# 1. Nature and continuance of operations

Affinity Metals Corp. (the "Company") was incorporated on July 10, 1978, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company's shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "AFF.V".

The head office, principal address and records office and registered office of the Company are located at 600-890 West Pender Street, Vancouver, British Columbia, Canada, V6C 1J9.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at December 31, 2019, the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. These conditions raise significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and or private placement of common shares.

# 2. Significant accounting policies and basis of presentation

The financial statements were authorized for issue on February 28, 2020 by the directors of the Company.

#### Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34").

These interim unaudited condensed financial statements do not include all of the information required for full annual financial statements and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this unaudited condensed interim financial report be read in conjunction with the annual financial statements of the Company for the year ended June 30, 2019. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in Note 3 of these condensed interim financial statements.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company's most recent annual financial statements for the year ended June 30, 2019, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective July 1, 2019.

#### Basis of presentation

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

# 3. Adoption of New and Amended IFRS Pronouncements

#### New standards and interpretations issued but not yet adopted

The following are standards issued but not yet effective up to the year-end date of these unaudited financial statements. The Company reasonably expects these standards to be applicable at a future time and intends to adopt these standards when they become effective. The following new standards, amendments and interpretations that have not been early adopted in the financial statements do not have a material effect on the Company's future results of operations and financial position.

• IFRS 16, Leases, which replaces IAS 17 Leases. The objective of the new standard requires entities to recognize lease assets and lease obligations on the balance sheet. For lessees, IFRS 16 removes the classification of leases as either operating or finance leases, effectively treating all leases as finance leases. Lessors will continue with a dual lease classification model. Classification will determine how and when a lessor will recognize lease revenue, and what assets would be recorded. This standard is effective for years beginning on or after January 1, 2019. The Company does not expect that the adoption will have a significant impact on the financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

#### 4. Investment in Marketable securities

As at December 31, 2019, the Company holds 800,000 (2019-800,000) common shares of American Creek Resources Ltd. ("American Creek Shares"). At December 31, 2019, the 800,000 American Creek Shares fair value had increased from \$0.065 per share at November 9, 2016 when the shares were received to \$0.09 per share and therefore the Company wrote the marketable securities up to \$72,000 (2019-\$32,000). The total unrealized gain on marketable securities for the period ended December 31, 2019 is \$40,000 (2019-\$31,000) which is recorded in other comprehensive income (loss).

#### 5. Receivables

Receivables consists of GST recoverable.

The following is a description of the Company's exploration and evaluation assets and the related spending commitments:

# (a) Nor Property, Yukon Territory

The Nor Property consists of mineral claims in the Dawson Mining District, Yukon Territory.

Certain claims are subject to a 2% Net Smelter Royalty ("NSR"). The Company has the right to purchase 50% of the NSR for a purchase price of \$2,000,000 and the right of first refusal on the remaining 50%.

# 6. Exploration and evaluation assets (continued)

The Nor Property is currently in an area where there is dispute called the 'Peel Watershed Regional Use Plan' ("Plan") between the Yukon Government and First Nations Group. Therefore, the Plan has restricted the Company from exploration activities. Subsequent to these financial statements, the Plan has been settled, however the area where the property is located is not yet finalized, with respect to mining activities. Management has kept the claims and titles in good standing and intends to continue exploration once a conclusion with respect to the mining activities has been finalized.

### (b) Carswell Property, Saskatchewan

During October 2004, the Company staked a mineral claim in the Athabasca Basin, Saskatchewan.

Pursuant to an Option Agreement dated March 2, 2005, the Company granted an option to a third party to earn a 50% interest in the Carswell Property. To earn this interest the optionee paid \$25,000 cash, issued 200,000 of its shares and incurred \$100,000 in exploration expenditures. During fiscal 2009 the third party company met the terms of the Option Agreement and has a 50% interest in the property.

Pursuant to a Joint Venture Agreement dated July 24, 2008, the Company granted the third party a further 30% interest in the claim, resulting in the third party having a 80% undivided interest in the property, subject to the delivery by the third party of a bankable feasibility study.

The Company will retain a carried interest until the feasibility study is delivered, at which time the Company will have the choice to take on a 20% participating interest in a new company to operate the production facility or take on a 2% NSR for all uranium mineral products and a 2% NSR for all other metals.

The third party will return all the Company's interest in any of the claims upon a decision by the third party to terminate work thereon.

Effective April 5, 2018, the Company disposed of its interest in the Middle Lake (Carswell), Saskatchewan property for total cash proceeds of \$5,000 and recognized a loss in the statement of loss and comprehensive loss of \$5,780.

#### (c) Regal Property, British Columbia

On November 15, 2017, the Company entered into an option agreement to acquire 100% interest in the Regal Property located near Revelstoke, British Columbia. The Company entered into a four year option agreement where upon execution paid \$5,000 cash and issued 50,000 shares at a fair value of \$3,000 (Note 12). The remaining terms and payments under the agreement are as follows:

- i) \$10,000 cash payment (paid during the year ended June 30, 2019) and 50,000 shares (issued during the year ended June 30, 2019) to the vendor on the first anniversary of the agreement;
- \$20,000 (paid during the period ended December 31, 2019) cash payment and 100,000 shares (issued during the period ended December 31, 2019) to the vendor on the second anniversary of the agreement;
- \$30,000 cash payment and 150,000 shares to be issued to the vendor on the third anniversary of the agreement; and
- iv) \$40,000 cash payment and 250,000 shares to be issued to the vendor on the fourth anniversary of the agreement.

The vendor will retain a 3% NSR which can be fully bought out anytime for \$500,000 cash and 100,000 shares per each 1%.

Accrued liabilities		252,084		15,000
	\$	328,129	\$	84,948

#### 8. Promissory notes payable

Two promissory notes totaling \$10,000 (2019 - \$nil) are payable to two companies controlled by two directors of the Company (Note 12). The promissory notes bear interest at the rate of 10% per annum, calculated daily and compounded monthly payable when the notes become due. The interest rate was fixed until the maturity date of the promissory note. The notes are due November 14, 2019 and are currently in default.

During the period ended December 31, 2019, the Company recorded accrued interest of \$500 (2019 - \$654) on the promissory notes (Note 12).

#### 9. Restoration and environmental obligations

The Company did not provide for any possible restoration and environmental obligations as management believes that no liability exists. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments regarding restoration and environmental obligations.

#### 10. Share capital

# Authorized share capital

Unlimited number of common shares without par value.

#### Issued share capital

At December 31, 2019 there were 31,182,435 (2019 - 24,986,435) issued and fully paid common shares.

#### **Share Issuances**

On September 18, 2019, the Company issued 6,000,000 common shares in a non-brokered private placement at a price of \$0.10 per unit for gross proceeds of \$600,000. Each unit consisted of one common share of the Company and one non-transferable common share purchase warrant. Each warrant may be exercised for one additional common share for a period of 2 years from the closing date of the Offering at a price of \$0.15 per share.

On September 15, 2019, the Company issued 96,000 common shares with a fair value of \$13,440 as part of a shares for services agreement.

On November 14, 2019, the Company issued 100,000 common shares with a fair value of \$8,000 as part of an ongoing agreement to acquire exploration and evaluation assets.

During the year ended June 30, 2019, the Company issued 2,000,000 common shares in a non-brokered private placement at a price of \$0.10 per unit for gross proceeds of \$200,000. Each unit consisted of one common share of the Company and one half non-transferable common share purchase warrant. Each warrant may be exercised for one additional common share for a period of 1 year from the closing date of the Offering at a price of \$0.15 per share.

During the year ended June 30, 2019, the Company also issued 60,000 common shares at \$0.10 per share as a finders fee and 50,000 common shares for exploration and evaluation assets with a fair value of \$0.095 per share (Note 6).

The share issuance costs for the period ended December 31, 2019 were \$3,750 (2019 – \$13,780).

# 10. Share capital (continued)

#### Basic and diluted loss per share

The calculation of basic and diluted loss per share for the period ended December 31, 2019 was based on the net loss attributable to common shareholders of \$230,181 (2019 - \$99,431) and the weighted average number of common shares outstanding of 28,459,109 (2019 - 22,888,663).

Diluted loss per share did not include the effect of stock options or warrants as the effect would be antidilutive.

#### Warrants

On September 18, 2019, 6,000,000 warrants were granted as part of the units issued in a private placement. Each full warrant may be exercised for one additional common share for a period of 2 years from the closing date of the Offering at a price of \$0.15 per share.

During the year ended June 30, 2019, 1,000,000 warrants were granted as part of the units issued in a private placement on April 1, 2019. Each full warrant may be exercised for one additional common share for a period of 1 year from the closing date of the Offering at a price of \$0.15 per share.

The following table summarizes the continuity of the Company's warrants:
