1. Nature and continuance of operations

Acme Resources Inc. (the "Company") was incorporated on July 10, 1978, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company's shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "ARI.V".

The head office, principal address and records office of the Company are located at 1050 West Pender Street, Suite 910, Vancouver, British Columbia, Canada, V6E 3S7. The Company's registered address is Robson Court, 840 Howe Street, Suite 1000, Vancouver, British Columbia, Canada, V6Z 2M1.

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at March 31, 2016, the Company had not advanced its mineral properties to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and or private placement of common shares.

2. Significant accounting policies and basis of presentation

The financial statements were authorized for issue on May 24, 2016 by the directors of the Company.

Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34").

These interim unaudited condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this unaudited condensed interim financial report be read in conjunction with the annual financial statements of the Company for the year ended June 30, 2015. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended June 30, 2015, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective January 1, 2013.

Basis of presentation

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

2. Significant accounting policies and basis of presentation (continued)

Basis of presentation (continued)

These financial statements include an equity interest in Golden Harp Resources Inc. ("Golden Harp"), a company listed on the TSX-V. The Company's ownership interest in Golden Harp was 40.5% at March 31, 2016 (June 30, 2015 - 40.5%). The carrying value of the Company's investment in Golden Harp was reduced to \$NIL as of June 30, 2013.

The Company's ownership interest in Golden Harp is accounted for using the equity method, however, the Company has suspended applying the equity method as the Company's share of cumulative losses and impairments exceeds its investment and the Company has no obligation or intention to fund Golden Harp's losses.

Investments

Investments in which the Company has a significant influence are accounted for by the equity method, whereby the Company records its proportionate share of the investee's income or loss. When the Company's equity investee issues its own shares to outside interests, a dilution gain or loss arises as a result of the difference between the Company's proportionate share of the proceeds and the carrying value of the underlying equity.

When the Company's share of cumulative losses equals its investment and the Company has no obligation or intention to fund such additional losses, the Company suspends applying the equity method. The Company will not be able to record any equity in income with respect to an entity until its share of future profits is sufficient to recover any cumulative losses that have not previously been recorded.

3. Adoption of New and Amended IFRS Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning January 1, 2015 or later periods.

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 introduces new requirements for the classification and measurement of financial assets, additional changes relating to financial liabilities, a new general hedge accounting standard which will align hedge accounting more closely with risk management. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.

The Company has not early adopted this revised standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Marketable securities

Marketable securities consist of shares of unrelated listed companies.

5. Receivables

Receivable consists of GST recoverable.

7. Investment in Golden Harp

At March 31, 2016 and June 30, 2015, the Company owned 1,000,000 shares of Golden Harp representing a 40.5% interest in Golden Harp. The Company, through its shareholding in Golden Harp, exercises significant influence over that company, and as a result, the investment in Golden Harp is accounted for using the equity method. The Company has suspended applying the equity method as the Company's share of cumulative losses and impairments exceeds its investment and the Company has no obligation or intention to fund Golden Harp's losses.

The investment in Golden Harp balance was \$NIL for the nine months ended March 31, 2016 and year ended June 30, 2015.

Summarized financial information of Golden Harp for the nine months ended March 31, 2016 and year ended June 30, 2015 is as follows:

8. Exploration and evaluation assets (continued)

The following is a description of the Company's exploration and evaluation assets and the related spending commitments:

(a) Nor Property, Yukon Territory

The Nor Property consists of mineral claims in the Dawson Mining District, Yukon Territory.

Certain claims are subject to a 2% Net Smelter Royalty ("NSR"). The Company has the right to purchase 50% of the NSR for a purchase price of \$2,000,000 and the right of first refusal on the remaining 50%.

During the nine months ended March 31, 20164, fuel left on the Nor Property was removed in order to satisfy permit requirements. The fuel was then sold and resulted in a recovery of \$10,559.

(b) Bear River Property, British Columbia

The Bear River Property consists of mineral claims in the Skeena Mining Division, British Columbia. One of these claims is subject to a 3.5% NSR.

(c) Carswell Property, Saskatchewan

During October 2004, the Company staked a mineral claim in the Athabasca Basin, Saskatchewan.

Pursuant to an Option Agreement dated March 2, 2005, the Company granted an option to a third party to earn a 50% interest in the Carswell Property. To earn this interest the optionee paid \$25,000 cash, issued 200,000 of its shares and incurred \$100,000 in exploration expenditures. During fiscal 2009 the third party company met the terms of the Option Agreement and has a 50% interest in the property.

Pursuant to a Joint Venture Agreement dated July 24, 2008, the Company granted the third party a further 30% interest in the claim, resulting in the third party having a 80% undivided interest in the property, subject to the delivery by the third party of a bankable feasibility study. The Company will retain a carried interest until the feasibility study is delivered, at which time the Company will have the choice to take on a 20% participating interest in a new company to operate the production facility or take on a 2% NSR for all uranium mineral products and a 2% NSR for all other metals.

The third party will return all the Company's interest in any of the claims upon a decision by the third party to terminate work thereon.

9. Trade payables and accrued liabilities

	March 31,	June 30,
	2016	2015
Trade payables (Note 14)	\$ 28,488	\$ 16,547
Accrued liabilities	6,750	10,000
	\$ 35,238	\$ 26,547

10. Promissory notes

One promissory note of \$100,000, five of \$20,000 each, and one of \$30,000 totaling \$230,000 are payable to a relative of a director of the Company (June 30, 2015 – one promissory note of \$100,000 and three of \$20,000 totaling \$160,000). The notes are due August 7, 2016, July 16, 2016, November 19, 2015, February 11, 2016, August 4, 2016, March 3, 2017 and November 25, 2016 respectively, or earlier upon a default by the Company. The promissory notes bear interest at the rate of 10% per annum payable quarterly. The interest rate is fixed until the maturity date of the promissory note (Note 14).

10. Promissory notes (continued)

The promissory note totaling \$100,000 included a financing fee of 20% of the principal settled by the issuance of 355,556 of the Company's shares with a fair value of \$26,667 (Note 13). The financing fee is recorded as a reduction of the promissory note and the promissory note is accreted to its face value over the term of the note. During the nine months ended March 31, 2016 the Company recorded a finance fee expense of \$NIL (2015 - \$2,776). During the nine months ended March 31, 2016, the Company recorded accrued interest of \$14,528 (2015 - \$9,907) on the promissory notes.

11. Restoration and environmental obligations

The Company does not provide for any possible restoration and environmental obligations as management believes that no liability exists. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments regarding restoration and environmental obligations.

12. Share capital

Authorized share capital

Unlimited number of common shares without par value.

Issued share capital

At March 31, 2016 there were 11,324,855 (June 30, 2015 – 11,324,855) issued and fully paid common shares.

Share Issuances

During the nine months ended March 31, 2016 and year ended June 30, 2015 the Company issued did not issue any common shares.

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the nine months ended March 31, 2016 was based on the net loss attributable to common shareholders of \$80,026 (March 31, 2015 – \$71,597) and the weighted average number of common shares outstanding of 11,324,885 (March 31, 2015 – 11,324,885).

Diluted loss per share did not include the effect of NIL (March 31, 2015 – 650,000) stock options and NIL (March 31, 2015 –6,000,000) warrants as the effect would be anti-dilutive.

Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the Company's issued and outstanding common shares. The maximum discount allowed varies with share price, with a maximum of 25% and a minimum price of \$0.10. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or 30 days following cessation of an optionee conducting investor relations activities' position. Pursuant to the stock option plan, options granted in respect of investor relations activities are subject to vesting in stages over one year from the grant date with a maximum of one-quarter of the options vesting in any three month period. Vesting restrictions may also be applied to other options grants, at the discretion of the Board of Directors.

12. Share capital (continued)
