**ANNOUNCING!**

**FREE CANNABIS WELLNESS TRACKER SMARTPHONE APP!**

**Canada House Wellness Group Inc. "Canada House" (CSE:CHV)(CSE:CHV.CN)**, together with its three operating divisions, Marijuana For Trauma "MFT", Knalysis Technologies "Knalysis" and Abba Medix "Abba" is very pleased to announce that its Knalysis Technologies Division has just released their **FREE Knalysis Wellness Tracker Application** which helps patients monitor how well their cannabis treatments are working to relieve their symptoms. It can be downloaded from the Apple store for iPhones and iPads or from Google Play for Android phones and tablets. Just search for "Knalysis Wellness Tracker".

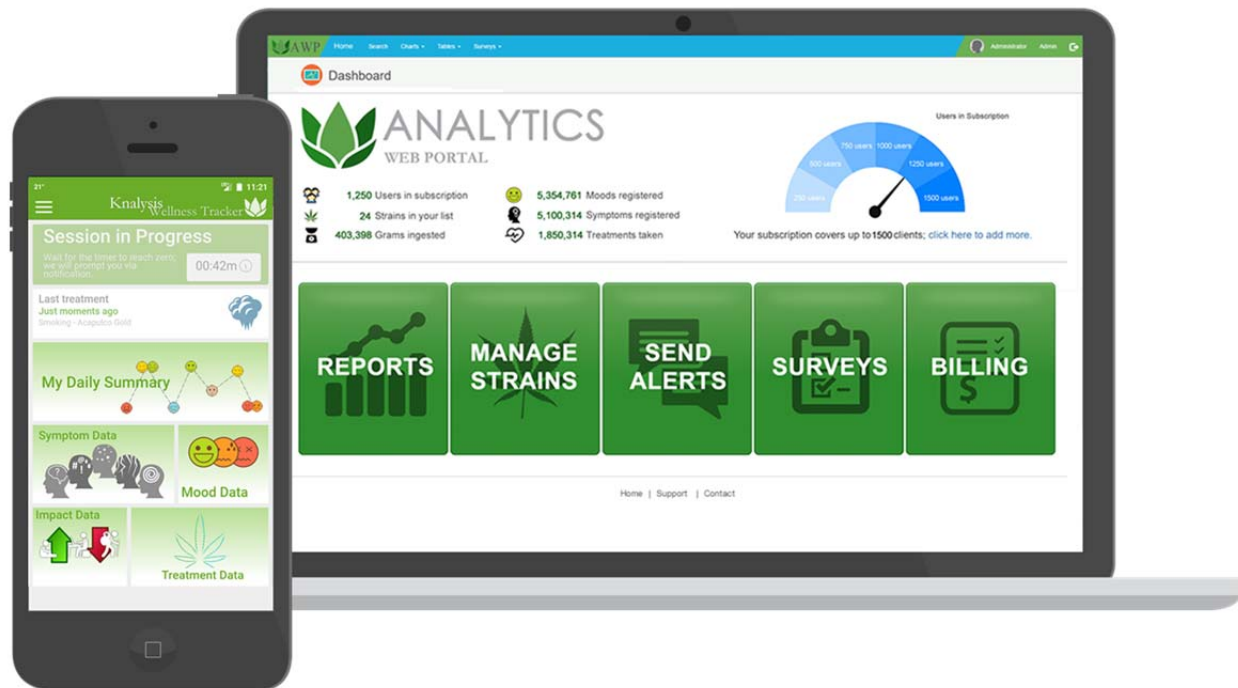

This great technology goes way beyond the anecdotal. It actually quantifies how effective cannabis products are for each individual at treating their specific symptoms! For the first time, the great tools we use in our own clinics are now available to everyone in the industry.

Keeping track of one's treatments, moods and general physical condition throughout the day, allows the trained professionals at our Marijuana For Trauma clinics to identify the cannabis prescription tweaks needed to find each client's "sweet spot". This sweet spot is where a client regains his or her physical, mental and emotional balance earlier lost by trauma and harmful "pharmaceutical cocktails".

Tracking and reporting on what products and strains are relieving the specific symptoms from which patients are suffering is essential to our objective of helping each of our 10,000 clients to optimal mental and physical health.

This **Wellness Tracker Application** rounds out Knalysis' fully customizable, cloud-based, suite of technology which already includes its **Data Analytics Web Portal** and its **Cannabis Patient Management** software, which can be seen at [www.knalysis.com](http://www.knalysis.com).

The data from the app is integrated with the Analytics Web Portal, allowing growers, clinics, clinical trials, and dispensaries access to product-efficacy data in their own branded version of the Portal. Patient information can also be passed into the Cannabis Patient Manager to allow cannabis coaches and practitioners to optimize treatment plans with their patients. Learn more about our eco-system of solutions at [www.knalysis.com](http://www.knalysis.com).

Available in the App Store and Google Play, search by "Knalysis", download the Knalysis Wellness Tracker app, and start tracking your treatments today!

### **About Knalysis Technologies:**

Knalysis Technologies is a software company that dedicates its R&D team to creating new solutions to the needs and opportunities within our fast growing cannabis industry.

Knalysis is a Division of the Canada House Wellness Group, a publicly-traded Canadian company with one of the largest networks of cannabis clinics in Canada. These clinics currently counsel more than 10,000 clients to find better health with medical cannabis.

Knalysis is responding to a growing need for health technology that connects every aspect of the medical cannabis field. It will continue to pioneer software that seamlessly links physician, provider, and patient. Purpose-built in its own clinics, Knalysis' suite of software has been battle-tested with its thousands of patients; treating a broad range of ailments and symptoms.
