Arrowstar Files NI 43-101 Report on Alaska Iron Ore Property

Vancouver, B.C. – June 13, 2013, Robert L. Card, President of Arrowstar Resources Ltd., (“Arrowstar” or the “Company”) (TSXV: AWS), is pleased to report that the Company has filed a preliminary National Instrument 43-101 (“NI 43-101”) technical report on the Company’s Alaska iron ore project.

The report covers preliminary information, historic result of previous work and work undertaken by the Company on this magnetite showing located near Port Snettisham, about 30 miles SE of Juneau, the State Capital of Alaska. The report also outlines some of the Company’s plans and work programs for the coming months in an effort to eventually produce a NI 43-101 compliant resource estimate.

The Company has conducted additional mapping and sample work over the Snettisham iron ore prospect in May of 2013 and has filed a permit for drilling the project with the Alaska Department of Mining and Forestry and the Bureau of Land Management. The Company is waiting for final approval of the drilling permit.

Alexander D. K. Burton, PEng., PGeo., a Qualified Person under NI 43-101, upon visiting the property in June of 2012 prepared the report and reviewed the content of this release.

The report is available on SEDAR and the Company’s website at: www.arrowstarresources.com.

On Behalf of the Board of Directors,
ARROWSTAR RESOURCES LTD.
