1. NATURE OF OPERATIONS AND GOING CONCERN

Randsburg International Gold Corp. (the "Company") was incorporated under the laws of British Columbia on July 6, 1990.

The Company is listed on the TSX Venture Exchange, having the symbol RGZ-V, as a Tier 2 mining issuer. The address of the Company's corporate office and principal place of business is 44 Victoria Street, Suite 1060, Toronto, Ontario, M5C1Y2 Canada.

The financial statements of Randsburg International Gold Corp. for the three month period ended April 30, 2016 and 2015 were reviewed by and authorized for issue by the Board of Directors on June 24, 2016.

The Company's principal business activity is the acquisition and exploration of mineral property interests in Canada. The Company is considered to be in the exploration stage and substantially all of the Company's efforts are devoted to financing and developing these property interests. The Company has not determined whether its properties contain ore reserves which are economically recoverable. The recovery of the amounts shown for mining properties is dependent upon the existence of economically recoverable ore reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposal of its properties.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize on its assets and settle its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements.

The Company has incurred operating losses over the last several years, earns no revenues and has a working capital deficiency of \$1,238,029 as at April 30, 2016 (January 31, 2016 - \$1,219,107). While the Company has been successful in obtaining its required financing in the past, through additional equity and non – arm's length loans, there is no assurance that such financing will be available or be available on favorable terms. The Company's ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company's assets may be adversely affected.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration in which it has an interest, in accordance with industry standards for the current stage of exploration. These procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, non-compliance with regulatory requirements or aboriginal land claims.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

Statement of compliance

The Company applies International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“ISAB”). These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these condensed interim financial statements are based on IFRSs issued and outstanding as of *June 24, 2016*, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended January 31, 2016. Any subsequent changes to IFRS that are given effect in the Company’s annual financial statements for the year ended January 31, 2017 could result in restatement of these condensed interim financial statements.

New standards not yet adopted and interpretations issued but not in effect in the most recent annual statements as at and for the year ended January 31, 2016.

There are no relevant changes in accounting standards applicable to future periods other than as disclosed in the most recent annual statements as at and for the year ended January 31, 2016.

Basis of presentation

These financial statements have been prepared on a historical cost basis except for certain financial instruments that have been measured at fair value. In addition these financial statements have been prepared using the accrual basis of accounting, except for mineral property interests and cash flow information.

The accounting policies set are the same as are disclosed in the annual audited financial statements for the year ended January 31, 2016 (See Note 3) to these financial statements which have been filed on (“SEDAR; the “System for Electronic Document and Retrieval”) for the disclosure of public company documents in Canada.

The accounting policies have been applied consistently to all periods presented in these financial statements.

3. CAPITAL MANAGEMENT

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objective including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital and cash.

The Company is in the exploration stage; as such the Company has relied on the equity markets to fund its activities. The Company will continue to assess new sources of financing available and to manage its expenditures to reflect current financial resources in the interest of sustaining long term viability.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is not subject to any external capital requirements.
