The closing is the second tranche of a financing for a maximum of \$350,000 plus an over-allotment option of 15%. Each Convertible Debenture shall be convertible at the holder's option into fully-paid common shares of the Company (each, a "**CD Share**") at any time prior to the Maturity Date at a conversion price of \$0.15 per CD Share, being a ratio of 6,667 CD Shares per \$1,000 principal amount of Convertible Debentures. The interest payable on the debenture is payable in cash or in common shares of the Company at the option of the holder. Any common shares issuable as payment of interest shall be issued at a price of \$0.15 per common share, subject to the rules and policies of the Canadian Securities Exchange.

Each Warrant shall be exercisable into one common share of the Company (each, a "**CD Warrant Share**") at a price of \$0.15 per CD Warrant Share on or prior to two years from the date of issuance.
