

Canada House Wellness Group Inc. Update on Canada House Clinic Expansion

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

TORONTO, June 14, 2019 -- Canada House Wellness Group Inc. (CSE: CHV) (“**Canada House**” or the “**Company**”), a fully integrated medical cannabis company, is pleased to provide an update on clinic expansion by its wholly owned subsidiary Canada House Clinics Inc. (“**CHC**”).

CHC will open its first clinics in Toronto and Halifax, relocate its Petawawa clinic to a larger space and launch a new clinic model in Edmonton. Once the new spaces open, CHC will operate 14 clinics across Canada.

“We strive to continuously improve the patient experience,” said Alex Kroon, President, Canada House Clinics. “There is a process involved in cannabinoid therapy and patients are looking for guidance. CHC is committed to offering different models to meet patient needs and increase access for all Canadians requiring medical cannabis therapy.”

Canada House Clinics’ first Toronto clinic will open on June 17, 2019 in the Champagne Centre (a multidisciplinary medical complex) in North York. The Champagne Centre is an innovative 270,000 square foot health, sports, and wellness complex that includes the PolyClinic Family and Specialty Medicine Facility.

CHC will open its Halifax clinic on July 3, 2019, building on the strong network of clinics already operating in Atlantic Canada.

CHC moved its Petawawa location to a larger clinic in the same area on June 10, 2019.

This summer in Sherwood Park, Alberta, CHC will open its first location within a third-party medical clinic (an embedded clinic model). CHC will operate an office inside an existing medical clinic. Doctors can offer cannabinoid therapy to their patients. This first embedded clinic will be CHC’s second location in the Edmonton area. CHC plans to replicate this embedded clinic model in other cities.

“Our clinic footprint continues to grow across Canada,” said Chris Churchill-Smith, CEO, Canada House. “Smart, targeted clinic expansion will reduce our operating expenses, continue to accelerate growth, drive profitability, build shareholder value and help us continue to meet the needs of Canadian patients.”

About Canada House Wellness Group Inc.

Canada House Wellness Group Inc. is the parent company of Abba Medix Corp., a Licensed Producer in Pickering, Ontario that produces high quality medical grade cannabis; Canada House Clinics Inc., with clinics across the country that work directly with primary care teams to provide specialized cannabinoid therapy services to patients suffering from complex medical conditions; and Knalysis Technologies, a provider of fully customizable, cloud-based software that links physician, provider, and patient to data that supports treatment with medical cannabis.

Canada House Wellness Group’s goal is to become the leading cultivator of premium craft cannabis and provider of cannabinoid therapy, targeting the medical cannabis markets globally.
