1. Nature and continuance of operations

Acme Resources Inc. (the "Company") was incorporated on July 10, 1978, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company's shares were listed on the TSX Venture Exchange ("TSX-V") under the symbol "ARI.V". The Company changed its name on March 1, 2017 to Affinity Metals Corp. and is now listed on the TSX-V under the symbol "AFF.V".

The head office, principal address and records office and registered office of the Company are located at 736 Granville Street, Suite 1100, Vancouver, British Columbia, Canada, V6Z 1G3.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at March 31, 2017, the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and or private placement of common shares.

2. Significant accounting policies and basis of presentation

The financial statements were authorized for issue on May 29, 2017 by the directors of the Company.

Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34").

These interim unaudited condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this unaudited condensed interim financial report be read in conjunction with the annual financial statements of the Company for the year ended June 30, 2016. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended June 30, 2016, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective July 1, 2016.

Basis of presentation

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

These financial statements included an equity interest in Golden Harp Resources Inc. ("Golden Harp"), a company listed on NEX board the TSX-V. The Company's ownership interest in Golden Harp was reduced to

2. Significant accounting policies and basis of presentation (continued)

0% at December 31, 2016 (June 30, 2016 – 29.7%) due to a dividend in specie on October 5, 2016 of 950,000 common shares of Golden Harp at a value of $152,000 and the disposal of the remaining 50,000 shares held by the Company which resulted in a gain on disposal of $6,859. The carrying value of the Company's investment in Golden Harp was reduced to $NIL as of June 30, 2013.

The Company's ownership interest in Golden Harp was accounted for using the equity method, however, the Company has suspended applying the equity method as the Company's share of cumulative losses and impairments exceeds its investment and the Company had no obligation or intention to fund Golden Harp's losses.

Investments

Investments in which the Company has a significant influence are accounted for by the equity method, whereby the Company records its proportionate share of the investee's income or loss. When the Company's equity investee issues its own shares to outside interests, a dilution gain or loss arises as a result of the difference between the Company's proportionate share of the proceeds and the carrying value of the underlying equity.

When the Company's share of cumulative losses equals its investment and the Company has no obligation or intention to fund such additional losses, the Company suspends applying the equity method. The Company will not be able to record any equity in income with respect to an entity until its share of future profits is sufficient to recover any cumulative losses that have not previously been recorded.

3. Adoption of New and Amended IFRS Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning July 1, 2017 or later periods.

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 introduces new requirements for the classification and measurement of financial assets, additional changes relating to financial liabilities, a new general hedge accounting standard which will align hedge accounting more closely with risk management. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.

The Company has not early adopted this standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Marketable securities

Marketable securities consist of shares of unrelated listed companies.

5. Receivable

Receivable consists of GST recoverable.

7. Investment in Golden Harp

At March 31, 2017 the Company owned Nil (June 30, 2016 - 1,000,000) shares of Golden Harp representing a 0% (2016: 29.7%) interest in Golden Harp. The Company, through its shareholding in Golden Harp, exercised significant influence over that company, and as a result, the investment in Golden Harp was accounted for using the equity method. The Company has suspended applying the equity method as the Company's share of cumulative losses and impairments exceeds its investment and the Company has no obligation or intention to fund Golden Harp's losses. On October 5, 2016, the Company declared a special dividend in specie of an aggregate of 950,000 shares of Golden Harp, or one Golden Harp common shares for every approximately 18 common shares held by the Company, to the holders' of the Company's common shares. The dividend was valued using the price of the Golden Harp shares on the date of the dividend which was $0.16 per share for a total of $152,000. The remaining balance of 50,000 Golden Harp shares was disposed of resulting in a gain on disposal of $6,859.

The investment in Golden Harp balance was $NIL for the nine months ended March 31, 2017 and year ended June 30, 2016.

Summarized financial information of Golden Harp for the three months ended September 30, 2016 and year ended June 30, 2016 is as follows:

	September 30, 2016	June 30, 2016
Assets	$ 291,556	$ 309,011
Liabilities	$ 307,800	$ 297,493
Revenues	$ -	$ -
Net loss	$ 16,882	$ 122,601

As at March 31, 2017, the Company's investment in Golden Harp was reduced to Nil. On June 30, 2016, it had a quoted market value of $120,000.

The following is a description of the Company's exploration and evaluation assets and the related spending commitments:

(a) Nor Property, Yukon Territory

The Nor Property consists of mineral claims in the Dawson Mining District, Yukon Territory.

Certain claims are subject to a 2% Net Smelter Royalty ("NSR"). The Company has the right to purchase 50% of the NSR for a purchase price of $2,000,000 and the right of first refusal on the remaining 50%.

(b) Bear River Property, British Columbia

The Bear River Property consisted of mineral claims in the Skeena Mining Division, British Columbia. On November 9, 2016 the Company disposed of the Bear River property for total consideration of 800,000 common shares at a price of $0.065 of the purchaser.

(c) Carswell Property, Saskatchewan

During October 2004, the Company staked a mineral claim in the Athabasca Basin, Saskatchewan.

Pursuant to an Option Agreement dated March 2, 2005, the Company granted an option to a third party to earn a 50% interest in the Carswell Property. To earn this interest the optionee paid $25,000 cash, issued 200,000 of its shares and incurred $100,000 in exploration expenditures. During fiscal 2009 the third party company met the terms of the Option Agreement and has a 50% interest in the property.

Pursuant to a Joint Venture Agreement dated July 24, 2008, the Company granted the third party a further 30% interest in the claim, resulting in the third party having a 80% undivided interest in the property, subject to the delivery by the third party of a bankable feasibility study. The Company will retain a carried interest until the feasibility study is delivered, at which time the Company will have the choice to take on a 20% participating interest in a new company to operate the production facility or take on a 2% NSR for all uranium mineral products and a 2% NSR for all other metals.

The third party will return all the Company's interest in any of the claims upon a decision by the third party to terminate work thereon.

Accrued liabilities		6,750		9,000
	$	81,769	$	41,870

10. Promissory notes

Three promissory notes totaling $41,104 are payable to a relative of a former director of the Company (June 30, 2016 – $NIL). The notes are due September 16, 2017 in the amount of $6,604, October 31, 2017 in the amount of $17,000 and December 20, 2017 in the amount of $16,000 or earlier upon a default by the Company. The promissory notes bear interest at the rate of 10% per annum payable when the notes become due. The interest rate is fixed until the maturity date of the promissory note (Note 14).

On April 21, 2016, one promissory note of $100,000, five of $20,000 each, and one of $30,000 totaling $230,000 were settled with the issuance of 5,451,580 shares to a relative of a director of the Company for a fair value of $272,579, which included $42,579 of interest (Note 12). The notes were due August 7, 2016, July 16, 2016, November 19, 2016, February 11, 2017, August 4, 2016, March 3, 2017 and November 25, 2016 respectively, or earlier upon a default by the Company. The promissory notes bore interest at the rate of 10% per annum payable quarterly. The interest rate was fixed until the maturity date of the promissory note (Note 14).

During the nine months ended March 31, 2017, the Company recorded accrued interest of $1,500 (2016 - $9,155) on the promissory notes (Note 14).

11. Restoration and environmental obligations

The Company did not provide for any possible restoration and environmental obligations as management believes that no liability exists. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments regarding restoration and environmental obligations.

12. Share capital

Authorized share capital

Unlimited number of common shares without par value.

Issued share capital

At March 31, 2017 there were 16,775,435 (June 30, 2016 – 16,776,435) issued and fully paid common shares.

Share Issuances

During the nine months ended March 31, 2017 the Company did not issue any common shares.

During the year ended June 30, 2016 the Company issued 5,451,580 shares with a fair value of $272,579 to a relative of a director in order to settle debt of $272,579 (Note 10).

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the nine months ended March 31, 2017 was based on the net income attributable to common shareholders of $4,913 (March 31, 2016 – ($80,026)) and the weighted average number of common shares outstanding of 16,776,465 (March 31, 2016 –11,324,885).

Diluted loss per share did not include the effect of NIL (March 31, 2016 – Nil) stock options as the effect would be anti-dilutive.

Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not

exceed 10% of the Company's issued and outstanding common shares. The maximum discount allowed varies with share price, with a maximum of 25% and a minimum price of $0.10. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or thirty days following cessation of an optionee conducting investor relations activities' position. Pursuant to the stock option plan, options granted in respect of investor relations activities are subject to vesting in stages over one year from the grant date with a maximum of one-quarter of the options vesting in any three month period. Vesting restrictions may also be applied to other options grants, at the discretion of the Board of Directors.

The following table summarizes the continuity of the Company's stock options:
