Affinity Metals Corp.  
Notes to the Condensed Interim Financial Statements  
For the Six Months Ended December 31, 2018 and 2017  
(Unaudited – prepared by Management)  
(Expressed in Canadian Dollars)

**1. Nature and continuance of operations**

Affinity Metals Corp. (the “Company”) was incorporated on July 10, 1978, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company’s shares are listed on the TSX Venture Exchange (“TSX-V”) under the symbol “AFF.V”.

The head office, principal address and records office and registered office of the Company are located at 600- 890 West Pender Street, Vancouver, British Columbia, Canada, V6C 1J9.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at December 31, 2018, the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company’s continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and or private placement of common shares.

**2. Significant accounting policies and basis of presentation**

The financial statements were authorized for issue on February 19, 2019 by the directors of the Company.

***Statement of compliance***

The unaudited condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting (“IAS 34”).

These interim condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this condensed interim financial report be read in conjunction with the audited annual financial statements of the Company for the year ended June 30, 2018. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company’s most recent annual financial statements for the year ended June 30, 2018, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective July 1, 2018.

***Basis of presentation***

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

**3. Adoption of New and Amended IFRS Pronouncements**

A number of new standards, amendments to standards and interpretations are not yet effective as of December 31, 2018, and have not been applied in preparing these financial statements.

***New standard IFRS 15 “Revenue from Contracts with Customers”***

IFRS 15 is a new standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. It provides a single model in order to depict the transfer of promised goods or services to customers. IFRS 15 supersedes IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programs, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfers of Assets from Customers, and SIC-31, Revenue – Barter Transactions involving Advertising Service. The Company currently does not have revenue and consequently this standard will not impact the Company.

***New standard IFRS 16 “Leases”***

In January 2016, the IASB issued IFRS 16, Leases which replaces IAS 17, Leases and its associated interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. Lessor accounting remains similar to current accounting practice. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted for entities that apply IFRS 15. The Company currently has no leases. The Company has not early adopted this standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company’s financial statements.

**4. Investment in Marketable securities**

As at December 31, 2018, the Company holds 800,000 (2018 – 800,000) common shares of American Creek Resources Ltd. (“American Creek Shares”) (Note 7). At December 31, 2018, the American Creek Shares fair value had decreased from \$0.065 per share at November 9, 2016 when the shares were received to \$0.03 per share and therefore the Company wrote the marketable securities down to \$24,000 (2017- \$32,000). The total unrealized loss on marketable securities for the six month period ended December 31, 2018 is \$8,000 (2017 - \$12,000 gain) which is recorded in other comprehensive loss.

**5. Receivable**

Receivable consists of GST recoverable.

**6. Equipment**

During the year ended June 30, 2018, the company disposed of the remaining equipment and recorded a loss on disposal of equipment of \$795.
