**Goldrea Resources Corp.** (“Goldrea” or the “Company”) announces that it has acquired an undivided 100% interest in a mineral tenure in northern British Columbia. The Link Property consists of one map-designated claim cell covering 70.9 hectares, and is located approximately one kilometer from the west side of the Company’s Cannonball Property. Consideration for the Link Property consists of 100,000 common shares in the capital of the Company, subject to a four-month hold period.

Jim Elbert, President and CEO states, “The Link Property is a relatively small but strategic acquisition, which illustrates Goldrea’s continued interest of increasing our footprint in what we believe to be the Company’s premier location in the prolific Golden Triangle of BC. As the drilling season approaches, our expanding interests remain in proximity to our flagship Cannonball Property and the Adrian. It is an exciting time of growth in Goldrea Resources’ history, and our team’s anticipation runs high, backed by the excellent results in our gold/copper targets development to date.”
