1. Nature and continuance of operations

Affinity Metals Corp. (the "Company") was incorporated on July 10, 1978, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company's shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "AFF.V".

The head office, principal address and records office and registered office of the Company are located at 600-890 West Pender Street, Vancouver, British Columbia, Canada, V6C 1J9.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30, 2018, the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and or private placement of common shares.

2. Significant accounting policies and basis of presentation

The financial statements were authorized for issue on November 23, 2018 by the directors of the Company.

Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34").

These interim unaudited condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this unaudited condensed interim financial report be read in conjunction with the annual financial statements of the Company for the year ended June 30, 2018. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended June 30, 2018, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective July 1, 2018.

Basis of presentation

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

3. Adoption of New and Amended IFRS Pronouncements

A number of new standards, amendments to standards and interpretations are not yet effective as of September 30, 2018, and have not been applied in preparing these financial statements.

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 introduces new requirements for the classification and measurement of financial assets, additional changes relating to financial liabilities, a new general hedge accounting standard which will align hedge accounting more closely with risk management. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company has not early adopted this standard and is currently assessing the impact that this standard will have on its financial statements.

New standard IFRS 15 "Revenue from Contracts with Customers"

IFRS 15 is a new standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity's contracts with customers. It provides a single model in order to depict the transfer of promised goods or services to customers. IFRS 15 supersedes IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programs, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfers of Assets from Customers, and SIC-31, Revenue – Barter Transactions involving Advertising Service. The Company currently does not have revenue and consequently this standard will not impact the Company.

New standard IFRS 16 "Leases"

In January 2016, the IASB issued IFRS 16, Leases which replaces IAS 17, Leases and its associated interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. Lessor accounting remains similar to current accounting practice. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted for entities that apply IFRS 15. The Company currently has no leases. The Company has not early adopted this standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. Investment in Marketable securities

As at September 30, 2018, the Company holds 800,000 (2018 - 800,000) common shares of American Creek Resources Ltd. ("American Creek Shares") (Note 7). At September 30, 2018, the American Creek Shares fair value had decreased from \$0.065 per share at November 9, 2016 when the shares were received to \$0.035 per share and therefore the Company wrote the marketable securities down to \$28,000 (2018 - \$32,000). The total unrealized loss on marketable securities for the three month period ended September 30, 2018 is \$4,000 (2018 - \$20,000) which is recorded in other comprehensive loss.

5. Receivable

Receivable consists of GST recoverable.

The following is a description of the Company's exploration and evaluation assets and the related spending commitments:

(a) Nor Property, Yukon Territory

The Nor Property consists of mineral claims in the Dawson Mining District, Yukon Territory.

Certain claims are subject to a 2% Net Smelter Royalty ("NSR"). The Company has the right to purchase 50% of the NSR for a purchase price of \$2,000,000 and the right of first refusal on the remaining 50%.

(b) Bear River Property, British Columbia

The Bear River Property consisted of mineral claims in the Skeena Mining Division, British Columbia. On November 9, 2016 the Company disposed of the Bear River property for total consideration of 800,000 American Creek Shares with a fair value of \$0.065 per share resulting in a gain on sale of \$12,184 (Note 4).

(c) Carswell Property, Saskatchewan

During October 2004, the Company staked a mineral claim in the Athabasca Basin, Saskatchewan.

7. Exploration and evaluation assets (continued)

Effective April 5, 2018, the Company disposed of its interest in the Middle Lake (Carswell), Saskatchewan property for total cash proceeds of \$5,000 and recognized a loss in the statement of comprehensive loss for \$5,780.

(d) Regal Property, British Columbia

On November 15, 2017, the Company entered into an option agreement to acquire 100% interest in the Regal Property located near Revelstoke, British Columbia. The Company entered into a four year option agreement where upon execution paid \$5,000 cash and issued 50,000 shares at a fair value of \$3,000 (Note 12). The remaining terms and payments under the agreement are as follows:

- i) \$10,000 cash payment and 50,000 shares issued to the vendor on the first anniversary of the agreement;
- ii) \$20,000 cash payment and 100,000 shares issued to the vendor on the second anniversary of the agreement;
- \$30,000 cash payment and 150,000 shares issued to the vendor on the third anniversary of the agreement; and
- iv) \$40,000 cash payment and 250,000 shares issued to the vendor on the fourth anniversary of the agreement.

The vendor will retain a 3% NSR which can be fully bought out anytime for \$500,000 cash and 100,000 shares per each 1%.

8. Trade payables and accrued liabilities

| | Sept | September 30, | | |
|--------------------------|------|---------------|----|--------|
| | | 2018 | | 2018 |
| Trade payables (Note 14) | \$ | 56,854 | \$ | 22,254 |
| Accrued liabilities | | 12,500 | | 10,000 |
| | \$ | 69,354 | \$ | 32,254 |

9. Restoration and environmental obligations

The Company did not provide for any possible restoration and environmental obligations as management believes that no liability exists. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments regarding restoration and environmental obligations.

10. Share capital

Authorized share capital

Unlimited number of common shares without par value.

Issued share capital

At September 30, 2018 there were 22,876,435 (June 30, 2018 – 22,876,435) issued and fully paid common shares.

Share Issuances

During the three month period ended September 30, 2018 Nil shares were issued.

During the year ended June 30, 2018, the Company issued 2,000,000 common shares in a non-brokered private placement at a price of \$0.10 per unit for gross proceeds of \$200,000. Each unit consisted of one common share of the Company and one half non-transferable common share purchase warrant. Each warrant may be exercised for one additional common share for a period of 1 year from the closing date of the Offering at a price of \$0.15 per share.

10. Share capital (continued)

The Company also issued 50,000 common shares as a finders fee and 50,000 common shares for exploration and evaluation assets with a fair value of \$0.06 (Note 7).

The share issuance costs for the three months ended September 30, 2018 were \$Nil (2017: \$Nil).

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the three months ended September 30, 2018 was based on the net loss attributable to common shareholders of \$48,239 (September 30, 2017 – \$36,114) and the weighted average number of common shares outstanding of 22,876,435 (September 30, 2017 – 20,776,435).

Diluted loss per share did not include the effect of 2,095,000 (June 30, 2018 – 1,670,000) stock options as the effect would be anti-dilutive.

Warrants

During the three month period ended September 30, 2018 Nil warrants were granted.

During the year ended June 30, 2018, 1,000,000 warrants were granted as part of the units issued in a private placement on November 21, 2017. Each full warrant may be exercised for one additional common share for a period of 1 year from the closing date of the Offering at a price of \$0.15 per share.

The following table summarizes the continuity of the Company's warrants:

Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the Company's issued and outstanding common shares. The maximum term allowed is 10 years and the maximum discount allowed varies with share price, with a maximum of 25% and a minimum price of \$0.05. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or thirty days following cessation of an optionee conducting investor relations activities' position. Pursuant to the stock option plan, options granted in respect of investor relations activities are subject to vesting in stages over one year from the grant date with a maximum of one-quarter of the options vesting in any three month period. Vesting restrictions may also be applied to other options grants, at the discretion of the Board of Directors.
