ARROWSTAR RESOURCES LTD.

CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2017

(Expressed in Canadian Dollars)

INDEPENDENT AUDITORS' REPORT

To the Shareholders of
Arrowstar Resources Ltd.

We have audited the accompanying consolidated financial statements of Arrowstar Resources Ltd., which comprise the consolidated statements of financial position as at December 31, 2017 and 2016 and the consolidated statements of income (loss) and comprehensive income (loss), cash flows, and changes in shareholders' equity (deficiency) for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Arrowstar Resources Ltd. as at December 31, 2017 and 2016 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which describes conditions and matters that indicate the existence of a material uncertainty that may cast significant doubt about Arrowstar Resources Ltd.'s ability to continue as a going concern.

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Arrowstar Resources Ltd. (the "Company") was incorporated on October 14, 1987 under the laws of British Columbia. The Company's head office address is Suite 2300 – 1177 West Hastings Street, Vancouver, BC, V6E 2K3. The Company is listed on the TSX Venture exchange ("TSX-V") under the symbol AWS. To date, the Company has not earned operating revenue.

The Company is in the process of acquiring exploration and evaluation assets and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

As at December 31, 2017, the Company has a working capital deficit of $427,717 (2016 – $242,184) and an accumulated deficit of $23,050,522 (2016 - $22,521,332). The Company expects to incur further losses in the development of its business. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and thus be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These consolidated financial statements have been prepared in accordance with IAS 1 'Presentation of Financial Statements' ("IAS 1") using accounting policies consistent with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These consolidated financial statements were authorized for issue by the Board of Directors on April 12, 2018.

Basis of presentation

These consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value, as explained in the accounting policies set out in Note 2. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Basis of consolidation

These consolidated financial statements of the Company include the transactions and balances of its subsidiary, Arrowstar Arizona Resources Ltd., which was a wholly owned subsidiary incorporated in the state of Arizona USA.

The Company consolidates its subsidiary on the basis that it controls the subsidiary through its ability to govern its financial and operating policies.

All intercompany transactions and balances are eliminated on consolidation.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd…)

Foreign currency transactions

The Company's reporting currency and the functional currency of all of its operations is the Canadian dollar as this is the principal currency of the economic environment in which it operates.

Transactions in foreign currencies are translated at the exchange rate in effect at the date of the transaction. Foreign denominated monetary assets and liabilities are translated to their Canadian dollar equivalents using foreign exchange rates prevailing at the statement of financial position date. Exchange gains or losses arising on foreign currency translation are reflected in profit or loss for the year.

Exploration and evaluation assets

Exploration and evaluation assets include the costs of acquiring licenses, costs associated with exploration and evaluation activity, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. All costs related to the acquisition, exploration and development of exploration and evaluation assets are capitalized by property as an intangible asset. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within equipment.

Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

Financial assets

All financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held to maturity, available for sale, loans and receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through profit or loss. The Company's cash and marketable securities are classified as FVTPL.

Financial assets classified as loans and receivables and held to maturity assets are measured at amortized cost. The Company's receivables are classified as loans and receivables. The Company's deposit is classified as held to maturity. Financial assets classified as available for sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income and loss except for losses in value that are considered other than temporary which are recognized in profit or loss. At December 31, 2017, the Company has not classified any financial assets as available for sale.

Transaction costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd…)

Financial liabilities

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other financial liabilities. At December 31, 2017, the Company has not classified any financial liabilities as FVTPL.

Financial liabilities classified as other financial liabilities are initially recognized at fair value less directly attributable transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. The effective interest rate method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The Company's accounts payable and accrued liabilities and amounts due to related parties are classified as other financial liabilities.

Financial liabilities classified as FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Derivatives, including separated embedded derivatives are also classified as held for trading and recognized at fair value with changes in fair value recognized in profit or loss unless they are designated as effective hedging instruments. Fair value changes on financial liabilities classified as FVTPL are recognized in profit or loss.

Significant accounting estimates and judgments

The preparation of these consolidated financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position and the reported amount of revenues and expenses during the reporting year. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

Significant accounts that require estimates as the basis for determining the stated amounts include the fair value of financial instruments, deferred income taxes, evaluating the potential impairment of exploration and evaluation assets, and share-based payments.

Impairment

At the end of each reporting period the carrying amounts of the Company's assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the year. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd…)

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investments have been impacted.

For all financial assets objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization.

For certain categories of financial assets, such as receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. The carrying amount of financial assets is reduced by the impairment loss directly for all financial assets with the exception of receivables, where the carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

With the exception of AFS financial assets, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized. In respect of AFS marketable securities, impairment losses previously recognized through profit and loss are not reversed through profit and loss. Any increase in fair value subsequent to an impairment loss is recognized directly in equity.

Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects.

Share-based payments

The stock option plan allows Company employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as a share-based payments expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee. Consideration paid on the exercise of stock options is credited to share capital and the fair value of the options is reclassified from reserve to share capital.

The fair value is measured at grant date and each tranche is recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. At each reporting date, the amount recognized as an expense is adjusted to reflect the number of stock options that are expected to vest.

Share-based payments to non-employees, who are not providing similar services to employees, are measured at a the grant date by using the fair value of the goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services received cannot be reliably measured, and are recorded at the date the goods or services are received.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd…)

Warrants issued in equity financing transactions

The Company engages in equity financing transactions to obtain the funds necessary to continue operations and explore and evaluate exploration and evaluation assets. These equity financing transactions may involve issuance of common shares or units. Each unit comprises a certain number of common shares and a certain number of warrants. Depending on the terms and conditions of equity financing transaction, the warrants are exercisable into additional common shares at a price prior to expiry as stipulated by the transaction. Warrants that are part of units are assigned a value based on the residual value, if any, and included in reserves.

Warrants that are issued as payment for agency fee or other transactions costs are accounted for as share-based payments.

Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Provisions

Rehabilitation provisions

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations, including those associated with the reclamation of exploration and evaluation assets and equipment, when those obligations result from the acquisition, construction, development or normal operation of the assets. Initially, a liability for rehabilitation obligation is recognized at its fair value in the year in which it is incurred if a reasonable estimate of cost can be made. The Company records the present value of estimated future cash flows associated with rehabilitation as a liability when the liability is incurred and increases the carrying value of the related assets for that amount. Subsequently, these rehabilitation costs are amortized over the life of the related assets. At the end of each period, the liability is increased to reflect the passage of time and changes in the estimated future cash flows underlying any initial estimates.

The Company recognizes its environmental liability on a site-by-site basis when it can be reliably estimated. Environmental expenditures related to existing conditions resulting from past or current operations and from which no current or future benefit is discernible are charged to profit or loss.

The Company had no rehabilitation obligations as at December 31, 2017 and 2016.

Other provisions

Provisions are recognized for liabilities of uncertain timing or amount that have arisen as a result of past transactions, including legal or constructive obligations. The provision is measured at the best estimate of the expenditure required to settle the obligation at the reporting date.

The Company had no other provisions as at December 31, 2017 and 2016.

Income taxes

Current tax is the expected tax payable or receivable on the local taxable income or loss for the year, using local tax rates enacted or substantively enacted at the financial position reporting date, and includes any adjustments to tax payable or receivable in respect of previous years.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd…)

Deferred income taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the financial position reporting date. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting, nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Earnings (loss) per share

The Company presents basic and diluted earnings (loss) per share data for its common shares, calculated by dividing the earnings (loss) attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the International Accounting Standards Board ("IASB") or International Financial Reporting Standards Interpretation Committee ("IFRIC") that are mandatory for future accounting periods.

- IFRS 9 *Financial Instruments*: New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.

- IFRS 16 *Leases*: New standard to establish principles for recognition, measurement, presentation, and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019.

- IFRS 15 *Revenue from Contracts with Customers*: New standard establishes a comprehensive framework for the recognition, measurement and disclosure of revenue replacing IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IFRIC 13 *Customer Loyalty Programmes*, IFRIC 15 *Agreements for the Construction of Real Estate*, IFRIC 18 *Transfers of Assets from Customers* and SIC-31 *Revenue — Barter Transactions Involving Advertising Services*, effective for annual periods beginning on or after January 1, 2018

The adoption of these new standards is not expected to have a significant impact on the Company's consolidated financial statements

(Expressed in Canadian Dollars)

3. CASH

The Company's cash consists of the following:

	December 31, 2017	December 31, 2016
Cash held with banks	$ 191	$ 1,131
Cash held with banks in foreign currencies	28	95
Total	$ 219	$ 1,226

4. MARKETABLE SECURITIES

On November 8, 2011, the Company received 10,000 shares in Dunnedin Ventures Inc. (formerly Ocean Park Ventures Corp.) as part of a property option agreement. The shares were valued at $45,000 on receipt and have been re-valued at December 31, 2017 to their fair market value of $1,700 (2016 – $2,100).

5. RECEIVABLES

	December 31, 2017	December 31, 2016
GST receivable	$ 3,236	$ 2,047

6. EXPLORATION AND EVALUATION ASSETS

As at December 31, 2017, the Company holds a reclamation deposit on a previously written-off exploration and evaluation asset in the amount of $4,000 (2016 - $4,000).

The Company's capitalized acquisition and exploration expenditures on its exploration and evaluation assets are as follows:

(Expressed in Canadian Dollars)

6. EXPLORATION AND EVALUATION ASSETS (cont'd…)

Secret Pass Property – U.S.A.

	U.S.A. Secret Pass

Balance, December 31, 2017	**$ -**

The Company entered into an Assignment Agreement with Performance Acquisitions LLC ("Performance") who had entered into an option agreement, the "Tin Cup Option Agreement" with NJB Mining Inc. ("NJB") pursuant to which Performance has the option (the "Option") to acquire a one hundred percent (100%) right, title and interest in and to the Secret Pass Concessions situated in the State of Arizona, USA. Performance has assigned all of its rights and obligations (the "Assignment") in the Tin Cup Option Agreement to the Company. The Company would pay consideration of five million common shares (2,500,000 issued) to Performance and be required to fulfill all payment and work commitments to NJB.

During the year ended December 31, 2017, the Company decided not to advance with the agreement and wrote-off all capitalized costs.

(Expressed in Canadian Dollars)

7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

		December 31, 2017		December 31, 2016
Trade payables	$	355,692	$	229,647
Accrued liabilities		24,735		20,000
	$	380,427	$	249,647

8. RELATED PARTY TRANSACTIONS

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers. Key management personnel compensation for the years ended December 31was:

		2017		2016
Short-term benefits paid or accrued:				
Consulting fees - CFO	$	42,000	$	78,700
Deferred exploration costs - CEO		-		38,678
		42,000		117,378
Share-based payments		-		133,505
Total remuneration	$	42,000	$	250,883

Accounts payable and accrued liabilities as at December 31, 2017 included $114,170 (December 31, 2016 - $69,081) owed to directors and companies controlled by a director or officer. During fiscal 2016, the Company settled debt of $573,442, owed to directors and companies controlled by a director or officer, by issuing 3,190,000 common shares of the Company. The shares were valued on the trading price of the date of issuance of $0.045per share.

The Company entered into loan agreements with Panopus PLC ("Panopus"), a company controlled by Phil Thomas, CEO and director of the Company. The loans are summarized as follows:

- On January 3, 2017, Panopus extended a USD$7,500 (CDN$9,912) unsecured loan to the Company repayable within six months. On July 3, 2017 the loan was extended for an additional six month term. On maturity the Company is required to repay the principal plus interest of US$563.
- On January 27, 2017, Panopus extended a $10,000 unsecured loan to the Company repayable within six months. On July 27, 2017 the loan was extended for an additional six month term. On maturity the Company is required to repay the principal plus interest of $1,500.
- On March 29, 2017, Panopus extended a $17,000 unsecured loan to the Company repayable within six months. On September 29, 2017 the loan was extended for an additional six month term.
- On November 17, 2017, Panopus extended a $2,010 non-interest bearing unsecured loan to the Company repayable within six months.

The balance of principal and interest on the loans as at December 31, 2017 is $42,445.

During the year ended December 31, 2017, an officer of the Company advanced $10,000 to the Company. The advance is non-interest bearing with no set repayment terms.

(Expressed in Canadian Dollars)

9. SHARE CAPITAL AND RESERVES

Authorized – Unlimited common shares without par value

Please refer to the Statement of Changes in Shareholders' Equity (Deficiency) for a summary of changes in share capital and reserves for the years ended December 31, 2017 and 2016.

On May 23, 2017, the Company issued 1,000,000 common shares for the Tin Cup property acquisition, at a value of $0.04 per share.

During fiscal 2016 the Company settled debt of $698,245, owed to creditors, by issuing 4,060,000 common shares of the Company. The shares were valued on the trading price of the date of issuance of $0.045 per share. The Company also settled $51,145 on debt owed to creditors by paying cash of $4,500. In connection with the debt settlements the Company recognized a gain $565,899 on the statement of income (loss) and comprehensive income (loss).

During fiscal 2016 the Company issued 6,900,000 units at a price of $0.05 per unit for gross proceeds of $345,000. Each unit consists of one common share and one transferrable share purchase warrant with each warrant entitling the holder to purchase an additional common share for a period of two years at a price of $0.085 per share in the first year of exercise and $0.12 per share in the second year of exercise.

During fiscal 2016 the Company issued 1,500,000 common shares for the Tin Cup property acquisition, at $0.125 per share.

Stock options

The Company has a stock option plan in place under which it is authorized to grant options to directors, senior officers, employees, management company employees, and consultants to acquire up to 10% of the issued and outstanding common shares. Under the plan, the maximum issuance in any 12 month period is limited for any consultant or person providing investor relations services to 2%, for insiders to 10% and for any other person to 5%. The exercise price of each option may not be less than the market price of the Company's stock as calculated on the date of grant less the applicable discount. The options can be granted for a maximum term of five years. Options issued for investor relations services will be subject to a vesting schedule of at least 12 months whereby no more than 25% of the options granted may vest within any three-month period. All other vesting terms are determined by the Board of Directors.

As at December 31, 2017, the Company had 1,300,000 stock options outstanding.

Stock option transactions are summarized as follows:

	Number of Options	Weighted Average Exercise Price
As at December 31, 2015	-	$ -
Options granted	1,500,000	0.125
Options forfeited	(200,000)	0.125
As at December 31, 2016 and 2017	1,300,000	0.125
Number of options currently exercisable	1,300,000	$ 0.125

(Expressed in Canadian Dollars)

The weighted average remaining contractual life of options outstanding at December 31, 2017 was 3.48 (December 31, 2016 – 4.48) years.

9. SHARE CAPITAL AND RESERVES (cont'd…)

Stock options outstanding are as follows:

Number of Options	Exercise Price	Expiry Date
1,300,000	$ 0.125	June 24, 2021

The Company recorded $Nil (2016 - $154,272) in share-based payments for the year ended December 31, 2017.

The Company uses the fair value method for determining share-based payments for all options granted. The fair value was determined using the Black-Scholes option pricing model based on the following weighted average assumptions:

	December 31, 2017	**December 31, 2016**
Expected life (years)	-	5.00
Interest rate	-	0.63%
Volatility	-	174.22%
Dividend yield	-	-

The weighted average fair value of options granted during the period was $Nil (2016 - $0.12).

Warrants

As at December 31, 2017, the Company had share purchase warrants outstanding enabling the holders to acquire common shares as follows:

	Number of Warrants	Weighted Average Exercise Price
As at December 31, 2015	2,480,500	$ 0.15
Warrants granted	6,900,000	0.12
As at December 31, 2016 and 2017	9,380,500	$ 0.13

The weighted average remaining contractual life of warrants outstanding at December 31, 2017 was 0.92 (December 31, 2016 – 1.92) years.

Warrants outstanding are as follows:

Number of Shares	Exercise Price	Expiry Date
2,480,500	$ 0.15	February 20, 2020
6,900,000	$ 0.12	June 21, 2018

(Expressed in Canadian Dollars)

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash transactions during the year ended December 31, 2017 consist of the following:
- $40,000 for shares issued for exploration and evaluation assets.

Significant non-cash transactions during the year ended December 31, 2016 consist of the following:

- $187,500 for shares issued for exploration and evaluation assets.
- $182,700 for shares issued for debt settlement.

11. SEGMENTED INFORMATION

The business of the Company is the acquisition, exploration and development of mineral properties which is considered one business segment.

Geographic information is as follows:

		December 31, 2017	
	Canada	**USA**	**Total**
Exploration and evaluation assets	$ -	$ -	$ -
Cash	219	-	219
Others	8,936	-	8,936
Total Assets	$ 9,155	$ -	$ 9,155

		December 31, 2016	
	Canada	**USA**	**Total**
Exploration and evaluation assets	$ -	$ 303,657	$ 303,657
Cash	1,226	-	1,226
Others	10,237	-	10,237
Total Assets	$ 11,463	$ 303,657	$ 315,120

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data

The fair value of cash and marketable securities are measured at Level 1 of the fair value hierarchy. The carrying value of receivables, accounts payable and accrued liabilities and due to related parties approximate their fair value because of the short-term nature of these instruments.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd…)

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and receivables. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote and has deposited cash in high credit quality financial institutions.

Liquidity risk

As of December 31, 2017, the Company had cash balance of $219 (2016 - $1,226) to settle current liabilities of $432,872 (2016 - $249,647). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company will need to raise additional funds through equity or debt to continue its operations.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. Amounts exposed to market risk include marketable securities of $1,700 (2016 - $2,100).

Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade demand investments issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to assets and liabilities that are denominated in US Dollars. Amounts exposed to foreign currency risk include cash of US$22 as of December 31, 2017 (2016 -US$95).

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's profit or loss due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

(Expressed in Canadian Dollars)

13. INCOME TAXES

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

	2017	2016
Income (loss) before income taxes	$ (529,190)	$ 90,786
Expected income tax (recovery)	$ (138,000)	$ 24,000
Change in statutory, foreign tax, foreign exchange rates and other	(144,000)	4,000
Permanent difference	(1,000)	(30,000)
Share issue costs	-	(3,000)
Adjustment to prior years provision versus statutory tax returns	128,000	(145,000)
Expiry of non-capital losses	-	61,000
Change in unrecognized deductible temporary differences	155,000	89,000
Total income tax expense (recovery)	$ -	$ -

In September 2017, the British Columbia (BC) Government proposed changes to the general corporate income tax rate to increase the rate from 11% to 12% effective January 1, 2018 and onwards. This change in tax rate was substantively enacted on October 26, 2017. The relevant deferred tax balances have been remeasured to reflect the increase in the Company's combined Federal and Provincial (BC) general corporate income tax rate from 26% to 27%.

The significant components of the Company's deferred tax assets and liabilities are as follows:

	2017	2016
Deferred tax assets (liabilities)		
Allowable capital losses	$ 223,000	$ 224,000
Exploration and evaluation assets	1,123,000	1,132,000
Marketable securities	3,000	3,000
Property and equipment	4,000	4,000
Share issue costs	2,000	2,000
Non-capital losses	2,224,000	2,119,000
	3,639,000	3,484,000
Unrecognized deferred tax assets	(3,639,000)	(3,484,000)
Net deferred tax assets (liabilities)	$ -	$ -

(Expressed in Canadian Dollars)

13. INCOME TAXES (cont'd…)

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the consolidated statement of financial position are as follows:

Temporary Differences	December 31, 2017	Expiry dates	December 31, 2016	Expiry dates
Exploration and evaluation assets	$ 4,109,000	No expiry date	$ 4,332,000	No expiry date
Property and equipment	16,000	No expiry date	16,000	No expiry date
Share issue costs	7,000	2035 to 2036	9,000	2035 to 2036
Marketable securities	23,000	No expiry date	23,000	No expiry date
Allowable capital losses	863,000	No expiry date	863,000	No expiry date
Investment tax credits	7,000	2032	7,000	2032
Non-capital losses available for future periods - Canada	8,420,000	2027 - 2037	8,149,000	2027 - 2036

Tax attributes are subject to review and potential adjustment by tax authorities.

14. CAPITAL MANAGEMENT

The Company considers its capital structure to consist of all components of shareholders' deficiency, specifically its issued common shares, stock options and warrants.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company has historically relied on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions. There were no changes to the Company's approach to capital management during the year.
