obligated to make annual payments of \$10,000 until such time as the MoU is terminated by either party.

The Company's 2010 spring exploration program on its Poplar property was abandoned due to unresolved internal issues of political representation and jurisdiction between the Wet'suwet'en Heredity Chiefs and a particular House group with the Wet'suwet'en Nation.

As part of efforts to consult and accommodate, further discussion with the Unis'tot'en have occurred, and the Company subsequently paid \$10,000 to the Unis'tot'en as a capacity payment and has funded a \$39,608 traditional use study of the Poplar area of geographical interest.

The Company continues to pursue meaningful engagement with First Nations interests identified by the Province of BC and seeks a respectful relationship to ensure that the mutual interests of those First Nations and the Company are respected.

ROK-Coyote

On October 29, 2010, the Company entered into a Letter of Agreement ("LA") with Firesteel Resources Inc. ("Firesteel") for an option to acquire a 75% interest in the ROK-Coyote mineral property interest (the "Property"). The Property is situated in the Stikine Arch region of north-western B.C. and is comprised of 19 contiguous claims covering 6,891 hectares.

On January 5, 2011, the Company formalized the LA by entering into an official Property Option Agreement with Firesteel. Pursuant to the terms of the Property Option Agreement, the Company is to be granted an option (the "Option") to acquire a seventy-five percent (75%) interest in the Property in consideration for the issuance of an aggregate of \$496,000 in cash, an aggregate exploration expenditures commitment of \$2,329,000 and the issuance of 650,000 common shares over a period of four years (the "Option Period"). During the Option Period, the Company will be the operator on the Property.

A \$22,000 cash finder's fee was paid upon TSXV acceptance of the formal Property Option Agreement.

The acquisition cost schedule to date is as follows:

	Cash Payment		Balance	
Date	\$	Number of Shares	\$	
October 29, 2010	50,000 (paid)	<u>-</u>	50,000

Total	275,000	550,000	2,150,000

Any common shares issued pursuant to the Option shall be subject to a pooling arrangement providing for the release of 25% of such shares on acceptance and 25% every three months thereafter. The Company shall also have a first right to repurchase or arrange for the purchase of any of its shares to be issued to Firesteel.

Firesteel retains the right to acquire a five percent (5%) interest in the Property for \$200,000 three years after the Option is accepted for filing by the TSXV and prior to a production decision being made by the Company concerning the Property. In the event Firesteel elects to exercise this right, the Company's rights pursuant to the Option

would be reduced to a 70% interest in the Property.

Firesteel will also be granted a 2% net smelter return royalty ("Royalty") on the Property, subject to the Company's right to purchase $\frac{1}{2}$ of such royalty (1%) for \$1,000,000 at any time within 240 days of commencement of commercial production. The Property consists of two blocks earned or under option by Firesteel from previous claim holders, each with 2% royalty obligations; one block in an area of common interest with a 0.5% royalty obligation; and a fourth block with no previous royalty obligation.

Hudson Bay Mountain

In May 2005, the Company acquired a 100% interest in certain mineral claims known as the Hudson Bay Mountain mineral property interest located near Smithers, British Columbia. The initial acquisition agreement required the issuance of 460,000 common shares (valued at \$690,000) and the making of six annual payments of \$25,000 beginning upon acquisition.

On July 29, 2010, the Company announced that it had entered into an agreement to acquire additional claims, known as the Mason claims, surrounding its existing mineral property interest on Hudson Bay Mountain. The addition of these claims increases the Company's claims on Hudson Bay Mountain to 82 tenures totaling over 26,000 hectares. Pursuant to a sale and purchase agreement entered into between the Company and the vendor of the Mason claims, the Company acquired a 100% interest in the property interest by (i) issuing to the vendor 1,300,000 common shares of the Company (valued at \$780,000); (ii) paying a total of \$250,000 cash (\$150,000 at the closing of the acquisition and \$100,000 on September 13, 2010); and (iii) granting the vendor a 2% net smelter returns royalty on the Mason claims. As part of this second agreement, the vendor agreed to waive the final \$25,000 payment obligation from the initial agreement. The vendor will retain a 2% NSR in respect of the initial claims.

The Hudson Bay Mountain mineral property interest is 100% owned by the Company and all mineral claims are current and in good standing.

Copperline

On July 17, 2010 the Company entered into an agreement to acquire a 60% interest in the Copperline mineral property interest in British Columbia. The Copperline property surrounds Skutsil Knob at the south end of the Driftwood Range, 25 km northwest of Takla Lake, and about 120 km northeast of Smithers, B.C. Pursuant to the sale and purchase agreement, the Company has acquired a 60% undivided beneficial and recorded interest in the Copperline mineral property interest in consideration for the issuance to the vendor of a total of 2,700,000 common shares (issued) in the share capital of the Company (the shares were valued at \$1,620,000). The Company has also incurred an additional \$10,760 in tenure fees to ensure that all mineral claims are current and remain in good standing.

The remaining 40% interest in the mineral property interest is held by Max Minerals Ltd. (TSXV: MJM) and following the acquisition of the 60% interest, the Company has assumed the vendors' rights and obligations provided for in this agreement.

A portion of the claims comprising the Copperline property interest is subject to a 1.5% net smelter returns royalty held by Cominco Ltd.

Kleinebar Resources Ltd. ("Kleinebar") also holds a 0.5% net smelter returns royalty on the part of the property interest subject to the Cominco royalty, and a 1.25% net smelter returns royalty on the balance of the property interest. The Kleinebar royalty can be purchased at any time for \$500,000.

Management has elected at this time to concentrate efforts on other properties and interests. As there is no known market for this interest, the recoverable value based upon fair value less costs to sell is considered to be nominal. As such, this interest is carried at a nominal value.

The acquisition cost schedule is as follows:

Date	Cash Payment \$	Share Issuance \$	Tenure, Minister of Finance & Other Fees	Charge to Operations Balance \$ \$	
July 17, 2010	-	1,620,000	-	-	1,620,000
December 31, 2011	-	-	10,760	(1,630,759)	1

Kelly Creek

By an agreement dated July 26, 2004, the Company was granted an option to acquire an undivided 100% interest in what are now six mineral claims, known as the Kelly Creek mineral property interest, situated in the Omineca Mining Division, Province of B.C. Terms of the agreement were the payment of \$20,000 and the issuance of 80,000 common shares of the Company to be issued in various stages, with the final 40,000 common shares being issued in July, 2007. The optionor retains a 2% NSR, in respect of these mineral claims, with the Company being granted the right to purchase 1% of this royalty for consideration of \$1,000,000.

The Kelly Creek mineral property interest is 100% owned by the Company and all related mineral claims are current and in good standing. Management has elected at this time to concentrate efforts on other properties and interests. As there is no known market for this interest, the recoverable value based upon fair value less costs to sell is considered to be nominal. As such, this interest is carried at a nominal value.

11. SHARE CAPITAL AND RESERVES

a) Common Shares

i) Authorized

The Company is authorized to issue an unlimited number of common shares without par value.

The holders of common shares are entitled to receive dividends and are entitled to one vote per share at meetings of the Company.

ii) Issued and paid

On February 22, 2012, the Company completed a non-brokered private placement, consisting of the issue and sale of 1,000,000 flow-through units at a price of \$0.46 per flow-through unit and 1,000,000 common share units at a price of \$0.40 per unit, for aggregate gross proceeds of \$860,000. Each common share unit consisted of one common share and one-half of one common share purchase warrant. Each flow-through unit consisted of one flow-through common share and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one non-flow-through common share of the Company for \$0.80 at any time within 18 months after the date the units are issued. The Company allocated \$106,207 to the fair value of the share purchase warrants. As the market value was greater than the price of the flow-through units, no liability was incurred on issuance of the flow-through shares. As part of the issuance, the Company paid finder's fees of \$28,200 and additional share issuance costs of \$38,996.

On November 1, 2011, the Company commenced a Normal Course Issuer Bid ("NCIB") to acquire up to 600,000 of its common shares, over a one year period. The NCIB will continue until the earlier of November 1, 2012, and the date by which Lions Gate has either acquired 600,000 common shares or has paid \$150,000 in total consideration for the purchase of common shares under the bid. Purchases are to be made through the facilities of the TSX Venture Exchange in accordance with TSX-V requirements. The price at which the company will purchase its common shares will be the market price of the common shares at the time of acquisition. All common shares purchased by Lions Gate under the bid will be returned to treasury for cancellation.

During the year ended December 31, 2011, 169,000 shares were acquired pending cancellation under the NCIB at a cost of \$62,843 (an average of \$0.37 per share). On January 5, 2012, these shares were cancelled and returned to treasury.

During the quarter ended March 31, 2012, an additional 46,500 common shares were acquired pending cancellation under the NCIB at a cost of \$18,460 (an average of \$0.39 per share). On April 4, 2012, these shares were cancelled and returned to treasury. The Company has presented share capital on a net basis.

On March 10, 2011, the Company completed a two-tranche brokered private placement, consisting of the issue and sale of 1,052,632 flow-through shares at a price of \$0.95 per flow-through share and 6,289,000 common share units at a price of \$0.80 per unit, for aggregate gross proceeds of \$6,031,200. Each common share unit consisted of one common share and one-half of one common share purchase warrant. Each whole common share purchase warrant entitles the holder to purchase one additional common share of the Company at a price of \$1.20 per share for a period of two years after the closing of the offering. The Company paid commission of \$230,228 and issued 275,318 broker compensation warrants exercisable at \$0.82 per share expiring September 4, 2012 valued at \$117,623. The flow-through liability was calculated using the residual method.

As at December 31, 2011, the Company had fulfilled its expenditure commitment to incur exploration expenditures in relation to flow-through share financing in 2011.

b) Flow-through Obligations

The Company's obligations through its flow-through share program are as follows:

	\$
Balance at December 31, 2011	-
Proceeds from February 22, 2012 issuance	460,000
Qualifying expenditures	(40,094)
Balance at March 31, 2012	419,906

c) Contributed Surplus

The following is a summary of changes in contributed surplus from December 31, 2011 to March 31, 2012:

	March 31, 2012	December 31, 2011
	\$	\$
Opening Balance	2,297,441	1,630,073
Share-Based Payments (Note 12)	43,158	667,368
Contributed Surplus	2,340,599	2,297,441

d) Share Purchase Warrants

The following is a summary of changes in warrants from December 31, 2011 to March 31, 2012:

		Amount
	Number of Warrants	\$
Balance December 31, 2011	9,769,769	3,166,114
Issue of warrants	1,000,000	106,207
Balance as at March 31, 2012	10,769,769	3,272,321

As at March 31, 2012, the Company had outstanding warrants as follows:

	Exercise price	
Number of warrants	\$	Expiry
4,393,702	0.72	06/25/2012
1,200,000	0.72	05/23/2013

275,318	0.82	09/04/2012
1,000,000	0.80	10/22/2013

The fair value of the warrants issued were determined using the Black-Scholes option pricing model, based on the following terms and assumptions:

-	Period ended March 31, 2012	Year ended December 31, 2011
Dividend yield	0%	0%
Risk-free interest rate	1.10%	1.72% to 2.05%
Expected life	1.7 years	1.5 to 2 years
Expected volatility ⁽¹⁾	69.9%	82.4% to 84.6%
Weighted average grant date fair value	\$0.11	\$0.37

⁽¹⁾ Determined based on historical volatility of the Company's share price.

e) Nature and Purpose of Equity and Reserves

The reserves recorded in equity on the Company's consolidated statement of financial position include 'Contributed Surplus', 'Accumulated Other Comprehensive Loss/Income' and 'Accumulated Deficit'.

'Contributed Surplus' is used to recognize the value of stock option grants and share warrants net of amounts transferred on exercising of options.

'Accumulated Other Comprehensive Loss/Income' includes an available-for-sale reserve. This reserve is used to recognize fair value changes on available-for-sale investments net of amounts realized and recorded in current operations.

'Accumulated Deficit' is used to record the Company's cumulative results of operations from inception net of any capital distributions.

12. SHARE-BASED PAYMENTS

a) **Option Plan Details**

The Company has a Rolling Incentive Stock Option Plan ("the Plan") under which non-transferable options to purchase common shares of the Company may be granted to directors, officers, employees or consultants of the Company. A maximum of 10% of the issued and outstanding common shares of the Company may be reserved for issuance pursuant to the exercise of stock options. The terms of the Plan provide that the Directors have the right to grant options to acquire common shares of the Company at a price not less than the closing market price of the shares on the date the Company grants and announces the option, less any discount permitted by the TSXV, at terms of up to ten years. The majority of stock options vest immediately on the date of grant unless otherwise required by the TSXV or the Board of Directors.

Other terms and conditions are as follows: no more than 5% of the issued shares may be granted to any one individual in any 12 month period; no more than 2% of the issued shares may be granted to a consultant, or an employee performing investor relations activities, in any 12 month period; disinterested shareholder approval must be obtained for (i) any reduction in the exercise price of an outstanding option, if the holder is an insider, (ii) any grant of stock options to insiders, within a 12 month period, exceeding 10% of the Company's issued shares, and (iii) the issuance to any one option holder, within a 12 month period, of a number of shares exceeding 5% of the Company's shares. Stock options will be reclassified in the event of any consolidation, subdivision, conversion or exchange of the Company's common shares. No amounts are paid or payable by the recipient on receipt of the option, and the options granted are not dependent on any performance-based criteria.

The following is a summary of changes in options from December 31, 2011 to March 31, 2012:

Weighted Average Exercise Price		ise Price	\$0.87	\$0.80	Ş-	Ş-	\$0.86	\$0.87	\$0.80

b) Fair Value of Options Issued During the Period

The weighted average fair value at grant date of options granted during the three-month period ended March 31, 2012 was \$0.13 per option (three months ended March 31, 2011: \$0.37).

Options Issued to Employees

The fair value at grant date is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

Options Issued to Non-Employees

Options issued to non-employees, are measured based on the fair value of the goods or services received, at the date of receiving those goods or services. If the fair value of the goods or services received cannot be estimated reliably, the options are measured by determining the fair value of the options granted, using a valuation model. In the current year, the fair value of the goods or services received from all options granted to non-employees could not be measured reliably, as non-employees also required their standard cash payments for their services, given the uncertainty in the current market environment.

The model inputs for options granted during the three months ended March 31, 2012 included:

_	Grant Date	Expiry Date	Share Price at Grant Date	Exercise Price	Risk-Free Interest Rate	Expected Life	Volatility Factor	Dividend Yield
	01/06/2012	01/05/2017	\$0.33	\$0.80	0.970%	3 years	85.75%	-%
	02/01/2012	01/31/2017	\$0.36	\$0.80	1.023%	3 years	89.19 %	-%

The expected price volatility is based on the historic volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information.

No options were exercised during the three month period ended March 31, 2012.

c) Benefit Expense Arising from Share-based Payment Transactions

Total expenses arising from share-based payment transactions recognized as part of employee benefit expense during the three months ended March 31, 2012 were \$43,158 (three months ended March 31, 2011: \$398,335).

d) Amounts Capitalized Arising from Share-based Payment Transactions

Stock Option Grant

On April 5, 2012, the Company granted a total of 251,000 incentive stock options to directors, officers, consultants and employees pursuant to the Stock Option Plan. The options are exercisable for a period of five years at a price of \$0.66 per share.

17. COMMITMENTS

The following table reflects the Company's known aggregate financial commitments as at March 31, 2012:

	< Year 1	1 - 2 Years	2 - 3 Years	3 - 4 Years	4 - 5 Years	Total
Exploration & Evaluation Assets	\$535,000	\$810,000	\$1,110,000	\$10,000	\$10,000	\$2,475,000

As part of the terms of the Memorandum of Understanding ("MoU") that the Company holds with The Office of the Wet'suwet'en (the "OW"), the Company is obligated to make annual payments of \$10,000 to the OW until such time as the MoU is terminated by either party. The Company has also committed to a further \$275,000 of cash payments and \$2,150,000 of expenditures on the ROK-Coyote property.

Further details regarding these commitments are discussed in Note 10 "Exploration and Evaluation Assets".

18. CAPITAL MANAGEMENT

The Company manages its cash and cash equivalents, available-for-sale investments, share capital, and share purchase warrants as capital. As the Company is in the exploration and evaluation stage, its principal source of funds for its operations is from the issuance of common shares. The issuance of common shares requires the approval of the Board of Directors. It is the Company's objective to safeguard its ability to continue as a going concern, so that it can continue to explore and develop its properties for the benefit of its stakeholders. The Company uses stock options primarily to retain and provide future incentives to key employees and members of the management team. The granting of stock options is determined by the Board of Directors.
