The Prospectus Supplement relating to a particular offering of Securities will describe the terms of such offering of Securities, including: (i) the terms of the Securities to which the Prospectus Supplement relates, including the type of Security being offered, and the method of distribution; (ii) the name or names of any underwriters, dealers or agents involved in such offering of Securities; (iii) the purchase price of the Securities offered thereby and the proceeds to, and the expenses borne by, the Corporation or the Selling Securityholder from the sale of such Securities; (iv) any commission, underwriting discounts and other items constituting compensation payable to underwriters, dealers or agents; (v) any discounts or concessions allowed or re-allowed or paid to underwriters, dealers or agents; and (vi) the identity of the Selling Securityholder, if any. This may affect the pricing of the Securities in the secondary market, the transparency and availability of trading prices, the liquidity of the Securities, and the extent of issuer regulation.**

Investing in Securities is speculative and involves a high degree of risk and should only be made by persons who can afford the total loss of their investment. A prospective purchaser should therefore review this Prospectus and the documents incorporated by reference herein in their entirety and carefully consider the risk factors described or referenced under "Risk Factors" prior to investing in such Securities.

No underwriter, dealer or agent has been involved in the preparation of this Prospectus or performed any review of the contents of this Prospectus.

The Corporation has three classes of issued and outstanding shares: the Subordinate Voting Shares, the Proportionate Voting Shares of the Corporation (the "**Proportionate Voting Shares**") and the Super Voting Shares of the Corporation (the "**Super Voting Shares**"). The Subordinate Voting Shares are "restricted securities" within the meaning of such term under applicable Canadian securities laws. Each Subordinate Voting Share is entitled to one vote per Subordinate Voting Share, each Proportionate Voting Share is entitled to one vote in respect of each Subordinate Voting Share into which such Proportionate Voting Share could ultimately then be converted, which is currently equal to 200 votes per Proportionate Voting Share, and each Super Voting Share is currently entitled to 2,000 votes per Super Voting Share on all matters upon which the holders of shares of the Corporation are entitled to vote, and holders of Subordinate Voting Shares, Proportionate Voting Shares and Super Voting Shares will vote together on all matters subject to a vote of holders of both those classes of shares as if they were one class of shares, except to the extent that a separate vote of holders as a separate class is required by law or provided by the articles of the Corporation. Other than the return of the issue price for their Super Voting Shares, the holders of Super Voting Shares are not entitled to receive, directly or indirectly, as holders of Super Voting Shares, any other assets or property of the Corporation. Holders of Subordinate Voting Shares and Proportionate Voting Shares are entitled to receive, as and when declared by the board of directors of the Corporation, dividends in cash or property of the Corporation. In the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of Subordinate Voting Shares are, subject to the prior rights of the holders of any shares of the Corporation ranking in priority to the Subordinate Voting Shares (including, without restriction, the Proportionate

Voting Shares and the Super Voting Shares as to the issue price paid in respect thereof), entitled to participate rateably along with all other holders of Subordinate Voting Shares. **In the event that a take-over bid is made for the Super Voting Shares, the holders of Subordinate Voting Shares will not be entitled to participate in such offer and may not tender their shares into any such offer, whether under the terms of the Subordinate Voting Shares or under any coattail trust or similar agreement. Notwithstanding this, any take-over bid for solely the Super Voting Shares is unlikely given that by the terms of the investment agreement entered into by the Corporation and the Founders (as defined herein) in connection with the issuance to the Founders of the Super Voting Shares, upon any sale of Super Voting Shares to an unrelated third party purchaser, such Super Voting Shares will be redeemed by the Corporation for their issue price. See "Description of Share Capital of the Corporation" for further details.**

The directors, chief executive officer and chief financial officer of the Corporation reside outside of Canada and each has appointed Bennett Jones LLP, 3400 One First Canadian Place, Toronto, Ontario, M5X 1A4, as his or her agent for service of process in Canada. FGMK, LLC, the auditor in respect of the audited financial statements of Cresco Labs LLC, as at and for the years ended January 31, 2018 and 2017, is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction. Purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person or company that resides outside of Canada or is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction, even if the party has appointed an agent for service of process.

The Corporation's head office is located at 400 W Erie St. #110, Chicago, IL and registered office is located at Suite 2200, 1055 West Hastings Street, Vancouver, BC, V6E 2E9.

This Prospectus qualifies the distribution of securities of an entity that currently directly derives a substantial portion of its revenues from the cannabis industry in certain U.S. states, which industry is illegal under U.S. Federal Law. The Corporation is directly involved (through licensed subsidiaries) in both the adult-use and medical cannabis industry in the States of Illinois, Pennsylvania, Ohio, Nevada, Arizona and California, as permitted within such states under applicable state law which states have regulated such industries, and is in the process of acquiring businesses which would allow the Corporation to directly participate in the adult-use and medical cannabis industry in the States of New York, Massachusetts, Florida and Maryland, as permitted within such states under applicable state law and which states have regulated such industries.

The cultivation, sale and use of cannabis is illegal under federal law pursuant to the U.S. Controlled Substance Act of 1970 (the "CSA"). Under the CSA, the policies and regulations of the United States Federal Government and its agencies are that cannabis has no medical benefit and a range of activities including cultivation and the personal use of cannabis is prohibited. The Supremacy Clause of the United States Constitution establishes that the United States Constitution and federal laws made pursuant to it are paramount and in case of conflict between federal and state law, the federal law shall apply.

On January 4, 2018, former U.S. Attorney General Jeff Sessions issued a memorandum to U.S. district attorneys which rescinded previous guidance from the U.S. Department of Justice specific to cannabis enforcement in the United States, including the Cole Memo (as defined herein). With the Cole Memo rescinded, U.S. federal prosecutors have been given discretion in determining whether to prosecute cannabis related violations of U.S. federal law. If the Department of Justice policy was to aggressively pursue financiers or equity owners of cannabis-related business, and United States Attorneys followed such Department of Justice policies through pursuing prosecutions, then the Corporation could face (i) seizure of its cash and other assets used to support or derived from its cannabis subsidiaries, and (ii) the arrest of its employees, directors, officers, managers and investors, who could face charges of ancillary criminal violations of the CSA for aiding and abetting and conspiring to violate the CSA by virtue of providing financial support to state- licensed or permitted cultivators, processors, distributors, and/or retailers of cannabis. Additionally, as has recently been affirmed by U.S. Customs and Border Protection, employees, directors, officers, managers and investors of the Corporation who are not U.S. citizens face the risk of being barred from entry into the United States for life.

Unless and until the United States Congress amends the CSA with respect to medical and/or adult-use cannabis (and as to the timing or scope of any such potential amendments there can be no assurance), there is a significant risk that federal authorities may enforce current U.S. federal law. If the U.S. federal government begins to

enforce U.S. federal laws relating to cannabis in states where the sale and use of cannabis is currently legal, or if existing applicable state laws are repealed or curtailed, the Corporation's business, results of operations, financial condition and prospects would be materially adversely affected.

Despite the current state of the federal law and the CSA, the States of California, Nevada, Massachusetts, Maine, Michigan, Washington, Oregon, Colorado, Vermont and Alaska, and the District of Columbia, have legalized recreational use of cannabis. Maine and Michigan have not yet begun recreational cannabis commercial operations. In early 2018, Vermont became the first state to legalize recreational cannabis by passage in a state legislature, but does not allow commercial sales of recreational cannabis. Although the District of Columbia voters passed a ballot initiative in November 2014, no commercial recreational operations exist because of a prohibition on using funds for regulation within a federal appropriations amendment to local District spending powers.

In addition, over half of the U.S. states have enacted legislation to legalize and regulate the sale and use of medical cannabis, provided that there are strict limits on the levels of THC. However, there is no guarantee that state laws legalizing and regulating the sale and use of cannabis will not be repealed or overturned, or that local governmental authorities will not limit the applicability of state laws within their respective jurisdictions.

The Corporation's objective is to capitalize on the opportunities presented as a result of the changing regulatory environment governing the cannabis industry in the United States. Accordingly, there are a number of significant risks associated with the business of the Corporation. Unless and until the United States Congress amends the CSA with respect to medical and/or adult-use cannabis (and as to the timing or scope of any such potential amendments there can be no assurance), there is a significant risk that federal authorities may enforce current federal law, and the business of the Corporation may be deemed to be producing, cultivating, extracting, or dispensing cannabis or aiding or abetting or otherwise engaging in a conspiracy to commit such acts in violation of federal law in the United States.

For these reasons, the Corporation's investments in the United States cannabis market may subject the Corporation to heightened scrutiny by regulators, stock exchanges, clearing agencies and other Canadian authorities. There are a number of risks associated with the business of the Corporation. See the section entitled "Risk Factors" herein and within the AIF (as defined herein).

THE CORPORATION

Corporate Structure

The Corporation was incorporated in the Province of British Columbia under the *Business Corporations Act* (British Columbia) on July 6, 1990. On December 30, 1997, the Corporation changed its name from Randsburg Gold Corporation to Randsburg International Gold Corp. ("**Randsburg**"), and consolidated its outstanding common shares on a five (5) old for one (1) new basis. On November 30, 2018, in connection with the Business Combination, the Corporation (i) consolidated its outstanding Randsburg Common Shares on a 812.63 old for one (1) new basis by way of resolution of its board of directors (without any corporate filings being necessary), and (ii) filed an alteration to its Notice of Articles with the British Columbia Registrar of Companies to change its name from Randsburg International Gold Corp. to Cresco Labs Inc. and to amend the rights and restrictions of its existing class of common shares, redesignate such class as the class of Subordinate Voting Shares and create the Proportionate Voting Shares and the Super Voting Shares (collectively, the "**Share Terms Amendment**").

The Corporation's head office is located at 400 W Erie St #110, Chicago, IL 60654 and the Corporation's registered office is located at Suite 2200, 1055 West Hastings Street, Vancouver, BC V6E 2E9.

Pursuant to the Business Combination, among the Corporation (then Randsburg) and Cresco, a series of transactions were completed on November 30, 2018 resulting in a reorganization of Cresco and Randsburg and pursuant to which Randsburg became the indirect parent and sole voting unitholder of Cresco. The Business Combination constituted a reverse takeover of Randsburg by Cresco under applicable securities laws.

Cresco Labs LLC (the "**LLC**") was formed as a limited liability company under the laws of the state of Illinois on October 8, 2013 and is governed by the Cresco limited liability company agreement dated October 8, 2013, as amended and restated as of March 28, 2015 and as further amended and restated as of March 17, 2018 and as of July 1, 2018 (the "**Pre-Combination LLC Agreement**"). The Pre-Combination LLC Agreement was further amended and restated in connection with the completion of the Business Combination.

Set forth below is the condensed organization chart of the Corporation. The material subsidiaries of Cresco did not change in connection with the Business Combination.

Note: See "Description of Share Capital of the Corporation" herein, "Description of Share Capital of Cresco Corp." in the AIF and "Description of Unit Capital of Cresco" in the AIF for additional details as to the share and unit capital of the Corporation, Cresco U.S. Corp. ("Cresco Corp.") and the LLC, respectively.

Summary Description of the Business

Cresco exists to provide high-quality and consistent cannabis-based products to consumers. Cresco blends regulatory compliance expertise with best practices from the agricultural, pharmaceutical and consumer packaged goods industries. Cresco (either directly or indirectly through subsidiaries) has been awarded three licenses to cultivate and manufacture medicinal cannabis in the State of Illinois. Cresco was awarded a cultivation license in Pennsylvania and was one of only five cultivators that was initially also awarded a dispensary license which allows for up to three dispensaries, with a second license granted in December of 2018 for up to three additional dispensaries. Cresco was awarded a cultivation license in Ohio and a dispensary license in Ohio and was the first approved dispensary to begin dispensary operations in Ohio in December 2018. Most recently, Cresco received prequalification from the State of Michigan, which will allow Cresco to operate growing, processing and provisioning center facilities in Michigan. Cresco also has an interest in a cultivation, processing, and dispensary license in Nevada, an ownership interest in cultivation and processing licenses in California, and an owns and operates five dispensaries in Illinois. Additionally, Cresco has entered into an agreement to acquire a company involved in the cultivation and processing of medical cannabis as well as the establishment of four medical cannabis dispensaries in the State of New York (Refer to "General Development of the Business – Pipeline Transactions" in the AIF for further information), an agreement to acquire assets in Massachusetts, including state registration and licensing that will allow for cultivation, manufacturing, processing, and the establishment and operation of a medical marijuana dispensary, with the ability to obtain up to three medical marijuana dispensary licenses and three adult-use dispensary licenses.

Cresco plans to leverage the success in these markets to expand into legalized cannabis markets in other states, while focusing on compliance, control, efficiency, and product performance in the medicinal or adult-use cannabis industry.

Cresco owns and operates cultivation, manufacturing and retail dispensary businesses. The manufacturing and retail businesses are operational today and vertically integrated across six highly regulated and/or limited licensed, and

therefore limited legal supply markets: Illinois, Nevada, Ohio, Arizona, Pennsylvania and California, with processing operations in Maryland, and is expected to commence cultivation, manufacturing and retail dispensary operations in New York, Michigan and Massachusetts. These markets, where supply and demand can be reasonably predicted and forecasted, create the foundation upon which Cresco has created the opportunity for sustainable growth. Importantly, Cresco is not yet active in markets popularized by mainstream media like Washington, Oregon and Colorado where loose regulatory frameworks create unpredictable supply-demand market dynamics.

This ownership of wholesale and retail businesses supports Cresco's strategy of distributing brands at scale by enabling Cresco to capture market share, generate brand awareness, and earn customer loyalty in its operating markets. By guaranteeing share-of-shelf in its own retail stores and its ability to foster mutually beneficial relationships with its third-party dispensary customers as a large supplier of a portfolio of distinct and trusted cannabis brands. More detailed information regarding the business of the Corporation as well as its operations, assets, and properties can be found in the AIF and other documents incorporated by reference herein, as supplemented by the disclosure herein. See "Documents Incorporated by Reference" and "Additional Recent Developments".

ORIGIN HOUSE ACQUISITION

Acquisition

On April 1, 2019, the Corporation announced that it had entered into a definitive agreement with Origin House to acquire all of the issued and outstanding shares of Origin House (the "**Arrangement**"). Total consideration for the Arrangement is equal to approximately C\$1.1 billion on a fully-diluted basis, or C\$12.68 per Origin House share. After giving effect to the Arrangement, Origin House shareholders will hold approximately 20% ownership in the pro forma entity (on a pro forma fully-diluted and as converted basis). The Arrangement will be effected by way of a plan of arrangement under Section 182 of the *Business Corporations Act* (Ontario) (the "**OBCA**") and is based on an arrangement agreement between the companies. The Arrangement has been unanimously approved by the board of directors of the Corporation and Origin House.

In order for the Arrangement to be effective, the Arrangement needed to be approved by at least two-thirds (66⅔%) of the votes cast by shareholders of Origin House, voting together as a single class, present in person or represented by proxy at its special meeting of shareholders held on June 11, 2019 (the "**Meeting**"), and entitled to vote. In addition, the Arrangement needed to be approved by at least a simple majority of the votes cast by each class of shares of Origin House, voting separately as classes, present in person or represented by proxy at the Meeting and entitled to vote, excluding the votes of the persons whose votes may not be included under the minority approval requirements for a business combination under Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"). At the Meeting, the shareholders of Origin House overwhelmingly voted in favour of approving the Arrangement.

The Arrangement is also subject to certain other conditions, including the approval of the Ontario Superior Court of Justice (*Commercial List*), the CSE and certain other regulatory approvals. On June 11, 2019, Origin House and the Corporation announced that pursuant to the United States Hart-Scott-Rodino Antitrust Improvements Act of 1976 ("**HSR Act**"), as amended, both Origin House and the Corporation were required to file a notification to U.S. antitrust authorities and observe a waiting period before completing the Arrangement. On June 10, 2019, pursuant to the HSR Act, Origin House and the Corporation received a request for additional information (the "**Second Request**") from the United State Department of Justice Antitrust Division (the "**Department of Justice**"). The Second Request extends the HSR Act waiting period for up to 30 days after Origin House and the Corporation have each substantially complied with the Second Request, unless that period is extended voluntarily by the parties or terminated soon by the Department of Justice. Complete of the Arrangement remains subject to the expiration or termination of the HSR Act. It is expected that the Arrangement will be completed on or before October 31, 2019.

If the Arrangement received all necessary approvals, and all of the other conditions to closing of the Arrangement are satisfied or waived (where permitted), the Arrangement is expected to be implemented by way of a court-approved plan of arrangement under the OBCA. Pursuant to the Arrangement, holders of Origin House shares (including holders of restricted share units of Origin House) will ultimately receive 0.8428 of a Subordinate Voting Share for each Origin House common share held and 84.28 Subordinate Voting Shares for each Origin House compressed share held.

Pursuant to the Arrangement, at the time of closing, the following transactions, among others, will occur and will be deemed to occur sequentially in the following order:

- (a) each of the Origin House shares held by a dissenting Origin House shareholder in respect of which dissent rights have been validly exercised will be deemed to have been transferred without any further act or formality to Origin House in consideration for a debt claim against Origin House for the amount determined in accordance with the plan of arrangement;
- (b) each Origin House compressed share outstanding immediately prior to the time of closing (other than Origin House compressed shares held by a dissenting Origin House shareholder in respect of which dissent rights have been validly exercised pursuant to the plan of arrangement and any Origin House compressed shares held by Cresco or any affiliates thereof) will, without any further act or formality by or on behalf of any Origin House compressed shareholder, be deemed to be converted into 100 Origin House common shares;
- (c) each Origin House restricted share unit issued and outstanding immediately prior to the time of closing will, without any further act or formality by or on behalf of any Origin House restricted share unit holder, be deemed to be fully vested and will be transferred and disposed by the holder thereof to the Company and cancelled in exchange for one Origin House common share;
- (d) each Origin House common share outstanding immediately prior to the time of closing (other than Origin House common shares held by a dissenting Origin House shareholder in respect of which dissent rights have been validly exercised pursuant to the plan of arrangement and any Origin House shares held by Cresco or any affiliates thereof) and each Origin House common share issued to former Origin House compressed shareholders and former Origin House restricted share unit holders will, without any further action by or on behalf of any Origin House common shareholder, be deemed to be assigned and transferred by the holder thereof to Cresco in exchange for 0.8428 Subordinate Voting Shares;
- (e) each Origin House option outstanding at the time of closing (whether vested or unvested) will be exchanged for an option to acquire such number of Subordinate Voting Shares as is equal to: (i) that number of Origin House shares that were issuable upon exercise of such Origin House option immediately prior to the time of closing, multiplied by: (ii) 0.8428, rounded down to the nearest whole number of Subordinate Voting Shares, at an exercise price per Subordinate Voting Share equal to the greater of: (A) the quotient determined by dividing: (i) the exercise price per Origin House share at which such Origin House option was exercisable immediately prior to the time of closing; by (ii) 0.8428, rounded up to the nearest whole cent, and (B) such minimum amount that meets the requirements of paragraph 7(1.4)(c) of the Tax Act, and all terms and conditions of the Cresco options, including the term to expiry, vesting, conditions to and manner of exercising, will be the same as the Origin House option for which it was exchanged; and
- (f) the contingent shareholder share entitlements of Origin House will be deemed to be an entitlement to receive 0.8428 of a Subordinate Voting Share for each Origin House common share or 84.28 Subordinate Voting Shares for each Origin House compressed share, as applicable, that would be issued under the contingent shareholder share entitlement and the applicable contingent shareholder definitive agreement shall be deemed to be amended accordingly.

Contemporaneously at the time of closing, Marc Lustig will be appointed to the Cresco board of directors.

Overall, there is no assurance that the Arrangement will be consummated on the terms outlined above or at all. See "*Risk Factors*".

At each such meeting, holders of Subordinate Voting Shares will be entitled to one vote in respect of each Subordinate Voting Share held.

The Founders have entered into an investment agreement with the Corporation whereby, upon any sale of Super Voting Shares to a third party purchaser not listed above, such Super Voting Shares will immediately be redeemed by the Corporation for their issue price. See "*Super Voting Shares – Investment Agreement*" below.

Additionally, as noted above, the Corporation's articles entitle the holders of Subordinate Voting Shares to convert to Proportionate Voting Shares and tender to any take-over bid made solely to the holders of Proportionate Voting Shares.

Proportionate Voting Shares

Right to Vote Holders of Proportionate Voting Shares will be entitled to notice of and to attend at any meeting of the shareholders of the Corporation, except a meeting of which only holders of another particular class or series of shares of the Corporation will have the right to vote. At each such meeting, holders of Proportionate Voting Shares will be entitled to one vote in respect of each Subordinate Voting Share into which such Proportionate Voting Share could ultimately then be converted, which for greater certainty, shall initially be equal to 200 votes per Proportionate Voting Share (subject to adjustment at the discretion of the Board, depending upon the ratios necessary to preserve foreign private issuer status).

Class Rights As long as any Proportionate Voting Shares remain outstanding, the Corporation will not, without the consent of the holders of the Proportionate Voting Shares and Super Voting Shares by separate special resolution, prejudice or interfere with any right or special right

attached to the Proportionate Voting Shares. Consent of the holders of a majority of the outstanding Proportionate Voting Shares and Super Voting Shares shall be required for any action that authorizes or creates shares of any class having preferences superior to or on a parity with the Proportionate Voting Shares. In connection with the exercise of the voting rights for the foregoing only, each holder of Proportionate Voting Shares will have one vote in respect of each Proportionate Voting Share held.

Dividends	The holder of Proportionate Voting Shares shall have the right to receive dividends, out of any cash or other assets legally available therefor, <i>pari passu</i> (on an as converted basis, assuming conversion of all Proportionate Voting Shares into Subordinate Voting Shares) as to dividends and any declaration or payment of any dividend on the Subordinate Voting Shares. No dividend will be declared or paid on the Proportionate Voting Shares unless the Corporation simultaneously declares or pays, as applicable, equivalent dividends (on an as-converted to Subordinate Voting Share basis) on the Subordinate Voting Shares.
Participation	In the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of Proportionate Voting Shares will, subject to the prior rights of the holders of any shares of the Corporation ranking in priority to the Proportionate Voting Shares (including, without restriction, the Super Voting Shares), be entitled to participate rateably along with all other holders of Proportionate Voting Shares (on an as-converted to Subordinate Voting Share basis) and the Subordinate Voting Shares.
Changes	No subdivision or consolidation of the Proportionate Voting Shares shall occur unless, simultaneously, the Subordinate Voting Shares, the Proportionate Voting Shares and the Super Voting Shares are subdivided or consolidated in the same manner or such other adjustment is made so as to maintain and preserve the relative rights of the holders of the shares of each of the said classes.
Conversion	The Proportionate Voting Shares each have a restricted right to convert into 200 Subordinate Voting Shares (the " Conversion Ratio "), subject to adjustments for certain customary corporate changes and foreign private issuer considerations. The ability to convert the Proportionate Voting Shares is subject to a restriction that the aggregate number of Subordinate Voting Shares, Proportionate Voting Shares and Super Voting Shares held of record, directly or indirectly, by residents of the United States (as determined in accordance with Rules 3b-4 and 12g3-2(a) under the Securities Exchange Act of 1934, as amended), may not exceed forty percent (40%) (subject to adjustment) of the aggregate number of Subordinate Voting Shares, Proportionate Voting Shares and Super Voting Shares issued and outstanding after giving effect to such conversions and to a restriction on beneficial ownership of Subordinate Voting Shares exceeding certain levels. In addition, the Proportionate Voting Shares will be automatically converted into Subordinate Voting Shares in certain circumstances, including upon the registration of the Subordinate Voting Shares under the United States Securities Act of 1933, as amended.

Super Voting Shares

Right to Vote	Holders of Super Voting Shares shall be entitled to notice of and to attend at any meeting of the shareholders of the Corporation, except a meeting of which only holders of another particular class or series of shares of the Corporation shall have the right to vote. At each such meeting, holders of Super Voting Shares shall be entitled to 2,000 votes in respect of each Super Voting Share held <i>provided that</i> , if at any time the aggregate number of issued and outstanding (i) Cresco Corp Redeemable Shares in the capital of Cresco Corp (if applicable) and (ii) Cresco Redeemable Units in the capital of Cresco (or such securities of any successor to Cresco Corp or Cresco as may exist from time to time) beneficially owned, directly or indirectly by a holder of the Super Voting Shares (the " Holder ") and the
---------------	--

Holder's predecessor or transferor, permitted transferees and permitted successors, and any prior transferor's transferor and any prior permitted transferee's permitted transferee (the "**Holder's Group**"), divided by the aggregate number of (i) Cresco Corp Redeemable Shares (if applicable) and (ii) Cresco Redeemable Units beneficially owned, directly or indirectly by the Holders and the Holder's Group as at the date of completion of the business combination transaction involving, among others, the Corporation, Cresco Corp and Cresco be less than 50% (the "**Triggering Event**"), the Holder shall from that time forward be entitled to 50 votes in respect of each Super Voting Share held. The holders of Super Voting Shares shall, from time to time upon the request of the Corporation, provide to the Corporation evidence as to such holders' direct and indirect beneficial ownership (and that of its permitted transferees and permitted successors) of Cresco Corp. Redeemable Shares (if applicable) and Cresco Redeemable Units to enable the Corporation to determine the voting entitlement of the Super Voting Shares. For the purposes of these calculations, a Holder shall be deemed to beneficially own Cresco Corp Redeemable Shares (if applicable) held by an intermediate company or fund in proportion to their equity ownership of such company or fund.

Class Rights	As long as any Super Voting Shares remain outstanding, the Corporation will not, without the consent of the holders of the Super Voting Shares by separate special resolution, prejudice or interfere with any right or special right attached to the Super Voting Shares. Consent of the holders of a majority of the outstanding Super Voting Shares shall be required for any action that authorizes or creates shares of any class having preferences superior to or on a parity with the Super Voting Shares. In connection with the exercise of the these voting rights, each holder of Super Voting Shares will have one vote in respect of each Super Voting Share held.
Dividends	The holders of the Super Voting Shares shall not be entitled to receive dividends.
Participation	In the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs, the Corporation will distribute its assets firstly and in priority to the rights of holders of any other class of shares of the Corporation (including the holders of Subordinate Voting Shares and the Proportionate Voting Shares) to return the issue price of the Super Voting Shares to the holders, thereof and if there are insufficient assets to fully return the issue price to the holders of the Super Voting Shares, such holders will receive an amount equal to their pro rata share in proportion to the issue price of their Super Voting Shares along with all other holders of Super Voting Shares. The holders of Super Voting Shares shall not be entitled to receive directly or indirectly as holders of Super Voting Shares any other assets or property of the Corporation and their sole rights will be to the return of the issue price of such Super Voting Shares in accordance with this paragraph.
Changes	No subdivision or consolidation of the Super Voting Shares shall occur unless, simultaneously, the Super Voting Shares, Proportionate Voting Shares and the Subordinate Voting Shares are subdivided or consolidated in the same manner, so as to maintain and preserve the relative rights of the holders of the shares of each of the said classes.
Conversion	The holders of the Super Voting Shares shall have no right of conversion.
Redemption Rights	Upon the occurrence of a Triggering Event, the Corporation has the right to redeem all or some of the Super Voting Shares from the Holder and Holder's Group who caused the Triggering Event to occur, by providing two days prior written notice to the Holder and Holder's Group of such Super Voting Shares, for an amount equal to the issue price for each Super Voting Share, payable in cash to the holders of the Super Voting Shares so redeemed. The Corporation need not redeem Super Voting Shares on a pro-rata basis among the Holders or Holder's Group. Holders of Super Voting Shares to be redeemed by the

Corporation shall surrender the certificate or certificates representing such Super Voting Shares to the Corporation at its records office duly assigned or endorsed for transfer to the Corporation (or accompanied by duly executed share transfers relating thereto).

Transfer	No Super Voting Share may be transferred by the holder thereof unless such transfer is to an Immediate Family Member or a transfer for the purposes of estate or tax planning to a company or person that is wholly beneficially owned by such holder or immediate family members of such holder or which such holder or immediate family members of such holder are the sole beneficiaries thereof. In order to be effective, any transfer shall require the prior written consent of the Corporation.
Investment Agreement	To supplement the rights, privileges, restrictions and conditions attached to the Super Voting Shares, the Corporation and the Founders, being the initial holders of Super Voting Shares, entered into an investment agreement effective as of the completion of the Business Combination which, among other things, provides that (i) each Super Voting Share will be transferable only to the holder's immediate family members or an affiliated entity or a transfer to the other Founder or an entity affiliated with the other Founder, and (ii) upon any sale of Super Voting Shares to a third party purchaser not listed in clause (i), such Super Voting Shares will immediately be redeemed by the Corporation for their issue price.

SELLING SECURITYHOLDERS

This Prospectus may also, from time to time, relate to the offering of the Securities by way of a secondary offering (each, a "Secondary Offering") by certain Selling Securityholders.

The terms under which the Securities may be offered by Selling Securityholders will be described in the applicable Prospectus Supplement. The Prospectus Supplement for or including any offering of Securities by Selling Securityholders will include, without limitation, where applicable: (i) the names of the Selling Securityholders; (ii)

the number and type of Securities owned, controlled or directed by each Selling Securityholder; (iii) the number of Securities being distributed for the accounts of each Selling Securityholder; (iv) the number of Securities to be owned, controlled or directed by each Selling Securityholder after the distribution and the percentage that number or amount represents out of the total number of outstanding Securities; (v) whether the Securities are owned by the Selling Securityholders, both of record and beneficially, of record only or beneficially only; (vi) if a Selling Securityholder purchased any of the Securities held by him, her or it in the 12 months preceding the date of the Prospectus Supplement, the date or dates the Selling Securityholder acquired the Securities; and (vii) if a Selling Securityholder acquired the Securities held by him, her or it in the 12 months preceding the date of the Prospectus Supplement, the cost thereof to the Selling Securityholder in the aggregate and on a per security basis.

PLAN OF DISTRIBUTION

The Corporation may sell the Securities, separately or together: (i) to one or more underwriters or dealers; (ii) through one or more agents; or (iii) directly to one or more purchasers. The Prospectus Supplement relating to a particular offering of Securities will describe the terms of such offering of Securities, including: (i) the terms of the Securities to which the Prospectus Supplement relates, including the type of Security being offered, and the method of distribution; (ii) the name or names of any underwriters, dealers or agents involved in such offering of Securities; (iii) the purchase price of the Securities offered thereby and the proceeds to, and the expenses borne by, the Corporation from the sale of such Securities; (iv) any commission, underwriting discounts and other items constituting compensation payable to underwriters, dealers or agents; and (v) any discounts or concessions allowed or re-allowed or paid to underwriters, dealers or agents.

The Securities may be sold, from time to time, in one or more transactions at a fixed price or prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, including sales made directly on the CSE or other existing trading markets for the Securities, and as set forth in an accompanying Prospectus Supplement. The prices at which the Securities may be offered may vary as between purchasers and during the period of distribution. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a bona fide effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial public offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to the Corporation.

Only underwriters, dealers or agents so named in the Prospectus Supplement are deemed to be underwriters, dealers or agents in connection with the Securities offered thereby. If underwriters are used in an offering, the Securities offered thereby will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase Securities will be subject to the conditions precedent agreed upon by the parties and the underwriters will be obligated to purchase all Securities under that offering if any are purchased. If agents are used in an offering, unless otherwise indicated in the applicable Prospectus Supplement, such agents will be acting on a "best efforts" basis for the period of their appointment. Any public offering price and any discounts or concessions allowed or re-allowed or paid to underwriters, dealers or agents may be changed from time to time.

Underwriters, dealers and agents who participate in the distribution of Securities may be entitled under agreements to be entered into with the Corporation to indemnification by the Corporation against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Corporation in the ordinary course of business.

Any offering of Debt Securities, Subscription Receipts, Warrants or Units will be a new issue of securities with no established trading market. Unless otherwise specified in the applicable Prospectus Supplement, the Debt Securities, Subscription Receipts, Warrants or Units will not be listed on any securities exchange. Unless otherwise specified in the applicable Prospectus Supplement, there is no market through which the Debt Securities, Subscription Receipts,

Warrants or Units may be sold and purchasers may not be able to resell Debt Securities, Subscription Receipts, Warrants or Units purchased under this Prospectus or any Prospectus Supplement. This may affect the pricing of the Debt Securities, Subscription Receipts, Warrants or Units in the secondary market, the transparency and availability of trading prices, the liquidity of the Securities, and the extent of issuer regulation. Subject to applicable laws, certain dealers may make a market in these Securities, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that any dealer will make a market in these Securities or as to the liquidity of the trading market, if any, for these Securities.

In connection with any offering of the Securities, subject to applicable laws (unless otherwise specified in the relevant Prospectus Supplement), the underwriters or agents may over-allot or effect transactions that stabilize or maintain the market price of the offered Securities at a level above that which might otherwise prevail on the open market. UNITED STATES REGULATORY ENVIRONMENT

The emergence of the legal cannabis sector in the United States, both for medical and adult-use, has been rapid as more states adopt regulations for its production and sale. Today, 60% of Americans live in a state where cannabis is legal in some form and almost a quarter of the population lives in states where it is fully legalized for adult use.¹

The use of cannabis and cannabis derivatives to treat or alleviate the symptoms of a wide variety of chronic conditions has been generally accepted by a majority of citizens with a growing acceptance by the medical community as well. A review of the research, published in 2015 in the Journal of the American Medical Association, found strong evidence

that cannabis can treat pain and muscle spasms.² The pain component is particularly important because other studies have suggested that cannabis can replace pain patients' use of highly addictive, potentially deadly opiates — meaning marijuana legalization has the potential to save lives.³

Polls throughout the U.S. consistently show overwhelming support for the legalization of medical cannabis, together with strong majority support for the full legalization of recreational adult-use cannabis. It is estimated that 94% of the U.S. voters support legalizing cannabis for medical use.⁴ In addition, 64% of the U.S. public supports legalizing cannabis for adult recreational use.⁵ These represent large increases in public support over the past 40 years in favor of legal cannabis use.

Notwithstanding that more than half of the U.S. states have now legalized adult-use and/or medical marijuana, marijuana remains illegal under U.S. federal law with marijuana listed as a Schedule I drug under the United States Controlled Substances Act (the “CSA”). See “*Description of the Business*” and “*Risk Factors*” in the AIF for further information. The United States Department of Justice (“DOJ”) defines Schedule I drugs, substances or chemicals as “**drugs with no currently accepted medical use and a high potential for abuse.**” **The U.S. Food and Drug Administration (“FDA”) has not approved marijuana as a safe and effective drug for any indication.**

Unlike in Canada, which has federal legislation uniformly governing the cultivation, distribution, sale and possession of medical marijuana under the *Cannabis Act* (Canada), marijuana is largely regulated at the state level in the United States.

State laws regulating cannabis are in direct conflict with the CSA, which makes cannabis use and possession federally illegal in the United States. Although certain states and territories of the U.S. authorize medical or recreational cannabis production and distribution by licensed or registered entities, under U.S. federal law, the possession, use, cultivation, and transfer of cannabis and any related drug paraphernalia is illegal and any such acts are criminal acts under U.S. federal law under any and all circumstances under the CSA. Although Cresco's and its subsidiaries activities are compliant with applicable United States state and local law, strict compliance with state and local laws with respect to cannabis may neither absolve Cresco and its subsidiaries of liability under United States federal law, nor provide a defense to any U.S. federal proceeding that may be brought against Cresco or its subsidiaries.

The risk of U.S. federal enforcement and other risks associated with the Corporation's business are described in the “*Risk Factors*” section of the AIF.

Due to the support for legal access to marijuana at the state level, there has been rapid opportunity growth in the U.S. market. Sales of legal cannabis flower and cannabis-infused derivative and edible products totaled US\$6.1 billion in 2017, and are expected to reach US\$8.8 billion in 2018 with approximately 36% of sales for medical use and 64% for full adult use⁶. The U.S. market for direct legal cannabis sales alone is projected to grow to US\$17 billion by 2021⁷ and the total addressable market for direct legal cannabis sales in the U.S. today is estimated at US\$45-50 billion if every state legalized full adult recreational consumption.⁸ By 2030, the size of the U.S. cannabis market is projected to be approximately US\$63 billion.⁹ Going forward, the Corporation expects that the U.S. cannabis industry will continue to be subject to state legislation, with additional states regulating the medical and recreational use of cannabis.

The number of medical cannabis patients in states with existing comprehensive medical cannabis programs was approximately 1.5 million by the end of 2017, served by approximately 1500-2000 medical dispensaries nationwide, a disproportionate number of those in California. It is currently estimated that each patient spends about US\$2,000 annually,¹⁰ and that the total number of medical cannabis patients nationwide is expected to grow to 2.5 million by 2021.¹¹

Currently the Corporation operates in the States of Illinois, Pennsylvania, Ohio, California, Nevada, Arizona, and Maryland and with firm plans to expand into New York, Massachusetts, Florida and Michigan. It intends to expand into other states within the U.S. that have legalized cannabis use either medicinally or recreationally.

On December 20, 2018, the 2018 Farm Bill (the “**Farm Bill**”) became law in the United States. Under the Farm Bill, industrial and commercial hemp is no longer be classified as a Schedule I controlled substance in the United States. Hemp includes the plant *Cannabis sativa L* and any part of that plant, including seeds, derivatives, extracts, cannabinoids and isomers. To qualify under the Farm Bill, hemp must contain no more than 0.3 percent of delta-9-tetrahydrocannabinol (“THC”). The Farm Bill explicitly allows interstate commerce of hemp which will enable the transportation and shipment of hemp. In February 2019, the Corporation announced the formation of a new wellness

subsidiary, Well Beings, which will offer a full line of high-quality hemp-based CBD wellness products eligible for national distribution. The subsidiary, currently in early development stage, will have its own unique product line and produce CBD versions of Cresco Labs' house of branded products including Cresco, Remedi and Mindy's Edibles and provide the potential to expand its footprint to all 50 states and reach a new customer base outside of the licensed dispensary channel.

Illinois

The Compassionate Use of Medical Cannabis Pilot Program Act, which allows individuals diagnosed with a debilitating medical condition access to medical marijuana, became effective January 1, 2014 and is extended through July 1, 2020. There are over 41 qualifying conditions as part of the medical program, including epilepsy, traumatic brain injury, and post-traumatic stress disorder ("PTSD"). Illinois' retail market size for 2017 was over US\$86 million, representing an over 140% year-over-year increase. As of October 3, 2018, total retail sales were over US\$97 million representing an approximate 12% increase over 2017 retail sales (with 2 months remaining).¹² On August 28, 2018, the Alternatives to Opioids Act (Public Act 100-1114) was signed into law. The Alternative to Opioids Act significantly expands the Illinois' medical marijuana market by enabling patients to access medical marijuana in place of pharmaceutical opioid medications. The Illinois Department of Public Health reports that there were more than 5.3 million prescriptions for opioid-based painkillers filled last year. This paves the way for the single-largest expansion of the existing Illinois Medical Cannabis Pilot Program, which has about 42,000 authorized patients. Those patients have brought the state about US\$200 million in sales tax revenue since the program's inception in late 2015.¹³

The Opioid Alternative Pilot Program launched January 31, 2018 with registration open through the Illinois Department of Public Health. The pilot program is part of the Alternative to Opioids Act, which former Gov. Bruce Rauner signed into law in August 2018, with the aim of combating the opioid epidemic. The pilot program will allow patients that receive or are qualified to receive opioid prescriptions access to medical marijuana as an alternative to prescription opioid medications such as OxyContin, Percocet and Vicodin. Medical Cannabis Pilot Program patients with one of the 41 qualifying medical conditions designated by the state of Illinois, and a doctor recommendation can also receive a temporary medical cannabis card online and make immediate cannabis purchases without waiting for their permanent card to be processed. In January 2019, one of Cresco's Illinois dispensary locations launched its participation in this pilot program and made the first sale of medical cannabis thereunder.

In January 2019, JB Pritzker was sworn into office as Governor of Illinois. Cresco's CEO and co-founder, Charles Bachtell, has been appointed to the Cannabis Legalization Subcommittee of the governor's transition team. Cannabis Legalization is one of four subcommittees under the Governor's Restorative Justice and Safe Communities Transition Committee. The primary goals of the Cannabis Legalization Subcommittee are to evaluate and develop implementation recommendations for the Governor-elects platform on legalizing cannabis. As outlined during the Governor's campaign, these priorities include safely legalizing and decriminalizing cannabis, reviewing and commuting the sentences of people incarcerated for cannabis offenses in Illinois, as well as a focus on diversity and community outreach.

On June 25, 2019, Governor Pritzker signed into law the Cannabis Regulation and Tax Act, thereby legalizing the recreational use of cannabis. The establishment of a regulatory scheme and the grant of licenses to cultivate, distribute, and sell recreational cannabis in Illinois are in process. Currently, sales of recreational cannabis are expected to begin on or about January 1, 2020.

Pennsylvania

The Pennsylvania medical marijuana program was signed into law on April 17, 2016 under Act 16 and provided access to state residents with one of 17 qualifying conditions, including epilepsy, chronic pain, and PTSD. The state operates as a high-barrier market with very limited market participation. Retail sales opened in February 2018 to a limited number of retail locations across the state. Pennsylvania is the fifth-largest state in the country, home to nearly 13

million people. Pennsylvania's medical marijuana market is expected to become one of the biggest markets in the U.S.¹⁴

Ohio

House Bill 523, effective on September 8, 2016, legalized medical marijuana in Ohio. The Ohio Medical Marijuana Control Program allows people with certain medical conditions, upon the recommendation of an Ohio-licensed physician certified by the State Medical Board, to purchase and use medical marijuana. Ohio's medical cannabis sales are projected to be between US\$200 and US\$400 million once the system is fully matured.¹⁵ According to industry experts, Ohio could become a national "powerhouse" for the medical marijuana industry, largely because of its population — it's the seventh largest state — and because the broad list of conditions eligible for treatment with medical marijuana includes "pain."¹⁶

California

The California marijuana market is expected to be one of the fastest growing industries in California over the next five years. Market analysts forecast a stabilized market to occur after 2025 where the California marijuana market is estimated to be valued at approximately US\$10 billion.¹⁷ In 2016, California recorded approximately US\$850 million in medical marijuana retail sales from operated dispensaries state wide; however, it is estimated approximately 85% of total transactions are unrecorded for revenue and are carried out through illegal transactions. The University of California Agricultural Issues Center predicts the illegal market to shrink to less than 30%, legal adult-use sales to increase to approximately 62%, and legal medical sales to decrease from approximately 15% to less than 10% as patients are provided with an alternative to obtaining medical marijuana physician recommendations for a fee.¹⁸

Nevada

Nevada is one of the most dynamic markets anticipated for the full development of the recreational market. By certain estimates, the recreational market in Nevada is projected to have a cumulative average growth rate of 25%.¹⁹ With most of the state population and tourism located in Las Vegas, the opportunity in Las Vegas is strengthened by the fact that Las Vegas has a limited number of licenses and the city of Las Vegas has placed a priority for current license holders to be preferred in obtaining other non-operating retail licenses. The City of Las Vegas has historically seen nearly forty million tourists in a year, making it one of the most visited cities in the United States. Industry estimates put the overall cannabis market size in Las Vegas to be over US\$800 million per year.²⁰

Arizona

In 2010, Arizona passed Ballot Proposition 203, which amended Title 36 to the Arizona Revised Statutes ("ARS"). This amendment added Chapter 28.1, titled the Arizona Medical Marijuana Act (the "AMMA"). The AMMA also appointed the Arizona Department of Health Services (the "ADHS") as the regulator for the program and authorized ADHS to promulgate, adopt and enforce regulations for the AMMA. The ADHS has established the Arizona Department of Health Services Medical Marijuana Program ("**MMJ Program**"), which includes a vertically integrated license, meaning if allocated a Medical Marijuana Dispensary Registration Certificate ("**AZ Dispensary License**"), entities are authorized to dispense and cultivate medical cannabis. Arizona's medical marijuana market is one of the largest in the nation as well as one of the hottest. The amount of medical marijuana sold has more than

doubled from 5,012 pounds in August 2016 to 10,826 pounds in August 2018, according to the ADHS. The patient count during that period has surged from 105,076 to 178,257.²¹

New York

New York is one of the most promising medical cannabis markets that opened in 2016. The state population numbers near twenty million and New York City is among the most populous and visited cities in the U.S.²² The New York program, when initially implemented, allowed for only five fully vertically integrated licenses. The licenses allowed each license holder the opportunity to operate a cultivation facility, extraction and manufacturing, and four retail medical marijuana dispensaries. The State program was adjusted to increase the range of qualifying conditions which, as of the date hereof, includes chronic and severe pain. In August 2017, the State of New York also increased the number of licensed operators in the state to a total of ten. Each of the newly added licenses can carry out the same operations as the original license holders. The State has made progress towards the ability to increase the outreach to qualified patients through the ten licensed operators via the disbursement of retail locations across the state, the increase in range of qualifying conditions, and other various methods to support patient access. In July, the New York Department of Health filed emergency regulations to add any condition, for which an opioid could be prescribed, as a qualifying condition for medical marijuana. This legislation was signed into law on September 24, 2018. From July 10 to September 25, 2018, the number of certified patients in the system rose to 18%.²³

Massachusetts

In November 2015, Massachusetts, a medical cannabis market since January 2013, voted in favour of "Question 4", approving the legalization of adult use. Research firm Arcview Market Research projects that the Massachusetts market will grow to over US\$1 billion by 2020 at a compound annual growth rate of 113%. The Question 4 ballot initiative requiring the state legislature to authorize the adult use of cannabis in the state was approved by the Massachusetts electorate in November 2016. The first adult use dispensaries opened their doors on July 1, 2018. Located in the very populous North-Eastern region of the U.S., tourism is anticipated to be an important factor in driving market growth in a state that itself has a growing population of 6.8 million. The adjoining states represent an additional "tourist" market of 26 million, vastly exceeding the very successful industry in Colorado. The new legislation allows local control policy, allowing local government officials in towns that voted "no" on the 2016 ballot initiative to ban marijuana businesses until December 2019. For towns that voted "yes" in 2016, any bans must be placed on a local ballot for voters to approve. The maximum sales tax rate will increase from 12% to 20%. Under the bill, the state tax will be 17% and the local option will be 3%.

Maryland

Maryland adopted a comprehensive law legalizing medical cannabis in 2014. The Maryland program will result in a large medical marijuana market as a result of an expansive list of qualifying conditions, less restrictive provisions for obtaining cannabis certifications from doctors, and patient freedom to choose preferred methods of ingestions. The Maryland Medical Cannabis Commission began to sell through dispensaries on December 1, 2017. 14 growers, 12 processors and nine dispensaries have been licensed by the Maryland Medical Cannabis Commission, and on the day sales began, approximately 15,000 people had signed up to be prospective patients. Almost 550 healthcare providers have registered with Maryland to recommend Cannabis to their patients. Maryland has a population of over 6 million people.

Florida

In 2014, the Florida Legislature passed the Compassionate Use Act (the "CUA") which was a low-THC (CBD) law, allowing cannabis containing less than 0.8%THC to be sold to patients diagnosed with severe seizures or muscle spasms and cancer. The CUA created a competitive licensing structure and originally allowed for one vertically-

integrated license to be awarded per five regions of the State. The CUA set forth the criteria for applicants as well as the minimum qualifying criteria, which included the requirement to hold a nursery certificate for a minimum of 400,000 plants and to be a registered nursery for at least 30 continuous years. The CUA also created a state registry to track dispensations.

In 2016, the Florida Legislature passed the Right to Try Act (the "**RTA**"), which expanded the State's medical cannabis program to allow for full potency THC products to be sold as "medical cannabis" to patients with a terminal condition that had been diagnosed by two physicians.

In November of 2016, the Florida Medical Marijuana Legalization ballot initiative (the "**Initiative**") to expand the medical cannabis program under the RTA was approved by 71.3% of voters, thereby amending the Florida constitution. The Initiative is now Article X, Section 29 of the Florida Constitution. The Initiative added 10 medical conditions to the list of conditions for which the use of medical cannabis is permitted in Florida. The Initiative also provided for the implementation of state-issued medical cannabis identification cards.

In 2017, the Florida Legislature passed legislation implementing the constitutional amendment and codifying the changes set forth in the constitution. The 2017 law provides for another four licenses to be issued for every 100,000 active qualified patients added to the registry and initially limited license holders to a maximum of 25 dispensary locations with the ability to purchase additional dispensary locations from one another and for an additional five locations to be allowed by the State for every 100,000 active qualified patients added to the registry. The 2017 legislation's cap on dispensing facilities expires on April 1, 2020.

Founder Voting Control

As a result of the Super Voting Shares, Charlie Bachtell, Joe Caltabiano, Robert Sampson, Dominic Sergi and Brian McCormack (the “**Founders**”) exercise approximately 77.3% of the voting power in respect of the Corporation's outstanding shares. The Subordinate Voting Shares are entitled to 1 vote per share, the Proportionate Voting Shares are entitled to 200 votes per share (subject to adjustment in accordance with the terms thereof) and the Super Voting Shares are entitled to 2,000 votes per share. As a result, the Founders (and any three of the Founders for certain actions not requiring a 2/3 majority) potentially have the ability to control the outcome of matters submitted to the Corporation's shareholders for approval, including the election and removal of directors and any arrangement or sale of all or substantially all of the assets of the Corporation. If the Founders' employment with the Corporation is terminated, or they resign from their positions with the Corporation, they will continue to have the ability to exercise the same significant voting power. Additionally, each Super Voting Share, may be so transferred to the holder's immediate family members, or in connection with estate or tax planning matters.

In addition, because the number of Super Voting Shares held by a holder thereof from time to time is dependent upon the number of Cresco Redeemable Units (and Cresco Corp Redeemable Shares, if and when issued) beneficially owned, directly or indirectly, or deemed to be so beneficially owned by such holder from time to time, should the Corporation cause Cresco to issue additional Cresco Redeemable Units or Cresco Redeemable Units in the future to a Founder in connection with employee equity incentive programs, it would prolong the Founder's voting control.

To supplement the rights, privileges, restrictions and conditions attached to the Super Voting Shares, the Corporation and the Founders, being the initial holders of Super Voting Shares, entered into an investment agreement effective as of the completion of the Business Combination which, among other things, provides that (i) each Super Voting Share will be transferable only to the holder's immediate family members or an affiliated entity or a transfer to the other Founder or an entity affiliated with the other Founder, and (ii) upon any sale of Super Voting Shares to a third party purchaser not listed in clause (i), such Super Voting Shares will immediately be redeemed by the Corporation for their issue price.

The concentrated control through the Super Voting Shares could delay, defer, or prevent a change of control of the Corporation, arrangement involving the Corporation or sale of all or substantially all of the assets of the Corporation that it's other shareholders support. Conversely, this concentrated control could allow the Founders to consummate such a transaction that the Corporation's other shareholders do not support. In addition, the Founders may make long-term strategic investment decisions and take risks that may not be successful and may seriously harm the Corporation's business.

As directors and officers of the Corporation, the Founders have control over the day-to-day management and the implementation of major strategic decisions of the Corporation, subject to authorization and oversight by the Corporation Board. As board members and officers, the Founders owe a fiduciary duty to the Corporation's shareholders and are obligated to act honestly and in good faith with a view to the best interests of the Corporation. As shareholders, even controlling shareholders, the Founders are entitled to vote their shares, and shares over which they have voting control, in their own interests, which may not always be in the interests of the Corporation or the other shareholders of the Corporation.

Unpredictability Caused by the Capital Structure and Founder Voting Control

Although other Canadian-based companies have dual class or multiple voting share structures, given the concentration of voting control that is held by the Founders and given the other unique features of the capital structure of the Corporation, including the existence of a significant amount of redeemable equity securities that have been issued by, and are issuable pursuant to the exercise, conversion or exchange of the applicable convertible securities of, Cresco Labs, LLC, which equity securities are redeemable from time to time for Proportionate Voting Shares, in accordance with their terms, the Corporation is not able to predict whether this structure and control will result in a lower trading

price for or greater fluctuations in the trading price of the Subordinate Voting Shares or will result in adverse publicity to the Corporation or other adverse consequences.

Additional Issuance of Subordinate Voting Shares and Subsidiary Securities May Result in Dilution

The Corporation may issue additional securities in the future, which may dilute a shareholder's holdings in the Corporation. The Corporation's articles permit the issuance of an unlimited number of Subordinate Voting Shares, and existing shareholders will have no pre-emptive rights in connection with such further issuance. The Corporation's Board has discretion to determine the price and the terms of further issuances. Moreover, additional Subordinate Voting Shares will be issued by the Corporation on the conversion of the Proportionate Voting Shares in accordance with their terms. The Corporation may also issue Subordinate Voting Shares to finance future acquisitions. The Corporation cannot predict the size of future issuances of Subordinate Voting Shares or the effect that future issuances and sales of Subordinate Voting Shares will have on the market price of the Subordinate Voting Shares. Issuances of a substantial number of additional Subordinate Voting Shares, or the perception that such issuances could occur, may adversely affect prevailing market prices for the Subordinate Voting Shares. With any additional issuance of Subordinate Voting Shares, investors will suffer dilution to their voting power and the Corporation may experience dilution in its revenue per share.

Additionally, the subsidiaries of the Corporation, such as Cresco U.S. Corp. and Cresco Labs, LLC, may issue additional securities, including Cresco Corp Redeemable Shares, Cresco Redeemable Units and LTIP Units to new or existing shareholders, members or securityholders, including in exchange for services performed or to be performed on behalf of such entities or to finance future acquisitions. Any such issuances could result in substantial dilution to the indirect equity interest of the holders of Subordinate Voting Shares in Cresco Labs, LLC.

Additional Financing

The Corporation expects to require substantial additional capital in the near future to fund its acquisition strategy and to continue operations at its cultivation and production facilities, dispensaries, expansion of its product lines, development of its intellectual property base, increasing production capabilities and expanding its operations in states where it currently operates and states where it currently does not have operations. The Corporation may not be able to obtain additional financing on terms acceptable to it, or at all. If the Corporation fail to raise additional capital, as needed, its ability to implement its business model and strategy could be compromised.

Even if the Corporation obtains financing for its near-term operations, it expects that it will require additional capital thereafter. The capital needs of the Corporation will depend on numerous factors including: (i) profitability; (ii) the release of competitive products by competitors; (iii) the level of investment in research and development; and (iv) the amount of our capital expenditures, including acquisitions. There can be no assurance that the Corporation will be able to obtain capital in the future to meet its needs.

The Corporation is continually assessing a range of public and private financing options, including secured and unsecured debt, equity, convertible debt and real estate sale/leaseback transaction. Although the Corporation has accessed private financing in the past, there is neither a broad nor deep pool of institutional capital that is available to companies in the U.S. cannabis industry. There can be no assurance that additional financing, if raised privately, will be available to the Corporation when needed or on terms which are acceptable.

Volatile Market Price of the Subordinate Voting Shares and Other Listed Securities

The market price of the Subordinate Voting Shares and other listed securities of the Corporation from time to time, cannot be predicted and has been and may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond the Corporation's control. This volatility may affect the ability of holders of Subordinate Voting Shares or such other securities to sell their securities at an advantageous price. Market price fluctuations in the Subordinate Voting Shares or such other securities may be due to the Corporation's operating results failing to meet expectations of securities analysts or investors in any period, downward revision in securities analysts' estimates, adverse changes in general market conditions or competitive, regulatory or economic trends, adverse changes in the economic performance or market valuations of companies in the industry in which the Corporation operates, acquisitions, dispositions, strategic partnerships, joint ventures, capital commitments or other material public

announcements by the Corporation or its competitors or government and regulatory authorities, operating and share price performance of the companies that investors deem comparable to the Corporation, addition or departure of the Corporation's executive officers and other key personnel, along with a variety of additional factors. These broad market fluctuations may adversely affect the market price of the Subordinate Voting Shares or such other securities.

Financial markets have at times historically experienced significant price and volume fluctuations that have particularly affected the market prices of equity and convertible securities of companies and that have often been unrelated to the operating performance, underlying asset values or prospects of such companies. Accordingly, the market price of the Subordinate Voting Shares and other listed securities of the Corporation, from time to time, may decline even if the Corporation's operating results, underlying asset values or prospects have not changed. Additionally, these factors, as well as other related factors, may cause decreases in asset values that are deemed to be other than temporary, which may result in impairment losses. There can be no assurance that continuing fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil continue or arise, the Corporation's operations may be adversely impacted and the trading price of the Subordinate Voting Shares and such other securities may be materially adversely affected.

Outstanding Securities are Restricted from Immediate Resale by May be Sold in the Near Future

Certain unitholders of Cresco and shareholders of the Corporation agreed in connection with the SR Offering not to sell their securities of Cresco or the Corporation (including Subordinate Voting Shares), for a period of 180 days from December 3, 2018, unless one of the following occurs: (i) the consent of the joint bookrunners in respect of the SR Offering, such consent not to be unreasonably withheld or delayed; (ii) take-over bid or similar transaction involving a change of control of the Corporation, Cresco, Cresco Corp or any of its subsidiaries; or (iii) transfers to affiliates for tax or similar planning purposes, provided that the transferee(s) sign a similar lock-up agreement. The sale of a substantial number of such securities, or the perception in the market that holders of a large number of securities intend to sell securities, could reduce the market price of the Subordinate Voting Shares and could impair the Corporation's ability to raise capital through the sale of additional equity securities. The effect of any such sales on the prevailing market price of the Subordinate Voting Shares is not predictable. See "*Securities Subject to Contractual Restriction on Transfer*" for further details.

Negative Cash Flow from Operating Activities

The Corporation has incurred operating losses in recent periods. The Corporation may not be able to achieve or maintain profitability and may continue to incur significant losses in the future. In addition, the Corporation expects to continue to increase operating expenses as it implements initiatives to continue to grow its business. If the Corporation's revenues do not increase to offset its costs and operating expenses or if the Corporation is unable to raise financing to fund capital or operating expenditures or acquisitions, it could limit its growth and may have a material adverse effect upon the Corporation's business, financial condition, cash flows, results of operations or prospects.

Risks Associated with the Business of the Corporation

U.S. Federal Regulation

The Corporation could be found to be violating laws related to medical cannabis.

Currently, there are 33 states plus the District of Columbia, Puerto Rico and Guam that have laws and/or regulations that recognize, in one form or another, legitimate medical uses for cannabis and consumer use of cannabis in connection with medical treatment. Other states are considering similar legislation. Conversely, under the CSA, the policies and regulations of the federal government and its agencies are that cannabis has no proven medical benefit and a range of activities including cultivation and the personal use of cannabis is prohibited. Unless and until Congress amends the CSA with respect to medical cannabis, as to the timing or scope of any such amendments there can be no assurance, there is a risk that federal authorities may enforce current U.S. federal law. The risk of strict enforcement of the CSA in light of Congressional activity, judicial holdings, and stated federal policy remains uncertain. This would cause a direct and adverse effect on the Corporation's subsidiaries' businesses, or intended businesses, and on its revenue and prospective profits.

Marijuana is a Schedule-I controlled substance and is illegal under U.S. federal law. Even in those States in which the use of marijuana has been legalized, its use remains a violation of U.S. federal law. Since U.S. federal law criminalizing the use of marijuana pre-empts State laws that legalize its use, strict enforcement of U.S. federal law regarding marijuana would likely result in the Corporation's inability to proceed with its business plan.

Laws and regulations affecting the medical marijuana industry are constantly changing, which could detrimentally affect the proposed operations of the Corporation.

Local, state, and U.S. federal medical marijuana laws and regulations are broad in scope and subject to evolving interpretations, which could require the Corporation to incur substantial costs associated with compliance or alter certain aspects of its business plan. In addition, violations of these laws, or allegations of such violations, could disrupt certain aspects of the Corporation's business plan and result in a material adverse effect on certain aspects of its planned operations. In addition, it is possible that regulations may be enacted in the future that will be directly applicable to certain aspects of the Corporation's business. No prediction can be made as to the nature of any future laws, regulations, interpretations or applications, nor can it be determined what effect additional governmental regulations or administrative policies and procedures, when and if promulgated, could have on our business.

Notwithstanding the permissive regulatory environment of medical marijuana at the state level, marijuana continues to be categorized as a controlled substance under the CSA. Under the CSA, the policies and regulations of the U.S. federal government and its agencies are that cannabis has no "**proven**" medical benefits. Unless and until Congress amends the CSA with respect to medical marijuana, as to the timing or scope of any such potential amendments there can be no assurance, there is a risk that U.S. federal authorities may enforce current U.S. federal law, and we may be deemed to be producing, cultivating, or dispensing marijuana in violation of U.S. federal law with respect to the Corporation's current or proposed business operations, or the Corporation may be deemed to be facilitating the sale or distribution of drug paraphernalia in violation of U.S. federal law. A change in the U.S. federal government's approach to begin more active enforcement of cannabis may adversely affect our revenues and profits. The risk of strict enforcement of the CSA in light of Congressional activity, judicial holdings, and stated U.S. federal policy remains uncertain.

Risk of U.S. Federal Law Proceedings Against the Corporation

Potential proceedings under U.S. federal law could involve significant restrictions being imposed upon the Corporation or third parties, while diverting the attention of key executives. Such proceedings could have a material adverse effect on the Corporation's business, revenues, operating results and financial condition as well as the Corporation's reputation, even if such proceedings were concluded successfully in favour of the Corporation. In the extreme case, such proceedings could ultimately involve the prosecution of key executives of the Corporation or the seizure of corporate assets. However, as of the date hereof, the Corporation has obtained legal advice in respect thereof that proceedings of this nature have historically been sufficiently uncommon to be characterized as remote absent a shift by federal authorities to a more aggressive enforcement approach. The Corporation has also received advice from its legal counsel regarding the potential exposure and implications arising from U.S. federal law generally. As the legal landscape at both the U.S. federal level and the state level is evolving, all such legal advice is historical in nature, and is only effective up to the date such advice was received.

Following the issuance of the Sessions Memo and the Barr Comments, the Corporation continues to look to the guidelines of the Cole Memo as an industry best practice and continues to do the following to ensure compliance with the Cole Memo:

- ensuring the operations of its subsidiaries are compliant with all licensing requirements that are set forth with regards to cannabis operation by the applicable state, county, municipality, town, township, borough, and other political/administrative divisions. To this end, the Corporation retains appropriately experienced legal counsel and other professionals to conduct the necessary due diligence to ensure compliance of such operations with all applicable;
- the activities relating to the cannabis business adhere to the scope of the licensing obtained. Accordingly, in the states where only medical cannabis is permitted, the products are only sold to patients who hold the necessary documentation to permit the possession of the cannabis; and in the states where cannabis

is permitted for adult recreational use, the products are only sold to individuals who meet the requisite age requirements;

- the Corporation only works through licensed operators, which must pass a range of requirements, adhere to strict business practice standards and be subjected to strict regulatory oversight whereby sufficient checks and balances ensure that no revenue is distributed to criminal enterprises, gangs and cartels; and
- the Corporation conducts reviews of products and product packaging to ensure that the products comply with applicable regulations and contain necessary disclaimers about the contents of the products to prevent adverse public health consequences from cannabis use and prevent impaired driving.

The Corporation will continue to monitor compliance on an ongoing basis in accordance with its compliance program and standard operating procedures. While the Corporation's operations are in full compliance with all applicable state laws, regulations and licensing requirements, such activities remain illegal under U.S. federal law. For the reasons described above and the risks further described below, there are significant risks associated with the business of the Corporation.

Risks Associated with the Arrangement

The Corporation Could Fail to Complete the Arrangement or the Arrangement May Be Completed On Different Terms

There can be no assurance that the Arrangement will be completed, or if completed, that it will be completed on the same or similar terms to those set out in the arrangement agreement. The completion of the Arrangement is subject to the satisfaction of a number of conditions which include, among others: (i) obtaining necessary approvals; and (ii) performance by the Corporation and Origin House of their respective obligations and covenants in the arrangement agreement.

In addition, if the Arrangement is not completed, the ongoing business of the Corporation may be adversely affected as a result of the costs (including opportunity costs) incurred in respect of pursuing the Arrangement, and the Corporation could experience negative reactions from the financial markets, which could cause a decrease in the market price of the Corporation's securities, particularly if the market price reflects market assumptions that the Arrangement will be completed or completed on certain terms. The Corporation may also experience negative reactions from its customers and employees and there could be a negative impact on the Corporation's ability to attract future acquisition opportunities. Failure to complete the Arrangement or a change in the terms of the Arrangement could each have a material adverse effect on the Corporation's business, financial condition and results of operations.

Regulatory Approvals May Have Material Adverse Effects on the Arrangement, the Corporation and/or Origin House

The Arrangement is conditional upon, among other things, the receipt of certain regulatory approvals. A substantial delay in obtaining satisfactory approvals or the imposition of unfavourable terms, covenants or conditions on such approvals, could have a material adverse effect on each of Origin House and the Corporation's ability to complete the Arrangement and on their business, financial condition, operations, assets or future prospects. Delays in receiving the regulatory approvals may substantially hinder and delay the consummation of the Arrangement and give rise to Origin House and the Corporation's right to terminate the arrangement agreement. More specifically, in order to obtain the regulatory approvals, it may be necessary for Origin House and/or the Corporation to provide certain other covenants or agreements to the regulatory authorities and there can be no assurance as to which such covenants or agreements that may be required.

Anticipated Benefits May Not Occur

The combined company may fail to realize growth opportunities and synergies currently anticipated due to, among other things, challenges associated with integrating the operations and personnel of the Corporation and Origin House and the ability of the combined company to attract capital.

Risks Associated with the Corporation's Acquisition Strategy

The Corporation Could Fail to Complete its Proposed or Contemplated Acquisitions or They May Be Completed On Different Terms

There can be no assurances that any of the Corporation's proposed or contemplated acquisitions will be completed or that they will be completed on the same or similar terms currently contemplated by the Corporation. In addition, if the proposed or contemplated acquisitions are not completed, the ongoing business of the Corporation may be adversely affected as a result of the costs (including opportunity costs) incurred in respect of pursuing potential acquisitions. Failure to complete the Corporation's proposed or contemplated acquisitions could have a material adverse effect on the Corporation's business, financial condition and results of operations.

Anticipated Benefits of Acquisition Strategy May Not Occur

The Corporation's acquisition strategy may result in the Corporation failing to realize the growth opportunities and synergies currently anticipated due to, among other things, challenges associated with integrating the operations and personnel of the Corporation with potential acquisition targets and the ability of the combined company to attract capital.

UNDERTAKING

As a condition to the issuance of a receipt of the British Columbia Securities Commission, as principal regulator of the Corporation, for the (final) short form base shelf prospectus (the "**Final Prospectus**"), the Corporation will file with the applicable securities commissions or similar regulatory authorities in Canada an undertaking that it shall file with the applicable securities commissions or similar regulatory authorities in Canada, during the currency of the Final Prospectus and so long as the certifications therein are able to be made, at least every 90 days after the date of such receipt for the Final Prospectus a certificate certifying among other things the following matters and that it shall not

distribute any securities under the Final Prospectus if such a certificate has not been so filed on or after the day that is 90 days prior to the date of the applicable Prospectus Supplement. Each such periodic certificate shall certify among other things that since the date of the Final Prospectus or the last such certificate, as applicable: (i) no material adverse changes have occurred to the United States federal laws and regulations respecting cannabis nor to the existing published statements of the United States federal government or any agency thereof regarding the approach to the enforcement of United States federal laws and regulations respecting cannabis which would reasonably be expected to result in a material adverse change in the business, operations or affairs of the Corporation; and (ii) the Corporation has not been made aware and does not have any knowledge of any enforcement of United States federal laws and regulations respecting cannabis in the states where the Corporation has cannabis operations that is inconsistent with existing published statements of the United States federal government and its agencies regarding the approach to the enforcement of United States federal laws and regulations respecting cannabis which would reasonably be expected to result in a material adverse change in the business, operations or affairs of the Corporation.

PURCHASERS' STATUTORY RIGHTS

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revision of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

Original purchasers of Securities that are convertible, exchangeable or exercisable for other securities of the Corporation will have a contractual right of rescission against the Corporation in respect of the conversion, exchange or exercise of such Securities. The contractual right of rescission will be further described in any applicable Prospectus Supplement, but will, in general, entitle such original purchasers to receive, upon surrender of the underlying securities, the amount paid for the applicable convertible, exchangeable or exercisable Securities in the event that this Prospectus, the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement.

In an offering of Debt Securities, Subscription Receipts, Warrants and Units which are convertible, exchangeable or exercisable for other securities of the Corporation, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in this Prospectus, the relevant Prospectus Supplement or an amendment thereto is limited, in certain provincial and territorial securities legislation, to the price at which the Debt Securities, Subscription Receipts, Warrants and Units which are convertible, exchangeable or exercisable for other securities of the Corporation are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces and territories, if the purchaser pays additional amounts upon conversion, exchange or exercise of the Security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces and territories. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of this right of action for damages, or consult with a legal adviser.

4. Estimated Preliminary Purchase Price Allocation (Continued)

Biological assets are measured at fair value less cost to sell while investments are measured at fair value through profit and loss. Inventory is measured at the lower of cost and fair value less cost to sell. As such, the carrying value of these assets is an approximation of the fair value at the balance sheet date. Purchase consideration payable and convertible debt are measured at fair value on initial recognition and subsequently measured at amortized cost accreting to the face value. Contingent consideration is measured at fair value through profit and loss.

The fair value of cash and cash equivalents, accounts receivable, other current assets, other non-current assets, other deposits, security deposits, accounts payable, loans and advances, other liabilities, convertible debt, notes payable, due to related parties, and non-current liabilities was presumed by management to materially approximate their respective carrying book values as of March 31, 2019, in order to prepare the unaudited pro forma consolidated financial data.

There has been no determination as to the fair value of property and equipment and intangible assets to be acquired on the unaudited pro forma consolidated statement of financial position of the Company based on information received to date. As such, the historical carrying value has been used in the preliminary purchase price allocation reflected in the unaudited pro forma consolidated statement of financial position. This assertion remains contingent upon receiving additional information and performing procedures to calculate the fair value of property and equipment and intangible assets. No adjustment was made to the unaudited pro forma consolidated statements of loss, but any difference between the fair value and the historical carrying value would have a direct impact to future net loss through an increase or a decrease in depreciation or amortization expense depending on whether a fair value gain or loss is determined.

The pro forma purchase price is subject to change based on the finalization of purchase price adjustments and completion of management's assessment of the fair values of the assets and liabilities acquired. Due to the timing of the announcements of the Acquisitions, the Company has not yet obtained sufficient information to accurately determine the fair market value of Acquired Companies net assets by category and has therefore allocated the March 31, 2019 book values of the net assets acquired as a proxy of fair value. Goodwill represents the amount by which the purchase price exceeds the book value, being a proxy of fair value of the assets acquired and liabilities assumed. The final calculation and allocation of the purchase price will be based on the net assets purchased as of the closing date of the Acquisition and other information available at that time. There may be material differences from this pro forma purchase price allocation as a result of finalizing the valuation. Based on management's preliminary estimates, the goodwill may be allocated to other items such as certain identified intangible assets.

In accordance with IFRS 3, equity securities issued as the consideration transferred will be measured on the closing date of the Acquisition at fair value reflecting the then-current market price. Accordingly, it is reasonable to expect that the Company share price on closing of the Acquisitions may differ from the common share price used in these pro forma financial statements. A change in the Company share price of 10% will result in an increase or decrease to the estimate of purchase consideration totaling approximately \$120.0M with a corresponding increase or decrease to goodwill.

5. Pro Forma Adjustments

The following adjustments and assumptions have been reflected in the unaudited pro forma Consolidated Financial Statements:

a) Cash and cash equivalents:

The pro forma net adjustment of \$(143.9M) consists of the following:

- Increase in cash of \$102.6M for concurrent financing and a corresponding increase in share capital for the same amount representing expected net proceeds following the issuance of 12,624,054 Subordinate Voting Shares of the Company. Net cash proceeds include agent commissions of \$9.6M which have been allocated against share capital as the transaction costs directly relate to the issuance of equity instruments.
- Decrease in cash of \$46.9M for cash consideration paid on acquisition of NY (Note 4)
- Decrease in cash of \$36.1M for cash consideration paid on acquisition of HHH (Note 4)
- Decrease in cash of \$136.8M for cash consideration paid on acquisition of VidaCann (Note 4)
- Decrease in cash of \$33.4M for transaction costs relating to the acquisitions which includes \$26.7M for Origin House, \$3.5M for NY, \$3.2M for VidaCann.

b) Intangibles and goodwill:

The pro forma adjustment reflects the preliminary estimate of intangibles and goodwill, which represents the excess of the purchase price over the fair value of Acquisitions' identifiable assets acquired and liabilities assumed as shown in Note 4.

c) Warrant liability:

The pro forma adjustment reflects the estimated fair value of warrants issued as consideration on NY acquisition (Note 4).

d) Non-Current Liabilities

The pro forma net adjustment of \$5.1M for 180 Smoke (a wholly owned subsidiary of Origin House) contingent consideration, payment for which accelerates upon a change of control and is therefore not assumed by the Company upon acquisition of Origin House.

The pro forma adjustment reflects the estimated fair value of warrants issued as consideration on NY acquisition (Note 4).

e) Capital stock

The pro forma net adjustment of \$1.07B consists of the following:

- A reduction of \$232.1M to eliminate, Origin House, NY, HHH, and VidaCann's share capital.
- An increase of \$102.6M for concurrent financing representing expected net proceeds following the issuance of 12,624,054 Subordinate Voting Shares of the Company (Note 5(a)).
- An increase of \$1.1B for share consideration paid by the Company on acquisition of Origin House (Note 4, Note 6)
- An increase of \$67.5M for share consideration paid by the Company on acquisition of NY (Note 4, Note 6)
- An increase of \$26.7M for share consideration paid by the Company on acquisition of VidaCann (Note 4, Note 6)

f) Share subscription and contingent shares:

The pro forma adjustment \$35.1M reflects the elimination of Origin House Share subscription and contingent shares. Unissued subscription and contingent shares are fair valued and are classified as contingent consideration in liabilities on acquisition (Note 5(e)).

g) Reserves

The pro forma adjustment reflects the elimination of Origin House warrant reserve.

h) Contributed surplus:

The pro forma net adjustment of \$3.5M consists of elimination of Origin House contributed surplus of \$12.3M and \$8.8M increase for issuance by the Company of 782,961 Replacement Options on acquisition of Origin House.

In accordance with the Transaction Agreement, the consideration for the Origin House acquisition includes all of Origin House's outstanding options and will be exchanged for Replacement Options exercisable at the same exercise price for the Company options. The 782,961 Replacement Options have been revalued at \$9.3M. The Black-Scholes option pricing model was used to determine the fair value of Replacement Options as of the date of the Transaction Agreement. The share-based compensation expense is expected to have continuing impact on income.

i) Accumulated other comprehensive income (loss)

An adjustment of \$2.6M to eliminate Origin House.

j) Accumulated Deficit

Origin House	\$ 21,242,010

Where an adjustment has required conversion from foreign currency to CAD the applicable historical exchange rate as published by the Bank of Canada website has been used.
