**Acme Resources advises of Alpha Minerals developments at the Skull Lake JV,
Adjacent to Cluff Lake Mine Athabasca Basin, Saskatchewan**

Vancouver, BC – May 13, 2013 – **Acme Resources Inc.** (TSX-V:ARI) (“Acme” or the “Company”) advises that Alpha Minerals Inc. (TSX-V:AMW) (“Alpha”) has issued a press release dated May 13, 2013 announcing results from a detailed study of assessment reports covering the former Cluff Lake Mining Lease of Areva and the adjacent area of the Skull Lake JV claim S-107579.

The news release issued by Alpha summarizes some of the previous work done on the property and outlines the exploration work that will be carried out during the summer 2013 season. The news release is available at <http://www.alphaminerals.ca> and on SEDAR at <http://www.sedar.com>. Acme encourages its shareholders to read the release issued by Alpha to gain a better understanding of the project and the proposed exploration work. Alpha’s press release appears to be prepared by a qualified person but no Qualified Person engaged by Acme has done sufficient work to analyze, interpret, or verify Alpha’s information in the news release. Accordingly, the reader is cautioned in placing any reliance on the disclosures therein.

About the Skull Lake Property

Acme has a 20% carried interest in the 2416 hectare (5,900 acres) Skull Lake project. The carried interest remains until Alpha shall complete a positive feasibility study, at which time Acme may elect to contribute to the capital and start up cost for putting the property into production or may fall back to a 2% gross overriding royalty for uranium and precious stones and a 2% NSR for other metals and minerals. Alpha is the Operator of the Joint Venture.

The property is accessible by road, with primary access from all-weather Highway 955 which runs north to the nearby Cluff Lake mine site and passes through the UEX-Areva Shea Creek property uranium discoveries and the Alpha Minerals – Fission Uranium Corp (TSX-V FCU) Patterson Lake South project, that are currently under active exploration and development.

On behalf of the board,

Shaun Maskerine
Director
